Postal code conversion file plus

The *Postal code conversion file plus* (PCCF+) (82F0086XDB) complements the *Postal code conversion file* (PCCF). When the association between the postal code and census geography is not unique, the PCCF+ allows for a proportional allocation based on the population count.

The PCCF+ is free, and only available to purchasers of the PCCF. Users also need SAS to run this application. For a copy of the documentation, or to obtain the PCCF+, contact your nearest Statistics Canada Reference Centre.

For more information, contact Russell Wilkins (613-951-5305; russell.wilkins@statcan.ca), Social and Economic Studies Division. ■
