## TRANSPORTATION

4. Carloadings Revenue freight carloadings during the week ended March $1 / 4$ decreased 5. 5\% to 68,094 from the previous year peliod. Commodities reflecting significant declines included: wheat, 3,186 cars (combared to 3,900 in 1967); nulnwood, 4,072 (4,830); newsprint naper, 2,383 (2,954); miscellaneous carload commodities, $7,610(8,428)$ and merchandise 1.c.1., 3,566 (5,531). Commodities requiring more cars included iron ore, 7,209 (6, 395) and fertilizers, 2,961 (2,096).

Piggyback loadings increased 26.3? durimg ihe week to 4,193 and during the cumulative period increased 6.0. to 34,790 over the preceding year. Receints from both United States and Canadian rafl connections dronped $14.4 \%$ io 23,013 cars during the week under review and during the cumulative period decreased by $4.4 \%$ to 246,726 .

VITALSTATISTICS
5. Births, Deaths and Marriages Live births registered in brovinctal offices in February numbered 26,642 , down from the 1967 month Lotal of 27,941. During the January-February nerind registrations were down $1.6 \%$ from 62,165 in 1967 to 61,164 this year. The greatesi decrease in this neriod was reported in Quebec where births declined io 14,943 1his year from 17,505 in the same two months of 1967. Six provinces repoited increased registrations during the pertod.

Marriages repoted during February mumbered 8,490 comvared with 9,735 in January and 7,177 in February 1967. During the January-February period this year marriages were up $11.9 \%$ over the 1967 period with increases reported in seven provinces. During February, 13,549 deaths were recouded compared with 12,027 in 1967. The cumulative total for the first two montlis was 13.9 : above the 1967 neriod with all provinces showing increases.

## Coxporation Profits Fourth Quarter, 1967

Seasonally-adjusted corporation profits before taxes increased slightiy by $\$ 29,000,000$ or $2.3 \%$ from a revised $\$ 1,287,000,000$ in the third quarter to $\$ 1,316,000,000$ In the fourth quarter. At a seasonally-adjusted rate of $\$ 598,000,000$, profits in manufacturing industries showed an increase of $\$ 37,000,000$ or $6.6 \%$ from the third quarter. In the other industries, excluding mining, profits decieased by $\$ 16,000,000$ or $2.8 \%$ Mining, quarries and oil wells increased by $\$ 8,000,000$ or $5.5 \%$.

\& Includes Africulture, Forestry, Fisising and Construction.
*7. Steel Ingots Steel ingot production during the week ended March 23, totalled 221,408 tons, an increase of $1 \%$ over the preceding week's total of 219,228 tons. Output during the comparable week of 1967 was 194,225 tons. The index of production, based on the average weekly output during 1957-1959 of 96,108 tons equalling 100, was 230 in the current week, 228 a week earlier and 209 one year ago.
*8. Motor Vehicle Shipments Factory shipments from all industries of motor vehicles in 1966 totalled 870,444 units ( 843,845 in 1965) valued at $\$ 1,945,704,000(\$ 1,919,968,000)$. Passenger cars accounted for 683,374 units ( 705,620 ) worth $\$ 1,481,731,000(\$ 1,561,154,000)$ and trucks and buses for 187,070 units $(138,225)$ worth $\$ 463,973,000(\$ 358,814,000)$.
9. Paints, Varnishes and Lacquers

Sales of paints, varnishes and lacquers during January dronped to $\$ 12,700,713$ from $\$ 13,360,640$
in the 1967 month.
10. Asbestos Producers' shipments of asbestos during January totalled 85,014 tons, up from the 1967 month total of 80,129 . In Quebec shipments rose to 74,788 from 65,169 .
*11. Sawnil1s East of the Rockies Production of lumber by sawmills east of the Rockies in January fell to 211,754,000 feet board measure from 225,411,000 feet board measure in January 1967. Stocks on hand at January 31 amounted to 499,594,000 feet board measure.

MERCHANDISING
12. Department Store_Sales Department store sales during February were up $12.9 \%$
over the 1967 month total with regional changes as follows: Atlantic Provinces, $+24.9 \%$; Quebec, $+15.0 \%$; Ontario, $+13.0 \%$; Manitoba, $-2.1 \%$; Saskatchewan, $+7.8 \%$; Alberta, $+23.1 \%$; and British Columbia, $+9.7 \%$.

## 13. Department Store Sales Department store sales during the week ended March 2

 were up $2.2 \%$ over the corresponding 1967 week with regional changes as follows: Atlantic Provinces, $+4.9 \%$; Quebec, $-15.2 \%$; Ontario, $+4.9 \%$; Manitoba, $-0.2 \%$; Saskatchewan, $+26.4 \%$; Alberta, $+6.8 \%$; British Columbia, $+5.2 \%$.14. New Motor Vehicle Sales January sales of new motor vehicles numbered 59,293 54,941. Passenger vehicles numberes, up $7.9 \%$ over the revised 1967 figure of of 45,475 and commercial vehicles at 10,303 units, $1.7 \%$ above the revised 1967 figure number of 9,466 . The the revised 1967 figure of $\$ 188,347,000$.
15. Farm Implement and Equipment Sales Preliminary estimates of farm implement and equipment sales for 1967 indicate an increase of $0.7 \%$ from 1966 to a total of $\$ 482,450,000$. All regions recorded increased sales except Manitoba and Saskatchewan. Sales or repair parts included in the foregoing total increased by $1.1 \%$ from 1966 to $\$ 62,685,000$. Increases in the sales of repair parts were recorded for Atlantic Provinces, Quebec and Ontario.

All eight categories of farm implement shown in detail in this report indicate a decrease in the number of units sold. The number of wheel type tractors sold decreased to 29,768 , a loss of 748 units from the previous year. Sales of crawler type tractors declined by 44 to 29 units. Sales of pull-type combines decreased by 1,419 to 1,905 units, while self-propelled combines declined by 1,391 to 6,054 units. There were 10,004 hay balers sold in 1967 , a decrease of 1,254 from the previous year. Sales of swathers and windrowers, at 11,179 units, registered a decrease of 808 units while sales of heavy duty cultivators, at 6,636 units, declined by 848 units from the previous year. Sales of diskers decreased by 484 to 5,521 units.

## 16. Farm Implement and Equipment Sales

Farm implement sales including repair parts (valued at wholesale price) during January, totalled $\$ 12,999,000$, down $5.6 \%$ from the 1967 month total of $\$ 13,770,000$. Sales of repair parts were down $22.3 \%$ to $\$ 3,357,000$ from $\$ 4,321,000$ in January 1967.

## SERVICES

*17. Hotel Receipts Estimated receipts of hotels in Canada with more than 50 rooms were $12.5 \%$ higher in 1967 than during the previous year. Hotels with more than 50 rooms in Newfoundland and Prince Edward Island showed a $1.1 \%$ decrease in receipts. In all other provinces increases were shown as follows: Nova Scotia, 3.2\%; New Brunswick, 3.2\%; Quebec, $19.9 \%$; Ontario, $13.3 \%$; Manitoba, $11.0 \%$; Saskatchewan, $5.5 \%$; Alberta, $4.5 \%$; and British Columbia, $8.4 \%$. This comparison of hotel receipts for the two years was made possible by figures submitted by a panel of hotels having more than 50 rooms.

(1) Indicates less than 3 firms reporting.
*20. Farm Cash Receipts Cash receipts received by farmers from farming operations,
above the previous record high of $\$ 4,238.7$ million established in 1966. These estimates include cash receipts from the sale of farm products, Canadian Wheat Board participation payments on previous years' grain crops, net cash advances on farmstored grains in Western Canada, supplementary payments to dairy producers and deficiency payments made by the Agricultural Stabilization Boara. No deductions are made for the cost of production of commodities sold.

The gain in total cash recelpts in 1967 is largely a result of higher Canadian Wheat Board participation payments and increased returns from tobacco, cattle, calves and dairy products. Payments made under the dairy support program were also considerably higher. In contrast, a decline in wheat and oat marketings resulted in lower receipts from these commodities at time of delivery. Declines of lesser importance were recorded for rye, flaxseed, potatoes and hogs.

In addition to the above income, farmers also received supplementary payments amounting to $\$ 3.8 \mathrm{million}$ in 1967 , as against $\$ 41.3 \mathrm{million}$ in 1966 . These payments include only those made under the provisions of the Prairie Farm Assistance Act and other government assistance to farmers who suffered losses as a result of adverse weather conditions. When added together, farm cash receipts from farming operations and supplementary payments totalled $\$ 4,385.8$ million, $2.5 \%$ above the previous record of $\$ 4,280.0 \mathrm{million}$ set in 1966.

The regular annual estimates of farm cash receipts for 1967, based on more complete data and including detalls by commodities will be released the latter part of April.

Provincial farm cash receipts (excluding supplementary payments other than those paid to dairy producers) are as follows in thousands of dollars for 1967, with comparable 1966 data in brackets.

| Prince Edward Island | 33,859 | $(36,546)$ |

21. Fluid Milk Sales Sales of standard, special and two per cent milk, excluding skim milk, buttermilk and chocolate drink, totalled 133,812,000 quarts in January 1968, 3\% above the corresponding 1967 total.
*22. Dry Skim Milk Powder Production of dry skim milk powder in containers up to and including 24 pounds during February totalled $3,702,226$ pounds, up $21.6 \%$ from the 1967 month total of $3,043,571$. During the January-February period production amounted to $6,618,106$ pounds, up $4.8 \%$ from $6,316,068$ in the 1967 period. Stocks on hand at the end of the month totalled $3,913,857$ pounds, up $33.3 \%$ from last year's corresponding total of $2,935,500$.
22. Dairy Review Preliminary estimates of milk produced in February at $1,023,000,000$ pounds, were $2.8 \%$ above the corresponding month last year.
During January production totalled $1,098,482,000$ pounds compared with $1,088,551,000$ in the 1967 month.
*24. Process_Cheese The second sentence of the item on process cheese released in the Dafly Bulletin of Wednesday, March 20 , was incorect.
It should have read: Production for the two months ended February showed a decrease of $0.6 \%$ from the comnarable period of 1967 (13,335,104 pounds this year comnared to 13,419,708 in 1967).

## LABOUR

*30. Federal Government Employment Civilian employment within the Public Service increased to 392.9 thousand at the end of June 1967, according to an advance release of data that will be contained in the June issue of the Dominion Bureau of Statistics report, "Federal Government Employment".

Total payrolls increased to $\$ 196.2 \mathrm{million}$ from $\$ 190.2 \mathrm{~m} 11110$ for May. Aggregate payrolls for January to June 1967 were $\$ 1,123 \mathrm{million}$, compared to $\$ 980 \mathrm{mll}-$ lion for the same period of 1966.

In the Agency and Proprietary Corporations and Other agencies, group, employment increased during June to 159.5 thousand, $4.1 \%$ above May. Gross payroll for the month amounted to $\$ 85.7 \mathrm{million}$, an increase of $\$ 3.3 \mathrm{million}$ over May. Cumulative payrolls for the first six months of 1967 amounted to $\$ 477$ million, compared to $\$ 407$ million for the same period of 1966.

Staff in Departments and Departmental Corporations totalled 233.4 thousand, with a total payroll of $\$ 110.5 \mathrm{million}$, compared to 230.2 thousand employees and a total payroll of $\$ 107.8 \mathrm{milli}$ on at the end of May. Cumulative payrolls for the period January to June 1967, amounted to $\$ 646 \mathrm{million}$, as compared to $\$ 573 \mathrm{million}$ for the same period of 1966 .
*31. Financial Statistics of The last sentence in the article on financial staPublic School Boards tistics of Public School Boards released in the Daily Bulletin of Friday, March 15 was incorrect. It should have read: Total Quebec School Board expenditures increased from year to year in 1963,1964 and 1965 by $16.0 \%, 19.2 \%$ and $18.4 \%$ respectively.
*32. Enrolment in Universities and Colleges
Eull-time university-grade enrolment in Canadian universities and colleges, on December 1, 1967 was 261,207 larger by $12.3 \%$ than the preceding year's figure of 232,672.

Total full-time enroment was somewhat lower than expected, particularly at the undergraduate level.

This was mainly due tothe exclusion of 2,747 students in the vocational stream of the twelve newly established C.E.G.E.P. (Collèges d'enseignement général et professionnel:) institutions in the Province of Quebec; the transfer of the Normal School, formerly affiliated to the University of Sherbrooke, Quebec, to provincial jurisdiction (anoroximately 1,200 students), some institutions in Nova Scotia raising their minimum entrance requirement from junior to senior matriculation. Judging by the high part-time student enrolment, it seems that a number of full-time students have changed their status to part-time students.

Ful1-time graduate enrolment increased $22.7 \%$ from 1966-67 to 1967-68 and undergraduate enrolment rose $11.3 \%$. The increase in enrolment of women ( $13.7 \%$ ) was higher than that of men (11.6\%). The gap in the annual increase between men and women has definitely narrowned in the past few years. It was $10.0 \%$ from $1964-65$ to 1965-66, 4.7\% from 1965-66 to 1966-67 and $2.4 \%$ from 1966-67 to 1967-68.

The total number of part-time students increased at a faster rate than the number of full-time students. There were 99,079 part-time students on December ist, 1967, representing an increase of about $18 \%$ over the nrevious year.

More detalled information on the 1967-68 enrolment including enrolment by faculty for each irovince and for individual institutions, classified into full-time, part-time undergraduates and graduate is avallable from the Dominion Bureau of Statistics' Education Division.

E D UC A T I O N (concluded)
page

Expenditures on public elementary and secondary education in Canada for 1965, expressed in lerms of dollars per pupil of Average Daily Attendance, and per capita of nopulation have been determined by the Finance Section of the Dominion Bureau of Statistics' Education Division. The two tables shown below present these data by province and for the country as a whole, for the most recent four years.

Exnenditures per puisl of Average Daily Attendance in Ontario had to be recalculated because of the change in reporting in 1962,1963 and 1964 . As a result national figures have been adjusted. This is indicated by asterisks.

The more pronounced variations are due, as a rule, to the fluctuations in capital expenditures out of current funds. This is definitely the case in Ontario where construction of a number of vocational high schools in 1962 was the chief factor responsible for a $35.5 \%$ year lo year increase, followed by two years in succession when expenditures by pupil of A.D.A. actually declined. Similar situation existed in Alberta in the same period of time, reducing markedly the national rate of growth.

The 1965 figures, although not yet fully analyzed, indicate that canital outlays have, more or less, resumed their former rate of advance.

The table showing expendilures per capita of ponulation does not merit special comment, the pattern being largely the same as in the first table, and for much the same? reasons.

Motor vehicle traffic accidents on Canadian streets and highways during December claimed 470 11ves, a $2.9 \%$ decrease from the December 1966 total of 484 . This placed the 1967 fatalities at 5,393, un $2.1 \%$ over the 1966 total of 5,281. December's regional death toll was as follows: Newfoundland, 10 ( 6 in December 1966); Prince Edward Island, 2 (2); Nova Scotia, 36 (23); New Brunswick, 21 (22); Quebec, 119 (149); Ontario, 146 (168); Manitoba, 17 (15); Saskatchewan, 45 (29); Aiberta, 31 (26); British Columbia, 42 (44); and the Yukon and Northwest Territories, 1 (nil).

During the year 1967 Canada's regional death toll was as follows: Newfoundland, 82 (93 in 1966); Prince Edward Island, 28 (33); Nova Scotia, 255 (229); New Brunswick, 238 (231); Quebec, 1,622 (1,727); Ontar10, 1,719 (1,596); Manftoba, 200 (207); Saskatchewan, 287 (279); Alberta, 393 (359); British Columbia, 559 (520); and the Yukon and Northwest Territories, 10 (7).

When comparing the number of traffic deaths in this release with those in the annual Dominion Bureau of Statistics report, "Vital Statistics", please note the explanation in the Daily Bulletin of April 13, 1967.

(1) reportable minimum property damage $\$ 100$
(2) excluding city of Montreal except for fatal accidents and persons killed
(3) excluding Quebec
(4) excluding city of Montreal except for fatal accidents and persons killed since June 1967
.. not avallable
