2006 Census maps

The Atlas of Canada, produced by Natural Resources Canada, in partnership with Statistics Canada, presents a series of maps and accompanying analysis of national and regional data results from the 2006 Census. The third and last release focuses on educational attainment, location of study, the Aboriginal population, income, as well as age and marital status by gender. The maps are available on the Atlas of Canada website (http://atlas.nrcan.gc.ca/site/english/featureditems/census_2006).

Previous releases covered topics such as the Canadian population, age, marital status, immigration, visible minorities, mode of transportation, language, the labour force, and housing and shelter costs.

For more information, contact Francine Lampron (613-951-2686), Census Subject Matter Secretariat.

Other questions related to the Internet presentation and/or functionality should be directed to Anna Jasiak (613-996-2817), Natural Resources Canada.

Electric utility construction price indexes

2008 (final) and 2009 (preliminary)

Construction costs for distribution systems increased by 0.7% during 2009. The increase in the construction indirects component (+8.5%) in 2009 was the major contributor to the rise in the index. The construction indirects component is comprised of engineering, administration and overhead costs. The final 2008 data for distribution systems represented an advance of 1.0% over 2007.

Construction costs for the transmission line system series rose 1.4% in 2009 compared with a 4.3% increase for 2008. The transmission line component declined 0.5% in 2009, following a 2.2% gain in 2008. Following a 5.7% gain in 2008, the substation component increased 2.4% in 2009, largely as a result of a 3.3% advance in the station equipment sub-component.
