Vol. 29 -- No. 46
Friday, November 17, 1961

HIGHLIGHTS
0 F
THIS
I S S UE

Prices: Consumer price indexes rose between September and October 1961 in eight of the ten regional cities, declined in one, and remained unchanged $111 \%$ ? 15 in the other. Increases ranged from $0.2 \%$ in Toronto to $0.7 \%$ in Montreal and Ottawa. The index for St. John's declined $0.2 \%$ while the index for Saint John was unchanged.

Ext:ernal Trade: Value of Canada's commodity imports in September was estimated at $\$ 467,600,000$, an increase of $9.4 \%$ over last year's corresponding total of $\$ 427,500,000$. In the January-September period the value was up $2.4 \%$ to $\$ 4,198,900,000$ from $\$ 4,101,400,000$. (Page 3)

Labour: Claimants for unemployment insurance benefit numbered 229,200 on September 29, unchanged from a month earlier and 50,000 less than for the same date one year ago ... Federal government employees in July numbered 356, 050, compared to 350,241 in June and 350,905 in July last year. (Page 4)

Merchandising: Wholesalers proper had sales estimated at $\$ 777,073,000$ in Aug ust, an increase of $10.4 \%$ over a year earlier, while January-August sales at $\$ 5,914,656,000$ were $0.5 \%$ below last year ... Department store sales in the week ended November 4 were valued $4.4 \%$ above last year.
(Fages 4-5)

Manufacturing: Yroduction of steel ingots in the week ended November 11 amounted to 129,239 tons, an increase of $4.2 \%$ from the preceding week's $124,-$ 072 tons. Output in the same week last year totalled 124,072 tons. (Page 5)

Food \& Agriculture: Supplies of wheat remaining on or about October 1 this year in the four major exporting countries for export and for carryover at the end of their respective crop years amounted to an estimated 2,510.1 million bushels, $13 \%$ below a year ago.

Canada Year Book: Release of the 1961 edition of the CANADA YEAR BOOK is announced by DBS.

Transportation: Cars of railway revenue freight loaded on lines in Canada in the last 10 days of October numbered 99,518 , an increase of $11.2 \%$ rom last year's 89,503 cars.
$\star 1$ 。 Consunser Price Indexes For 10 Regional Cities

Between September and October 1961 contumer price indexes rose in eight of the ten regional cities, declined in one, and remained unchanged in the other. Increases ranged from $0.2 \%$ in Toronto to $0.7 \%$ in Montreal and Ottawa. The St. John's index declined $0.2 \%$ while the index for Saint John was uncharged.

Food indexes rose in all cities except St. John's where it declined $0.8 \%$; increases ranged from $0.2 \%$ in Saint John to $2.0 \%$ in 0 ttawa. Shelter indexes were higher in six cities, lower in one, and unchanged in the other three. Clothing indexes rose in seven cities and were unchanged in three. Household operation indexes were higher in four cities, lower in five, and unchanged in the other one. There were mixed results in the other commodities and services component, with three higher indexes, three lower, and the remaining four unchanged.

(1) Total indexes for September and October and October group index detail are shown in the above table. These indexes show changes in retail prices of goods and services in each city. They do not indicate whether it costs more or less to live in one city than another.
(2) Index on the base June $1951=100$.
2. Price Index Numbers of Commodities And Services Used By Farmers

The all-Canada composite index number of cummodities and services used by farmers (1935-39=100) rose to 262.4 in August 1961, $1.0 \%$ above the April index of 259.8 and $1.6 \%$ higher than the August 1960 index of 258.2 . Exclusive of the living component, the composite index advanced $1.6 \%$ to 287.8 in August from 283.4 in April and $2.2 \%$ from last year's like figure of 281.6. The rise in the composite index between April and August resulted from increases in farm wage rates and equipment and materials. The taxes and interest rates component was unchanged, while the farm family living component decreased fractionally.

EXTERNALTRADE
2.4. Imports In September \& Nine Months Value of Canada's commodity imports in September was estimated at $\$ 467,600$, 000 , an increase of $9.4 \%$ over last year's corresponding total of $\$ 427,500,000$, according to preliminary DBS figures. Part of the increased value in September from a year earlier reflects the changes in the foreign exchange value of the Canadian dollar.

Tigher values of imports in January and from May on more than offset lower values in Februarys March and April. This brought the value of commodity imports in the January-September period to $\$ 4,198,900,000$ versus $\$ 4,101,400,000$ in the like nine months of 1960 , an increase of $2.4 \%$.

Imports from the Urited States in Seprember rose $7.6 \%$ in value to $\$ 306$, 100,000 from $\$ 284,600,000$ a year earlier. Month's totals from the remaining three regions were also above year-earlier levels, value of purchases from the inited Kingdom rising $1.3 \%$ to $\$ 38,800,000$ from $\$ 38,300,000$, other Comonwealth countries $33.2 \%$ to $\$ 30,900,000$ from $\$ 23,200,000$, and all other countries $12.8 \%$ to $\$ 91,800,000$ from $\$ 81,400,000$.

Purchases in the January-September period were up in value from the preceding year in all regions, with imports from the United States posting the smallest percentage increase of $1.7 \%$ to $\$ 2,827,100,000$ from $\$ 2,780,500,000$. Cormodity imports from the United Kingdom increased $3.5 \%$ in the nine nonihs to $\$ 457$, 700,000 from $\$ 442,200,000$ a year earlier, other Commonwealth couritries $3.6 \%$ to $\$ 207,500,000$ from $\$ 200,300,000$, and all other countries $4.2 \%$ to $\$ 706,600,000$ from $\$ 678,400,000$

## 5. Claimants For Uremployment Insurance Benefit In September

Claimants for unemploynent insurance bencfit numbered 229,200 on September 29, unchanged from a month earlier and 50,000 less than for the same date one year ago. Males accounted for almost two-thirds of the year-to-year decline. During September there were 122,000 iritial and renewal claims filed in local offices, unchanged from August and almost 20,000 fewer than in September 1960.

Average weekly estimate of beneficiaries was 173,200 for September, 186,600 for August and 222,700 for September 1960. A total of $\$ 16,100,000$ was paid during September, compared with $\$ 18,900,000$ in August and $\$ 21,200,000$ in September 1960. The average benefit payment per week compensated was $\$ 23.22$ for September, $\$ 22.98$ for August and $\$ 22.65$ for September 1960.
*6. Federal Government Employment Federal Government employees in July numbered 356,050 , compared to 350,241 in June and 350,905 in July last year, according to advance DBS figures that will be contained in the July issue of "Federal Goverment Employment". These employees earned $\$ 131,462,000$ in July as compared to $\$ 134,735,000$ in the preceding month and $\$ 121,502,000$ in the like 1960 month.

Staff of agency and proprietary corporations and other agencies in July numbered 146,253 versus 142,139 in June and 148,528 in July 1960. Earnings of this group of employees totalled $\$ 59,663,000$ in the month against $\$ 63,225,000$ a month earlier and $\$ 55,836,000$ a year ago.

Employees in departmental branches, services and corporations in July aggregated 209,797 as compared to 208,102 in June and 202,377 in July last year. Their carnings amounted to $\$ 71,799,000$ in the month versus $\$ 71,510,000$ in the preceding month and $\$ 65,666,000$ in the same 1960 month.

MERCHANDISING

## 7. Wholesale Trade Wholesalers proper in Canada had sales estimated at $\$ 777,-$

 073,000 in August, an increase of $10.4 \%$ from last year's like total of $\$ 703,566,000$. Decreases in each month of the January-April period slightly offset increases in the May-July period, and sales in the January-August period at $\$ 5,914,656,000$ were $0.5 \%$ below the year-earliex total of $\$ 5,945$,688,000.Fifteen of the 17 specified trade groups posted gains in sales in August this year as compared to last, with increases ranging from $1.2 \%$ for automotive parts and accessories to $32.5 \%$ for commercial, institutional and service equipment and supplies. Sales by coal and coke dealers fell $10.4 \%$ and farm machinery dealers $0.3 \%$.

In the January-August period, sales were higher than a year earlier for 13 of the 17 specified groups. Gains in the period ranged from $0.1 \%$ for other textile and clothing accessories to $19.7 \%$ for household electrical appliances, while declines ranged from $0.2 \%$ for automotive parts and accessories to $13.1 \%$ for coal and coke.
5. Department Store Sales

Department store sales in the week ended November 4 were valued $4.4 \%$ above last year's corresponding
week. Increases were common to all provinces except Ontario where sales fell
$3.4 \%$. Gains were: Atlantic Provinces, $13.0 \%$; Quebec, $4.9 \%$; Manitoba, $10.1 \%$; Saskatchewan, 1.3\%; Alberta, 11.1\%; and British Columbia, 8.7\%.

MANUFACTURING
*9. Steel Ingot Production
Production of steel ingots in the week ended November 11 amounted to 129,239 tons, an increase of $4.2 \%$ from the preceding week's total of 124,072 tons. Output in the comparable 1960 week was 112,214 tons. The index of production, based on the average weekly output during 1957-59 of 96,108 tons equaling 100 , was 134 in the current week versus 129 a week earlier and 117 a year ago.
10. Iron Castings And Cast Iron

Shipments of iron castings, pipe and fittings declined in September to 47,310 tons from 52,628 in the corresponding month last year, and in the January-September period to 408,023 tons from 445,556 a year ago. Month's shipments of welded and seamless steel pipe increased to 61,012 tons from 35,555 , while ninemonth shipments advanced to 531,860 tons from 311, 929.
11. Stecl Wire \& Specificd Wire Products

Shipments of uncoated plain round steel wire increased in September to 11,337 tons from $8,0 i 7$ in the like 1960 month, welded or woven steel wire mesh (for purposes other than fencing) to 4,198 tons from 3,240 , steel wire rope to 2,120 tons from 2,086, and iron and steel wire nails to 7,063 tons from 5,402. January-September totals were: steel wire, 84,957 tons ( 82,293 a year ago): wire mesh, $31,190(31,785)$; wire rope, 17,132 ( 18,214 ); and wire nails, 55,625 $(50,379)$.

## 12. Consumption of Rubber

Consumption of rubber (natural, synthetic and reclaimed in September increased 7.4\% to 9,913 long tons from 9.227 in the like 1960 month, while consumption in the January-Sept. ember decreesed $1.8 \%$ to 79,449 long tons from 80,932 a year ago. September consumption was: natural, 2,835 long tons ( 2,949 a year earlier) ; synthetic, 5,719 ( 4,991 ); and reclaimed, 1,359 ( 1,287 ). Jamuary-September totals: nitural, 22, . 787 long tons (27,082 a year ago); synthetic, 44,739 (41,600); and reclaimed, 11, $923(12,250)$.
13. Concrete Products Production of all specified concrete products was larger in September and the January-September period this year as compared to last. September totals were: concrete brick, 11, 225,603 (10,031,116 a year earlier) ; concrete blocks (except chimney), all aggreqates, 14, $962,243(13,459,031)$; cement drain pipe, sewer pipe, water pipe and culvert tile, 85,629 tons $(64,657)$; and ready-mixed concrete, 931,469 cubic yards $(873,166)$. January-September: brick, 79,884,671 (69,456,991 a year ago); blocks, 107,508, $553(99,818,086)$; drain pipe, sewer pipe, water pipe and culvert tile, 606,443 tons $(572,144)$; and readymixed concrete, $6,221,065$ cubic yards $(5,332,387)$.
*14. Output Of Sawn Lumber In British Columbia

Production of sam lumbez and ties in British Columbia in September fell $2.8 \%$ to $472,101,000$ feet board measure from $485,805,000$ in the same 1960 month, according to advance DBS figures that will be contained in the September issue of "Production. Shipments and Stocks on Hand of Sawmills in British Columbia". This brought output in the January-September period to $4,236,671,000$ feet board measure versus $4,260,021,000$ in the corresponding period last year, a decrease of $0.5 \%$. Coast mills accounted for $239,773,000$ feet board measure of the menth's production versus $239,369,000$ a year earlier, and interior mills for $232,328,000$ feet board measure versus $246,436,000$.
15. Minezal WCol Shipments of mineral wool batts in September increased to 27,211,054 square feet from $24,540,973$ a year earlier, while granulated wool decreased to 667,250 cubic feet from 722,490 and bulk or loose wcol to 89,867 cubic feet from 105,313. January-September shipments of batts were up to 211, 690,139 square feet from $170,134,223$ a yeer ago and granulated wool to $5,166,066$ cubic feet from $4,751,400$, while nine-month shipments of bulk or loose wool were down to 497,382 cubic feet from 513,745 .
16. Pzoducts Made Froa Canadion Clays Producers' sales of products made from Caredian clays increased $10.2 \%$ in August to $\$ 4,633,300$ from $\$ 4,204,300$ in the same 1960 month. Deciines in all previous months of the year except February and May were responsible for a decrease of $1.0 \%$ in sales In the Canuary-August period to $\$ 24,699,600$ from $\$ 24,936,900$ a year ago. Sales of building brick were larger in the month at $\$ 3,066,300$ versus $\$ 2,649,800$, and smaller in the eight months at $\$ 15,244,700$ versus $\$ 15,648,600$.
17. Washing Mechines $\hat{\alpha}$ Clothes Dryers Fewer domestic washing machines and clothes dryers were shipped by producers in September than in the corresponding month last year, but January-September shipments of both appliances were above year-earlier levels. Month-end factory stocks were swaller than at the same date last year.

Shipments of washing machines in September amounted to 29,437 units as compared with $32,3 i 9$ in the same morth last year, bringing the nire-month total to 222,679 units versus 220,620 . Month's shipments of clothes dryers totalled 13, $=$ 926 units versus 16,916 , placing the January-September tetal at 70,535 units versus 67,488 .

Month-end factory stocks: washing machines, 24,884 units (34,251 a year earlier) , ard clothes dryers 18,748 units ( 23,123 ).
18. Shipmerts of Specificd Domestic Eiectricel Appliances In September

Factory shipments of electric kettles decreased in September to 37,763 units from 38,661 in the correspording menth last year, steam flat irons to 36,546 from 55,268 , fry pans to 25,396 from 37,210 , zutomatic tcasters to 24,911 from 30,228 , and heating pads to 24,530 from 25,062. Month's shipments of floor polishers incietased to 27,016 urits from 17,873 and cylinder or other straight suction-type vacuum cleaners to 14,956 units from 11,61.6.

Production of chemicals in September included the following items: hydrochloric acid, 4,433,950 pounds (3,653,927 in September 1960) ; sulphuric acl.d, 133,502 tons ( 129,273 ) ; chlorine, 28,366 tons ( 25,519 ); mixed fertilizers, 67,642 tons ( 63,683 ); and sodium hydroxide (caustic soda), 35,196 tons (29,827). Factory shipments of polystyrene were down in the month to $2,936,955$ pounds from $3,906,873$.
20. $\frac{\text { Raw Hides, Skins } \&}{\text { Finished Leather }}$

Tanners' receipts of cattle hides increased in September to 186,452 from 148,858 a year earlier and calf and kip skins to 47,450 from 41,794 , while sheep and lamb skins decreased to 6,070 dozen from 6,637. January-September xeceipts of cattle hides rose to $1,693,390$ from $1,286,231$ a year ago and sheep and lamb skins to 64,979 dozen from 52,84 , while calf and kip skins fell to 595,676 from 602,067 .

Stocks of raw hides and skins held by packers, dealers and tanners at September 30 this year were larger for sheep and lamb skins, goat skins and horsehides and smaller for cattle hides, calf and kip skins and all other hides and skins. September 30 stocks were: cattle hides, 399,662 (415,195 at September 30, 1960); calf and kip skins, 299,441 ( 318,582 ); sheep and lamb skins, 96,765 dozen $(86,575)$; goat skins, $38,709(9,068)$; horsehides, $5,417(4,260)$; and all other hides and skins, 1,193 ( 6,970 ).
*21. Refined Petroleum Products
Output of refined petroleum products in Sept ember increased $10.1 \%$ to $26,336,080$ barrels from $23,924,269$ in the same month last year, according to advance DBS figures that will be contained in the September issue of "Refined Petroleum Products". Receipts of crude oil rose $5.0 \%$ in the month to $25,614,879$ barrels from $24,393-$ 523, receipts of domestic crude rising to $13,529,517$ barrels from $12,660,721$ and imported crude to $12,085,362$ barrels from $11,732,802$.

Net sales of liquid petroleum fuels in September were: naphtha specialties, 165,144 barrels (111,853 in September 1960); aviation gasoline, 234,226 ( 289,513 ); motor gasoline, $9,451,570(9,618,338)$; aviation turbo fuel $, 565,604$ (534,557) ; kerosene, stove oil and tractor fuel, 841,309 (926,014); diesel fuel, $2,307,925$ ( $2,383,304$ ); light fuel oil, $2,532,417(2,457,538)$; and heavy fuel oil, 4,245,375 ( $3,970,952$ ).
22. Canadian Crude Oil Consumption

Consumption of crude oil by Canadian refineries in September increased $10.2 \%$ to $26,054,295$ barrels from $23,639,952$ in the same month last year, bringing consumption in the January-September period to $218,024,736$ barrels, a rise of $4.8 \%$ from the comparable 1950 total of $208,104,802$. Consumption of domestic crude oil rose in the month to $13,981,352$ barrels from $12,577,731$ and imported crude oil to $12,-$ 072,943 barrels from $11,062,221$. Nine-month consumption of domestic crude oil. increased to $119,786,015$ barrels from 115,693,523 and imported crude oil to $98,-$ 238,721 barrels from $92,411,279$.
*23. Shipments Of Foundation Garments

Data on factory shipments of foundation garments in September and the January- September period this year, together with comparable 1960 figures, appear in the following table which is a special monthly release by the Dcminion Bureau of Statistics.

## Type of Garment

Corselettes, or all-in-one garments ... Girdles, with rigid panels plus elastic
Girdles, principally elastic ...........

| 9,614 | 10,044 | 81,835 | 66,062 |

Products shipped by Canada's paper-using industries in 1959 were valued at an alltime high of $\$ 527,714,000$, an increase of $6.7 \%$ over 1958's preceding peak of $\$ 494,781,000$, according to the DBS annual general review of the group. Number of establishments fell to 432 from 434 in 1958, while employees increased $1.2 \%$ to 29,203 from 28,851 , salaries and wages $5.8 \%$ to $\$ 108,053,000$ from $\$ 102,163,000$, and cost of materials used $7.6 \%$ to $\$ 307,060,000$ from $\$ 285,351,000$. Value added by manufacture advanced $5.7 \%$ to $\$ 219,543,000$ from $\$ 207,742,000$.

Value of factory shipments, by province, in 1959 was as follows: Ontario, $\$ 287,544,000$ ( $\$ 268,692,000$ in 1958); Quebec, $\$ 160,882,000(\$ 149,279,000)$; British Columbia, $\$ 34,602,000(\$ 34,177,000)$; Manitoba, $\$ 20,482,000(\$ 20,408,000)$; Alberta, $\$ 13,222,000(\$ 12,759,000)$; New Brunswick, $\$ 4,812,000(\$ 4,734,000)$; Prince Edward Island and Nova Scotia, $\$ 4,190,000(\$ 4,011,000)$; and Saskatchewan, $\$ 1,979,000(\$ 721,000)$.

FOOD \& AGRICUITURE

## 25. Supplies And Exports Of Wheat

 countries for export and for carryover at the end of their respective crop years smounted to an estimated $2,510.1$ million bushe 1 s , $13 \%$ below the $2,895.4$ million available a year ago.Supplies at October 1, in millions of bushels, were held as follows, with last year's comparable figures in brackets: United States, $1,860.5$ (1,922.9); Canada, 563.3 (820.4); Argentina, 30.0 (69.8); and Australia, 56.3 (82.3). Estimates for bcth years include on-farm stocks as well as those in commercial positions. The 1961 Canadian crop, forecast at 261.7 million bushels, on the basis of conditions at october 15, is now taken into account in these calculations.

World wheat exports in the $1960-61$ crop year attained a record level of 1.5 billion bushels and exceeded the previous peak of some 1.3 billion established in 1959-60. In the 1961-62 season another new record of world wheat exports is anticipated.

Total exports of wheat and flour in terms of wheat from the four major exporting countries during August-September 1961 were at the unprecedented level of 231.2 million bushels, some $20 \%$ more than the 192.9 million exported during the same months of 1960. Wheat and flour exports, including those under government programmes, from the United States, Canada, and Australia were at higher levels in August-September this year than last while those from Argentina were sharply reduced.

Canadian wheat and flour exports during August-September 1961, based on preliminary data, amounted to some 71.5 million bushels, $26 \%$ above those for the same months last year and the second largest total on record for the opening months of the crop year. Exports from the United States in the same period were up to 117.0 million bushels from 98.4 million a year earlier, and from Australia to 40.4 million from 18.4 million, while exports from Argentina were down to 2.3 million from 19.5 million.
26. Dairy Factory Production Production of creamery butter, cheddar cheese, ice cream mix, evaporated whole milk and skim milk powder was larger in October and the January-October period this year as compared to last.

Production of these commodities in October was: creamery butter, 32,371,000 pounds ( $25,541,000$ in October 1960) ; cheddar cheese, $11,210,000$ pounds ( $9,-$ 844,000 ) ; ice cream mix, $1,366,000$ gallons ( $1,257,000$ ) ; evaporated whole milk, $25,931,000$ pounds $(24,735,000)$; and skim milk powder, $19,289,000$ pounds (12,193,000).

January-October output was: creamery butter: $311,707,000$ pounds (286,261,000 a year ago); cheddar cheese, $102,247,000$ pounds $(98,178,000)$; ice cream mix, $18,518,000$ gallons ( $18,200,000$ ) ; evaporated whole milk, 292,821,000 pounds (281,274,000 ) ; and skim milk powder, $187,417,000$ pounds ( $148,351,000$ ).
27. Stocks Of Dairy \& Poultry Products

Stocks were larger at November 1 this year as compared to last for creamery butter, cheddar cheese, evaporated whole milk, skim milk powder and poultry meat, and smaller for cold storage eqgs. November 1 holdings were: creamery butter, $159,409,000$ pounds ( $134,754,000$ at November 1, 1960) ; cheddar cheese, 70, 896,000 pounds ( $62,505,000$ ) ; evaporated whole milk, $81,243,000$ pounds ( $61,687,000$ ); skim milk powder, $53,497,000$ pounds ( $26,902,000$ ) ; poultry meat, $46,480,000$ pounds ( $36,279,000$ ) ; and cold storage eggs, 3,000 cases ( 7,000 ).

## 28. Kargarine Production \& Stocks

Production of margarine (including spreads) declined for the second successive month in October, falling $1.4 \%$ to $15,652,000$ pounds from $15,880,000$ in the corresponding month last. year. With increases in all previous months of the year, output in the January-October period rose $9.9 \%$ to $150,737,000$ pounds from 137,097,000 in the like 10 months of 1960. November 1 stocks held by manufacturers, wholesalers and other warehouses amounted to $5,772,000$ pounds, compared to 5,488,000 at October 1 and $4,622,000$ et November 1 las: year.

## 29. Oils \& Fats In September

Production of mazgarine (including sprearls) and shortening (package and bulk) was smaller in September this year as compared to last, while output of refined oils (ccconut, and salad and cooking), lard and tallow (cdible and inedible) was larger. September production of these items was: margarine, $17,556,000$ pounds (17,951,000 in September 1960); shortening, 13,797,000 pounds (13,931,000); refired oils, $5,689,000$ pounds $(5,525,000)$; lard, $8,528,000$ pounds $(7,906,000)$; and tallow, $18,104,000$ pounds $(15,480,000)$.
*30. Output of Process Cheese In October
Production of process cheese from cheddar and other hard or cream cheese base in October amounted to an estimated 5,149,092 pounds, down $5.4 \%$ from the revised September total of $5,442,780$ and down $7.7 \%$ from last year's October figure of $5,578,775$. In October this year, $4,993,030$ pounds were made from a cheddar base and the remainder from other hard or cream cheese base.

Output of process cheese in this year 's January-October period totalled $47,252,813$ pounds as compared to $45,940,694$ in the corresponding 1960 period, an increase of $2.9 \%$. Of this year's output, $45,531,586$ pounds were made from a cheddar base.

Stocks of process cheese held by manufacturers at October 31 amounted to $2,189,028$ pounds, compared to $2,359,160$ at September 30 and $2,235,038$ at October 31 last year. Some $2,029,164$ pounds of end-of-October 1961 stocks were of a cheddar base.
*31. Stocks of Honey Stocks of honey held by packers and wholesalers at September 30 amounted to $17,258,511$ pounds, an increase of $18.6 \%$ from last year's corresponding total of $14,553,499$ pounds. This year's end-of-September stocks were made up of $5,170,931$ pounds packed in containers of 24 pounds or less and the balance in containers of 25 pounds or more.

FUR FARMING
32. Anticipated Pelt Production Canadian fur ranchers plan to pelt 1,254,400 mink this fall and winter, an increase of $4.1 \%$ over the current estimate of last year's $1,205,000$, DBS reports. The number on farms at the beginning of the year rose $4.5 \%$ to an estimated 518,300 from 496,100 a year earlier, while the number of kits raised during the year increased $4.5 \%$ to an estimated $1,286,900$ from 1,231,300.

By colour phase, increased peitings are expected this year in the number of blue, brown and beige, but the number of standard, grey and white pelts is expected to be less than in 1960. Ranchers are planning a moderate increase in the number of mink retained for breeding stock.

Estimates of peltings by colour phase in 1961: standard (dark), 227,600 ( 238,900 in 1.960); grey, $42,500(45,000)$; dark blue, $78,900(71,700)$; light blue, $208,800(197,800)$; brown. $496,800(473,500)$; beige. $116,200(76,200)$; and white, 83,600 ( 101,900 ). It is to be expected that forecasts by colour phase may be less accurate than forecasts for total peltings.
33. $\frac{1961 \text { Edition OL Canada }}{\text { Year Book Released }}$

Release of the j. 961 edition of the CANAD iA YEAR BOOR is announced by the Dominion Bureau of Statistics. This edition is the 55th in the present series which continues a long record of earlier publications that supplied official statistical and other information on Canada's development during the $19 t h$ and $20 t h$ Centuries.

The CANADA YEAR BOOK 1961 contains some 1300 pages of textual and statistical material dealing with the physical features of the country, the machinery of Government, vital statistics, public health and welfare, education, scientific, atomic, space and industrial research, the primary resources of agriculture, forestry, mining and fisheries, manufacturing, labour, transportation and commications, domestic and foreign trade, finance and national income and expenditure.

The price of the CANADA YEAR BOOK 1961 is $\$ 5.00$ a copy for the regular clothbound edition and $\$ 3.00$ for the paper-bound edition. Copies of both editions are obtainable from the Queen ${ }^{1}$ s Printer, Ottawa; from the Dominion Bureau of Statistics, Ottawa; or from private book-sellers. Orders sent to the Queen's Printer or the Dominion Bureau of Statistics should be accompanied by remittance in the form of cheque or money order payable to the Receiver General of Canada.

TRANSPORTATION
34. Railway Revenue Carloadings Cars of railway revenue freight loaded on lines in Canada in the last 10 days of October numbered 99.518 , an increase of $11.2 \%$ from last year's corresponding total of $89,503$. This brought loadings in the month of October to 321,480 cars, some $2.8 \%$ larger then the year-earlier figure of 312,866 . Loadings in the January 1 -October 31 period detined $5.4 \%$ Lo $2,923,799$ cars from $3,090,517$ in the like span of 1960 .

## GAS METERS

35. $\frac{\text { fiegistrations of Gas And }}{\text { Iectric Meters In } 1960}$

Gas meters in service in Canada at the end of 1960 numbered $1,269,365$, a rise of $5.8 \%$ from $1959^{\circ}$ s year-end total of $1,199,743$, according to the anasa? DBS report on electric and gas meter registrations. Meters in natural gas service increased $6,0 \%$ to $1,232,215$ from $1,162,678$, while those in manufactured gas service cecreased $23.7 \%$ to 25,041 from $32,799$.

Number of meters in use measuring the conswmetion of electricity continued to increase in 1960 , rising $3.1 \%$ to $5,317,704$ at the end of the year from $5,157,495$ at the end of the preceding year. Meters classed as in urban use advanced $3.4 \%$ in number to $3,986,821$ from $3,856,096$, and those in rural service $2.3 \%$ to $1,330,883$ from $1,301,399$.

Meters used in measuring the consumption of electricity at urban donestic rates at the end of 1960 rose to $3,423,137$ from $3,307,817$ a year earlier, at urban commercial rates to 457,479 from 443,697 , and at urban power rates to 106,205 from 104,582. Among those in rural service, the number classed as domestic increased to 795,053 , from 780,502 , as farm to 423,732 from 411,991, as commercial to 99,033 from 97.155 , ad as power to 13,065 from 11, 751.
