Travel Survey of Residents of Canada, first quarter 2014

Data on domestic travel from the Travel Survey of Residents of Canada for the first quarter are now available.

Note to readers

The Travel Survey of Residents of Canada underwent a redesign in 2011. The survey scope is more inclusive and allows more trips to be collected. Moreover, its new design makes it easier to report trips. These changes are increasing the survey estimates from previous years. This creates a break in the domestic tourism time series.
