Electric Power Selling Price Index, September to December 2014

The Electric Power Selling Price Index (2009=100) for September to December is now available.

Note to readers

The Electric Power Selling Price Index is a monthly series measuring the price movements of sales of electricity by distributors to commercial and industrial users; the estimates are produced three times a year. Data are available for Canada, as well as by region and province.

With each release, data for the previous 12 months may have been revised. The index is not seasonally adjusted.

Available in CANSIM: table [329-0073](#).

Definitions, data sources and methods: survey number [2325](#).

The Electric Power Selling Price Index for January to April will be released in June.

Income of immigrants: Manitoba, 2012

Data from the Longitudinal Immigration Database for Manitoba are now available for 1980 to 2012. Tables at the Canada level were released in [The Daily](#) on January 12, 2015. See the note to readers for the provincial data release schedule.

Note to readers

The Longitudinal Immigration Database provides information on immigrant economic outcomes, by immigrant characteristics at landing, such as the admission category, education level and knowledge of French or English.

The database combines an Administrative Landing File with the T1 Family File through exact matching record-linkage techniques. The overall linkage rate is approximately 87%. The population includes immigrants who landed between 1980 and 2012 and who filed taxes at least once between 1982 and 2012.
