"The Canadian Balance of International Payments—A Study of Methods and Results" is now available for distribution. This volume of 251 pages gives a comprehensive survey of the compilation methods used, in addition to numerous tables setting forth the results of several years of research. It is particularly timely and useful in the face of the considerable influx of capital which is now under way for investment in Canadian enterprise. The price is \$1.00, payable to the Receiver-General of Canada, and should be mailed to the Dominion Bureau of Statistics, Ottawa, Canada.

MONTHLY REVIEW OF BUSINESS STATISTICS

Vol. XIV

OTTAWA, AUGUST, 1939

No. 8

DOMINION STATISTICIAN: R. H. COATS, LL.D., F.R.S.C., F.S.S. (Hon.)
BUSINESS STATISTICIAN: SYDNEY B. SMITH, M.A.

CURRENT ECONOMIC CONDITIONS IN CANADA

The factors indicating the trend of economic conditions averaged slightly higher in July than in the preceding month. Financial indicators showed a continuance of the advance, deposit liabilities of the banks rising at the beginning of the month. Notice deposits rose to a new high point after seasonal adjustment, while demand deposits have recently shown a decline. The upward movement of current loans continued, contrasting with the decline in call loans both in Canada and elsewhere. Security holdings and the readily available assets of the banks advanced to new high levels.

A moderate rally occurred in common stock prices during the latter part of July counterbalancing a portion of the reaction during the preceding five weeks. The index averaged 97·3 in July against 97·0 in the preceding month. Speculative trading was at a lower position. Influenced by prospects of heavy grain crops, a reaction was shown in wholesale prices during July. The chief alteration was the decline in grain prices, but other main groups also showed recessions. The index of wholesale prices which had remained remarkably steady subsequent to September of last year was 72·6 in July against 73·3 in June.

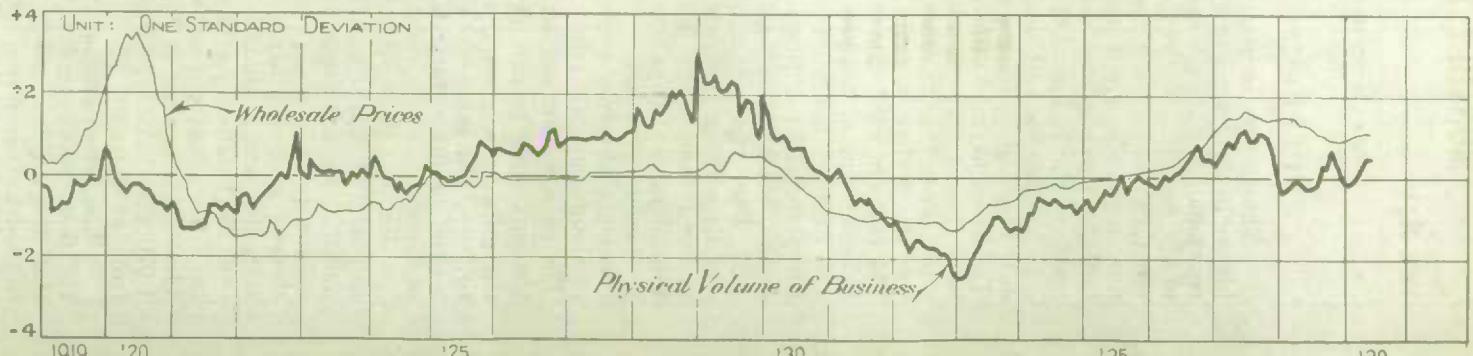

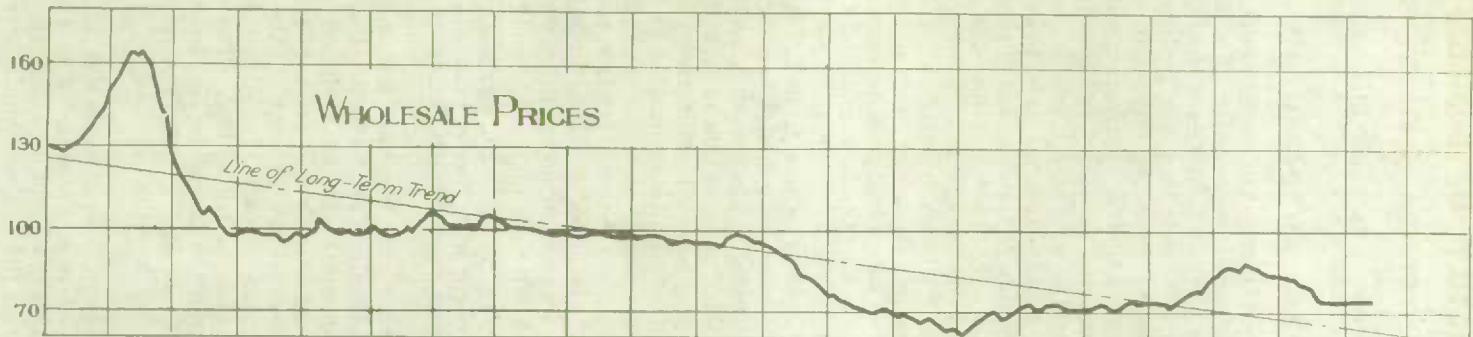

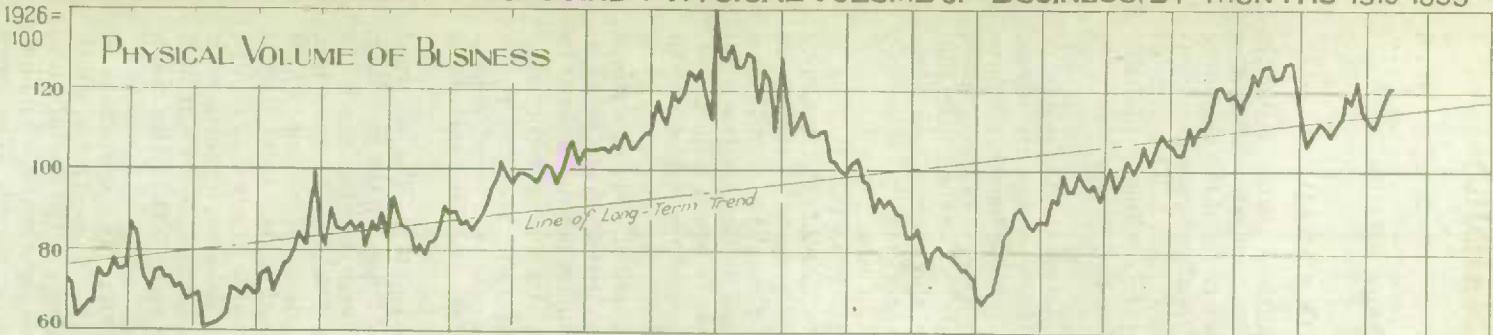

Business operations were practically maintained in July at the standing of the preceding month, the index receding from 121·4 to 120·2.* The majority of the factors showing the trend of mineral production recorded advances in July after seasonal adjustment. The manufacture of foodstuffs was in a slightly greater volume. The consumption of raw cotton indicating the trend in the cotton textile industry showed an increase after seasonal adjustment. Considerable decline was shown in the operations of the forestry industry from the high level of June. The primary iron and steel industry continued active, a considerable increase having been shown in pig iron production. The operations of the automobile industry slackened pending the introduction of new models. The construction industry was not so successful in obtaining new business as in the preceding month, even after seasonal adjustment. A gain was recorded in the railway freight movement, the index of car loadings rising about 5½ points to 76·8. Merchandise exports were nearly maintained after the usual adjustments. Bank debits showed considerable decline in July from the high level of June.

Exports of copper and nickel recorded advances in July. The outward shipment of copper was 46·9 million pounds against 42·2 million in the preceding month. Nickel exports amounted to 17·3 million pounds against nearly 16 million pounds in June, the index rising from 270 to 288. Lead production showed recession after seasonal adjustment in the latest month for which statistics are available. Zinc exports showed acceleration, the total having been 34·1 million pounds against 33·2 million. The exports of silver amounted to 2·0 million ounces against 1·2 million in June. Asbestos exports were 14,450 tons against 23,844 in June. The coal output was 1,064,354 tons against 1,070,984. The recession was less than normal for the season, the index rising from 98·0 to 102·0.

The meatpacking industry was more active in July. The operations of the flour milling industry showed an advance in the latest month for which statistics are available. The net result was that the index of the manufacture of foodstuffs rose from 102 to 104. The manufacture of sugar was 85·5 million pounds against 94·1 million in the preceding four weeks' period. The index

*Preliminary

INDEXES OF WHOLESALE PRICES AND PHYSICAL VOLUME OF BUSINESS, BY MONTHS 1919-1939

consequently dropped from 96 to 85. The manufacture of flour was 1,187,875 barrels in the latest month for which statistics are available, the index rising from 73·9 to 82·6. The index of inspected slaughterings rose from 127·2 to 135·8, increases after seasonal adjustment having been shown for sheep and hogs. The slaughtering of cattle amounted to 126,932 against 140,444 in the preceding month. The production of factory cheese increased from 22·2 million pounds to 22·4 million, but the gain was less than normal for the season and the index dropped from 74 to 70. The output of creamery butter was 38·1 million pounds, a slight recession being shown from the preceding month. The exports of canned salmon dropped sharply to 1·5 million pounds against 2 million in June.

The consumption of raw cotton receded from 10·7 million pounds to 10·2 million, but the decline was less than normal for the season and the index consequently rose from 124·4 to 126·0. Woodpulp exports was the only factor for the forestry industry to show a gain in July. The production of newsprint was 227,630 tons against 240,545 tons in the preceding month. The exports of planks and boards dropped from 206 million feet to 185 million. The increase in the export of shingles was less than normal for the season, the index dropping from 153 to 140. Woodpulp exports amounted to 1 million cwt. against 0·8 million cwt. in June, the index advancing from 54·6 to 60·3.

Pig iron production was 59,587 tons against 52,805 in the preceding month, resulting in an increase in the index from 86 to 100. The gain in the output of steel ingots was less than normal for the season, the rise having been from 107,902 tons to 111,149. Owing to the preparation for the introduction of new models, the automobile industry was slack in July, the output having been 9,135 units against 14,515 in the preceding month. The index after seasonal adjustment declined about 6 points to 70·1.

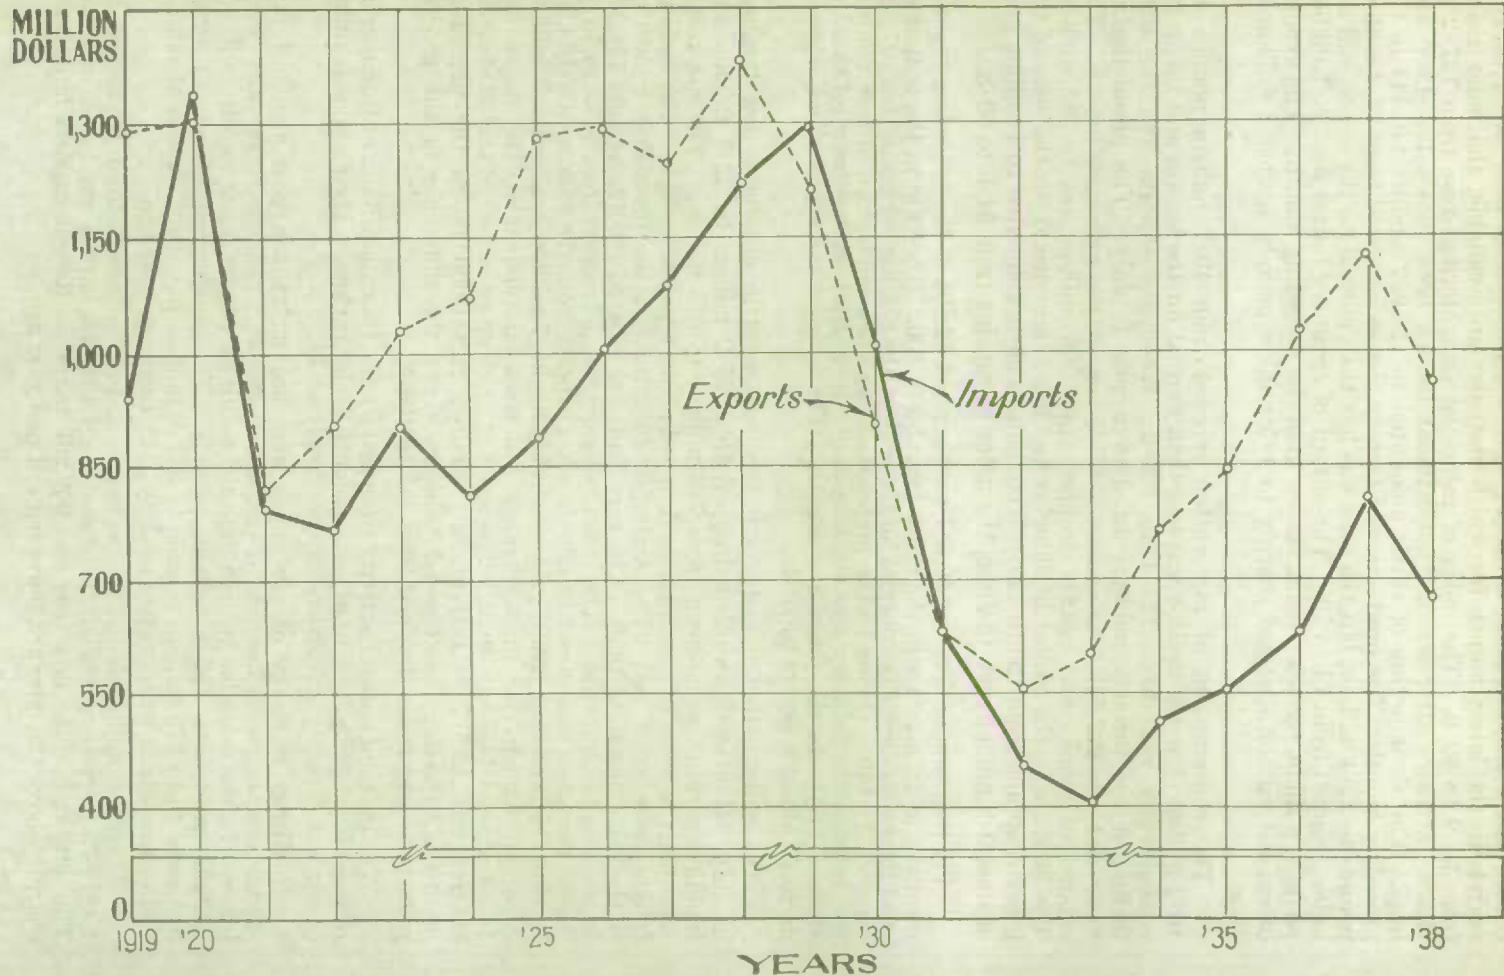

The construction industry was less successful in obtaining new business in July. Contracts awarded dropped from 25·2 million to 22·1 million and building permits were down from 7·8 million to 6·5 million. The net result was that the index of construction dropped about 6 points to 53·2. The railway freight movement was more active in July than in the preceding month or in the same month of 1938. The cars loaded numbered 196,392 against 194,522 in the preceding month. The index consequently advanced from 71·3 to 76·8. Minor recession was shown in merchandise exports from the comparatively high level of the preceding month, the amount being 91·7 million against 94·5 million. After adjustment for price changes and seasonal tendencies, the index was 145·4 against 145·8 in June. The amount of cheques cashed in the 32 clearing centres was \$2,377,000,000 in July against \$2,831,000,000 in the preceding month. Adjusting for seasonal tendencies and the difference in the general price level, the index dropped from 119 to 106.

The index of general activity compiled by the Canadian Bank of Commerce, receded from 92 in June to 91 in the month under review. The composite index of current capacity utilized remained steady at 74.

Meltings and sales of raw sugar were heavier than a year ago, but raw sugar receipts, manufactures of refined sugar and refined sugar sales were lower. In the calendar year to date the meltings of raw sugar rose from 385·5 million pounds to 405·8 million pounds. The production of refined sugar increased from 370 million pounds to 387·8 million pounds. Stocks of refined and of raw sugar were greater on July 15th than one year ago.

The flour milling industry was active in June, although total production at 1,187,875 barrels was slightly below the 1,191,778 barrels produced in May. The output in June last year was 969,207 barrels. Recent exports have been sharply above the outward movement of one year ago.

VALUE OF CANADIAN EXPORTS AND IMPORTS, BY YEARS, 1919-1938

Production of leather footwear in June amounted to 1,850,673 pairs, a decline from the preceding month of 187,844, or an increase of 135,903 over last year. The quantity manufactured during the first six months of 1939 was 11,249,771 pairs against 10,946,853 in the same period of last year.

Newsprint

Shipments of newsprint again totalled somewhat below production, a figure of 221,743 tons comparing with 232,261 tons in June and 205,490 tons during July last year, the increase on the latter comparison being 7.9 per cent. During the month the industry operated at 65.3 per cent of rated capacity against 59.6 per cent a year ago. Canadian domestic sales and those to the United States customers recorded a gain over a year ago, while overseas shipments were practically unchanged. For the seven months ended July, Canadian output at 1,568,694 tons compared with 1,462,417 tons a year ago, while shipments at 1,528,081 tons compared with 1,335,989 tons.

Exports of asbestos for the six months' period were valued at \$4,644,000 as compared with \$4,667,000 in the same period of 1938.

A total of 15,693 new and used cars were financed for \$6,061,000 in July against 13,622 at \$7,444,000 in the preceding month, and 16,204 at \$6,468,000 a year ago. Cumulative totals for the first seven months showed 95,710 new and used motor vehicles financed for \$39,556,816, recording declines of 10 per cent in the number and 15 per cent in amount of financing below the 106,795 vehicles at \$46,397,779 in the same period of last year.

Construction

The total value of construction contracts awarded in Canada during July, although 12 per cent below that for June, was higher than for any other July since 1931. The value of contracts awarded during the first seven months of the current year was nearly four per cent higher than a year ago, while the increase in the value of residential contracts was over 30 per cent, represented by an advance of \$10,100,000. The value of construction was higher than for any other seven months since 1931, with the exception of 1937 when highway construction was particularly active. Contracts awarded in July amounted to 22.1 million dollars, an increase of 4.5 per cent over the same month of 1938. Contracts for the seven months to date totalled \$105,575,600, an increase of 3.6 per cent over the same period of 1938, when the awards were valued at \$101,813,400.

It was reported on August 3rd, by the Monetary Times, that the total fire losses to July 29 this year amounted to \$9,156,400 compared with \$10,166,975 for the same period of 1938.

Agriculture

Wheat stocks in elevators in Canada for the week ended August 4 were 88.1 million bushels compared with 17.4 million bushels on the same date of last year. Wheat marketings in the three Prairie Provinces for the fifty-two weeks ended July 31 last, were 290.4 million bushels, compared with 195.4 million in the preceding crop year. Imports of wheat into the United Kingdom in the six months ended June 30 amounted to 56.8 million hundredweights against 47.4 million hundredweights in the first half of 1938. Receipts from Canada amounted to 16,639,000 hundredweights, against 8,686,000 hundredweights in the same period of the preceding calendar year.

The marketing of live stock at the stockyards showed acceleration in July over the preceding month after seasonal adjustment. Cattle sales were 61,220 head against 46,953 in June, gains having been shown in each of the main classes of live stock. The index advanced from 70.5 in June to 78.3 in the month under review.

The index of cold storage holdings after seasonal adjustment, was 150.2 on August 1, against 150.6 on July 1. Declines were shown in eggs, butter, cheese and veal, while other meats, poultry and lard recorded increases after the

usual adjustment. Declines were shown after seasonal adjustment in the output of factory cheese and creamery butter. The increase in the output of cheese was less than normal for the season, the index dropping from 73·5 to 69·6.

Fisheries production reached in 1938, the highest value level since 1930. The total last year was \$40·5 million, a gain of \$1·5 million over the preceding year. British Columbia, Quebec, Prince Edward Island and Alberta participated in the advance. The major increase was in British Columbia, where the total was about \$18·7 million as against \$16·2 million in the preceding year.

Suggestive of the higher tourist traffic this year, it was announced that 464,327 automobiles crossed into Canada from the United States in June, compared with 435,166 in the same month last year. Canadian cars entering the United States numbered 112,668 against 75,668 a year ago.

Retail Trade

Some improvement was shown in department store sales in July, as compared with the same month of last year. The index of sales was 56·9 against 57·6 in the preceding month and 56·6 in July, 1938. The decline from June was less than normal for the season. Sales in the first seven months of the present year averaged two per cent lower than in the same period of 1938. Country general store sales averaged 8 per cent lower in June than in the same month of last year, the index dropping from 112·5 to 103·8. Decreased sales were reported for all provinces.

Cost of Living

Increases in prices of a few of the more important foods partially offset by further recessions in coal and coke resulted in an advance in the June cost of living index from 82·9 in June to 83·1 in July. The index was 84·2 in the same month of last year. A reduction in the coal sub-group from 85·5 to 85, and in that for coke from 81·7 to 81, brought about a decline in the fuel index from 84·3 to 83·9.

Finance

The Canadian high-grade bond market was very quiet but firm during July. Long-term yields were virtually unchanged during the month, while yields on three-month treasury bills declined from 0·604 at the first of the month to 0·584 on the 15th, and 0·569 at the close. The Province of Quebec New York loan offered by a group headed by the First Boston Corporation was reported as entirely sold at the opening of the books and the bonds went to a premium over the issue prices.

Canadian stock markets staged a rally in July to cover approximately the June losses experienced by all market averages. Recovery in New York went even further and reached the highest prices since the break of last April. Securities listed and traded on the Montreal Stock and Curb markets had a total value of \$6,935 million on July 31, an increase of \$249 million from the preceding month when values were \$6,686 million. The decline from the end of July, 1938, was \$406·9 million. Of the twenty-one groups, twenty were higher at the end of July than at the close of June, while one was at a lower position. The estimated value of transactions on Montreal markets for July was \$11·9 million, the lowest figure during the period of compilation. This amount compares with \$12·4 million in June this year and with \$31·6 million in July, 1938. The turnover of industrial shares on that market was 387,662 compared with 367,814 shares in June, and 1,096,365 shares one year ago.

Collateral borrowings of member firms on the Montreal Stock Exchange on July 31, were \$355,811 lower at \$9·8 million. The total at the end of June was \$10·2 million, while the standing on the same date of 1938 was \$16·2 million. Declines of 3·5 per cent from the preceding month and 39·5 per cent from July, 1938, were indicated.

The Nesbitt-Thomson index of dividend payments declined to 130·2 in July from 132·5 in the preceding month. The decline was a continuance of the downward trend caused by the omission of an extra dividend on Consolidated Mining and Smelting common and of the dividend on Brazilian Traction

common. Total dividend payments by 184 Canadian companies amounted to \$22,056,000. Dividend payments declared on stocks traded on the Montreal Stock and Curb Markets amounted to \$15.5 million, a decline of \$5.9 million from July of last year. For the first seven months of the year payments totalled \$140.4 million as against \$152.4 million in the same period of last year.

Recording a gain of over \$2,000,000 as compared with the corresponding period of last year, new ordinary life insurance sales for the first six months of 1939 were \$192.5 million.

The total amount of foreign gold held in earmark in Canada according to the statement issued by the Bank of Canada, increased in May by \$165,235,000. This is the largest amount of gold earmarked during any one month in Canadian history. The large amount of earmarked gold held in United States and Canada is a reflection of the political uncertainty prevailing in Europe at the present time.

Trade in securities between Canada and other countries in June was heavier than in either of the two preceding months, but recorded declines from June, 1938. The total in the latest month was \$53.4 million compared with \$48.3 million in May, and \$58.0 million in June, 1938. Sales to all countries in June totalled \$25.8 million compared with \$29.6 million in May and \$33.1 million in June last year. Purchases from all countries aggregated \$27.6 million compared with \$18.7 million in May and \$24.9 million a year ago.

Dominion Government revenues in July totalled \$33 million and expenditures were \$56.5 million. A year ago income totalled \$36.6 million and expenditures \$83.7 million, leaving an excess expenditure of \$47.1 million. The last month's totals brought revenue for the four months of the fiscal year to \$200.3 million and expenditures to \$184.6 million, leaving an excess revenue of \$15.6 million. In a like period of the preceding year revenues were \$216.1 million and expenditures \$181.8 million, an excess revenue of \$34.3 million. Customs and excise revenue for July was \$24.2 million, a decrease of \$2.4 million from July, 1938. Customs duties were \$6.0 million, a decline of \$522,187. For the four months of the present fiscal year, the customs and excise revenue was \$87.0 million, a decline of \$7.4 million as compared with the same period of last year. Income tax collections in the first four months were \$97.8 million against \$106.2 million one year ago.

Conditions in Other Countries

Unemployed in the United Kingdom numbered 1,256,424 on July 10—the lowest total in ten years. The workless were 93,135 less than in the preceding month, and 516,692 less than on the same date of last year. The improvement was most marked in the distributive trades, textile industries, engineering, shipbuilding, iron and steel industries, all closely connected with rearmament and Britain's vastly increased defence forces.

British foreign trade in July was £122.4 million against £126.4 million in the preceding month, and £116 million in July, 1938. Imports recorded a decline from June compared with an increase over July, 1938, while exports of British goods showed a gain in both comparisons.

The volume of industrial activity in the United States rose considerably in July, after adjustment for seasonal tendencies, the Federal Reserve index rising from 98 to 102. The output of automobiles was somewhat larger than had been expected in view of the plans of the motor industry to change over to new model production earlier this year than usual. Steel mill operations during July advanced steadily after the holiday contraction at the beginning of the month and reached 60 per cent of capacity, the highest level since the end of November last year. The value of construction contracts awarded increased somewhat more than seasonal during July, effecting a more than moderate increase in private construction. The total freight carloadings increased more than seasonally for the third consecutive month.

DOMINION BUREAU OF STATISTICS,

REVUE MENSUELLE DE LA SITUATION ÉCONOMIQUE

Vol. XIV

OTTAWA, AOÛT 1939

N° 8

STATISTICIEN DU DOMINION: R. H. COATS, LL.D., F.R.S.C., F.B.S. (Hon.)
STATISTIQUES ÉCONOMIQUES: SYDNEY B. SMITH, M.A.

STATISTIQUE COURANTE DE LA SITUATION ÉCONOMIQUE AU CANADA

Les facteurs traçant l'orientation de la situation économique donnent en juillet une moyenne légèrement plus forte que celle du mois précédent. Les indices financiers continuent d'avancer, les dépôts bancaires augmentant au début du mois. Les dépôts sur préavis atteignent une nouvelle cime après ajustement saisonnier, tandis que les dépôts à demande déclinent récemment. Le mouvement à la hausse des prêts courants se continue et offre un contraste avec la baisse des prêts à demande, tant au Canada qu'ailleurs. Le portefeuille et l'actif immédiatement disponible des banques atteignent de nouvelles cimes.

Les actions ordinaires font une reprise modérée la dernière partie de juillet, contre-balancant une partie de la régression des cinq semaines précédentes. L'indice donne une moyenne de 97·3 en juillet comparativement à 97·0 le mois précédent. Les opérations spéculatives occupent une position plus basse. Influencés par les perspectives d'une abondante récolte de grains, les prix de gros réagissent en juillet. La principale altération est le déclin des cours du grain, mais les autres groupes principaux accusent également des régressions. L'indice des prix de gros, qui est devenu remarquablement ferme après septembre l'an dernier, s'établit à 72·6 en juillet contre 73·3 en juin.

En juillet les opérations commerciales se maintiennent à peu près au niveau du mois précédent, l'indice reculant de 121·4 à 120·2. La majorité des facteurs indiquant l'orientation de la production minérale montrent des avances en juillet, après ajustement saisonnier. La production de denrées alimentaires est légèrement plus grande en volume. La consommation de coton brut, indiquant l'orientation de l'industrie textile du coton, fait voir une augmentation, après ajustement saisonnier. Il y a un déclin considérable dans les opérations de l'industrie forestière en regard du haut niveau de juin. La sidérurgie continue d'être active, l'augmentation étant considérable dans la production de fonte en gueuse. Les opérations de l'industrie automobile ralentissent en attendant l'introduction des nouveaux modèles. Les nouvelles affaires de l'industrie du bâtiment n'ont pas été aussi heureuses que le mois précédent, même après ajustement saisonnier. Le trafic-marchandises des chemins de fer montre un gain et l'indice des chargements gagne environ 5½ points, à 76·8. Les exportations de marchandises se maintiennent à peu près, après ajustement habituel. En juillet les dépôts bancaires déclinent considérablement en regard du haut niveau de juin.

Les exportations de cuivre et de nickel augmentent en juillet. Les expéditions de cuivre se placent à 46,900,000 livres contre 42,200,000 le mois précédent. Les exportations de nickel s'élèvent à 17,300,000 livres comparativement à près de 16,000,000 de livres en juin, l'indice passant de 270 à 288. La production de plomb rétrograde, après ajustement saisonnier, le dernier mois de statistiques disponibles. Les exportations de zinc s'accélèrent, le total étant de 34,100,000 livres en regard de 33,200,000. Les exportations d'argent se placent à 2,000,000 d'onces contre 1,200,000 en juin. Les exportations d'amianto s'élèvent à 14,150 tonnes comparativement à 23,844 en juin. La production de charbon est de 1,064,354 tonnes, à rapprocher de 1,070,984. La régression est moins que normale pour la saison et l'indice monte de 98·0 à 102·0.

Les abattoirs et salaisons sont plus actifs en juillet. Les opérations de la minoterie montrent une avance le dernier mois de statistiques disponibles. Le résultat net est que l'indice de la production des denrées alimentaires passe de 102 à 104. La production de sucre s'établit à 85,500,000 livres en regard de 94,100,000 la période des quatre semaines précédentes. En conséquence, l'indice tombe de 96 à 85. La production de farine est de 1,187,875 barils le dernier mois de statistiques disponibles et l'indice monte de 73·9 à 82·6. L'indice des abatages inspectés passe de 127·2 à 135·8 et, après ajustement saisonnier, il y a des augmentations pour les moutons et les porcs. Les abatages de bêtes à cornes se placent à 126,932 comparativement à 140,444 le mois précédent. La production de fromage de fabrique augmente de 22,200,000 livres à 22,400,000, mais le gain est moins que normal pour la saison et l'indice recule de 74 à 70. La

production de beurre de crème riche s'élève à 38,100,000 livres, légère régression en regard du mois précédent. Les exportations de saumon en boîte baissent brusquement à 1,500,000 livres, comparativement à 2,000,000 en juin.

La consommation de coton brut recule de 10,700,000 livres à 10,200,000, mais le déclin est moins que normal pour la saison et, en conséquence, l'indice passe de 124·4 à 126·0. Les exportations de pulpe de bois sont le seul facteur de l'industrie forestière à montrer un gain en juillet. La production de papier à journal se place à 227,630 tonnes contre 240,545 tonnes le mois précédent. Les exportations de madriers et planches diminuent de 206,000,000 de pieds à 185,000,000. L'augmentation des exportations de bardeaux est moins que normale pour la saison et l'indice tombe de 153 à 140. Les exportations de pulpe de bois s'établissent à 1,000,000 de cwt contre 800,000 cwt en juin, l'indice avançant de 54·6 à 60·3.

La production de fonte en gueuse est de 59,587 tonnes en regard de 52,805 le mois précédent, ce qui a pour résultat de porter l'indice de 86 à 100. Le gain de la production de fonte en gueuse est moins que normal pour la saison et elle augmente de 107,902 tonnes à 111,149. Etant donné qu'elle se prépare à introduire de nouveaux modèles, l'industrie automobile se ralentit en juillet; la production est de 9,135 unités contre 14,515 le mois précédent. Après ajustement saisonnier, l'indice perd environ 6 points, à 70·1.

L'industrie du bâtiment est moins heureuse dans l'obtention de nouvelles affaires en juillet. Les contrats adjugés passent de \$25,200,000 à \$22,100,000 et les permis de bâtir diminuent de \$7,800,000 à \$6,500,000. Le résultat net est que l'indice de la construction perd environ 6 points, à 53·2. En juillet le trafic-marchandises des chemins de fer est plus actif que le mois précédent ou le même mois de 1938. Les chargements se chiffrent à 196,392 wagons comparativement à 194,522 le mois précédent. En conséquence, l'indice avance de 71·3 à 76·8. Les exportations de marchandises font une régression mineure en regard du niveau comparativement élevé du mois précédent, le total étant de \$91,700,000 comparativement à \$94,500,000. Après ajustement pour changements de prix et tendances saisonnières, l'indice se place à 145·4 contre 145·8 en juin. La somme des chèques encaissés dans les 32 centres de compensation est \$2,377,000,000 en juillet, à rapprocher de \$2,831,000,000 le mois précédent. Ajustement fait pour tendances saisonnières et différence dans le niveau général des prix, l'indice tombe de 119 à 106.

L'indice de l'activité générale, compilé par la Banque Canadienne de Commerce, rétrograde de 92 en juin à 91 le mois sous revue. L'indice composite de la capacité courante utilisé reste fermé à 74.

Les cuites et les ventes de sucre brut sont plus considérables qu'il y a un an, mais les arrivages de sucre brut, la production et les ventes de sucre raffiné sont plus faibles. Jusqu'à date pendant l'année civile les cuites de sucre brut augmentent de 385,500,000 livres à 405,800,000 livres. La production de sucre raffiné passe de 370,000,000 de livres à 387,800,000 livres. Au 15 juillet les stocks de sucre raffiné et de sucre brut sont plus considérables qu'il y a un an.

La minoterie est active en juin, bien que la production totale de 1,187,875 barils soit légèrement inférieure à celle de 1,191,778 barils en mai. La production de juin l'an dernier était de 969,207 barils. Les exportations récentes surpassent brusquement celles d'il y a un an.

Construction

La valeur des contrats de construction adjugés au Canada en juillet, bien qu'elle soit de 12 p.c. inférieure à celle de juin, est supérieure à celle de tout mois de juillet depuis 1931. La valeur des contrats adjugés les sept premiers mois de l'année courante dépasse de près de 4 p.c. celle d'il y a un an, tandis que la valeur des contrats de construction d'habitations augmente de plus de 30 p.c. ou de \$10,000,000. La valeur de la construction est plus forte qu'en toute autre période de sept mois depuis 1931, à l'exception de 1937 où la construction de routes était particulièrement active. Les contrats adjugés en juillet se placent à \$22,100,000, augmentation de 4·5 p.c. sur le même mois de 1938. Les contrats des sept mois à date atteignent \$105,575,600, augmentation de 3·6 p.c. sur la même période de 1938, alors que les adjudications valaient \$101,813,400.

Le Monetary Times rapportait le 3 août que les pertes totales par l'incendie au 29 juillet cette année s'élevaient à \$9,156,400 comparativement à \$10,166,975 la même période de 1938.

Agriculture

Les stocks de blé dans les élévateurs canadiens la semaine terminée le 4 août s'établissent à 88,100,000 boisseaux, à rapprocher de 17,400,000 boisseaux la même date de l'an dernier. Les arrivages de blé dans les trois Provinces des Prairies les cinquante-deux semaines terminées

le 31 juillet dernier s'élèvent à 290,400,000 boisseaux, en regard de 195,400,000 boisseaux la campagne précédente. Le blé importé au Royaume-Uni le semestre terminé le 30 juin se place à 56,800,000 cwt contre 47,400,000 cwt la première moitié de 1938. Les arrivages provenant du Canada s'élèvent à 16,639,000 cwt comparativement à 8,686,000 cwt la même période de l'année civile précédente.

Les arrivages de bétail aux enclos s'accélèrent en juillet en regard du mois précédent, après ajustement saisonnier. Les ventes de bêtes à cornes s'établissent à 61,220 têtes comparativement à 46,953 en juin et il y a des gains pour chacune des principales classes de bétail. L'indice avance de 70·5 en juin à 78·3 le mois sous revue.

L'indice des stocks des entrepôts frigorifiques, après ajustement saisonnier, se place à 150·2 le 1er août contre 150·6 le 1er juillet. Il y a des diminutions pour les œufs, le beurre, le fromage et le veau, tandis que les autres viandes, la volaille et le saindoux montrent des augmentations, après l'ajustement usuel. La production de fromage de fabrique et de beurre de crème décline, après ajustement saisonnier. L'augmentation dans la production de fromage est moins que normale pour la saison et l'indice tombe de 73·5 à 69·6.

En 1938 la production poissonnière atteint la plus haute valeur depuis 1930. Le total de l'an dernier est de \$40,500,000, gain de \$1,500,000 sur l'année précédente. La Colombie Britannique, le Québec, l'Île du Prince-Édouard et l'Alberta participent à l'avance. La plus forte augmentation est celle de la Colombie Britannique, où le total est d'environ \$18,700,000 contre \$16,200,000 l'année précédente.

Il a été annoncé que 464,327 automobiles sont passées des Etats-Unis au Canada en juin comparativement à 435,166 le même mois l'an dernier, ce qui indique que le trafic touristique est plus considérable cette année. Les voitures canadiennes entrant aux Etats-Unis se chiffrent à 112,668 contre 75,668 il y a un an.

Commerce de détail

Il y a amélioration des ventes des magasins à rayons en juillet comparativement au même mois de l'an dernier. L'indice des ventes est de 56·9 contre 57·6 le mois précédent et 56·6 en juillet 1938. Le déclin par rapport à juin est moins que normal pour la saison. Les ventes des sept premiers mois de l'année courante donnent une moyenne de 2 p.c. plus faible que celle de la même période de 1938. Les ventes des magasins généraux de campagne donnent en juin une moyenne de 8 p.c. moins considérable que celle du même mois de l'an dernier, l'indice passant de 112·5 à 103·8. Les ventes diminuent dans toutes les provinces.

Coût de la vie

La hausse des prix de quelques-uns des plus importants aliments, partiellement contre-balancée par une autre baisse du charbon et du coke, a pour résultat de faire avancer l'indice du coût de la vie de 82·9 en juin à 83·1 en juillet. L'indice s'établissait à 84·2 le même mois de l'an dernier. La réduction de 85·5 à 85 dans le sous-groupe du charbon et de 81·7 à 81 dans celui du coke a provoqué un déclin de 84·3 à 83·9 dans l'indice du combustible.

Finance

Le marché des obligations canadiennes de tout repos est très tranquille mais ferme en juillet. Le rendement à long terme reste virtuellement inchangé pendant le mois, tandis que le rendement des bons du Trésor à trois mois décline de 0·604 le 1er du mois à 0·584 le 15 et à 0·569 à la fin. L'emprunt du Québec à New-York, offert par un groupe ayant à sa tête la First Boston Corporation, a été entièrement vendu à l'ouverture des livres et les obligations ont fait prime sur les cours de l'émission.

Les bourses canadiennes ont affiché une reprise en juillet qui a couvert à peu près les pertes éprouvées en juin par toutes les moyennes du marché. A New-York la reprise a été plus considérable et elle a atteint les plus hauts cours depuis la dégringolade d'avril dernier. Les valeurs inscrites et négociées à la Bourse et au Curb de Montréal ont une valeur totale de \$6,935,000,000 le 31 juillet, augmentation de \$249,000,000 sur le mois précédent alors que les valeurs étaient de \$6,686,000,000. Le déclin sur la fin de juillet 1938 est de \$406,900,000. Des vingt et un groupes, vingt sont plus hauts à la fin de juillet qu'à la fin de juin, tandis qu'un est plus bas. La valeur estimative des transactions sur les marchés de Montréal en juillet est de \$11,900,000, le plus faible chiffre de la période de compilation. Ce montant se compare à \$12,400,000 en juin cette année et à \$31,600,000 en juillet 1938. Le roulement des titres industriels sur ce marché est de 387,662 contre 367,814 en juin et 1,096,365 il y a un an.

Les emprunts sur nantissement des firmes-membres à la Bourse de Montréal le 31 juillet sont de \$355,811 plus faibles, à \$9,800,000. Le total à la fin de juin est de \$10,200,000, tandis qu'il était de \$16,200,000 la même date de 1938. Les déclins sont de 3·5 p.c. sur le mois précédent et de 39·5 p.c. sur juillet 1938.

L'indice des paiements de dividendes de Nesbitt Thomson décline à 130·2 en juillet en regard du mois précédent, alors qu'il s'établissait à 132·5. Ce déclin est une continuation de l'orientation à la baisse causée par l'omission d'un dividende supplémentaire sur les actions ordinaires de Consolidated Mining and Smelting et d'un dividende sur les actions ordinaires de Brazilian Traction. Les dividendes payés par 184 compagnies canadiennes s'élèvent à \$22,056,000. Les paiements de dividendes déclarés sur les titres négociés à la Bourse et au Curb de Montréal s'établissent à \$15,500,000, déclin de \$5,900,000 sur juillet l'an dernier. Les sept premiers mois de l'année les paiements forment un total de \$140,400,000, à rapprocher de \$152,400,000 la même période de l'an dernier.

Les ventes de nouvelle assurance-vie ordinaire se placent à \$192,500,000 le premier semestre de 1939, soit un gain de plus de \$2,000,000 sur la période correspondante de l'an dernier.

D'après un rapport de la Banque du Canada, la quantité d'or étranger affecté détenu au Canada augmente de \$165,235,000 en mai. C'est la plus forte quantité d'or affecté en n'importe quel mois dans l'histoire canadienne.

La grande quantité d'or affecté détenu aux Etats-Unis et au Canada reflète l'incertitude politique prédominant en Europe à l'heure actuelle.

Le commerce en valeurs mobilières entre le Canada et les autres pays en juin est plus considérable que l'un et l'autre des deux mois précédents, mais il décline en regard de juin 1938. Le total du dernier mois est de \$53,400,000, à rapprocher de \$48,300,000 en mai et \$58,000,000 en juin 1938. Les ventes à tous les pays en juin se placent à \$25,800,000 comparativement à \$29,600,000 en mai et \$33,100,000 en juin l'an dernier. Les achats de tous pays s'élèvent à \$27,600,000 contre \$18,700,000 en mai et \$24,900,000 il y a un an.

En juillet les recettes du Gouvernement fédéral se chiffrent à \$33,000,000 et les dépenses, à \$56,500,000. Il y a un an les recettes s'élevaient à \$36,600,000 et les dépenses, à \$83,700,000, soit un excédent de dépenses de \$47,100,000. Les totaux du mois dernier ont porté les recettes des quatre mois de l'année fiscale à \$200,300,000 et les dépenses, à \$184,600,000, soit un excédent de recettes de \$15,600,000. La période semblable de l'année précédente les recettes étaient de \$216,100,000 et les dépenses, de \$181,800,000, soit un excédent de recettes de \$34,300,000. Les recettes de douane et accise sont de \$24,200,000 en juillet, diminution de \$2,400,000 sur juillet 1938. Les droits de douane s'établissent à \$6,000,000, déclin de \$522,187. Les quatre mois de l'année fiscale courante les recettes des douanes et accise se placent à \$87,000,000, déclin de \$7,400,000 sur la même période de l'an dernier. La perception de l'impôt sur le revenu rapporte \$97,800,000 les quatre premiers mois, à rapprocher de \$106,200,000 il y a un an.

La situation dans les autres pays

Les sans-travail du Royaume-Uni se chiffrent à 1,256,424 le 10 juillet, le plus faible chiffre en dix ans. Il y en a 93,135 de moins que le mois précédent et 516,692 de moins qu'à la même date l'an dernier. L'amélioration est très marquée dans les métiers de la distribution, les textiles, le génie, la construction navale et les industries du fer et de l'acier.

Le commerce extérieur britannique se place à £122,400,000 en juillet, à rapprocher de £126,400,000 le mois précédent et £116,000,000 en juillet 1938. Les importations diminuent par rapport à juin mais augmentent en regard de juillet 1938, tandis que les exportations de marchandises britanniques font voir un gain dans les deux comparaisons.

Le volume de l'activité industrielle aux Etats-Unis augmente considérablement en juillet, après ajustement pour tendances saisonnières, et l'indice de la Federal Reserve passe de 98 à 102. La production d'automobiles est un peu plus forte qu'on s'y attendait, étant donné les intentions de l'industrie automobile d'amorcer la production des nouveaux modèles plus tôt cette année que d'habitude. Les opérations des aciéries avancent continuellement en juillet, après la contraction occasionnée par le congé au début du mois, et atteignent 60 p.c. de leur capacité, le plus haut niveau depuis la fin de novembre l'an dernier. La valeur des contrats de construction adjudiqués accuse une augmentation un peu plus que saisonnière en juillet, effectuant une augmentation plus que modérée de la construction privée. Les chargements de wagons font une augmentation plus que saisonnière pour le troisième mois consécutif.

PUBLICATIONS ISSUED BY THE DOMINION BUREAU OF STATISTICS

ANNUAL AND SPECIAL PUBLICATIONS ISSUED BY THE DOMINION BUREAU OF STATISTICS DURING THE MONTH ENDED AUGUST 16, 1938

Population.—Deaths from external violence, 1938. 1 p. (Eng. and French) 10 cents. Deaths due to motor vehicle accidents, 1938, 2 p. (Eng. and French) 10 cents. Annual report of hospitals in Canada for the year 1937 (Eng. and French) 86 p. 25 cents. Crude annual death rates of four principal communicable diseases of childhood (chart published in daily bulletin, July 26).

Production.—Agricultural Products—The grain situation in Argentina, July 17, 7 p., \$1.00 per year. First estimate of yield of fall wheat, fall rye and alfalfa; Condition of field crops at July 31, Canada, 3 p. maps, 10 cents. Estimated consumption of meats, poultry, butter, cheese and eggs in Canada, 1935-1938, 4 p., 10 cents. Telegraphic crop report, July 18, 1939 (Eng. and French), 13 p., 10 cents; July 25, 1939 (Eng. and French), 9 p.; Aug. 1, 1939, 13 p.; Prairie Provinces, Aug. 9, 1939, 8 p., 10 cents. Fruit and vegetable crop report, July 26, 1939, 6 p., \$1 per year. Estimates of acreages sown to the five principal grain crops, July 27, 1939, 2 p. (Eng. and French), \$2 per year. Fisheries Products—Advance report on the fisheries of Nova Scotia, 1938, 10 p., 10 cents; Fisheries of Quebec, 1938, 8 p., 10 cents; Fisheries of British Columbia, 1938, 10 p., 10 cents; Fisheries of Canada, 1938, 18 p., 10 cents. Fur Production—Report on the fur farms of Canada, 1937, 57 p. (English and French), 25 cents. Preliminary report on the fur production of Canada, season 1937-38 (Eng. and French), 5 p., 10 cents.

Manufactures:—Manufacturing industries of the Province of British Columbia (including Yukon), 1937, 20 p., 25 cents. Manufacturing industries of the Province of Ontario, 1937, 35 p., 25 cents. Vegetable Products—Report on the sugar industry in Canada, 1938, 14 p., 25 cents. Forest Products—The roofing paper industry, 1938, 1 p. (Eng. and French). The pulp and paper industry, 1937, 113 p. (Eng. and French), 25 cents. Metal and Chemical products—Special report on machine shops in Canada, 1937, 11 p., 25 cents.

Internal Trade.—Family living expenditures in Canada; urban wage-earner family living expenditures in relation to tenure and housing accommodations, 13 p., 15 cents; Family income per person in relation to urban wage-earner family living expenditures, 8 p., 15 cents.
