Prices and Price Indexes (Consumer Price Indexes for Regional Cities), May 1971 - Advance information

Between April and May, consumer price indexes rose in all ten regional cities and city-combinations, with increases ranging from 0.2% in Edmonton-Calgary and Vancouver to 0.7% in Toronto. Food indexes advanced in all cities with higher quotations registered for fresh produce items and restaurant meals in most centres surveyed. The components for housing and for clothing each moved up in eight cities; the former chiefly due to higher homefurnishing prices and the latter mainly in response to increased prices for men's wear. The tobacco and alcohol index also moved up in eight cities as a change in package weight for cigarette tobacco resulted in an effective price rise in most cities across the country, and higher beer prices were recorded for the Southern Ontario centres of Ottawa and Toronto. The transportation, the health and personal care, and the recreation and reading components registered mixed movements across the country.

(1)

CONSUMER PRICE INDEXES FOR REGIONAL CITIES OF CANADA

MAY 1971

(Base 1961=100)

These indexes measure within each city the percentage change in consumer prices from the base period to subsequent time periods. They cannot be used to compare levels of prices between cities. (2)

- (3) Includes shelter and household operation.

Prices and Price Indexes, Industry Selling Price Indexes, May 1971 - Advance information.

Industry selling price indexes (1961=100) were higher in May than in April for 40 manufacturing industries, lower for 22 and unchanged for 38.

Decreases occurred in the primary metals group, particularly the smelting and refining industry, which reflected lower prices for export sales of refined copper. Although the majority of industries in the foods and beverages group tended to be somewhat higher, they were offset by lower prices registered in the slaughtering and meat packing, fish products, and confectionery manufacturers industries, causing a net decline at the major group level. Moderate advances were recorded for the paper and allied industries, and rubber products groups.

The arithmetic average of the 100 industry indexes in May was unchanged from the previous month at 121.9. The average increase for those industries showing higher price movements was 0.6%, while the comparable figure for those showing declines was 0.8%.

April to May, Changes in Industry Indexes

(1) Indexes not available at this level of aggregation.

General Wholesale Index, May 1971 - Advance information

The General Wholesale Index (1935-39=100) moved down 0.3% in May to 287.5 from the April index of 288.4. It was also 0.3% lower than the May 1970 index of 288.4. Five of the eight major group indexes were lower, while three advanced.

The vegetable products group index moved 1.0% lower to 237.8 from 240.2 reflecting price decreases for grains, fresh fruits, tea, coffee and cocoa and unmanufactured tobacco. A decline of 0.7% to 261.6 from 263.5 in the non-ferrous metal products group index was chiefly attributable to lower prices for export sales of refined copper. The animal products group index moved down 0.3% to 318.6 from 319.7 mainly on lower prices for fishery products, and fresh and cured meats. Decreases of 0.2% or less occurred in two major group indexes; chemical products to 238.4 from 238.9, and wood products to 386.7 from 386.9.

Slight increases were registered for three major group indexes; textile products to 260.0 from 259.5, iron products to 314.8 from 314.1 and non-metallic minerals to 225.5 from 225.3.

For further information order the May issue of Prices and Price Index (62-002, 40¢/\$4).

Oil Pipe Line Transport, April 1971 - Advance information

Canadian Oil Pipe Lines received 2,056,100 barrels per day of crude oil, condensate, pentanes plus and refined petroleum products in April. This was 12.6% more than the 1,825,200 B/D received a year earlier. Domestic oils increased 16.6% to 1,634,600 B/D, and imported oils decreased 0.6% to 421,500.

For further information order the April issue of Oil Pipe Line Transport (55-001, 20¢ a copy, \$2 a year) or Energy Service Bulletin (57-002, \$5.00 a year).

LABOUR

The Labour Force, Week ended May 22, 1971 - Advance information

The seasonally-adjusted unemployment rate was 6.3 in May. This represented a return to levels more comparable to those of recent months after a rise to 6.7 in April. Total employment in Canada stood at 8,084,000 in May, 347,000 higher than in April. The number of unemployed persons declined by 116,000 to 543,000. The total labour force in May was 8,627,000, an increase of 231,000 since April.

Estimates (not adjusted for seasonality)

	May 1971	April 1971	May 1970
Labour Force (000's)	8,627	8,396	8,465
Employed (000's)	8,084	7,737	7,952
Unemployed (000's)	543	659	513
Unemployment Rate (unemployed as a percentage of labour force)	6.3	7.8	6.1

Compared to a year earlier, the labour force was up by 162,000 (1.9%), and employment by 132,000 (1.7%). The number of unemployed persons was up 30,000 over the year.

The seasonally-adjusted employment level for Canada, after declining in April, increased in May. An over-all gain of 1.2% in Canada compares with gains of 1.3% in the Atlantic region, 1.1% in Quebec, 1.0% in Ontario, and 2.0% in the Prairies. There was little change in British Columbia.

For further information order the May issue of Labour Force (71-001, 20¢/\$2)

Statistical Report on the Operation of the Unemployment Insurance Act, April 1971 (73-001, 20¢/\$2)

During April, 209,000 initial and renewal claims for benefit were filed. This was 6% fewer than the 222,000 claims filed in March but the same as were filed in April 1970.

The 819,000 claimants on April 30 were 4% fewer than a month earlier, but 19% more than a year earlier.

Benefit payments totalled \$100 million in April, \$114 million in March and \$81 million in April 1970. The average weekly benefit payments for these three months were \$36.14, \$35.74 and \$35.08 respectively.

The Supplementary Unemployment Insurance Benefit of 10%, effective January 3, 1971, is not included in the benefit payment data.

For further information order the 1970 issue of Federal Government Employment in Metropolitan Areas (72-205, 75¢).

Gas Utilities, April 1971 - Advance information

Canadian consumers purchased 92.4 billion cubic feet of natural gas in April 1971, up 5.7% from 87.4 billion a year earlier. Exports rose to 76.7 billion cubic feet from 66.6 billion.

For further information order the April issue of Gas Utilities (55-002, 20¢/\$2) or Energy Service Bulletin Vol. 6 No. 29 (57-992,\$5)

Electric Power Statistics, Vol. I (Annual Electric Power Survey of Capability and Load) 1970 - Advance information

Total net generating capability of firms which generate over 10 million kwh. per year increased to 41,322,000 kw. in 1970. This was 3,770,000 kw. or 10.04% more than in the previous year. This represented both the largest percentage growth and the largest absolute increase in generating capability in Canada's history.

The forecast for the years 1970-1975 indicates an anticipated growth of 15,828,000 kw. to 57,150,000 kw., a compound growth rate of 6.70% compared with the 1960-1970 growth rate of 6.34%. Thermal capability is expected to grow at an annual rate of 9.49% compared with an actual 1960-1970 annual rate of 13.80%, while hydro-electric capability is expected to increase at 5.16% compared with 3.99%. Fossil-fuelled steam plants will account for 64% of thermal capability growth, nuclear-fuelled steam plants 28%, gas turbine plants 7%, and internal combustion plants 1%.

For further information order 1970 issue of Electric Power Statistics Vol. I (57-204, 75¢).

M E R C H A N D I S I N G

Consumer Credit, April 1971 - Advance information

Selected credit holders reported \$8,876 million outstanding on their books at the end of April. Personal loans by chartered banks rose to \$4,871 million, 15.9% more than a year earlier, and life insurance policy loans were up 8.2% to \$752 million, but personal cash loans under the Small Loans Act fell 14.7% to \$482 million.

Consumer loan companies held \$975 million in outstanding balances at the end of April and sales finance companies held \$938 million. Since these amounts do not include unearned income, they cannot be compared directly with last year's figures.

Department stores' outstanding balances rose 1.8% to \$621 million.

At the end of the first quarter, total consumer credit reached \$10,864 million. This included balances of \$1,487 million held by credit unions, \$471 million held by "other" retail stores and \$169 million through oil company credit cards.

For further information order April issue of Consumer Credit (61-004, 20¢/\$2).

Crime Statistics, 1970 — Advance information

Preliminary figures for 1970 as reported to the DBS under the Uniform Crime Reporting Program increased over 1969 in most Criminal Code offence classifications. Reported offences against the Narcotic Control Act in 1970 rose to 13,966 from 8,179 the previous year — the rate (per 100,000 population age 7 years and over) increasing 67% to 75.0. Offences under the Food and Drug Act involving controlled and restricted drugs more than doubled to 4,692 from 2,341 — increasing the rate 95% to 25.2.

Reported murders increased to 430 from 342, raising by 21% to 2.3 per 100,000. Almost half the increase resulted from a fire in which 40 persons died in December, 1969. Early in 1970 a coroner's jury found one person to be responsible for these deaths, a charge of non-capital murder was subsequently laid and the incident was reported as murder in the January police report. In accordance with the Uniform Crime Reporting Program, this was recorded as 40 murders reported in 1970.

Thefts \$50 and under increased to 277,782 from 246,212 the previous year, bringing the rate up 10% to 1,492.6. Thefts over \$50 also increased to 149,677 from 119,742, raising the rate 22% to 804.3 per 100,000.

Preliminary information giving Canada totals on the strength of the police forces, on persons charged, data on arson, selected traffic offences, motor vehicle accidents and persons killed or injured in traffic accidents, as well as motor vehicles stolen and recovered may be obtained from the Judicial Division, Dominion Bureau of Statistics, Ottawa KIA OT6. (All preliminary figures are subject to revision.) Complete details will be contained in the 1970 issue of Crime Statistics (85-205, \$1.50).

(see table on next page)

MANUFACTURING

Production, Shipments and Stocks on Hand of Sawmills in British Columbia, April 1971 — Advance information.

Sawmills in British Columbia in April produced 728.4 million feet board measure of lumber and ties in 1971 compared to 690.2 million feet in 1970. For the four-month period, production increased to 2,789.2 million feet board measure from 2,644.8 million feet board measure for the same period last year.

For further information order the April issue of Production, Shipments and Stocks on Hand of Sawmills in British Columbia, (35-003, 20¢/\$2).

Textile Industries (Major Group 5) 1969 (Census of Manufactures) — Advance information.

The Textile Industries shipped \$1,688 million worth of products of own manufacture in 1969. This was 10.6% more than in 1968. The total value added by these industries increased 14.9% to \$760 million, the number of employees increased 2.9% to 75,329, and total salaries and wages increased 9.7% to \$400 million.

For a fuller range of preliminary totals for this industry group, write Special Projects Unit, Manufacturing and Primary Industries Division, Dominion Bureau of Statistics, Ottawa 3.

(1) These preliminary figures for actual offences reported by police are subject to revision. Excludes arson and traffic offences.

(2) Rates per 100,000 population 7 years of age and over based on estimates of June 1, 1969 and 1970.

(3) "Cleared" refers to offences cleared by charge and cleared otherwise.

(4) One incident reported in 1970 accounted for 40 victims with one person charged.

Steel Ingots, Week ended June 19, 1971 - Advance information

Steel ingot production for the week ended June 19, 1971, totalled 245,955 tons, an increase of 2.3 % from the preceding week's total of 240,412 tons. The comparable week's total in 1970 was 230,707 tons. The index of production based on the average weekly output during 1967 of 183,227 tons equalling 100 was 134.2 in the current week, 131.2 a week earlier and 125.9 one year ago.

Refined Petroleum Products, April 1971 - Advance information

Canadian refineries produced 36,614,825 barrels of refined petroleum products in April 1971, 5.7% more than a year earlier.

For further information order the April issue of Refined Petroleum Products 45-004, 30¢ a copy, \$3 a year, or Energy Service Bulletin, Vol. 6 No. 30 (57-002, \$5 a year).

Production, Consumption and Inventories of Rubber, April 1971 - Advance information

April production of rubber decreased by 7.5% to 39,473 pounds from 42,649 pounds in April 1970. January - April production decreased by 6.0% to 157,744 pounds from 167,658 pounds in 1970.

For more details, order April issue of Production, Consumption and Inventories of Rubber (33-003, 20¢/\$2.00).

Footwear Statistics, April 1971 - Advance information

April production of footwear of all types decreased to 3,759,954 pairs from 3,818,560 in April 1970. January - through - April production decreased to 15,023,478 pairs in 1971 from 15,472,747 in 1970.

For more information, order April issue of Footwear Statistics (33-002, 20¢/\$2.00).

Production and Disposition of Tobacco Products (Cigarettes), May 1971 - Correction.

During May, 4,495,019,000 cigarettes were produced (not 4,398,893,000 as reported in the Daily of June 15), down from 4,571,696,000 a year earlier.

Production and Disposition of Tobacco Products (Cigars), May 1971 - Advance information.

Canadian cigar manufacturers produced 51,626,000 cigars during May 1971, up from 46,133,000 in May 1970.

Further details will be contained in the DBS Service Bulletin, 6507-774 No. 52, Production and Disposition of Tobacco Products, May 31, 1971, \$5.00 per year.

AGRICULTURE

Fluid Milk Sales, April 1971 (23-002, 10¢/\$1)

Sales of standard, special and two per cent milk rose by 4% in April over April 1970, reaching 141,908,000 quarts. Sales of cereal, table, whipping and sour cream rose by 6% to 5,788,000 quarts.
