Travel Survey of Residents of Canada, 2011 (final)

Final data on domestic travel from the Travel Survey of Residents of Canada for every quarter of 2011 as well as the year 2011 are now available on CANSIM.

Note to readers

The Travel Survey of Residents of Canada has undergone a redesign in 2011. The survey scope is more inclusive and allows more trips to be collected. Moreover, its new design makes it easier to report trips. These changes are increasing the survey estimates from previous years. This creates a break in the domestic tourism series.

A more exhaustive document explaining the [differences between the redesigned 2011 Travel Survey of Residents of Canada and the 2010 survey](#) is available on our website.

Available in CANSIM: tables 426-0018 to 426-0022.

Definitions, data sources and methods: survey number 3810.
