Health Reports, January 2014

The January 2014 online issue of *Health Reports*, released today, contains one article.

The article, "Impact of accelerometer epoch length on physical activity and sedentary behaviour outcomes for preschool-aged children," examines the impact of a transition from 60-second to 15-second epochs in accelerometry data between cycles 2 and 3 of the Canadian Health Measures Survey on physical activity and sedentary behaviour outcomes for children aged three to five.

The January 2014 online issue of *Health Reports*, Vol. 25, no. 1 (82-003-X), is now available from the *Browse by key resource* module of our website under *Publications*.

For more information, contact us (toll-free 1-800-263-1136; 514-283-8300; infostats@statcan.gc.ca).

For more information on this article, contact Didier Garriguet (613-951-7187; didier.garriguet@statcan.gc.ca), Health Analysis Division.

For information about *Health Reports*, contact Janice Felman (613-951-6446; janice.felman@statcan.gc.ca), Health Analysis Division.

Specialized design services, 2012

Data on the specialized design services industry are now available for 2012.

Note to readers

Data for the period from 2007 to 2011 have been revised

Available in CANSIM: tables 360-0002, 360-0008 and 360-0009.

Definitions, data sources and methods: survey number 4719.

The publication *Specialized Design Services, 2012* (63-251-X), is now available from the *Browse by key resource* module of our website under *Publications*. It contains industry highlights along with financial data including revenues, expenses and operating profit margins. It also includes product information as well as data by type of client and by geographic region.

For more information or to order data, contact us (toll-free 1-800-263-1136; 514-283-8300; infostats@statcan.gc.ca).

For analytical information, or to enquire about the concepts, methods or data quality of this release, contact Georgie Zuger (613-951-2595; georgie.zuger@statcan.gc.ca), Service Industries Division.

Total income of farm families, 2011

Data on total income of farm families for 2011 are now available.

Note to readers

The Agriculture Taxation Data Program uses taxation records to produce data on total income of farm families.

Available in CANSIM: tables 002-0024 to 002-0033.

Definitions, data sources and methods: survey number 3447.

[Data tables](#) are also available from the *Browse by key resource* module of our website under *Summary tables*.

For more information, or to enquire about the concepts, methods or data quality of this release, contact us (toll-free 1-800-263-1136; 514-283-8300; infostats@statcan.gc.ca) or Media Relations (613-951-4636; mediahotline@statcan.gc.ca).

New products and studies

New products

Survey Methodology, January 2014, Vol. 39, no. 2
Catalogue number 12-001-X (HTML | PDF)

Specialized Design Services, 2012
Catalogue number 63-251-X (HTML | PDF)

Health Reports, Vol. 25, no. 1
Catalogue number 82-003-X (HTML | PDF)

New studies

Comparison of different sample designs and construction of confidence bands to estimate the mean of functional data: An illustration on electricity consumption

Survey Methodology

Pseudo-likelihood-based Bayesian information criterion for variable selection in survey data

Survey Methodology

Joint determination of optimal stratification and sample allocation using genetic algorithm

Survey Methodology

Estimation and replicate variance estimation of deciles for complex survey data from positively skewed populations

Survey Methodology

Design-based analysis of factorial designs embedded in probability samples

Survey Methodology

A weighted composite likelihood approach to inference for two-level models from survey data

Survey Methodology

An appraisal-based generalized regression estimator of house price change

Survey Methodology

Three controversies in the history of survey sampling

Survey Methodology

Does the first impression count? Examining the effect of the welcome screen design on the response rate

Survey Methodology

Impact of accelerometer epoch length on physical activity and sedentary behaviour outcomes for preschool-aged children

Health Reports

Statistics Canada's official release bulletin

Catalogue 11-001-X.
