Preliminary Stalement of Canadian Trade, September 1971 - Published only in Statistics Canada Daily and Weekly

The trade balance for the first three quarters of 1971 at $\$ 1,807$ million was down almost $\$ 150 \mathrm{million}$ or $8 \%$ from last year's record level. Imports rose $6.8 \%$ over last year to reach $\$ 11,290 \mathrm{million}$, while exprots were up $4.6 \%$ at $\$ 13,097$ million.

September imports increased $9.4 \%$ over those of a year earlier led by purchases from the United States which rose $\$ 80$ million. Increases of $\$ 14$ million occurred in imports from each of Japan, the EEC and other Commonwealth and Preferential Countries.

Import growth in September was broadkly distributed among comnodity groups, as purchases only of chemicals and of aircraft and parts showed significant decreases. Metal ores and concentrates revovered from last year's low levels, while import of iron and steel products, tractors and computers continued the increases established in earlier months. Purchases of industrial machinery were virtually unchanged from last September.

Motor vehicles and parts again dominated trade with the United States. Passenger vehicle imports were up $\$ 21$ million, while those of trucks and other vehicles grew by $\$ 16$ million or almost two-thirds over last September. Imports of engines were also up substantially, and all other vehicle part purchases increased moderately. lmports of most other commodities from the United States were above last year's levels, led by tractors, office machines and computers.

On a seasonally adjusted basis, September imports at $\$ 1,278$ million indicated a slight decline from high levels established during the summer months. However, total imports for the third quarter reached $\$ 3,986$ million, continuing the growth rate of about $4 \%$ established in the first two quarters. With exports previously, reported at $\$ 4,504$ million, the third quarter trade balance was $\$ 518$ million, a decline of $\$ 695$ million from the first quarter and $\$ 604$ million from the second.

For further information, order the September issues of Sunmary of Exports ( $65-002,20</ \$ 2$ ), and Sumnary of Imports ( $65-005,20 c / \$ 2$ ).

Preliminary Statement of Total Canadian Exports, September 1971 - Published only in Statistics Canada Daily and Heekly

Exports in September increased by $\$ 106 \mathrm{million}$ to reach a level of $\$ 1,483$ million, an advance of $7.7 \%$ over September 1970. Shipments to the United States accounted for $94 \%$ of this growth, reaching some $\$ 1,022$ million for the month. Exports to "Other Countries" also posted a significant increase. Declines of some $\$ 8$ million and $\$ 14$ miliion occurred in sales to the United Kingdom and Latin America, while other major country groupings showed small increases.

Over the first three quarters of 1971, exports at $\$ 13,097$ million grew by $4.6 \%$, with the United States again accounting for most of the growth. Cumulative shipments to the United Kingdom and to other Comnonwealth Countries were down by $7.3 \%$ and $10.3 \%$ respectively, while those to Japan and the European Economic Commity decl ined more moderately.

Comodity detall indicated that shipments of passenger vehicles recovered from last year's strike-depressed levels, increasing by some $\$ 63$ million to reach approximately the same level as September 1969. Exports of lumber, fertilizers, petroleum and natucal gas also posted substantial incfeases, while wheat and whisky continued the moderate growth established earlier in the year. Markets for 1 ron and copper ores and nickel metal continued to decline in September, and, among manufactured items, shipments of alrcraft and of compunication equipment declined sharply.

The United States market continued strong for lumber (up $\$ 27$ million) and petroleum and gas (up $\$ 14$ million), while automotive product sales recovered from last year's strike. Shipments of aluminum were also up sharply over September 1970. Most other comoditites showed moderate increases, although exports of iron ore decreased by $\$ 15 \mathrm{million}$, nickel by $\$ 11 \mathrm{million}$, and communication equipment by $\$ 6$ million.

Seasonally adjusted exports stood at $\$ 1,524 \mathrm{million}$, virtually unchanged from the revised August level. Third quarter exports increased by $\$ 96 \mathrm{mil}-$ lion, continuing the pattern of moderate growth established in the first two quarters of this year, after levelling off in the last two quarters of 1970.

For further information, order the September issue of Summary of Exports (65-002, $20 \times 1 \$ 2$ ).

Prices and Price Indexes (Consumer Price Indexes for Regional Cities), September 1971-Advance information

NOTE - A consumer price index for a particular regional city measures the movement in prices, faced by consumers, within the specified city. Thus, consumer price indexes for regional cities cannot be used to compare levels of prices between cities.

Between August and September, consumer price indexes rose in seven regional cities and city combinations, declined in four and remained unchanged in Saint John, N.B. The movements ranged from an increase of $0.6 \%$ for Thunder Bay to a decrease of $0.5 \%$ for Montreal. The movements in food prices generally accounted for the major portion of the movement in the all-items indexes. Price declines of over $2 \%$ for food were recorded for Montreal and Quebec City. Seasonally lower quotations were recorded across the country for a number of fresh vegetables and fruits, and lower prices for beef were noted in many cities. On the other hand, the prices of pork, eggs and dairy products were generally higher. Clothing indexes advanced in the majority of cities as sale prices in the preceding month were discontinued and higher prices re-introduced on some items. Clothing service charges also rose in a number of cities. Transportation indexes registered little or no change in the majority of cities, however higher local bus fares were recorded in Quebec City, Regina and Calgary. Housing indexes registered increases ranging from $0.1 \%$ to $0.4 \%$, except for Toronto and Quebec City whose indexes were unchanged. Mixed movements across the country were recorded for health and personal care and recreation and reading indexes; while tobacco and alrohol indexes were unchanged.

For further information, order the September issue of Prices and Price Indexes ( $62-002,40 \mathrm{c} / \$ 4$ ).
(see table on next page)

## CONSUMER PRICE INDEXES FOR REGIONAL CITIES OF CANADA

## SEPTEMBER 1971

The indexes in both tables measure within each city the percentage change in consumer prices from the base period to subsequent time periods. They cannot be used to compare levels of prices between cities. (1)

# Federal Government Employment, First Quarter 1971 - Advance information <br> The federal goverment employed 385,215 people on March 31, $1971-$ up from 378,986 on December 31, 1970. Total payroll dropped to $\$ 715.7$ million in the first quarter of 1971 from $\$ 771.3$ million in the previous quarter, but the dip resulted from an extra bi-weekly payday occurring in the fourth quarter of last year. 

Further infomation will be contained in Federal Government Employment, January-March, 1971 (72-004, 75¢/\$3).

The Labour Force, Week ended September 18, 1971-Advance information
The seasonally-adjusted unemployment rate rose sharply to 7.1 in September from 6.5 in August. The increase in the adjusted unemployment rate occurred among both the $14-24$ year-olds and those 25 years and over, but was more pronounced in the latter group.

The unadjusted rate, representing the actual unemployment as a percent of the labour force, was 5.0 in September as compared to 5.1 in August, a much amaller reduction than usual for this time of year. The total number of unemployed persons declined by 21,000 to 434,000 .

There was an about-average decline from August in the number of employed persons $(-329,000)$ to $8,188,000$ in September. Total labour force dropped 350,000 to $8,622,000$ which was a relatively smaller decline than usual for this period.

## Lonsumer Credit, August 1971 - Advance information

Selected credit holders reporting monthly showed $\$ 9,393 \mathrm{million}$ outstanding on their books at the end of August.

Personal cash loans by chartered banks rose to $\$ 5,408 \mathrm{million}, 22.7 \%$ more than a year earlier, and life insurance companies' policy loans were up 4.7\% to $\$ 762$ million, but personal cash loans under the Small Loans Act fell $16.7 \%$ to $\$ 459$ million. In addition, sales finance and consumer loan companies held $\$ 903$ million balances of sales paper and $\$ 1,017$ million outstandings personal cash loans. (Since these accounts do not include unearned income, they cannot be compared directly with last year's figures).

The outstanding balances of other monthly reporters - Quebec savings banks, department stores, furniture stores, appliance stores and motor vehicle dealers .- rose $2.4 \%$ to $\$ 844$ million.

Credit holders reporting quarterly -- other retail stores, oil companies, credit unions and caisses populaires - reported outstanding balances of $\$ 2,216$ nillion, $8.5 \%$ more than a year earlier.

Total outstanding balances reached $\$ 11,456 \mathrm{million}$ at the end of the second quarter.

For further information, order the August issue of Consumer Credit (61-004, 20c/\$2).

Department Store Sales and Stocks, August 1971 - Advance infomation
Department stores registered sales of $\$ 234,818,000$ during August 1971 , an increase of $12.2 \%$ from the $\$ 209,220,000$ in August 1970.

Sales increased in 34 departments and fell in 3 . Highest increases were in men's furnishings ( $19.6 \%$ ), followed by television, radio and music ( $18.9 \%$ ) and girls' and teenage girls' wear ( $18.7 \%$ ). The three departments with declines were: millinery, $21.9 \%$; plumbing, heating and building materials, $14.6 \%$; and women's and girls' hosiery, $0.9 \%$. All provinces registered increases ranging from a high of $19.8 \%$ in Newfoundland to a low of $4.6 \%$ in Saskatchewan.

The selling value of stocks held in August was $\$ 755,506,000$ up $7.4 \%$ from a year earlier. Inventory increases were led by toiletries, cosmetics and drugs ( $25.5 \%$ ) and men's clothing ( $18.5 \%$ ). Sharpest declines were in millinery ( $26.7 \%$ ) and floor coverings ( $14.7 \%$ ).

Further detaile will be contained in the August issue of Department Store Sales and Stocks (63-002, 20ç/\$2).

Inventories, Shipments and Orders in Manufacturing Industries, August 1971 Advance infomation

Greater activity than usual in the automobile and related industries, led the August value of manufacturers' shipments, seasonally adjusted to $\$ 4,254.8$ million, this was $7.1 \%$ more than the revised July estimate of $\$ 3,972.1$ million. Almost all of the increase was centred in the durable industries group which rose $14.4 \%$ to $\$ 2,143.4 \mathrm{million}$, from $\$ 1,872.9$ million. Shipments for the nondurable industries group increased $0.6 \%$ to $\$ 2,111.4$ imilion from $\$ 2,099.2$ million.

Seasonally adjusted new orders were estimated at $\$ 4,229.0$ million in August, $6.7 \%$ higher than the revised July estimate of $\$ 3,963.3$ million. Durable goods industries new orders, again influenced largely by the automobile and related industries, increased $14.1 \%$ while the non-durable industries' new orders increased only slightly. Seasonally adjusted unfilled orders declined $0.6 \%$ to $\$ 4,466.5$ million, from $\$ 4,492.3$ million. The durable industries' unfilled orders decreased $\mathbf{1 . 0 \%}$ while the unfilled orders for non-durables, increased 2. $4 \%$.

Seasonally adjusted total inventory owned declined $0.6 \%$ to an estimated $\$ 7,815.4$ million, from the revised July estimate of $\$ 7,860.1$ million. Total inventory held decreased slightly with decreases of $0.1 \%$ in raw materials and $1.6 \%$ in goods in process and an increase of $0.4 \%$ in finished products. The ratio of total inventory owned to shipments fropped to 1.84 in August from 1.98 in July while the ratio of finished products lo shipments decreased to 0.66 from 0.71.

Not adjusted for seasonal variation, the August estimate of shipments was $\$ 3,910.9$ million, $5.6 \%$ higher than the revised July estimate of $\$ 3,703.8$ million. All listed provinces, except Nova Scotia and linitoba showed increases, ranging from $7.3 \%$ in Ontario to $0.9 \%$ in Saskatchewan. Nova Scotia had a decrease of $8.5 \%$ and Manitoba $0.6 \%$. Shipments for the first eight months of 1971 were estimated at $\$ 31,011.0 \mathrm{million}, 3.9 \%$ higher than the $\$ 29,851.3$ million estimated for the corresponding period of 1970 .

For further infomation, order the August issue of Inventories, Shipments and Orders in Manufacturing Industries (31-001, 40c/\$4).

[^2]Steel Ingots, week ended October 16, 1971 - Advance information
Steel Ingot production for the week ended October 16, totalled 239,364 tons, an increase of $4.1 \%$ from the preceding week's total of 229,943 tons. The comparable week's total in 1970 was 228,165 tons. The index of production based on the average weekly output during 1967 of 183,227 tons equalling 100 was 130.6 in the current week, 125.5 a week earlier and 124.5 one year ago.

Raw Hides, Skins and Finished Leather, August 1971 - Advance information In August 1971, packers, dealers and tanners held 256,132 cattle hides, down from 266,420 a year earlier and 146,224 calf and kip skins, down from 168,328. Cattle hide receipts decreased to 167,099 from 194,636 but wettings increased to 198,304 from 177,844. Production of upper leather increased to $6,666,976$ square feet from $6,427,682$ in 1970 .

For further information, order the August issue of Raw Hides, Skins end Finished Leather (33-001, 10 c $/ \$ 1$ ).

Refined Petroleum Products, August 1971 - Ad ance information
Canadian refineries produced $45,135,059$ barrels of refined petroleum products in August, $15 \%$ more than a year earlier.

For further information, order the August issue of Refined Petroleum Products (45-004, $30 / \$ 3$ ), or Energy Service Bulletin ( $57-002$, $\$ 5$ a year).

## Production, Consumption and Inventories of Rubber, August 1971 - Advance

## information

August 1971 production of rubber increased by 3.5\% to $37,478,000$ pounds from 36,203,000 pounds in August 1970. January-August production decreased by $2.1 \%$ to $316,725,000$ pounds from $323,244,000$ pounds a year earlfer. August consumption of rubber was $26.6 \%$ higher in 1971 , standing at $32,956,000$ pounds compared to $26,022,000$ in 1970. For the year to date, consumption increased by $10.7 \%$ to $320,822,000$ pounds from $289,856,000$ a year earlier.

For further information, order the August issue of Production, Consumption and Inventories of Rubber (33-003, 20c/\$2).

Footwear Statistics, August 1971 - Advance information
August 1971 production of footwear of all types increased to 4,217, 279 pairs from 3,854,548 in August 1970. January-through-August production increased to $29,392,869$ pairs from 29,296,510 a year earlier.

For more details order the August issue of Footwear Statistics (33-002, $20 c / \$ 2)$.

Stocks of Dairy and Frozen Poultry Products, October 1, 1971 (32-009, 20c/\$2)
Cold storage holdings of creamery butter decreased $38.1 \%$ on October 1 to $73,317,000$ pounds from $118,429,000$ pounds a year earlier. Stocks of cheddar cheese were down $6.4 \%$ to $68,707,000$ pounds from $73,394,000$ pounds while skim milk powder stocks decreased $56.6 \%$ to $71,232,000$ pounds from 164,252,00) pounds. Evaporated whole milk stocks were down $6.3 \%$ to $37,533,000$ pounds from 40,061,000.

For further information, order the October issue of Stocks of Dairy and Frozen Poultry Products ( $32-009,20 \mathrm{c} / \$ 2$ ).
$\frac{\text { Dairy Factory Production, Septenber } 1971 \quad(32-002,10 \mathrm{C} / \text { P1) }}{\text { Production of creamery butter fell by } 17.8 \% \text { in September to } 26,886,000}$ pounds from 32,700,000 pounds a year earlier. Cheddar cheese production increased by $27.8 \%$ to $19,559,000$ pounds from $15,303,000$ and production of ice cream mix rose by $1.7 \%$ to 2,623,000 gallons from 2,579,000.

For further information, order the September issue of Dairy Factory Production (32-002, 10c/\$1).

Sugar Situation, September 1971 - Advance information
Canadian sugar refineries sold $229,172,004$ pounds of all types of sugar -- 227,077,585 pounds in domestic sales and 2,094,419 in export sales .- in September 1971.

For further information, order the September issue of Sugar Situation (32-013, 10c/\$1).

Production and Disposition of Tobacco Products (Cigarettes), September 1971 - Advance information

During September $1971,4,804,108,000$ cigarettes were produced, down from 4,867,060,000 a year earlier.

Further details will be contained in the September 1971 issue of Production and Disposition of Tobacco Products ( $\$ 5$ a year).

Production, Shipments and Stocks on :iand of Sawmills in British Columbia, August 1971 - Advance information

Sawnills in British Colun'ia in August produced 748.1 million feet board neasure of lumber and ties in 1971 compared to 625.6 million feet in 1970. For the eight - months period, production increased to $5,725.5$ million feet board measure from $5,041.5$ million feet board measure for the same period last year.

For further information, order the August issue of Production, Shipments and Stocks on Hand of Sawmills in British Columbia (35-003, 20c/\$2).

Gas Utilities, August 1971 - Advance information
Canadian consumers purchased 52.0 billion cubic feet of natural gas in August, up $11.6 \%$ from 46.6 billion a year earlier. Exports rose to 70.2 billion cubic feet fron 56.8 billion.

For further information, order the August issue of Gas Utilities (55-002, 20 c/\$2), or Energy Service Bulletin, Vol.6 No. 53 (57-002, \$5 . year).

Decorative Laminate Sheet, Quarter Ended September 30, 1971 - Advance information

Canadian factories shipped, to domestic customers, $16,778,743$ square feet of $1 / 8$ inch high pressure laminate sheet, valued at $\$ 4,856,534$ in the third quarter of 1971 (up from 13,288,390 square feet and $\$ 4,030,047$ a year earlier); and $3,601,771$ square feet of backing laminate valued at $\$ 248,394$ (up from 3,279,596 square feet and $\$ 211,922$ ).

Further information will be contained in the Quarterly Statistics Canada Statement (6507-752).

Coal Mines, 1970 - Advance information
Canadian production of coal jumped $55.6 \%$ to $16,604,164$ tons in 1970 from $10,671,879$ tons in 1969. The increase was mainly due to the advances of $286.9 \%$ in British Columbia and $132.6 \%$ in Alberta, in the production of bituminous coal to meet the Japanese demand for their metallurgical industry. The production of lignite conl in Stskitchewan increased $89.1 \%$ and sub-bituminous coal in Alberta $22.7 \%$ to meet requirements of electrical utilities. However the production of bituminous coal declined $43.5 \%$ in New Brunswick and $19.0 \%$ in Nova Scotia. Bituminous coal accounted for $53.4 \%$ of tise 1970 production, Alberta sub-bituminous $23.6 \%$ and Saskatchewan lignite 23.0\%.

Exports of Canadian coal increased $218.7 \%$ to $4,391,575$ in 1970 , shipnents to Japan accounting for $94 \%$ of the total.

Further information will be puthlished in Coal Mines, 1970 (26-206, \$1).

AGRICULTURE

## Forage Sead Report, August 1971 - Advarice information

In August, 5.65 million pounds of creeping red fescue were purchased from Canadian growers, up from 0.54 million pounds a year earlier. Tlmothy purchases reached 3.37 million pounds, up from 2.95 million.

For further information contact the Agriculture Division, Statistics Canada, Ottawa Kla OL7.
