Provincial and territorial economic accounts

2008

This release of provincial and territorial economic accounts is an update of the estimates released on April 27, 2009.

This release incorporates the input-output benchmarks of 2005 (revised) and 2006 (preliminary), the revisions to the national income and expenditure accounts released in May 2009, and the revisions to the gross domestic product (GDP) by industry data released in September 2009.

In addition, updated provincial survey data and improved methodologies have contributed to revised measures of both the provincial GDP by income and expenditure and the provincial GDP by industry from 2005 to 2008.
