A concordance table showing the relationships between both industry classification systems is included with the product.

The CD-ROM *Canadian business patterns product* (61F0040XCB) is now available. The cost of data varies between \$150 and \$2,000, depending on the complexity of the request. See *How to order products*.

### Consulting engineering services price indexes

1999 and 2000 (preliminary)

Consulting engineering services price indexes (CEPI) are now available for 1999 and 2000. The time base used to present the CEPI has been updated from 1992=100 to 1997=100. Indexes for all previous years (1989 to 1998) have been revised.

The CEPI measure change in the total price of engineering services as well as changes in their wage rates and realised net multiplier components. Detailed indexes are available for 10 fields of specialization and for regional, domestic and foreign markets.

**Available on CANSIM: table 3270007.**

Consulting engineering services price indexes will be published in the second quarter 2001 issue of *Construction price statistics* (62-007-XPB, \$24/\$79), which will be available in October. See *How to order products*.
