Travel Survey of Residents of Canada, second quarter 2013

Data on domestic travel from the Travel Survey of Residents of Canada are now available for the second quarter of 2013.

Note to readers

The Travel Survey of Residents of Canada underwent a redesign in 2011. The survey scope is more inclusive and allows more trips to be collected. Moreover, its new design makes it easier to report trips. These changes are increasing the survey estimates from previous years. This creates a break in the domestic tourism series.

A more exhaustive document explaining the [differences between the redesigned 2011 Travel Survey of Residents of Canada and the 2010 survey](#) is available on our website.

Definitions, data sources and methods: survey number 3810.
