Summary of Foreign Irade, March 1971 - Advance information
The External Trade Division reports a favourable trade balance of \$171 million for the month of March 1971, and of $\$ 660 \mathrm{million}$ for the first three months of the year, comparing favourably with the same periods last year.

Total exports for March climbed to $\$ 1,535 \mathrm{million}$ and were about $13 \%$ higher than a year ago. Canadian sales increased to all major trading areas, except the United Kingdom. Exports to the United States at $\$ 1,077$ million were $\$ 153$ million or $161 / 2 \%$ higher, and a $12 \%$ increase in sales to Japan raised that country's purchases to $\$ 71$ nillion. Similarly, exports to Latin America were up by $\$ 14 \mathrm{million}$, or $35 \%$; to the European Economic Community up by $14 \%$; and to Commonwealth and Preferential countries (excluding the $U . K_{0}$ ) by $\$ 16 \mathrm{million}$ or $33 \%$. In contrast, exports to the United Kingdom declined by $25 \%$ to $\$ 92$ million.

Most commodities contributed to the improved export performance. Shipments bbroad of passenger automobiles reached $\$ 220 \mathrm{million}$, up by $27 \%$, and those of motor vehicle engines and ather parts rose nearly $60 \%$ to $\$ 137 \mathrm{million}$.

Sales of wheat to Japan and to other overseas markets were up by $33 \%$ to $\$ 50$ million, topping the level of March 1969. The large gains in exporta of crude petroleum in 1970 slowed down to only $2 \%$ during March 1971 , but the growth in natural gas sales was extended appreciably.

Lower sales of whisky, fertilizers, copper and nickel and their alloys, and of iron ores, concentrates and scrap offset in part the overall increase in exports.

Following a period of over-the-year declines, imports recorded a strong gain of $13 \%$ during March to reach $\$ 1,364$ million. Imports from all major trading areas were higher, with the exception of those from the Commonwealth and Preferential countries (excluding the United Kingdom), which were down by $\$ 3 \mathrm{million}$ or about $9 \%$ to $\$ 31 \mathrm{million}$. United States at $\$ 1,013$ million were up by $\$ 103$ million or $11 \%$, from the E.E.C. at $\$ 76 \mathrm{million}$ were $27 \%$ higher and those from the United Kingdom at $\$ 66$ million were up by $9 \%$. Increases were also recorded from Latin Anerica, Japan and other countries.

Most major commodities shared in the March increase in imports. Automotive products accounted for more than half of the overall increase, with motor vehicle engines and other parts rising $34 \%$, passenger automobiles, $28 \%$, and trucks and other motor vehicles being up by $26 \%$. More moderate absolute increases in imports of broad woven fabrics and industrial machinery were recorded. Imports of aircraft and parts were lower than in March 1970, when a concentration of jet aircraft arrived.

Rises in March of $8 \%$ in seasonally adjusted exports and $131 / 2 \%$ in imports pushed the first quarter rates above those of the October-December period. Exports in the first quarter were roughly $3 \%$ higher than those of the preceding quarter and for the year 1970. After allowance for seasonal factors, January-March imports were $121 / 2 \%$ above the rate for the last quarter of 1970 (which had declined $9 \%$ from the previous quarter).

For further information, order the March 1971 issue of publication 65-001 (10c a copy, \$1.00 a year).

For further information, order DBS publication Prices and Price Indexes (62-002, 40c./\$4.00).

Prices and Price Indexes (Consumer Price Indexes for Regional Cities), March 1971 - Advance information

Between February and March, consumer price indexes rose in eight regional cities and remained unchanged in the two Prairie city-combinations. The increases ranged from $0.2 \%$ to $0.5 \%$. Food indexes rose in eight cities, as higher prices for most meats and fresh produce items were prevalent across the country. However, the food index for Edmonton-Calgary registered no change over the month, while that for SaskatoonRegina declined marginally. Housing indexes moved up in eight cities chiefly due to increased prices for home furnishings. Nine cities registered advances in clothing indexes as many items of apparel were back to regular prices from mid-winter sales. Transportation indexes rose in nine cities reflecting higher automobile operating charges and increased air fares in North American routes. Components for health and personal care and for recreation and reading registered mixed movements across the country, while the tobacco and alcohol indexes were unchanged from the preceding month.

In March, the St. John's all-items index was $0.2 \%$ above its February level; but $0.2 \%$ below its March 1970 level. Increased prices for men's shirts, trousers, py jamas, and shoes; and women's dresses, skirts and street shoes contributed to a rise of $0.5 \%$ in the clothing index. The transportation component moved up by a similar amount in response to higher prices for new cars, increased automobile maintenance charges and higher air fares. The recreation and reading index declined by $0.4 \%$ in response to lower prices for television sets, while the remaining components registered little or no change over the preceding month.

## Halifax

The Halifax consumer price index rose by $0.5 \%$ since February. At ils March 1971 level of 124.4 it was $0.5 \%$ above that for March 1970. The clothing index advanced by $2.4 \%$, in the latest month, mainly in response to a return from sale prices for men's clothing items; however, at the March 1971 level of 123.1, this index stood $0.7 \%$ below its level of twelve months previous. An increase of $0.4 \%$ in the food index during the latest month reflected higher prices for pork cuts, poultry and fresh produce. Higher furniture prices contributed to a rise of $0.3 \%$ in the housing index, while a $0.6 \%$ increase in the transportation component was attributable to increased plane fares and higher prices for new cars, automobile repairs, and motor oil. The remaining indexes were virtually unchanged from the preceding month.

## Saint John

The all-items index moved up by $0.4 \%$ between February and March to reach a level $0.3 \%$ higher than that of a year earlier. Increased prices for cured pork, chicken and most fresh fruit and vegetables contributed to a rise of $0.5 \%$ in the food index. An advance of $1.3 \%$ in the transportation component was attributable to higher prices for new cars, increased automobile operating charges and higher air fares for North American routes. The recreation and reading component moved up by $0.2 \%$ in response to increased television repair charges, while the remaining components registered little or no change since the preceding month.

## Montreal

The Montreal consumer price index increased by $0.5 \%$ in the latest month to a level $0.9 \%$ above that of twelve months earlier. An increase of $0.8 \%$ in the food index reflected higher prices for most beef cuts, poultry, fresh produce and restaurant meals. The clothing index advanced by $0.9 \%$ in response to increased prices for a number of men's and women's wear items, as well as footwear and clothing services. Both the housing and the transportation indexes registered increases of $0.3 \%$; the former in response to higher furniture prices and the latter to increased prices for new cars, gasoline, tires and plane fares. Increased quotations for toiletries contributed to a rise of $0.4 \%$ in the health and personal care index, while the components for recreation and reading and for tobacco and alcohol remained unchanged.

## Ottawa

The all-items index increased by $0.5 \%$ from the previous month, to 129.0 in March; a level $1.6 \%$ above that of a year earlier. Higher quotations for beef and pork cuts,
poultry, fresh fruit and eggs contributed to a $0.9 \%$ advance in the food index during the latest month. A rise of $0.7 \%$ in the clothing component reflected increased prices Eor men's and women's shoes, men's dress shirts and trousers, and clothing services. The recreation and reading index advanced by $1.0 \%$ in response to increased television repair charges. Higher prices for cleansing tissues contributed to a $0.3 \%$ rise in the health and personal care index, while the components for housing and transportation each edged up by $0.2 \%$.

## Poronto

The Toronto consumer price index increased by $0.4 \%$ in the latest month to a level $0.4 \%$ above that of a year earlier. A rise of $0.6 \%$ in the food index was chiefly attributable to higher prices for beef and fresh pork cuts, bakery and cereal products, and fresh produce. Increased prices for men's suits, pyjamas and shoes, women's dresses and shoes and clothing services contributed to an advance of $0.9 \%$ in the clothing component, while the housing index moved up by $0.3 \%$ in response to increased electricity rates and higher prices for home furnishings. The recreation and reading index rose by $0.4 \%$ in response to increased newspaper and phonograph record prices, while the components for transportation and health and personal care each edged up by $0.2 \%$ 。

## Winnipeg

The all-items index moved up by $0.3 \%$ in March to reach a level $0.8 \%$ higher than a year previous. The food index advanced by $0.8 \%$ during the latest month in response to higher quotations for beef, pork, and fresh fruits and vegetables. Higher prices for gasoline, tires and air fares and an increased charge for drivers' licenses contributed to an upward movement of $0.4 \%$ in the transportation component. Higher prices for home furnishings were chiefly responsible for a $0.2 \%$ rise in the housing component, while the remaining indexes registered virtually no change from the previous month.

## Saskatoon-Regina

In March 1971, the Saskatoon-Regina consumer price index was unchanged from its February level and stood $0.1 \%$ below its level of a year earlier. The clothing index increased by $0.6 \%$ in response to higher prices for men's and women's pyjamas, women's dresses and clothing services. Higher inter-urban bus and plane fares, together with higher gasoline prices contributed to a $0.2 \%$ rise in the transportation component. A decline of $0.2 \%$ in the recreation and reading index reflected lower prices for television sets, while the remaining components registered little or no movement since the preceding month.

## Ldmonton-Calgary

The all-items index was unchanged in March from a month earlier and stood 2.7\% above its level of twelve months earlier. A rise of $0.2 \%$ in the clothing index was attributable to higher prices for men's suits, trousers, pyjamas and children's shoes, while the health and personal care component moved up by $0.3 \%$ in response to increased prices for some toiletry items. The remaining indexes were virtually unchanged from the previous month.

## Vancouver

The all-items index moved up $0.2 \%$ in the latest month and stood $3.2 \%$ above its level of a year ago. Higher quotations for beef, fresh pork, chicken and fresh
fruit contributed to a rise of $0.3 \%$ in the food index. An increase of $0.6 \%$ in the clothing component was attributable to higher prices for men's pyjamas, women's dresses and hosiery, boy's trousers and clothing services. Higher prices for new cars, gasoline and air fares, partially contributed to a $0.2 \%$ rise in the transportation component, while the recreation and reading index declined by $0.7 \%$ in response to lower prices for television sets. The remaining indexes registered little or no movement since the preceding month.

Regional consumer price index point changes between February and March were as follows: Ottawa +0.7 to 129.0 ; Halifax +0.6 to 124.4 ; Montreal +0.6 to 125.3; Saint John +0.5 to 123.5 ; Toronto +0.5 to 127.7 ; Winnipeg +0.4 to 127.2 ; St. John's +0.2 to 121.8; Vancouver +0.2 to 125.7; Saskatoon-Regina remained unchanged at 122.0; Edmonton-Calgary remained unchanged at 127.3 .

Weekly Railway Carloadings, Period Ended March 31, 1971 - Published only in the DBS Daily and Weekly

Railways loaded 5,261,471 tons of revenue freight in the ten-day period ( 8 working days) ended March 31. This was $12.4 \%$ more than the $4,682,552$ tons loaded in the 6 working days of the corresponding period of 1970. The number of cars loaded increased $13.1 \%$ to $102,717$.

In eastern Canada tonnage rose $15.4 \%$ to $3,403,115$ tons while volume west of the Lakehead rose only $7.2 \%$ to $1,858,356$ tons, probably reflecting the labour situation there.

Piggyback traffic increased $39.1 \%$ to 133,492 tons from 95,934 a year earlier.

Year-to-date total freight loading declined $1.1 \%$ to $44,621,659$ tons from $45,121,179$ tons in the same period of 1970. The number of cars loaded decreased $1.6 \%$ to 868,220 cars.

In eastern Canada loadings declined $6.7 \%$ to $26,656,728$ tons. Volume west of the Lakehead rose $8.5 \%$ to $17,964,931$ tons.

Piggyback traffic rose $14.3 \%$ to $1,132,811$ tons from 991,094 .

Further details will be contained in the DBS monthly publication Railway Carloadings (52-001, 20c/\$2.00).

The Labour Force, Week ended March 20, 1971 - Advance information
The seasonally-adjusted rate of unemployment fell to 6.0 in March from 6.2 in February. The unadjusted rate dropped to 7.8 from 8.1. The reduction of 25,000 persons unemployed (to 650,000 from 675,000 ) was larger then average. Employment was estimated at 7,686,000 in March - a slight increase from February, but a somewhat smaller-than-usual advance for this time of year.

The labour force was 269,000 or $3.3 \%$ larger in March than a year earlier; employment increased by 161,000 or $2.1 \%$; and the number of people unemployed increased by 108,000 .

Estimates (not adjusted for seasonality)

Unemployment rate (unemployed as a percentage of labour force) ........................ 7.8 8.1 6.7

For further information order the March issue of the Labour Force (71-001. 20c a copy, $\$ 2.00$ a year).

MOTOR VEHICULE
The Motor Vehicle - Part III - Registrations, December 31, 1970 - Advance information

Motor vehicle registrations in effect on Uecember 31, increased to an estimated 8.96 million in 1970 from 8.77 in 1969. Only Nova Scotia, Saskatchewan and British Columbia reported declines. In Saskatchewan the change is apparently due to the fact that the 1970 registrations covered a period of 10 months, whereas the 1969 figure covered 13 months.

Motor Vehicle Registrations

| Province | Dec. 31/69 | Dec. 31/69 | cnänge |

Therapeutic Abortions in Canada, 1970 - Special Statement
Ten provinces and the Yukon Territory reported that hospitals under their jurisdiction performed 11,200 therapeutic abortions during the calendar year 1970.

In terms of rates per 100 live births these 11,200 therapeutic abortions amounted to about $3 \%$ of live births. The reported number of therapeutic abortions performed increased every month from a low of 169 in January to 2,262 in December. This represented an increase from less than $1 \%$ of live births in January to about $8 \%$ in December.

A DVERTISING

Advertising Agencies, 1969 - Advance information
In 1969 , 163 advertising agencies reported bilings to clients totalling $\$ 456,142,810$, up $1.07 \%$ from $\$ 426,144,921$ reported in 1968 . Total gross revenue was $\$ 78,874,175$, an increase of $1.09 \%$ from the previous year, and net profit rose sharply to $\$ 9,388,551$ from $\$ 4,744,010$. The number of employees declíned to 4,876 from 4,919 while total payroll increased $1.04 \%$ to $\$ 46,628,740$ from $\$ 44,651,258$.

For further information, order the 1969 issue of publication 63-201 (25c a copy).

SERVICES

Changes in Hotel Receipts, 1970 - Published only in the DBS Daily and Weekly

Hotels of 50 rooms and over reported a $5.2 \%$ increase in receipts during 1970. A similar sample reported a $9.9 \%$ gain in 1969.

Alberta's hotels led the increases with $10.9 \%$, followed by New Brunswick with 6.9\%, Manitoba with $6.3 \%$, British Columbia (including the Yukon and Northwest Territories) with $5.8 \%$, Quebec with $4.8 \%$, Nova Scotia with $4.6 \%$, Ontario with $3.5 \%$, Newfoundland and Prince Edward Island with $0.8 \%$ and Saskatchewan with $0.7 \%$.

TOBACCO

Production and disposition of tobacco products (cigarettes) 2 March 1971 . Advance information

During March, 4,504,409,000 cigarettes were produced, up from $3,717,162,000$ a year earlier.

Further details will be contained in the DBS Service Bulletin 6507-774 No. 50, Production and Disposition of Tobacco Products, March 1971, \$5.00 a year.

Chain Store Sales and Stocks, February 1971 - Advance information
Chain store organizations reported sales of $\$ 727,754,000$ during February, an increase of $9.0 \%$ from February 1970. The largest growth occurred in service stations and garages ( $26.3 \%$ ), followed by fuel dealers ( $22.0 \%$ ) and general merchandise stores ( $15.1 \%$ ). .The only decline occurred in furniture, T.V., radio and appliances stores (2.0\%).

In February 1971, stocks (at cost) stood at a value of $\$ 1,310,978,000$, an increase of $7.8 \%$ from February 1970 . The largest increases were registeres in jewellery stores ( $23.2 \%$ ) and in shoe stores ( $15.8 \%$ ). The sharpest declines occurred in furniture, $T . V_{.}$, radio and appliance store ( $14.7 \%$ ) and men's clothing stores (7.8\%).

Further details will be contained in the DBS publication Chain Store Sales and Stocks, February 1971 ( $63-001,10 c / \$ 1.00$ ).

Department Store Sales and Stocks, February 1971 - Advance information Department store registered sales of $\$ 168,676,000$ during February, an increase of $10.0 \%$ from the $\$ 153,405,000$ in February 1970 .
sales increased in 32 departments and fell in 4. Highest increases were in women's and misses' sportswear ( $30.1 \%$ ), followed by $T . V_{0}$, radio and music ( $20.5 \%$ ) and men's clothing ( $19.2 \%$ ). Sharpest declines were in women's and girls' hosiery ( $12.7 \%$ ) and furs (11.9\%).

All provinces registered increases ranging from $32.2 \%$ in New Brunswick to $3.7 \%$ in British Columbia.

The selling value of stocks held in February 1971 was $\$ 689,024,000$, up $7.4 \%$ from February 1970. Inventory increases were led by toiletries, cosmetics and drugs ( $22.9 \%$ ) and boys ${ }^{\text {s }}$ clothing and furnishings ( $16.9 \%$ ). Sharpest declines were recorded in furs (23.9\%) and millinery ( $19.7 \%$ ).

Further details will be contained in the DBS publication Department Store Sales and Stocks, February 1971 ( $63-002,20 ¢ / \$ 2.00$ ).

Power Laundries, Dry Cleaning and Dyeing Plants, 1969 - Advance information
Receipts of power laundries were estimated at $\$ 111,309,589$ in 1969, an increase of $2.4 \%$ from the $\$ 108,714,737$ reported in 1968. Increases in salaries and wages, the cost of materials and supplies used and the total cost of fuel and electricity were responsible for a $2.5 \%$ rise in total expenses to $\$ 102,166,620$ from $\$ 99,691,699$.

Total receipts of dry cleaning and dyeing plants in 1969 were estimated at $\$ 164,669,453$, up $1.7 \%$ from the $\$ 161,913,823$ reported in 1968 . While salaries dropped fractionally (down $0.3 \%$ ), all other expenses categories showed increases raising total expenses $1.1 \%$ to $\$ 148,321,644$.

Further information will be contained in the DBS publication Power Laundries, Dry Cleaning and Dyeing Plants, 1969 (63-205, 50c ). Census of Manufactures, 1969-Advance information

Oils and Fats, February 1971 - Advance information
During February, retail sales ( 20 pounds and less) of margarine declined to $16,051,955$ pounds from $18,381,894$ a year earlier and of shortening, baking and frying oils and fats, to $3,666,612$ pounds from $4,041,705$. Salad oil sales climbed to $3,921,399$ pounds from $3,666,747$.

For further infomation, order the February issue of publication 32-006 (20c a copy, $\$ 2.00$ a year).

Steel Ingots, Week ended April 17, 1971, Advance information
Steel ingot production for the week ended April 17, totalled
224,472 tons, an increase of $0.2 \%$ from the preceding week's total
of 223,984 tons. The comparable week's total in 1970 was 238,584 tons. The index of production based on the average weekly output during 1967 of 183,227 tons equalling 100 was 122.5 in the current week, 122.2 a week earlier and 130.2 one year ago.

Inventories, Shipments and Orders in Manufacturing Industries, Fobruary 1971 - Advance infomation

Led by increased activity in the automobile industry, the seasonally adjusted value of Canadian manufacturer's shipments, increased 4.1\% in february to $\$ 3,979.2$ million. This increase was slightly highe $x$ than the relative increase a month earlier of $3.25 \%$.

At the same time the estimated value of new orders received, seasonally adjusted at $\$ 4,061.3$ million, was $4.5 \%$ higher than in January indicating an average increase of $3.3 \%$ during December, January and February.

This compared with an average increase of $1.7 \%$ during the three-month period ending in January and a slightly declining trend during the last quarter of 1970.

A $\$ 150-\mathrm{million}$. increase in the new orders received by the durable goods industries, raising the total to $\$ 1,972.3$ million, was largely a reflection of a sharp increase in new business generated in the machinery, non-metallic minerals and transportation equipment industries.

Unfilled orders, estimated at $\$ 4,414.0$ million, seasonally adjusted, were just under $2.0 \%$ higher at the end of February than a month earlier. It was the second consecutive monthly increase in the backlog which rose steadily from $\$ 4,270$ million at the end of December.

The level of manufacturers' inventories in all three components of raw materials, goods in process and finished products was slightly lower at the end of February. Total inventory owned was estimated at \$7,834.2 million. This drop in the inventory level, combined with the increase in shipments, produces a sharply lower ratio of inventory-owned to shipments -- 1.97 versus 2.06 a month earlier, continuing a downward trend that started at the end of October. The ratio of finished praducts inventory to shipments was 0.71 at the end of February compared with 0.75 on January 31.

Total shipments for the first two months of 1970 , before adjustment for seasonal variation, had an estimated value of $\$ 7,062.7$ uillica, less than $1 \%$ higher than the comparable total a year earlier of $\$ 7,005.5$ million.

The increased sales of Ontario, Quebec and New Brunswick manufacturers whose shipments were, in total, $\$ 106.1$ million higher, were off set by lower two month totals estimated for the remainder of the provinces. Largest relative gain at the end of the two months was in New Brunswick where shipments were estimated to be up $7.5 \%$. Ontario's shipments were $2.4 \%$ higher and Quebec's less than $1 \%$. Total shipments for January and February in British Columbia were c; $6.0 \%$ from the comparable 1970 values and in Newfoundland they were down 4. $2 \%$. Relative year-over-year declines in the remaining provincial totals were not as large.

Metal Rolling, Casting and Extruding, n.e.s. (S.I.C. 298)

Farm Cash Receipts, 1970 (21-001, 25c/\$1.00)
Farm cash receipts from farming operations and supplementary payments totalled $\$ 4,166.3$ million in 1970 , in all provinces except Newfoundland. This was slightly below the estimate of $\$ 4,192.0 \mathrm{million}$ for 1969.

Farmers received an estimated $\$ 4,108.1$ million from farming operations, $1.8 \%$ less than the revised 1969 value of $\$ 4,182.1$ million. The decrease was largely a result of substantial repayments of cash advances on farmstored grains in Western Canada, a considerable decline in Canadian Wheat Board participation payments, and lesser declines in payments made by the Canadian Dairy Commission and sales of oats and eggs. Partially offsetting these declines were increased returns from wheat, barley, rapeseed, potatoes, tobacco, cattle and calves, hogs and poultry.

Farmers received supplementary payments amounting to $\$ 58.2 \mathrm{million}$ during 1970, compared to $\$ 9.9$ million in 1969 . These included payments made under the provisions of the Prairie Farm Assistance Act and other government assistance to farmers who suffered losses as a result of adverse weather conditions, as well as payments made under the Lower Inventory for Tomorrow (LIFT) program.

Stocks of Dairy and Frozen Poultry Products, April 1, 1971 (32-009, 20c/S2.00)

Cold storage holdings of creamery butter decreased $23.2 \%$ on April 1 to $50,753,000$ pounds from 66,058,000 pounds on April 1, 1970. Stocks of cheddar cheese were down $27.4 \%$ to $51,674,000$ pounds this year from $71,212,000$ pounds while skim milk powder stocks decreased $69.9 \%$ to 29,453,000 pounds from $97,868,000$ pounds. Evaporated whole milk stocks were down $64.3 \%$ to $8,380,000$ pounds from 23,480,000.

Dairy Factory Production, March 1971 (32-002, 10c/\$1.00)
Production of creamery butter fell by $14 \%$ in March to $17,068,000$ pounds from 19,929,000 pounds in March 1970. Cheddar cheese production increased by $9 \%$ to $10,998,000$ pounds from $10,129,000$ and production of ice cream mix rose by $5 \%$ to $2,229,000$ gallons from $2,130,000$.

Stocks of Fruit and Vegetables, April 1, 1971, (32-010, 20c/\$2.00
Stocks of fruit, frozen and in preservatives, in storages and factories on April 1, 1971 totalled 41,131,000 pounds compared with last year's corresponding total of $44,599,000$ pounds. Holdings of vegetables, frozen and in brine, totalled $78,963,000$ pounds ( $72,647,000$ pounds in 1970).
