#### Release dates

2012

A list of publication dates for 2012 is available today for 27 key economic indicators, ranging from monthly data series such as the Labour Force Survey (LFS) to quarterly series such as the balance of international payments.

Please note that Statistics Canada is moving to one release time, 8:30 a.m., for all data releases in *The Daily*. This will mean a change for the LFS and the Consumer Price Index, which are currently released at 7:00 a.m. This change will be implemented with the release of LFS data in April 2012.

The dates in this calendar are cross-indexed by release title in alphabetical order and by the month of release.

This calendar is not an exhaustive list of all Statistics Canada releases. For a more complete listing, consult each Friday's issue of *The Daily* for releases to be published the following week. In addition, the issue of *The Daily* for the last working day of the month contains a list of upcoming releases for the following month.

Release dates for 2012 are now available free of charge on *The Daily* page of our website in HTML and PDF format.
