The Canada Year Book of 1940 was recently released for distribution. The edition gives a picture of Canada once again at war. The special features include a résumé of Canada's war effort during the first ten months of hostilities and a review of economic development under the altered circumstances. Our forest and mineral resources in relation to war requirements also receive special treatment. Other sections are introduced regarding the Power Resources, Agriculture, Marketing, Legislation, the National Harbours Board, Royal Canadian Mint, and Scientific and Industrial Research. The price of the volume, consisting of more than 1,200 pages is \$1.50. Paper bound copies for ministers, bona fide students and school teachers may be obtained at 50 cents each.

MONTHLY REVIEW OF BUSINESS STATISTICS

Vol. XV

OTTAWA, October, 1940

No. 10

DOMINION STATISTICIAN: R. H. COATS, LL.D., F.R.S.C., F.S.S. (Hon.)
BUSINESS STATISTICIAN: SYDNEY B. SMITH, M.A.

BUSINESS CONDITIONS IN SEPTEMBER

The high level of productive operations was the most constructive factor in the Canadian economic situation during September. Business operations have recorded advance without important interruption since the early part of 1939. The net result is that the volume of output is now at a higher level than at any other time in our history. Moderate advances were shown in other sections of the economic field in September over the preceding month.

The advance in common stock prices, in progress since June, was continued during the month under review. A marked decline had been shown during the spring due to adverse developments overseas. The recovery since that time has been of moderate proportions. The present standing is not only below the base year of 1926 but also below the inter-war trend. The change in wholesale prices was of a minor character during September. No important change has occurred in the price level since the rise during the first four months of the war. Bank deposits reached a temporary peak at the beginning of September. An index of the sum of notice and demand deposits was 133·8, a higher position than at any other time since the beginning of February. The success of the second war loan was one of the influences in the moderate advance in high-grade prices. The September level was higher than in any other month since August, 1939.

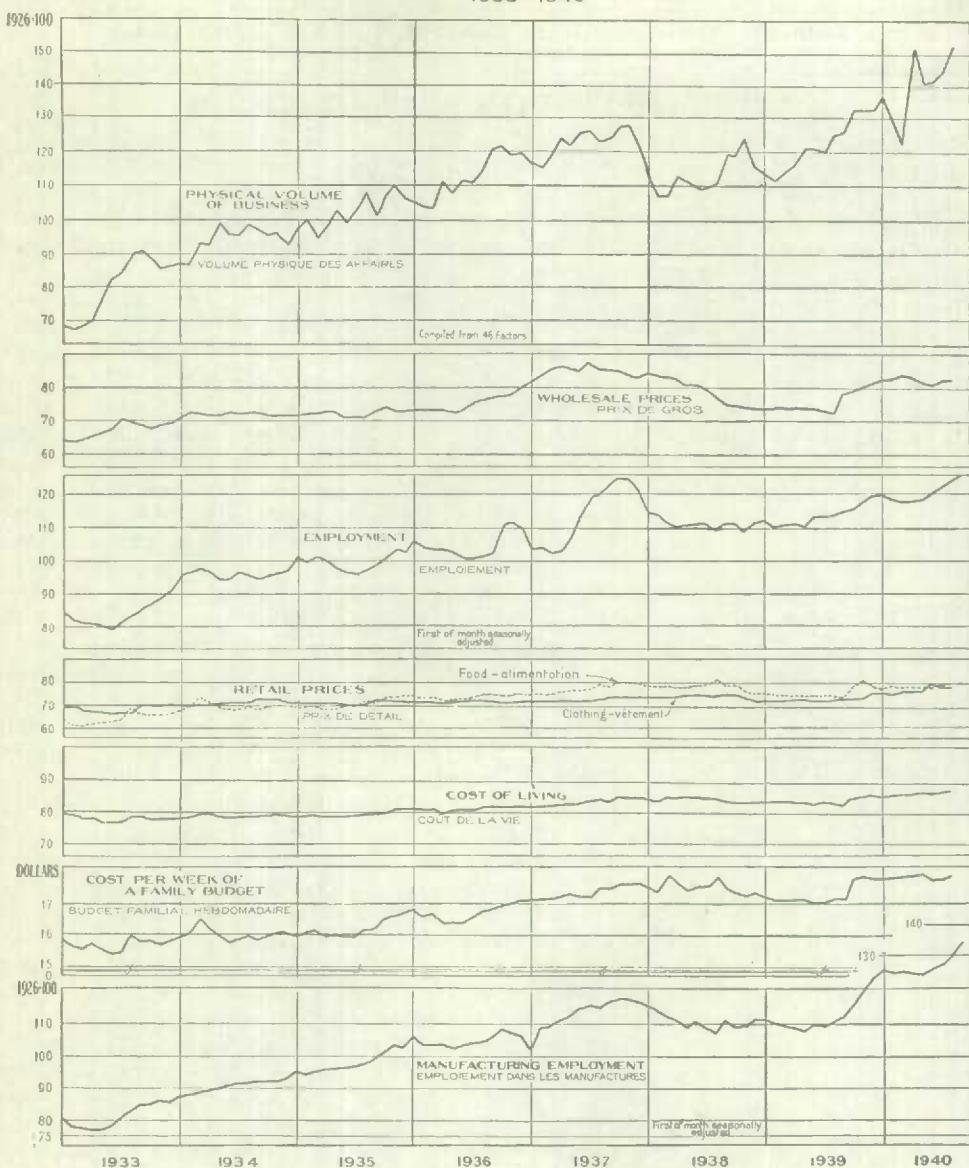

The index of the physical volume of business which had been 152·5 in August showed further advance in the month under review. Operations of the mining industry continued at a high level but some recession was shown from August after seasonal adjustment. Gold receipts at the Mint were 382,000 ounces against 444,000 in August. Silver shipments also showed a decline from 2·4 million ounces to 1·4 million. The production of coal showed a contra seasonal decline, the index recording a marked reaction.

It was announced by the Department of Munitions and Supply on October 11, that the contracts awarded during the week ended October 4, numbered 2,289 with a total value of \$9·5 million. War orders totalling \$550 million were placed by the Department of Munitions and Supply and its predecessor the War Supply Board, up to a recent date. Orders placed on Canadian account amounted to \$390·4 million and on British account \$134·3 million.

The wheat crop of the Prairie Provinces was recently estimated at 534 million bushels compared with a crop of 463 millions valued at \$235·3 million last year and a crop of 326 million bushels valued at \$191 million in 1938. It is reported that the grade is about the same as on last year's crop when an unusually large percentage was classified as No. 1 Northern. It was announced on October 15, that effective immediately, further restrictions on loadings of wheat were placed on western points due to congestion at the Fort William and Port Arthur terminals. The Canadian Pacific embargo applied to all wheat loadings in Manitoba, Saskatchewan and Alberta, while the Canadian National placed an embargo on Manitoba and Saskatchewan wheat loadings but accepted 25 cars of wheat daily from Alberta. Both railways continued to accept loadings of coarse grains which were not affected by the embargo.

The visible supply of Canadian wheat on October 11 was reported by the Board of Grain Commissioners at 421·6 million bushels, compared with 320 million on October 13, 1939. A new maximum was reached in recent weeks. From August 1, to October 4, western farmers delivered only about 64 p.c. of the established quotas and while this low percentage was partly due to delayed harvesting in Alberta, it appeared that producers were holding a substantial part of the crop.

FACTORS INDICATING THE TREND OF EARNINGS AND COST OF LIVING
 FACTEURS INDICANT LE COURS DES GAINS ET DU COUT DE LA VIE
 1933-1940

In the first estimate of the production of late crops, it was estimated that the 1940 potato production of Canada would be 40·9 million cwt., an increase of 12 p.c. over the output of 1939. An approximately normal crop is being harvested after two years of below-average yields.

The agreement by which Britain undertook to purchase between five and six million pounds of bacon weekly expired at the end of October, but negotiations were in process for increased bacon deliveries needed in the British market.

Operations in Canada's ten sugar refineries in the four-week period ended September 7, showed a wide increase in receipts of raw sugar the total being double that of the same period one year ago. A sharp drop in sales of refined sugar was shown, while meltings and sales of raw sugar and refined sugar manufactured showed little change in this comparison.

Production and shipments of newsprint by Canadian mills for September were well below the August level but this reflected the fact that the month had fewer working days—twenty-four against twenty-seven. As operations were on a slightly higher level, the month's operating ratio was 83·5 compared with 83·2 for August. In both shipments and production the totals of a year ago were exceeded by a good margin. Ranking second to the gold mining industry as a provider of U.S. funds, exports of Canadian newsprint and pulp to the United States in the first seven months of the year reached a value of \$92 million. In the first year of war, newsprint shipments to the United States from Canada were \$116·5 million, or a total newsprint export of \$149·9 million, while pulp shipments to the United States amounted to \$41·5 million, making a combined total of nearly \$158 million of United States funds made available.

Canada and the United States have taken steps to begin at once preliminary engineering and other inquiries with the aim of ensuring adequate power supplies for defence requirements from the International Rapids section of the River St. Lawrence between Morrisburg and Cornwall. It was agreed that immediate development would be undertaken by Ontario of power from the Ogoki, and Kenogami river areas and from the Niagara river to ensure adequate supplies for munition plants in the province. It was announced from Washington that the government has allocated 1 million to defray the expenses of test borings at the International Rapids on the St. Lawrence river, preliminary to proposed construction of new power projects.

Total capital commitment by the Dominion Government for plant construction to meet war needs reached \$235 million on October 15. Included in this amount was the new plant for the manufacture of alloy steels to cost \$5·5 million to be erected in southern Ontario. Commitments for construction of plants of this nature have more than doubled since the end of last June. All expenditures in this connection are to build plants and buy equipment which are wholly owned by the Dominion Government. Although the new plant facilities planned some months ago for output of war necessities and supplies are now being completed and are coming into production, the pace of heavy industrial construction in Canada currently shows no recession and little if no decline is envisaged for the next six months. Contracts awarded in September, according to trade sources, were the greatest for the last ten years.

Department store sales in September were 14 p.e. above August, but 3 p.e. below September, 1939. The dollar volume of retail trade in August was 10 p.e. below July and 21 p.e. above August, 1939.

Gross traffic earnings during September, of the C.N.R. amounted to \$21·1 million compared with \$21·2 million in August. Cumulative gross earnings since the beginning of this year continue to be sharply over the 1939 comparison amounting to \$178·4 million against \$142·2 million, an increase of 25·4 p.e. Gross earnings of the C.P.R. during the eight-month period ended August amounted to \$106·2 million against \$86·1 million in the same period of 1939.

Analysis of the domestic employment trend as shown in the report for September 1, indicates the widest increase over a year ago, or since the outbreak of war, in the heavier industrial lines, particularly machinery, vehicles and other

iron and steel activities. In the index of machinery and vehicles, there is shown an improvement of fully 42·2 p.c. while the gain in other iron and steel is 48·4 p.c. Also very much in advance of a year ago are the forest industries, textiles and construction and maintenance, exclusive of highway construction. There were ten strikes and lockouts in September involving 2,668 workers and resulting in a time loss of 6,053 man-working days compared with 18 in August involving 6,712 workers with a time loss of 15,953 days. In September 1939, there were 17 disputes involving 8,190 workers with a time loss of 17,546 days. Only one strike of about 50 workers was unterminated at the end of September.

Progress was made in the organization of the National Unemployment Insurance Commission during the month under review. It is estimated that the National Compulsory Contributory Unemployment Insurance Fund will amount to nearly \$60 million at the end of the first year of its operation, employers paying two-fifths, employees two-fifths, and the Federal Government one-fifth. The Federal Treasury in addition will pay the administrative costs. Once the plan is put into effect, it is estimated that the collection will be about \$4 million per month in the form of employers' and employees' contributions. Since the amount likely to be paid out in unemployment benefits will be small for the duration of the war, most of these contributions will be accumulated in the Insurance Fund. This fund will be invested in Government securities and will, therefore, assist indirectly in financing the war.

Canada's domestic exports in September, exclusive of gold, amounted to \$101·4 million compared with \$110·5 million in August and \$81·5 million in September of last year. The total for the month was the fourth highest recorded since the beginning of 1937. The United States Department of Commerce reported on October 11 that gold imports amounted to \$334·1 million in September, a decline of \$17·5 million from August but still about \$8 million above September 1939. The net imports of gold for the first nine months were \$3,951 million which was \$1,066 million more than during the corresponding period of 1939.

Following moderate declines in June and July, domestic current loans of the chartered banks recorded modest gain in the month of August. The total at the end of the month was higher than at any other time since the end of March. In total deposits there was a gain of nearly \$30 million while total loans rose by a half million and investment holdings declined \$7·4 million.

The Dominion Government revenues in September amounted to \$54·2 million and expenditures to \$96·2 million. During the same month one year ago revenues were \$39·6 million and expenditures nearly \$38 million, leaving an excess of \$1·6 million. The revenue for the first six months of the present fiscal year was \$383·1 million and expenditures were \$441·5 million. Customs, excise and income tax collections in September recorded an increase of \$16·1 million over September 1939, the total amount having been \$50·1 million. Income tax revenue amounted to \$11·6 million, a net increase of \$6·7 million, while customs-excise totalled \$38·4 million, a net increase of \$9·3 million.

Canadian Government and municipal bond financing during the first nine months of 1940 rose to a total of \$1,047 million on completion of Canada's second war loan. New money raised for war purposes included in this total amounted to \$500 million. Total government and municipal bond financing for new money purposes in the nine-month period of over \$810 million is the largest since the completion of the Great War financing. In addition to bond financing, Dominion of Canada Treasury Bills were sold during the period to the amount of \$670 million, of which \$75 million was for new money.

¹ The index of the physical volume of business is based on 46 factors excluding marketings and cold storage holdings. Owing to a change in the period covered by the monthly export and import statistics March, 1940 figures show a considerable artificial reduction, and April, 1940, shows a considerable artificial increase as compared with the same months of previous years.

² The publication of monthly data on copper, nickel, lead and zinc has been suspended for the duration of the war.

First of following month.

REVUE MENSUELLE DE LA SITUATION ÉCONOMIQUE

Vol. XV

OTTAWA, OCTOBRE 1940

N° 10

STATISTICIEN DU DOMINION: R. H. COATE, LL.D., F.R.S.C., F.S.S. (Hon.)
STATISTIQUES ÉCONOMIQUES: SYDNEY B. SMITH, M.A.

LA SITUATION ÉCONOMIQUE EN SEPTEMBRE

Le haut niveau des opérations productives est le facteur le plus constructif de la situation économique au Canada en septembre. Les opérations commerciales se sont accélérées sans interruption importante depuis la première partie de 1939. Le résultat net est que le volume de la production est maintenant à un niveau supérieur à celui de toute autre époque dans l'histoire. En septembre les autres sections du domaine économique font des avances modérées sur le mois précédent. La hausse des actions ordinaires, qui se poursuit depuis juin, se continue le mois sous revue. Le déclin avait été marqué au cours du printemps par suite de développements défavorables outre-mer. La reprise depuis cette époque a revêtu des proportions modérées. Le niveau actuel est non seulement inférieur à celui de l'année de base (1926) mais encore à celui de la période entre-guerres. Les prix de gros varient peu en septembre. Le niveau des prix n'offre aucun changement important depuis la hausse des quatre premiers mois de la guerre. Les dépôts bancaires atteignent une cime temporaire au début de septembre. L'indice de la somme des dépôts à terme et à demande se place à 133·8, niveau supérieur à celui de toute autre époque depuis le commencement de février. Le succès du deuxième emprunt de guerre a exercé une influence partielle sur la hausse modérée des obligations de tout repos. Le niveau de septembre est plus élevé qu'en tout autre mois depuis août 1939.

L'indice du volume physique des affaires, qui s'établissait à 152·5 en août, monte encore le mois sous revue. Les opérations de l'industrie minière se maintiennent à un niveau élevé, mais elles rétrogradent un peu par rapport au mois d'août après ajustement saisonnier. Les arrivages d'or à la Monnaie se placent à 382,000 onces contre 444,000 en août. Les expéditions d'argent déclinent également, soit de 2,400,000 onces à 1,400,000. La production de charbon accuse un déclin hors de saison et l'indice réagit d'une façon marquée.

La production de denrées alimentaires en septembre est plus forte que celle du mois précédent; la production de sucre et les abatages de porcs enregistrent des augmentations marquées. La production de farine se maintient à peu près au même point après ajustement saisonnier. La production de sucre s'élève à 71,300,000 livres comparativement à 66,600,000. En septembre les abatages de porcs s'établissent à 438,000 têtes, à rapprocher de 367,000, et l'indice avance de 228 à 261. La production laitière fait un déclin plus que normal pour la saison. Les exportations de saumon en boîte augmentent brusquement et l'indice grimpe de 94 à 151.

Le Ministère des Munitions et Approvisionnements a annoncé le 11 octobre que les contrats adjugés durant la semaine terminée le 4 octobre se chiffraient à 2,289 d'une valeur totale de \$9,500,000. A venir jusqu'à présent des commandes de guerre s'élèvent à \$550,000,000 ont été placées par le Ministère des Munitions et Approvisionnements et son prédecesseur, la Commission des approvisionnements de guerre. Les commandes placées pour le compte du Gouvernement canadien s'établissent à \$390,400,000 et pour le compte du Gouvernement britannique, à \$134,300,000.

La récolte de blé des Provinces des Prairies a récemment été estimée à 534,000,000 de boisseaux, à rapprocher de 463,000,000 de boisseaux valant \$235,300,000 l'an dernier et 326,000,000 de boisseaux d'une valeur de \$191,000,000 en 1938. On rapporte que la qualité est à peu près la même que l'an dernier, alors qu'une proportion extraordinairement considérable a été classifiée comme n° 1 Nord. Le 15 octobre on a annoncé que d'autres restrictions sur les chargements de blé, en vigueur immédiatement, étaient placées sur les points de l'Ouest par suite de la congestion aux terminus de Fort-William et Port-Arthur. L'embargo du Canadien Pacifique s'applique à tous les chargements de grain au Manitoba, en Saskatchewan et en Alberta, tandis que le Canadian National met un embargo sur les chargements de blé du Manitoba et de la Saskatchewan mais accepte 25 wagons de blé de l'Alberta par jour. Les deux chemins de fer continuent d'accepter les chargements de grains secondaires, qui n'ont pas été touchés par l'embargo.

La Commission des Grains rapporte que l'approvisionnement visible de blé canadien le 11 octobre se place à 421,600,000 boisseaux, en regard de 320,000,000 le 13 octobre 1939. Un nouveau maximum a été atteint ces dernières semaines. Du 1er août au 4 octobre les fermiers

de l'Ouest n'ont livré qu'environ 64 p.c. des contingentements fixés et, bien que ce faible pourcentage ait été partiellement attribuable au retard de la moisson en Alberta, les producteurs semblaient détenir une importante partie de la récolte.

A New-York on a annoncé que sur le marché des ventes à terme à Buenos Aires le prix du blé de novembre était de 46 $\frac{1}{2}$ cents en monnaie des Etats-Unis, le plus bas depuis 1938. Les prix ont décliné à cause de la température favorable et de l'amélioration des conditions du blé sur pied. Commentant la récolte européenne, Broomhall a rapporté que, bien que les informations soient restreintes et difficiles à obtenir, il n'y a pas de raison de douter que sur l'ensemble du continent européen les rendements sont inférieurs de 10 à 20 p.c. à ceux des années normales. Cette situation ne s'applique qu'au blé. Une dépêche de Canberra mentionne que la dernière estimation de la récolte de blé en Australie s'établit entre 85,000,000 et 90,000,000 de boisseaux, comparativement à 210,200,000 boisseaux l'an dernier. La température défavorable peut avoir pour résultat une récolte de moins de 80,000,000 de boisseaux. C'est la plus faible récolte depuis la saison de 1919-1920, alors qu'elle n'approchait que 46,000,000 de boisseaux.

Dans la première estimation de la production de cultures semées tard, la production canadienne de pommes de terre en 1940 est placée à 40,900,000 cwt, augmentation de 12 p.c. sur 1939. Cette récolte est à peu près normale, après deux années de rendements inférieurs à la moyenne.

L'entente en vertu de laquelle la Grande-Bretagne s'est engagée à acheter de 5,000,000 à 6,000,000 de livres de bacon par semaine expire à la fin d'octobre; mais les négociations se poursuivent afin d'augmenter les livraisons de bacon dont a besoin le marché britannique.

Les arrivages de sucre brut aux dix raffineries canadiennes ont augmenté considérablement au cours de la période de quatre semaines terminée le 7 septembre; ils sont deux fois plus forts que ceux de la même période de l'an dernier. Les ventes de sucre raffiné déclinent brusquement, tandis que les cuites et les ventes de sucre brut et la production de sucre raffiné offrent peu de changement dans cette comparaison.

La production et les expéditions de papier à journal des moulins canadiens en septembre sont bien inférieures à celles d'août, mais il y avait moins de jours ouvrables pendant le mois—vingt-quatre contre vingt-sept. Comme les opérations atteignent un niveau légèrement supérieur, le rendement est de 83·5 de la capacité comparativement à 83·2 en août. Les expéditions et la production de l'an dernier ont été surpassées par une bonne marge. Occupant le deuxième rang après les mines d'or comme source de fonds des Etats-Unis, les exportations de papier à journal et de pulpe canadiens aux Etats-Unis atteignent une valeur de \$92,000,000 les sept premiers mois de l'année. La première année de guerre les expéditions canadiennes de papier à journal aux Etats-Unis se sont élevées à \$116,500,000, et les exportations totales de papier à journal se sont établies à \$149,900,000. Les expéditions de pulpe aux Etats-Unis valent \$41,-500,000, ce qui fait un grand total de près de \$158,000,000 disponibles en fonds des Etats-Unis.

Le Canada et les Etats-Unis ont pris des mesures afin de commencer immédiatement les recherches en génie et autres, en vue d'assurer des sources adéquates d'énergie pour les besoins de défense de la section des rapides internationaux du fleuve St-Laurent entre Morrisburg et Cornwall. On a convenu que l'Ontario entreprendrait le développement immédiat d'énergie dans les régions de l'Ogoki et de la rivière Kenogami et dans la rivière Niagara, afin d'assurer des stocks adéquats pour les fabriques de munitions dans la province. Washington a annoncé que le Gouvernement a alloué \$1,000,000 pour défrayer les dépenses de sondages d'essai aux rapides internationaux sur le fleuve St-Laurent, travaux préliminaires au projet de construction de nouveaux développements d'énergie.

Les immobilisations du Gouvernement fédéral dans la construction de fabriques pour faire face aux besoins de la guerre s'élèvent à \$235,000,000 le 15 octobre. Ce montant comprend la nouvelle fabrique d'alliages d'acier au coût de \$5,500,000, qui sera construite dans le sud de l'Ontario. Les engagements pour la construction de fabriques de ce genre ont plus que doublé depuis la fin de juin dernier. Toutes les dépenses à ce sujet sont destinées à la construction de fabriques et à l'achat d'outillage qui appartiennent entièrement au Gouvernement du Dominion. Bien que les nouvelles fabriques projetées il y a quelques mois pour produire des nécessités et du matériel de guerre soient maintenant terminées et commencent à produire, l'allure de la construction pour industries lourdes au Canada ne fait couramment voir aucune régression, et l'on entrevoit un faible déclin pour le prochain semestre, et peut-être pas du tout. Les contrats adjugés en septembre, d'après des sources commerciales, sont les plus considérables au cours des dix dernières années.

En septembre les ventes des magasins à rayons surpassent de 14 p.c. celles d'août, mais elles sont de 3 p.c. inférieures à celles de septembre 1939. Le volume en dollars du commerce de détail en août est de 10 p.c. plus faible qu'en juillet et de 21 p.c. plus faible qu'en août 1939.

Les recettes brutes du Canadian National en septembre se chiffrent à \$21,100,000 contre \$21,200,000 en août. Les recettes brutes globales depuis le début de l'année continuent d'être bien au-dessus de celles de 1939, s'élevant à \$178,400,000 comparativement à \$142,200,000, augmentation de 25·4 p.c. Les recettes brutes du Canadian Pacifique au cours de la période de huit mois terminée en août s'établissent à \$106,200,000, en regard de \$86,100,000 la même période de 1939.

L'analyse de l'emploiement au Canada, comme l'indique le rapport du 1er septembre, révèle la plus forte augmentation sur l'an dernier ou depuis le déclenchement de la guerre dans l'industrie lourde, particulièrement la machinerie, les véhicules et autres industries du fer et de l'acier. L'indice de la machinerie et des véhicules grimpe de 42·2 p.c., tandis que le gain dans les autres industries du fer et de l'acier est de 48·4 p.c. On constate également une avance considérable sur l'an dernier dans les industries forestières, les textiles, la construction et l'entretien, excepté les ponts et chaussées. En septembre il y a 10 grèves et contre-grèves affectant 2,668 ouvriers et résultant en une perte de 6,053 jours-homme, à rapprocher de 18 en août affectant 6,712 travailleurs qui perdent 15,953 jours. En septembre 1939 il y a eu 17 différends auxquels ont été mêlés 8,190 ouvriers et causant une perte de 17,546 jours. Seule une grève d'environ 50 ouvriers n'était pas terminée à la fin de septembre.

L'organisation de la Commission nationale d'assurance-chômage a progressé le mois sous revue. On estime que le fonds d'assurance-chômage nationale obligatoire et contributoire approchera \$60,000,000 à la fin de la première année de son opération, les patrons payant deux cinquièmes, les employés deux cinquièmes et le Gouvernement fédéral un cinquième. En outre, le Trésor fédéral défrayera le coût administratif. Une fois que le plan sera en vigueur, on estime que les contributions des patrons et des employés seront d'environ \$4,000,000 par mois. Comme les versements en secours-chômage seront probablement peu importants durant la guerre, la majeure partie de ces contributions s'accumuleront dans le fonds d'assurance. Ce fonds sera immobilisé en valeurs gouvernementales et servira donc indirectement à financer la guerre.

Les exportations canadiennes (à l'exclusion de l'or) se chiffrent à \$101,400,000 en septembre, comparativement à \$110,500,000 en août et \$81,500,000 en septembre l'an dernier. Le total du mois est le quatrième plus fort depuis le commencement de 1937. Le Département du Commerce des Etats-Unis a rapporté le 11 octobre que les importations d'or s'élevaient à \$334,100,000 en septembre, diminution de \$17,500,000 par rapport à août mais augmentation d'environ \$8,000,000 en regard de septembre 1939. Les importations nettes d'or au cours des neuf premiers mois s'établissent à \$3,951,000,000, soit \$1,066,000,000 de plus que durant la période correspondante de 1939.

A la suite de déclins modérés en juin et juillet, les prêts courants au Canada des banques à charte augmentent un peu en août. Le total à la fin du mois est plus élevé qu'en tout temps depuis la fin de mars. Les dépôts augmentent de près de \$30,000,000, les prêts augmentent de \$500,000, tandis que les valeurs de portefeuille diminuent de \$7,400,000.

En septembre les recettes du Gouvernement fédéral se placent à \$54,200,000 et les dépenses, à \$96,200,000. Le même mois de l'an dernier les recettes se chiffraient à \$39,600,000 et les dépenses approchaient \$38,000,000, laissant un excédent de \$1,600,000. Les recettes du premier semestre de l'exercice financier courant s'établissent à \$383,100,000 et les dépenses, à \$441,500,000. La perception des droits de douane et d'accise et l'impôt sur le revenu en septembre augmentent de \$16,100,000 en regard de septembre 1939, le total étant de \$50,100,000. L'impôt sur le revenu rapporte \$11,600,000, augmentation nette de \$6,700,000; les droits de douane et d'accise s'élèvent à \$38,400,000, augmentation nette de \$9,300,000.

Le financement d'obligations gouvernementales et municipales au Canada pendant les neuf premiers mois de 1940 s'établit à \$1,047,000,000, y compris le deuxième emprunt de guerre du Dominion. Ce total comprend \$500,000,000 de nouveaux fonds obtenus pour fins de guerre. Le financement d'obligations gouvernementales et municipales à l'effet d'obtenir de nouveaux fonds, excédant \$810,000,000 au cours de la période de neuf mois, est le plus considérable depuis le parachèvement du financement de la Grande Guerre. En outre du financement d'obligations, il s'est vendu pour \$670,000,000 de bons du Trésor du Dominion du Canada pendant cette période, dont \$75,000,000 en vue d'obtenir de nouveaux fonds.

PUBLICATIONS ISSUED BY THE DOMINION BUREAU OF STATISTICS

ANNUAL AND SPECIAL PUBLICATIONS OF THE DOMINION BUREAU OF STATISTICS ISSUED DURING THE MONTH ENDING OCTOBER, 16, 1940

Administration.—The Canada Year Book, 1940. 63 / 1192 p. maps, diagrs. \$1.50.

Population.—Births, deaths, marriages, the first quarter of 1940, 4 p. (Eng. and French), 50 cents a year. Annual report of hospitals in Canada for the year 1938, 84 p. (Eng. and French), 25 cents. Seventh Annual report of mental institutions, 1938, 100 p. (Eng. and French), 25 cents.

Production.—Agricultural Products—Fruit and vegetable crop report, 2 p. (Eng. and French), 10 cents. Fruit and vegetable crop report, September 27, 1940, 3 p. (Eng. and French), \$1 per year. Farm cash income, January to July, 1940, 1 p., 10 cents. Tobacco crop report, September 30, 1940, 5 p. Estimates of the output and slaughter of meat animals and consumption of meats in Canada, 1939, 3 p., charts. Field crops, 1940, 3 p. (Eng. and French), \$2 per year. Mineral Production—Coal statistics for Canada for the calendar year 1938, 114 p., 50 cents. Report on the miscellaneous non-metallic minerals in Canada, 1939, including barytes, diamonds, diatomite, fluorspar, garnet, graphite, grindstones, kyanite, lithium minerals, magnesitic dolomite, magnesium sulphate, natural mineral waters, peat, phosphate, silica brick, sodium carbonate, sodium sulphate, strontium minerals, sulphur (pyrites), 31 p., 25 cents.

Manufactures.—Manufacturing industries of the Province of Quebec, 1938, 27 p. (Eng. and French), 25 cents; . . . of the Province of Ontario, 1938, 33 p., 25 cents; . . . of the Prairie Provinces, 1938, 42 p., 25 cents. Vegetable Products—Report on the linseed and soybean oil industry in Canada, 1939, 8 p., 15 cents. Forest Products—Lumber, trees and shoefindings, 1939, 1 p. (Eng. and French), 10 cents. Iron and Steel and Their Products—The bicycle manufacturing industry, 1939, 4 p., 10 cents. The primary iron and steel industry in Canada, 1939 (including pig iron, ferro-alloys, steel ingots and direct steel castings, and rolled iron and steel products), 19 p., 25 cents. Non-ferrous Metals—Manufactures of the non-ferrous metals in Canada, 1937 and 1938, 101 p., 50 cents. Non-Metallic Minerals—The sand-lime brick industry, 1939, 4 p. The clay and clay products industry in Canada, 1939 (including 1. Products from domestic clays; 2. Products from imported clays), 24 p., 25 cents. The artificial abrasives industry, 1939, 7 p., 10 cents. Miscellaneous Manufactures—Report on the musical instrument industry in Canada, 1939, 11 p., 15 cents. Report on the button industry in Canada, 1938, 8 p., 15 cents.

Internal Trade.—An official cost of living index for Canada, 5 p., 10 cents. Retail merchandise trade in Canada, calendar year, 1939, 13 p., 25 cents; . . . in Quebec, calendar year, 1939, 10 p., 10 cents; . . . in Ontario, calendar year, 1939, 5 p., 10 cents; . . . in the Prairie Provinces, calendar year, 1939, 14 p., 10 cents; . . . in the Maritime Provinces, calendar year, 1939, 10 p., 10 cents. Food chains in Canada, calendar year, 1939, 10 p., 10 cents.

2. PUBLICATIONS REGULARLY ISSUED BY THE WEEK, MONTH OR QUARTER

Daily Bulletins.—The daily bulletin (Eng. and French)—\$1.50 per year.

Weekly Bulletins.—Canadian grain statistics. Carloadings of revenue freight. Security prices and foreign exchange. The weekly bulletin—\$1.00 per year. Weekly index numbers of wholesale prices. Weekly summary of the wheat situation.

Monthly Bulletins.—Advance preliminary statement, stocks of butter, cheese and eggs in the principal cities of Canada. Agricultural statistics (Eng. and French). The wheat situation; review; statistical supplement—\$1.00 per year. Building permits. Canadian milling statistics. Cold storage holdings of meat and lard. Current trends in food distribution. Departmental store sales. Summary of the trade of Canada, current month and 12 months. Summary of Canada's domestic exports. Summary of Canada's imports. Canada's imports by principal countries. Asbestos trade. Footwear trade. Tobacco trade. Canada's monthly trade trends. Canada's monthly trade trends with foreign countries. Monthly retail sales in country general stores. Railway operating statistics. Traffic of Canadian railways. Canal Statistics. Output of central electric stations in Canada. Prices and Price Indexes. Price movements (preliminary). Steel ingots. Stocks of raw hides and skins. Storage holdings of fish. Automobile financing. Bank debits. Retail sales in Canada. Commercial failures. The employment situation as reported by employers. Monthly wholesale trade. New motor vehicle sales. Outstanding facts and figures gathered from reports, statements, bulletins and radio broadcasts. Review of business statistics (Eng. and French)—Price \$1.00 per year. Review of daily production. Sales and purchases of securities between Canada and other countries. Stocks of dairy and poultry products. Stocks of Canadian fruit and vegetables. Stocks of raw hides and skins. Tobacco trade. Vital statistics, births, marriages and deaths, by provinces. Current review of agricultural conditions.

Quarterly Bulletins.—Civil Aviation.

For the publications listed above application should be made to the Dominion Statistician, Dominion Bureau of Statistics, Ottawa.

The complete service of all publications issued by the Bureau (with the exception of news bulletins) may be obtained for a special rate of \$30 per annum.
