The Atlantic region showed virtually no change while a decrease was recorded in Quebec ( $1.5 \%$ ).Unemployment Unemployment declined by 52,000 between July and August to 319,000. Compared to August 1967, It was up by 72,000. Of the total unemployed in August, $32 \%$ had been unemployed for less than one month. Some $41 \%$ had been unemployed for one to three months and $27 \%$ for four months or more.

Unemployment in August 1968 represented $3.9 \%$ of the 1 abour force, compared With $3.0 \%$ in August 1967 and $2.9 \%$ in August 1966. The seasonally adjusted unemployment rate in August 1968 was $5.1 \%$.
22. Estimates of Employees by Province and Industry

Estimates of employees in non-agricultural industries covered in the last week of June 1968 were $5,911,800$ representing an increase of 92,400 or $1.6 \%$ over May 1968. Increases were recorded in all industry divisions with the largest changes in communty, business and personal services ( 20,700 ), manufacturing ( 19,900 ) and construction ( 14,500 ). All provinces shared in the increase. Ontario and Quebec showed the largest absolute gains, while Newfoundland and Prince Edward Island recorded the greatest relative increases over the month. Compared to June 1967, the aggregate number of employees was higher by 142,400 or $2.5 \%$. The largest relative increase over the year was in finance, insurance and real estate (7.1\%). Amnno the nrovinces. Alberta showed the greatest increase (3.8\%).

Condensed information on typical tuftion and other academic fees for several faculties of study, and on room and board charges at unfversity-operated residences, for 49 institutions, is included in the Dominion Bureau of Statistics publication "Tuition and Living Accommodation Costs at Canadian Degree-Granting Universities and Colleges". The report also contains a brief bibliography giving general sources of information on university admission requirements, courses offered, and financial assistance, together with addresses from which further information about each of the listed institutions may be obtained. Information on the Canada Student Loans Plan is also included.

## 31. University and College Enrolment

Full-time university-grade enrolment in Canadian universities and colleges at December 1, 1966 was $232,672,13.0 \%$ more than the preceding year's comparable figure of 205,888 , and larger by $30.5 \%$ then the $1964-65$ figure of 178,238 according to the Dominion Bureau of Statistics report "Survey of Higher Education - Part I: Fall Enrolment in Universities and Colleges", 1966-67. Full-time graduate enrolment increased at a greater rate ( $14.7 \%$ ) from 1965-66 to 1966-67 than full-time undergraduate enrolment ( $12.9 \%$ ).

As has been the case for some years, the increase in the enrolment of women ( $16.2 \%$ ) was higher than that men (11.5\%). Women accounted for $32.5 \%$ of total fulltime enrolment in 1966-67. In 1960-61 women represented $24.1 \%$ of this total, while in 1965-66 the percentage was 20.9 .

By including enrolment at all affiliated institutions, eight institutions had over 10,000 full-time university-grade students.
