## Weokly Inturas

Tho roilway traffic movemont roorriod recussion after suasmal adjust cint in tho wook of Decomber 13. Car loadings numborod 62,886 against 66,666 in tho poocdine wook. The toti: 1 m vemunt during the first 50 yooks of the year wis $3,087,000$ aars, e. merked increaso heving been shown over the samo neriod in both 1910 and 1939. isocreing to proliminary arlculations the indax of the physiad volume of businoss wes prociodily maintained in llivemior at the same lovel as in the prooeding month. Novoinber wraduotion of automobilos, including trucks and verius other typos of vehiclos for ommeroic. 1 purposcs. amounted to 21,545 units compared with 19,360 in tho procodine in inth. Tho total for the first eloven months was 250,118 units aürnst 199,620 in 1940.

Wholesale prices showed minor rucession in the week of Docomior 12, tio index recoding from 93.6 to 93.5 . The decine from the highest point in recent months whs onehilf point, so raximum of 94.0 having beon reached. Tho presont standinis oumicues with 72.7 in tho wok of sucust 25,1939 , 0 gain of 28.6 p.0. heving ioon indice.ted During the weok aiv:ncos were shown in orop products and non-metallio minorals, while canmal products sicatod a minor recotion. Bank clearings woro $\$ 509.4$ million in 30 representative oities durine tho woek ended Deoember 18. sin increase of slightiy more than 32 per oent was shown ovor the sume perixd of 1940.

The adjusted indox of bank clearines movad up about 10 points to 11 s. 2 over tho prom coding wook, whilo a gain of 19 per ount was shown over the samo wook of 1940 . Bond prieus showed rooussion but the standing was hishor than in tho sumo wook of 19is0. Further reaction was sinown in oommon stooks. The index on the base of 1926 droppod sne point to 73.2. in index of 20 Industrials traded on the Montreal Exchange rocodor from 60.1 to 59.2 durine the weok ondod Decomber 18. Twonty Industrials on the Toronto Stook Exohange doolined from 91.37 to 90.72 during tho same poriod.

The weolely inclex representing the fluctuctions in six prominont faotors wes 116.7 for tha wock of Deaember 13 against 115.7 in the procoding wook, a gain of 0,9 par cent. The incroaso was oocasioned by tho gnin in bank olearings as othor fcotors shoved recossione The standing rno year ago was 108.7, a gain of 7.4 having buen indionted. Each of the faotors oxoopt oormon stock pricos was at a higher position than ono yoor a jo.

## Visible Supply of Wheat

The visiblo supply of Canadian whoat on Deoomber 12 was $503,632,908$ bushols oamparod with $502,384,275$ on Docomber 5 and $478,205,223$ on the corrusponding date last yoar. Tho stocks in olovators in Canado totalled $469,923,043$ bushols, the balanoo of $33,709,865$ being in storage in the Unitod Statos.

## Oversoas Exiort Clearanoes of Whoat

Exnort olearinces overseas of wheat during the woek endirig Decombor 12 amounted to $4,183,113$ bushols, compared with $1,480,527$ in tho oorresponding wook last yuar. The cocumulatoi toti. 1 for the nineteon weoks onding Deoomber 12 aggregatod 54,081,999 as wounst $34,927,663$ in the same period last yec.r.

## Primary Move:zont

Whoat ruccipts in the Prairio Provinoos for the wook onding Docombor 12 totallod $6,998,186$ bushols camparod with $7,148,256$ in the provious woek and $9,693,336$ iuring the samo wook a year a.goo By provincos tho rocoipts woro as follows, with 1940 figuros in braokets: Manitobe, 1,629,949(1,151,339) bushols; Sc.skatohown, 2,720,979(4,718,412), Alborta, $2,647,258(3,823,585)$.

Markotings of whoat during the ninoteen wooks onded Doceribor 12 amountod to $136,502,228$ bushels as against $263,726,811$ in the liko poriod of 1940 . Tots.ls by provinoos for the same norind were as follows, with 1940 figuros in braokots: lianitoba, $25,817,378(35,767,641)$ bushels; Saskatohewan, $71,696,659(144,478,925)$; dibertc. $39,998,191$ ( $83,480,2 \div 8$ )。

## Primary Iron anc Stool Industry

Contriouting immasurably to the mation's war offort, the output of Concian iron and stool mills was stopped up sharply in 1940. Factory salos of pig-iron, ferro-ciloys, stool ingots and oastings and finished rollod produots woro 50.9 por cont hioher in 19's0 than in 1939, the values boing $\$ 114,598,409$ and $\$ 75,934,481$, respootively. Thonty-five works in Ontario 0.00 ounted for 66.6 per oont of the total for Canada; six plents in Nova Scotia a 000 ountod for 19 per oent; fourtoon plants in Queboc for 11.8 por oont, while the romaining 2.6 per ount was aooounted for by four plants in Menitobe, four in British Columbia and one in ilberta.

Output of $1,168,839$ tons of pig iron in 1940 was 55 por cont ovor tho 755,731 reported for tho provious yoar. Production of basic iron amounted to 974,629 tons or 83 p.0 of the tota\% : foundry iron amountod to 107,924 tons and malleable iron 86,286 tons. Steel production iòvanoed 45 per cent to $2,012,294$ tons in 19 is fram 1,384, 870 in 1939, while ferro-ciloys output in 1940 totallod 133,388 tons, a gain of 74 per cant over the 76,375 tons reported for 1939 .

In 1940 , an averago of 17,774 persons wore employod in the industry, this boing an increase of 28.5 per cent over the 1939 average of 13,827 . Pcyments in salarios and wegos amountod to $\$ 29,207,036$, a gain of 43.1 por oont over the provious yocr's totel of $\$ 20,410,517$.

Cool Proiuction During Third Quarter of 1941
The Cariadian output of 0001 during July, hugust and Soptomber totallod 4, 208,539 tons oomparod with $4,018,323$ tons a year c.go. Bituminous ooal outyut during the third quarter amounted to $3,243,961$ tons, sub-bituminous coal to 138,543 tons and Ingite ooal to 826,035 tons.

Canace importod 8,249,832 tons of oxil during the third quartor of 19.1, as c.gninst 6,921,435 tons during July, fugust and Soptomber, 1940. Imports inoluded 1,307,032 tons of enthradito, 6,942,784 tons of bituminous and 16 tons of lifnite.

Cannde's ojal supply (omputod on the basis of produotion plus imports loss exports) amounted to $12,316,126$ tons against $10,787,346$ tons for the third quartor of 1940 .

Canodian oxal mines empzoyod 22,217 men in July, 23,816 mon in iuzust, cme 24,838 men in Septomber. On the average, these mon produced 178.1 tons during the porici, or 2.6 tons por man-day.

Tho tomp of caneda＇s war offort as ovinood by export trado is inoroasine month by month and the totel for Novombur shows its improssive inorce．so．Tho Dominion＇s aggracato oxport of $=11$ oarmoritios iast month amountod to $\$ 162,435,000$ oomparod with $\$ 117,452,000$ in Novombor： $19 \% \mathrm{O}$ ，c bottormont of $\$ 44_{8} 983,000$ ，or $38 \frac{1}{2}$ poo．Tho oxport to Empiro ountrios was $\$ 85,059,000$ comparud with $\$ 67,484,000$ and to Foroign Countrios $377,376,000$ as against $\$ 49: 968,000$ in Novembor a yoar ago．

Tho foaturo perhaps of tho Novomber oxport was tho rush of prosumably war supplios to tho oountrios that cre cotivoly ongoged in tho war as Canada＇s allios．The amount sont to Russia was $\$ 1,217,000$ as against in11 a yoar agoo The total to Egypt was $\$ 10,394,000$ or an increcse by five timeso The export to British India，whore Sir Lrohibcild Wavoll has ore anizod a vast nemy，was $\$ 3,519,000$ or twion what it was a your ago．Indeod，during the olvvan months of 1941 tho total was $\$ 37,542,000$ or more than four timos the degregato of tho samo norioc of 1940 ，

Exports to the United Kingdom were very hoavy at $\$ 60,826,000$ as a a ainst $\$ 52,733,000$ in Novamber 1940，and to Unitod Statos $\$ 59,886,000$ as eqeinst $\$ 43,959,000$ ．

Sono othor countries wore sent oxperts in November as follows with the 1940 figures in braokots：British South insicn，\＄3，016，000（\＄2，221，000）；Bormuta；\＄422，000（249，000）； British \％st isrior．WITs， $000(\$ 76,000)$ ；Straits Settlements， $31,000,000(336,000)$ ；British Galona， $3965,000(8324,000)$ ：Lustra．1a， $33,273,000(\$ 2,262,000)$ ；Now Zoo 1and，31，022，000 $(\$ 391,000)$ ）Nowfourdinnd， $5,291,000(\$ 2,065,000)$ ，

To South morican countries Canadn＇s exports have increased vary noticocbly． hreontina， $687,000(\$ 334,000)$ ：Brozil。 $\$ 798,000(\$ 418,000)$ ；Chile， $126,000(398,000)$ ； Colambin， $203,000(104,000)$ ；Perus $\$ 117,000(\$ 113,000)$ ；Uruguay，$\$ 157,000(\$ 18,000)$ ；Vonem zueln，$\$ 182,000(\$ 175,000)$ 。

The notowerthy inorenses in the oxport of what，fishery produets，monts，oheose， ootton，wod pulp：nowsprint，automobilos and parts，stone，rubber，ohomici．1s，fruits， vegotbales，alowholic bovoragos，oges，wool axtificial silk，form imilo onts，and barloy wore tho main factor：in malsins the ralu of Concial：domestic exports during Novorber this your ac omparnd uith list yoar．

Tho valuos of tho foregoing oxports woro as follows，with 1940 figuros in braokots： wheat，$\$ 17,513,000(313,54,7,000)$ ：fishery produots：$\$ 6,496,000(\$ 2,137,000)$ mocts， $\$ 10,405,000(38,906,000)$ ；ohcose， $32,116,000(31,306,000)$ ；outton， $31,516,000(, 809,000)$ ； wood pulp， $6,9,000(35,667,000)$ ；nowsprint， $14,205,000(13,343,000)$ ；autamobilos and parts， $13,338,000(\$ 10,419,000)$ ；stone $\$ 1,369,000(\$ 1,074,000)$ ；rubuor， $31,978,000$ $(\$ 974,000)$ ；chemicols，$\$ 6,011,000(\widehat{3}, 458,000)$ ；fruits，$\$ 1,397,000(\$ 486,000)$ ；vegetablos， \＄1，152，000（ 3357,000 ）；\＆1coholio bovorages；1， $970,000(\$ 1,558,000)$ ；eggs， $7797,000(, 501,000)$ ； wools $\$ 317,000(\$ 217,000)$ ；artifioial silk，$\$ 307,000(\$ 137,000)$ ；farm implonents，$\$ 688,000$ （ $\$ 495,000$ ）；le．rlcy，$\$ 343,000(\$ 16,000)$ ．

Othur lodiing exports wore as follows，with 1940 figures in braokets：whect flour， $\$ 2,398,000\left(3,344_{2} 000\right) ;$ ceitic $, \$ 1,143,000(1,523,000)$ ；furs，$\$ 517,000(\$ 805,000)$ ；planks and boards？${ }^{3} 6,723,000\left({ }^{3} 6,766,000\right)$ ；pulpwood， $21,058,000(31,057,000) ; 0001,3299,000$ $(\$ 225,000) ;$ yetroloum，$\$ 402,000(3209,000)$ ）fortilizors，$\$ 577,000(\$ 385,000)$ ．

Fruits Nursory Stook Sales
During the twelve months ending llay 31 this yoer，sales of nursery stock reportod to the Dominion Burenu of Stutistics had a．wholesale value of $\$ 23,301$ as compared with $\$ 250,561$ in the previous twe lve months．Apple treos to the numbor of $321,76 f_{s}$ and vilued at $\$ 80,309$ can：$\because$ ise the largost singlo itom，of which 51,949 wore oarly variotics valuod at $\$ 13,255 ; 59,263$ fall vanietios valuod a．t 315,$825 ; 190,307$ winter variotios valued at $\$ 46,330 ; 20,246$, orab apple valuod at $\$ 4,898$.

The numbors and voiues of other kinds of stook wores poach $185,708, \quad 28,579$ ；pear $89,943,326,839 \mathrm{~cm} 50$ socdings． 35 plum 77,$449 ; 26,250$ and 7,782 seodines． 357
 quinoc 355 ，\＄118；blackberry 21，710，\＄635；current 93,136 ， 8,044 ；Goosoborry 36,332 ；$\$ 4,143$ ； grape $226,581_{0} 23,583$ and RDO soedings，$\$ 16 ;$ loganborry 7,003 ，$\$ 330$ ；respborry 544,708 ， 311，763；straworry $l_{3} 319,564$ ．$\$ 8,379$ 。

Fur Firms of tho Priiris Fruinces
British Columoia and the Yikon
Tho valuo of fur farm proporty in tho four wostorn provinoes and tha Yul:on Territory in 1940 was $6,606,942$, an increase ovor 1939 of 172,446 or throo por oent. The number of fur farms in operation wes 2,719 omparod with 2,868 in 1939. Tho arount roooivod from the sale of live animals and polts was $32,515,487$, to whioh tho rolt skios oontributod 72,278,955 or 91 ner cont. The total from both sourcos shows an incroaso ovor 1939 of Q $401,+30$ or 19 per oent.

The valuo of fur-bearing animals retained on the farms of the four provinoes and tho torritory at the ond of 1940 was $3,190,411$, an incrcaso over 1939 of 50,059 , or $1 \frac{1}{2}$ p.c. The chief kinds in order of value are: mink, $31,749,772$; silver $f x, \$ 1,059,005$; chinchilla, 155,250; and the now type fox, inoluding platinum, whito-fcoo and frook fozes, 125,048.

This now type fox is beooming inoreasingly important in tho fur-famine industry, and in tho wostern provinces the number on tho farms at tho ond of the yocis has inoroased over the precudinc year by 312 por oons and tho value by 212 per cont.

## Livestook and hamal Produots

Tho amuil reort on IVestook and animal products statistios for tho year 1940 has beon issuid hs usual it wes propered in oollaboration with the Dopartaont of agricultures It contims much information for whe farmers, trodors and nonufaturers.

Cank 1 Tr efic in loveriver
in sharp inorecse was reoorded in tho tonnage of freight passing through Canadian and United States laoks of the Scult Ste. N rio Canals in Novembor over tho oorresponding month last yoar. The total was $12,222,9 \div 2$ tons as against 8,642,025. Iron ore down the cunal inorecisce to $8,190,918$ tons fram le.st yoar's tomnago of $5,809,999$, a ge.in of 41 p.o. Traffic usine the velland Ship Canal in November totalled l, 466,136 tons as against 1,528,903 a your abo, and the St, Lavionce Canals 774,350 tons comparod with 893,008.

Prodiotion oi Leaticer Footwoar in October
The October production of leather footwear in Canada marks a now high monthly point to sate. Tho total output was $3,1 \& 1,512$ pairs, cin inorcase of four por conto over the proceding month and 24 per cent over the orrosponding month last yecr. Tho total for the 10 months encled Ootober was $26,975,064$ pairs oompared with $21,985,976$ in tho oorresponding poriod of 1940. The production for the 10 month poriod of 1941 axoocds by 713,976 pairs the tuml for the full twolve muths of 1940 .

Manuracturing in Quebec
The value of memp faotured produots in Queheo in 1939 totallod $3,045,757,585$, representing on inorease of 6.4 p.oe as comparsd with the previous year. Queboo, with about 30 p.c. of the Dominion outrut is the sooond largest manufacturing provinoo. Tho produotion of puln and vonor is the dominant industry. In addition to supplying abjut $10 \mathrm{p} \cdot 0$. of the gross value of quebeo manufacturos, it furnishes about 50 p.o. of the Dominion total for this industry. The value of toba.000 produots forms approximatoly 35 p.0.e, cotton yarn and cloth 70 F.c., wamen's factory clothinc 67 p.c., loathor b ots and sioos 60 p.0.0,
 of theso procucts. The province of Quebeo is thus an outstanding manuficoturing provinoo rathor on cocount of her lorge individual industries than boccuso of the divorsifioction of hor industeial uctiontioso

Artifioial Aorasives
Artifioial abresives were mede by four plants in Ontririo and two in quobco. The output af these six works in 1940 was valued at $\$ 12,431,295$. The total produotion of $a 11$ products mario by the manfooturers of artificial abrasives c.nc artifioiul abresive produots amounted to $\$ 15,324.693$. This represents e. gain of $65 \mathrm{p} . \mathrm{c}$. over tho total of $9,275,1 \div 3$ for 1935.

2s furthor list of the populations on Juno 2 this yor. of placos in cancico is announood this waok. mon st the largor placos aro the following, with tho 1931 figures in brokuts: Quoboo City, $147,002\left(130,59{ }^{1}\right)$; North Bay, Ontcrio, $15,357(15,528)$; St. Thamc.s, 17,045 ( 15,430 ); Pomrooke, $10,999(9,368)$; Sudbury, $31,806(18,518)$; Timmins, $28,46 i(14,200)$ : Portago la Preirio, Kanitobe, 7,095(6,597): Tho Pas, 3,153(4,030); ilolvillo, Se.skatohewan, 4,002(3,891): Calge.ry, ilborta, 87,264(83,761): Edmonton, $92,4_{0} 04(79,197)$; iiodicino Hat, $10,573(10,300)$; Chilliwaok, B.C., $3,618(2,461)$; Vernon, $5,099(3,937)$; Dunoan, 2,130(1,843), Grand Forks 1,161(1,298); Prince Goorge, 1,989(2,479); M1ssion, 1,940(1,314).

## Traffic on Reilways in September

Railway rovenue freight loaded at Canciian stations and rooolvod frm forcitn oonnootizns during September amounted to $10,667,864$ tons as against $8,726,5 \xi_{1}$ in the corresponding month list yeir, a gein of 16.4 por oont. In the previous month tho totil was $10,448,835$ tons.

Produotion of sutomobiles in November
Produotion of motor vehiolos in Cancica totallod 21,545 units in Novemor compared with 19,360 in the provius month and 23,621 in Novombor, 1940. Included in tho figures for November this yoc.r wore 7,003 passencor cors and 14,542 truoks and amy vohiolos. For the eloven months of 1941 the oumulative outnut of automobilos was 250,118 oompared with 199,620 units in the corrosponding veriod of 1940.
