Changes have been introduced to improve the usefulness of Labour Force Survey estimates for Census Metropolitan Areas. Labour Force charactertistics are now published in the form of 3-month moving averages. Please note that seasonally adjusted figures are now featured in the Ottawa-Hull Statistical Highlights. The monthly estimates will no longer be available. For more information on this change refer to the feature article published in the January 1991 issue of catalogue 71-001 or contact Household Surveys at 951-9448.

Important note to SEPH users:

The survey of Employment, Payrolls and Hours (SEPH) has discontinued the production of all sub-provincial data with the December 1989 reference month. As a consequence, the SEPH data has been removed from the Ottawa-Hull Statistical Highlights and replaced with demographic and income statistics derived from the Small Area and Administrative Data Program.

Monthly Series for the Ottawa-Hull Census Metropolitan Area - Consumer Price Indexes - New Housing Indexes.

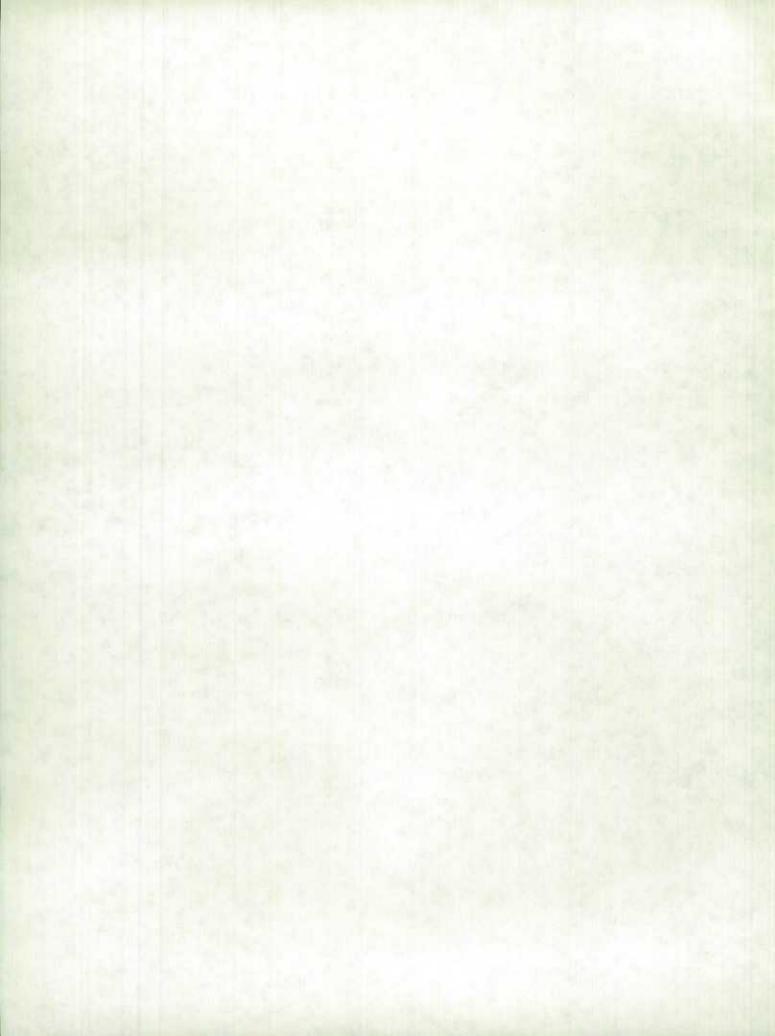

Please take note, from now on, the official time base of the Consumer Price Index for Canada (CPI) is changing to 1986 = 100 from 1981 = 100. These new series will appear for the first time starting with the June 1990 CPI You will find enclosed a pamphlet which explains the reasons for changing the series base year and will provide answers to your questions. To obtain more information please contact the Statistical Reference Centre (SRC) at (613)951-8116.

New from Statistics Canada

Canada's International Transactions in Services 1989 and 1990 (Catalogue 67-203 \$32)

Latest details on Canada's international services transactions are now available in this annual publication.

Included are 16 categories of business services, cross-classified by affiliation, broad geographic area, country of control and industry sector. Details on travel, freight and shipping, government and other services are also shown, together with analytical text, definitions and sources.

A provincial summary of business services estimated according to province of activity appears for the first time, accompanied by an update of total business services by over 20 countries and world regions.

To order, please call 951-2800.

Forward Sortation Area and Rural Postal Code Socio-economic Data 1989

- * This database provides demographic and income characteristics of taxfilers for areas defined by the postal code. Up to nine tables are available for nearly 7,000 urban Forward Sortation Areas (FSA) and rural postal codes across Canada:
- . Number of taxfilers by marital status;
- . Number of taxfilers by age group and sex;
- . Number of taxfilers by source of income, by sex;
- . Income reported by source of income, by sex;
- . Number of taxfilers in the labour force by sex;
- . Income range of all taxfilers by sex:
- . Income range of male taxfilers by age group;
- . Income range of female taxfilers by age group;
- . Summary table

These tables will prove invaluable to the business sector, analysts, planners, marketers, the academic community requiring reliable and up-to-date data for small geographical areas.

Data are also available on magnetic tape and diskette.

Demographic and Income Statistics for Postal Areas 1989

This data base provides demographic and income statistics at the postal-walk level, the route taken by a Canada Post letter carrier to deliver the mail. Included are demographic and socio- economic characteristics such as age, sex, income, the number of taxfilers reporting family-allowance income and the total family-allowance income reported, etc. These data are available for close to 16,000 postal walks across Canada, 1,000 urban Forward Sortation Areas (FSAs are the first three characters of the postal code) thousands of rural postal codes and 338 cities.

Data are also available on paper, magnetic tape or diskette.

Socio-economic Profiles of Taxfilers for Census Metropolitan Areas

* Labour Force Income and Economic Dependency Profiles are now available for all 26 Census Metropolitan Areas in Canada. The data featured in these profiles are derived from income tax returns for 1989.

These profiles provide detailed information on income, such as employment and self-employment income, and transfer payments, such as unemployment insurance benefits and old age security payments. This information will prove invaluable to economists, planners and analysts.

* For further information, contact Statistics Canada Regional Reference Centre at 951-8116 or the Small Area and Administrative Data Division at 951-9720.
