### Crude oil and natural gas: Supply and disposition, August 2013

Domestic production of crude oil and equivalent hydrocarbons rose 13.1% to 17.7 million cubic metres in August from August 2012.

During the same period, crude oil exports increased 4.3%.

Marketable natural gas production was down 1.9% to 11.2 billion cubic metres.

Domestic sales of natural gas rose 16.9% while natural gas exports fell 14.0%.

#### **Note to readers**

*Data are subject to revision.*

*Selected series are available on CANSIM up to August 2013 inclusive. All series are available for crude oil (126-0001) up to February 2013 inclusive, and for natural gas (131-0001) up to July 2013 inclusive.*

<sup>P</sup> preliminary

1. Disposition may differ from supply because of inventory change, own consumption, losses and adjustments.

2. Data may differ from International Trade Division estimates because of timing and the inclusion of crude oil landed in Canada for future re-export.

3. Volumetric receipts at refineries of all domestic and imported crude oils for refinery processing or storage.

4. Exports may include some volumes that are not included in the supply, such as imports used for re-export and diluents that are blended in exports.

5. Disposition may differ from supply because of inventory change, usage as pipeline fuel, pipeline losses and line-pack fluctuations.

6. Receipts from fields after processing for the removal or partial removal of some constituents and impurities and that meet specifications for residential, commercial and industrial use; and including other adjustments.

7. Domestic sales include residential, commercial, industrial and direct sales (for example direct, non-utility, sales for consumption where the utility acts solely as transporter).

## Canadian Community Health Survey: Public Use Microdata File, 2011/2012 and 2012

The 2011/2012 and 2012 *Canadian Community Health Survey: Public Use Microdata Files* are now available. During 2011 and 2012, data were collected from approximately 130,000 respondents aged 12 or older, residing in households in all provinces and territories.

The files provide data for 109 health regions or combined health regions across Canada and include information on a wide range of topics, including: physical activity, height and weight, smoking, exposure to second hand smoke, alcohol consumption, general health, chronic health conditions, injuries and use of health care services. It also provides information on the socio-demographic, income and labour force characteristics of the population.

The product is provided on DVD-ROM with a built-in "Beyond 20/20" application.
