Releases

Building permits

November 2009

Contractors took out \$5.9 billion in building permits in November, down 4.6% from October, but 23.1% higher than November 2008 and 62.8% above February 2009, when the lowest value during the economic downturn was recorded. However, November's value remained below values recorded in 2007 and early 2008.

The decline in November was due to decreases in the non-residential sector, which outweighed increases in the residential sector.

Total value of permits

In the residential sector, the value of permits continued its upward trend. Construction intentions, which have started to approach their pre-downturn levels, rose 9.1% to \$3.8 billion in November, a fourth consecutive monthly increase. Ontario and British Columbia accounted for most of the gains at the national level.

In the non-residential sector, municipalities issued \$2.1 billion worth of permits in November, down 21.9% from October. This decrease occurred mainly as a result of declines in Alberta, Saskatchewan and Quebec.

Note to readers

Unless otherwise stated, this release presents seasonally adjusted data, which eases comparisons by removing the effects of seasonal variations.

The Building Permits Survey covers 2,400 municipalities representing 95% of the population. It provides an early indication of building activity.

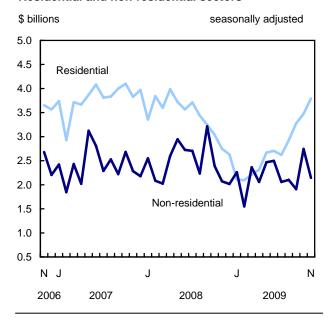

The communities representing the other 5% of the population are very small, and their levels of building activity have little impact on the total.

The value of planned construction activities shown in this release excludes engineering projects (e.g., waterworks, sewers or culverts) and land.

For the purpose of this release, the census metropolitan area of Ottawa–Gatineau (Ontario/Quebec) is divided into two areas: Gatineau part and Ottawa part.

The total value of building intentions fell in four provinces: Alberta, Saskatchewan, Quebec and Prince Edward Island.

Residential and non-residential sectors

Non-residential sector: Decreases in industrial and institutional components

Building intentions declined in the industrial and institutional components of the non-residential sector in November.

In the industrial component, intentions fell 57.6% to \$296 million in November, following strong gains in October. Overall, seven provinces reported lower construction intentions, in particular Alberta, Quebec and Ontario.

In the institutional component, municipalities issued permits worth \$675 million, down 26.4% following a 53.1% gain in October. Alberta and Saskatchewan posted the largest declines. This was mainly as a result of decreases in building permits for educational buildings projects.

The value of commercial building permits increased 3.9% to \$1.2 billion. The advance was due primarily to construction intentions for recreational buildings and office buildings in Alberta and British Columbia.

Residential sector: Higher intentions for singleand multi-family permits

Municipalities issued \$1.3 billion worth of building permits for multi-family dwellings in November, 23.3% more than in October. This was fuelled by higher construction intentions in seven provinces, in particular, Ontario and British Columbia.

The value of building permits for single-family dwellings increased for a ninth consecutive month, rising 2.9% in November to \$2.5 billion. Ontario, Newfoundland and Labrador, Nova Scotia and British Columbia posted the largest increases. Quebec registered a significant decline in single-family construction intentions.

Nationally, municipalities approved the construction of 17,589 new dwelling units in November, up 9.7%.

The increase was largely attributable to multi-family dwellings, which increased 16.7% to 8,850 units in November. The number of single-family dwellings approved rose 3.4% to 8,739 units.

Largest declines in Alberta, Saskatchewan and Quebec

The value of building permits decreased in four provinces, offsetting the increases in the other six provinces.

The largest declines occurred in Alberta, Saskatchewan and Quebec. These provinces

recorded declines mainly in the value of permits in the non-residential sector, which had increased in October.

Ontario posted the largest advance in November, reflecting gains in single- and multi-family dwellings as well as in institutional permits.

Ontario was followed by British Columbia, which registered gains in single and multiple dwellings and in the commercial component of the non-residential sector.

Value of permits down in half of the metropolitan areas

The total value of permits declined in half of the 34 census metropolitan areas.

The largest declines were in Calgary and Toronto. In both municipalities, the increase in the value of residential permits was insufficient to offset declines in all three components of the non-residential sector.

In contrast, Vancouver and Hamilton registered increases. In Vancouver, the gain originated from multiple-family dwellings as well as from the commercial and institutional components of the non-residential sector.

In Hamilton, the increase came from building permits for the residential sector and for commercial buildings.

Available on CANSIM: tables 026-0001 to 026-0008 and 026-0010.

Definitions, data sources and methods: survey number 2802.

The November 2009 issue of *Building Permits* (64-001-X, free) will soon be available.

Building permits data for December will be released on February 4.

National tourism indicators

Third quarter 2009

Tourism spending in Canada increased 0.3% in real terms in the third quarter, as expenditures by Canadians advanced while those of international visitors fell.

Turnaround in tourism spending

% change - preceding quarter, adjusted for seasonal variation and price change

This was the first increase in tourism spending in five quarters, ending the longest downturn since the early 1990s. From the second quarter of 2008 to the second quarter of 2009, tourism spending fell 3.1% in real terms. This was still well short of the 5.8% drop related to the severe acute respiratory syndrome episode during the first two quarters of 2003.

Spending by Canadians on tourism advances

Spending by Canadians on tourism in Canada increased 0.9% in real terms in the third quarter, following four quarters of decline.

Outlays were higher across all major tourism categories. Spending on accommodation was up 1.6% in the third quarter, following a 2.8% decline in the previous quarter. Expenditures on passenger air

Note to readers

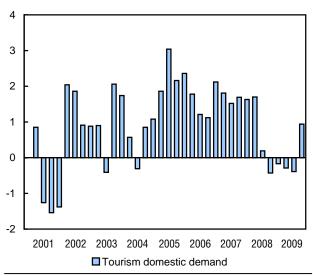

Growth rates of tourism spending and gross domestic product are expressed in real terms (i.e., adjusted for price change) as well as adjusted for seasonal variations, unless otherwise indicated. Employment data are also seasonally adjusted. Associated percentage changes are presented at quarterly rates.

The National tourism indicators are funded by the Canadian Tourism Commission.

transportation also rebounded, as travel abroad increased compared with the previous quarter.

Tourism domestic spending advances

% change - preceding quarter, adjusted for seasonal variation and price change

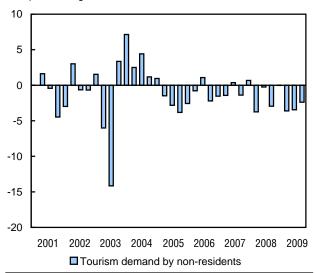

Spending was lower for travel services and other transportation, including by taxi and water.

Spending by international visitors down again

Spending by international visitors fell 2.4% in real terms in the third quarter, the seventh consecutive quarterly decrease. This brought international tourism spending in Canada to a level 15.4% below where it stood in the fourth quarter of 2007.

Non-resident spending declines again

% change - preceding quarter, adjusted for seasonal variation and price change

Outlays by international visitors were down across the board, with weakness notably in recreation and entertainment, vehicle fuel and repairs and parts and accommodation. The number of overnight travellers to Canada from the United States and other countries was down 1.7% during the quarter, while the number of same-day travellers fell 8.6%.

Tourism contributes positively to economic growth

Tourism gross domestic product expanded 0.4% in real terms in the third quarter, the first increase in five quarters. The strength came from renewed activity in the air transportation and accommodation industries. Declines continued in other tourism industries, including recreation and entertainment and travel services.

Tourism employment was unchanged from the previous quarter. Job gains were registered in the air and accommodation industries, while fewer jobs were found in other industries, notably food and beverage services and travel services.

Available on CANSIM: tables 387-0001 to 387-0010.

Definitions, data sources and methods: survey number 1910.

Cement

November 2009

Data on cement are now available for November.

Available on CANSIM: tables 303-0060 and 303-0061.

Definitions, data sources and methods: survey number 2140.

For more information, or to enquire about the concepts, methods or data quality of this release, contact the dissemination officer (toll-free 1-866-873-8789; 613-951-9497; manufact@statcan.gc.ca), Manufacturing and Energy Division.

Natural gas liquids and liquefied petroleum gases

April to June 2009

Data on the supply and demand for natural gas liquids and liquefied petroleum gases are now available for April to June.

Available on CANSIM: table 132-0001.

Definitions, data sources and methods: survey number 7524.

For more information, or to enquire about the concepts, methods or data quality of this release, contact the dissemination officer (613-951-9497; toll-free 1-866-873-8789; energ@statcan.gc.ca), Manufacturing and Energy Division.

Pipeline transportation of crude oil and refined petroleum products

September 2009

Data on the net receipts of crude oil and equivalent hydrocarbons, liquefied petroleum gases and refined petroleum products, pipeline exports of crude oil and deliveries of crude oil by pipeline to Canadian refineries are now available for September.

Available on CANSIM: tables 133-0001 to 133-0005.

Definitions, data sources and methods: survey numbers, including related surveys, 2148 and 2191.

For more information, or to enquire about the concepts, methods or data quality of this release, contact the dissemination officer (toll-free 1-866-873-8789; 613-951-9497; energ@statcan.gc.ca), Manufacturing and Energy Division.

Industry Price Indexes, November 2009, Vol. 35, no. 11

Catalogue number 62-011-X (PDF, free; HTML, free)

Healthy People, Healthy Places Catalogue number 82-229-X (HTML, free)

All prices are in Canadian dollars and exclude sales tax. Additional shipping charges apply for delivery outside Canada.

Catalogue numbers with an -XWE, -XIB or an -XIE extension are Internet versions; those with -XMB or -XME are microfiche; -XPB or -XPE are paper versions; -XDB or -XDE are electronic versions on diskette; -XCB or -XCE are electronic versions on compact disc; -XVB or -XVE are electronic versions on DVD and -XBB or -XBE a database.

How to order products

To order by phone, please refer to:

The title • The catalogue number • The volume number • The issue number • Your credit card number.

From Canada and the United States, call:

From other countries, call:

To fax your order, call:

For address changes or account inquiries, call:

1-800-267-6677
1-613-951-2800
1-877-287-4369
1-877-591-6963

To order by mail, write to: Statistics Canada, Finance, 6th floor, R.H. Coats Bldg., Ottawa, K1A 0T6. Include a cheque or money order payable to **Receiver General of Canada/Publications**. Canadian customers add 5% GST and applicable PST.

To order by Internet, write to: infostats@statcan.gc.ca or download an electronic version by accessing Statistics Canada's website (www.statcan.gc.ca). From the Our products and services page, under Browse our Internet publications, choose For sale.

Authorized agents and bookstores also carry Statistics Canada's catalogued publications.

Statistics Canada's official release bulletin
