DOMINION STATISTICIAN, HERBERT MARSHALL, B.A., F.S.S.
CHIEF, BUSINESS STATISTICS BRANCH: SYDNEY B. SMITH, M.A.

ECONOMIC CONDITIONS IN JUNE

A majority of the main factors showing the trend of economic conditions recorded recession in June from the preceding month. A further advance was shown in wholesale prices, the index moving up to a new high point since the second quarter of 1921. High-grade bond prices which had shown recession in the two preceding months strengthened slightly during June.

Speculative factors including the prices of common stocks and trading on the stock exchanges showed minor recession. The high point in recent years for common stock prices was reached in April and the average prices showed minor decline in following months.

Money supply consisting of coin, notes and bank deposits was at a slightly lower level at the beginning of the month. The total was \$7,105 million against \$7,190 million. The standing on May 31, exceeded all other reporting dates prior to November, 1945.

Productive operations due mainly to strike action, reached a slightly lower point in June than in the preceding month. The high point in productive activity was reached in the early months of 1944, and owing to the decline and the eventual termination of war demand a receding trend was shown for about two years. The level of operations has been relatively steady since the beginning of 1946. Production, while at high levels in most lines, has been impeded by the indirect effect of recent strikes in the United States and latterly by a number of important labour disputes in this country. Pressure for production of all kinds continues to characterize the present situation.

Agriculture

Prairie farmers have this year increased their wheat acreage by 12 p.c., with each of the three Provinces contributing substantially to the aggregate

advance. Nevertheless, there has been a reduced acreage in all of the coarse grains except rye, and summer-fallow is about 5 p.c. less. Growing conditions have greatly improved in recent weeks, but in some areas deterioration is still in evidence. Generous rains over wide areas have promoted rapid growth but the drain on moisture reserves has been heavy and further rainfall will be required to ensure thorough filling and to bring all crops through to maturity.

Canada has met her objective in the first half of 1946 by exporting four million long tons of wheat and flour, the equivalent of about 150 million bushels of wheat. The target had been accepted by Canada through the Combined Food Board last December in the face of a critical world food shortage. In addition to heavy marketing last fall, wheat producers in the Prairie Provinces marketed nearly 60 million bushels of wheat during the half year, normally a period of relatively light marketing.

By stripping Canada's wheat carry-over to a minimum and securing maximum delivery of farm-stored wheat, the Dominion has made an important contribution towards feeding the people of Europe during a critical period. The visible supply of wheat was reduced to 43.7 million bushels as of July 11, compared with 236 million on the same date last year. The total marketings during the crop year to the same date were nearly 230 million bushels compared with 329 million in the same period of the preceding year. More than 1,800,000 long tons of shipping space was required to move grain from the west coast ports during the crop year. Shipments of 68 million bushels through Vancouver were greater than in any other year since 1932.

The sale of livestock at stock yards was considerably greater in June than

② GENERAL ECONOMIC FACTORS

1935-39 = 100

COMMON STOCK PRICES — DOMINION BOND PRICES —

BANK DEBITS — MONEY SUPPLY —

1939 1940 1941 1942 1943 1944 1945 1946 1947 1948 1949 1950

in the preceding month, increases having been shown in cattle and hogs after seasonal adjustment. Operations of the meat packing industry were nearly maintained, considerable advance having been shown in cattle slaughterings contrasting with decline in hogs and sheep after the usual adjustment. Cold storage holdings of meat were substantially greater on July 1, than on the same date last year. It was announced that when wholesale ceiling prices on top-quality beef were reimposed July 20, they were one to two cents per pound higher than those in effect prior to May 28, when the ceilings were suspended in an effort to stimulate the marketing of cattle. While involving minor increases to the consumer on the three top grades, substantially greater returns were provided for the producer of good quality cattle than in the previous order.

The output of dairy products recorded increases in June somewhat less than normal for the season. The output of factory cheese was 28.1 million pounds against 15.8 million in May, while creamery butter showed an increase from 31.5 million pounds to 42.4 million. The production of creamery butter was 4 p.c. less than in the same month last year.

Forestry

While the production of newsprint was less in June than in the preceding month, a portion of the recession was due to seasonal tendencies. The index showed a drop of about three points to 131.3. The output during the first six months was placed at more than two million tons. Sales during the half year were 1,960,000 tons against 1,503,000, in the same period of 1945. Shipments in June of 322,805 tons, just as in the case of production, were the largest for that month in the history of the industry. For the second time in a ten-week period the price of newsprint was increased to Canadian publishers, a rise of \$6.80 per ton following an increase of \$9.00, which had become effective on May 1. Over the pre-war price of \$50 per ton, the increase is approximately 40 p.c. The recent advance of \$6.80 per ton, applic-

able to both domestic and export markets was reported as an adjustment to offset the loss caused to producers by the restoration of exchange parity between Canada and the United States.

Mining

A majority of the factors indicating the trend of mineral production receded to lower levels in the latest month for which statistics are available. Gold receipts at the Mint, however, rose from 223,035 fine ounces in May to 225,161. The receipts were considerably greater than in June of last year. The British Ministry of Supply has sharply increased consumer prices for copper, lead and zinc in order to bring prices more closely in line with current world quotations. The price of copper was placed at £84 per long ton equal to about 15.13 cents a pound, an advance of £12 a ton or about 2.16 cents a pound.

Manufacturing

A number of manufacturing plants showed considerable reduction in operations during June. The flour milling industry has recorded a reduction in activity for three consecutive months. Sugar refineries for the four-week period ended June 15, recorded sharp reduction in the manufacture and sales of refined sugar. The decline in the output from the first of the year to June 15, compared with 1945 was 18.5 p.c. The release of cigarettes was slightly larger in June than in May, the total made available having been 1,181 million. A decline was shown in the release of Canadian raw leaf and cigars. The stocks of non-manufactured tobacco on hand for the first half of 1946 were the greatest for two years and substantially larger than the ten-year average.

Operations in the mills of the Canadian textile industry showed a pronounced drop in June, bale openings being at a lower level than at any time since September, 1939. The standing for the half year was somewhat greater than for the same period of 1945. Imports of rayon yarns into Canada during the first five months of the present year declined 43 p.c. from the same period of 1945, a sharply reduced

^a Percentage of recorded unemployment

movement from the United States having been shown.

Transport

The gross earnings of the two main railways were about \$325.6 million in the first half of 1946, being a decline of nearly \$43 million or 11.7 p.c. from the maximum of \$368.6 million recorded in the preceding year. The total was still sharply above most pre-war years including the high point of 1929, amounting to \$254.3 million. The net revenue of the Canadian National during the first half of the present year showed a drop of slightly more than 50 p.c.

The revenue freight movement during the first half of the present year was less than in the same period of either 1944 or 1945. Increases over last year were recorded in coal, gasoline, pulpwood, woodpulp and paper, building materials and merchandise in less than earload lots.

Construction

Contracts awarded in June receded rather sharply from the high level of the preceding month. Contracts placed in the first half of the present year, however, were at a particularly high level. It is estimated that private investment in expansion projects will total \$1 billion or 20 p.c. more than in 1945. Private industry has plans which would provide for a total investment of \$1.2 billion but material and labour shortages will probably limit the work which may be undertaken. About \$500 million will probably be spent on residential, institutional, commercial and agricultural expansion.

External Trade

A considerable decline was shown in exports from Canada in June from the preceding month, the total having been \$168.8 million against \$198.8 million. Lower values were recorded

for exports during June in all commodity groups except wood, wood products and paper. The largest decreases were shown by agricultural, vegetable and iron and steel products. Canadian imports reached a record high point of \$722 million for the first five months of 1946. This represents a considerable advance in peacetime commerce over the levels of 1929, when total imports for the first five months of that year were valued at \$552 million.

Retail Sales

Dollar value of sales in Canadian retail stores during May was 2 p.c. greater than in April and 19 p.c. above the level of May, 1945. Statistics for the first five months of this year reveal an increase of 15 p.c. over the same period of 1945. Retail sales of radio equipment and electrical goods in May were 90 p.c. greater than in the same month of last year and in the first five months were 72.7 p.c. greater than in the same period of last year.

The seasonal influx of tourists has proven of benefit to retail sales and dollar volume is generally conceded greater than during the corresponding period of 1945. Extending the broad margin of increase recorded in the first five months of the year, department store sales in June advanced 13 p.c. over the same period of last year.

Sales of country general stores were 5 p.c. lower in June than in May and 10 p.c. higher than in June last year. Heavy sales of feed, building supplies and materials were cited by some of the retailers as among the more important factors contributing to the sales expansion. Sales in the southern part of Quebec province were unchanged from June a year ago. All other sections of the country for which separate figures are compiled registered increases ranging as high as 16 per cent for the northern part of Ontario.

STATISTICIEN DU DOMINION: HERBERT MARSHALL, B.A., F.S.S.
CHEF, BRANCHE DES STATISTIQUES ÉCONOMIQUES: SYDNEY B. SMITH, M.A.

SITUATION ÉCONOMIQUE EN JUIN

La plupart des principaux facteurs qui indiquent la tendance de la situation économique déclinent en juin par rapport au mois précédent. Les prix de gros avancent de nouveau; l'indice touche le sommet le plus élevé depuis le deuxième trimestre de 1921. Le cours des obligations de tout repos, à la baisse durant les deux mois précédents, prennent un peu de vigueur en juin.

Les facteurs spéculatifs, y compris le cours des obligations ordinaires et les transactions des Bourses, accusent une légère diminution. Le cours des obligations ordinaires touche en avril le point culminant des récentes années; durant les mois subséquents, les prix moyens déclinent légèrement.

Les fonds monétaires, composés de pièces de monnaie, de billets et de dépôts bancaires, touchent un niveau quelque peu moins élevé au début du mois. Le total s'établit à \$7,105,000 contre \$7,190,000. Le niveau au 31 mai excède celui de toutes autres dates de rapport antérieures à novembre 1945.

Les opérations productives, surtout à cause des grèves, touchent en juin un niveau légèrement inférieur à celui du mois précédent. Le sommet de l'activité productive est atteint au cours des premiers mois de 1944 et, en raison du déclin et de la cessation éventuelle de la demande de guerre, il y a une tendance à la baisse depuis près de deux ans. Le niveau des opérations demeure relativement stationnaire depuis le début de 1946. La production, bien qu'occupant des niveaux élevés dans la plupart des catégories, est gênée par l'effet indirect des récentes grèves aux Etats-Unis et récemment, par les mésententes ouvrières importantes au Canada. Une demande de production générale caractérise la situation courante.

Agriculture

Les cultivateurs des Provinces des Prairies augmentent leurs emblavures

de 12 p.c. cette année; chacune des trois provinces contribue pour une grande part à l'expansion générale. Il y a toutefois une réduction des acréages de tous les grains secondaires, sauf le seigle; les jachères d'été diminuent d'à peu près 5 p.c. Les conditions de végétation se sont sensiblement améliorées au cours des récentes semaines, mais il existe encore des signes de détérioration dans certaines régions. Les pluies abondantes dans de vastes régions accélèrent la croissance, mais les réserves d'humidité s'épuisent rapidement, et il faudra de nouvelles pluies pour assurer un remplissage complet et faire mûrir les cultures.

Le Canada répond à ses obligations au cours du premier semestre de 1946 en exportant quatre millions de tonnes longues de blé et de farine, soit l'équivalent d'environ 150,000,000 de boisseaux de blé. Le Canada avait accepté cet objectif par l'intermédiaire de l'Office mixte des vivres en décembre dernier, en présence de la situation critique des vivres à travers le monde. En plus de l'écoulement volumineux l'automne dernier, les producteurs de blé dans les Provinces des Prairies vendent près de 60,000,000 de boisseaux de blé durant le semestre, qui normalement est une période de ventes relativement inactive.

Le Dominion, en réduisant au strict minimum le report de blé et en obtenant la livraison maximum du blé sur les fermes, a contribué grandement à l'alimentation des populations européennes durant une période critique. Les stocks visibles de blé diminuent à 43,700,000 boisseaux le 11 juillet de 236,000,000 de boisseaux la même date l'an dernier. L'écoulement global au cours de la campagne agricole à la même date touche près de 230,000,000 de boisseaux, en comparaison de 329,000,000 de boisseaux la même période l'année précédente. Il a fallu plus de 1,800,000 de tonnes longues d'es-

pace de cargaison pour transporter le grain des ports de l'Ouest durant l'année agricole. Les expéditions de 68,000,000 de boisseaux passant par Vancouver dépassent celles de toute autre année depuis 1932.

La vente d'animaux dans les pâres à bestiaux augmente fortement en juin par rapport au mois précédent; les bêtes à cornes et les pores sont à la hausse après ajustement saisonnier. Les opérations des salaisons se maintiennent à peu près en raison d'une augmentation considérable des abattages de bêtes à cornes par contraste avec le déclin des pores et des moutons, après les ajustements coutumiers. Les stocks de viande en entrepôts frigorifiques sont beaucoup plus élevés le 1er juillet qu'à la même date l'an dernier. Il est annoncé que lors de la remise en vigueur du plafonnement des prix de gros pour le bœuf de première qualité, le 20 juillet, ils étaient d'un à deux cents la livre plus élevés que les prix en vigueur avant le 28 mai, alors que les plafonnements ont été suspendus dans le but de stimuler la vente des bêtes à cornes. Si la nouvelle ordonnance occasionne une hausse légère du bœuf des trois premières qualités pour le consommateur, elle apporte au producteur de bœuf de bonne qualité un meilleur revenu que l'ancienne.

La production de produits laitiers en juin augmente un peu moins que normalement pour la saison. La production de fromage de fabrique est de 28,100,000 livres contre 15,800,000 livres en mai, tandis que le beurre de crème passe de 31,500,000 livres à 42,400,000 livres. La production de beurre de crème est de 4 p.e. inférieure à celle du même mois l'an dernier.

Industries forestières

Bien que la production de papier à journal en juin soit inférieure à celle du mois précédent, une partie de cette diminution provient de tendances saisonnières. L'indice accuse une baisse d'environ 3 points à 131·3. La production durant les six premiers mois s'établit à plus de deux millions de tonnes. Les ventes du premier semestre atteignent 1,960,000 tonnes contre

1,503,000 tonnes la même période, 1945. Les expéditions en juin de 322,805 tonnes, comme dans le cas de la production, touchent pour ce mois un sommet dans l'histoire de l'industrie. Pour la deuxième fois en dix semaines, le prix du papier à journal augmente pour les éditeurs canadiens, soit de \$6.80 la tonne après une augmentation de \$9 mise en vigueur le 1er mai. Par rapport au prix d'avant-guerre de \$50 la tonne, la hausse est de près de 40 p.e. Il est annoncé que l'augmentation récente de \$6.80 la tonne, applicable aussi bien au marché domestique qu'aux débouchés d'exportation, est un ajustement destiné à contre-balancer la perte occasionnée aux producteurs par la restauration du change à parité entre le Canada et les Etats-Unis.

Industries minières

Une majorité des facteurs qui indiquent la tendance de la production minérale tombe à des niveaux inférieurs durant le dernier mois statistique. Les livraisons d'or à la Monnaie Royale augmentent toutefois de 223,035 onces fines en mai à 225,161 onces fines. Les livraisons sont considérablement plus fortes qu'en juin l'an dernier. Le Ministère britannique des approvisionnements augmente sensiblement, pour le consommateur, le prix du cuivre, du plomb et du zinc, afin de le rapprocher du cours mondial courant. Le prix du cuivre s'établit à £84 la tonne longue, équivalent à environ 15·13 cents la livre, soit une hausse de £12 la tonne ou d'environ 2·16 cents la livre.

Manufactures

Un certain nombre de manufactures accusent une activité considérablement réduite en juin. Les meuneries enregistrent des déclins depuis trois mois. Les raffineries de sucre enregistrent, durant la période de quatre semaines terminée le 15 juin, une soudaine diminution de la fabrication et de la vente de sucre raffiné. Le déclin de la production au début de l'année au 15 juin est de 18·5 p.e. comparativement à 1945. Le dé douanement de cigarettes est quelque peu plus élevé en juin qu'en mai; le total connu touche 1,181,000,000. Il y a un déclin

¹ Individual as well as commercial failures are included in Table 5, while commercial failures only are shown in Table 6.

du dédouanement de tabac brut canadien en feuilles et de cigares. Les stocks de tabac non manufacturé en mains durant le premier semestre de 1946 sont les plus considérables depuis deux ans et de beaucoup supérieurs à la moyenne décennale.

Les opérations des filatures de l'industrie textile canadienne baissent fortement en juin; les ouvertures de balles sont moins nombreuses qu'en tout autre temps depuis septembre 1939. Le niveau du premier semestre est quelque peu plus élevé que durant la même période de 1945. Les importations de filés de rayonne au Canada durant les cinq premiers mois de l'année courante déclinent de 43 p.c. par rapport à la même période de 1945; l'importation des Etats-Unis accuse une diminution prononcée.

Transports

Les recettes brutes des deux principaux chemins de fer touchent environ \$325,600,000 au cours du premier semestre de 1946; elles déclinent donc de près de \$43,000,000 ou de 11·7 p.c. par rapport au maximum de \$368,600,000 l'année précédente. Le total est encore fortement plus élevé que celui d'avant-guerre, y compris le sommet de 1929 de \$254,300,000. Le revenu net du National-Canadien pendant le premier semestre de l'année courante diminue d'un peu plus de 50 p.c.

Le transport de marchandises payantes au cours du semestre de cette année occupe un niveau inférieur à celui de la même période de 1944 ou de 1945. Le charbon, la gazoline, la pulpe de bois et le papier, les matériaux de construction et les marchandises de moins d'un wagon enregistrent des augmentations par rapport à l'an dernier.

Construction

Les contrats adjugés en juin s'éloignent brusquement du niveau élevé du mois précédent. Les contrats obtenus durant le premier semestre de cette année occupent toutefois un niveau particulièrement élevé. Il est estimé que les placements des particuliers relatifs à des projets d'expansion atteindront \$1,000,000,00 ou 20 p.c.

de plus qu'en 1945. L'industrie privée a des projets d'une valeur globale de placement de \$1,200,000,000, mais la pénurie de matériaux et de main-d'œuvre posera probablement des limites aux travaux projetés. Il se dépendra probablement près de \$500,000,-000 pour l'expansion de résidences, d'institutions et d'édifices commerciaux et agricoles.

Les exportations du Canada en juin diminuent beaucoup par rapport au mois précédent; le total est de \$168,-800,000 contre \$198,800,000. Tous les groupes de denrées, sauf le bois, les produits du bois et le papier, enregistrent des déclins quant à la valeur des exportations. Les produits agricoles, les légumes et les produits du fer et de l'acier manifestent les plus fortes diminutions. Les importations canadiennes atteignent un sommet de \$722,000,000 au cours des cinq premiers mois de 1946. Ceci représente une expansion considérable du commerce en temps de paix par opposition aux niveaux de 1929, alors que les importations globales des cinq premiers mois ont touché une valeur de \$552,000,000.

Vente de détail

La valeur en dollars des ventes de magasins de détail canadiens en mai est de 2 p.c. plus élevée qu'en avril et de 19 p.c. au-dessus du niveau de mai 1945. Les statistiques pour les cinq premiers mois de cette année révèlent qu'il y a augmentation de 15 p.c. auprès de la même période de 1945. En mai, les ventes de détail d'accessoires électriques et de radios dépassent de 90 p.c. celles du même mois l'an dernier et, durant les cinq premiers mois, de 72·7 p.c. celles de la même période l'an dernier.

L'invasion saisonnière des touristes est profitable aux ventes de détail; le volume en dollars est fixé généralement à un niveau plus élevé qu'au cours de la période correspondante de 1945. Les ventes de magasins à rayons en juin dépassent de 13 p.c. celles de la même période l'an dernier, élargissant ainsi la marge déjà grande des augmentations durant les cinq premiers mois de l'année.

† Consisting of credits of \$97,182,592, less expenditure of \$72,517,457 in the Munitions Production Allotment Fund.

NOTE:—It was necessary in order to display a proper comparison, to adjust the 1945-1946 expenditure figures for such items as War Service Grants (included in Veterans' Affairs) which were classified as Ordinary in that year and as Demobilization and Reconversion in 1946-47.

** Due to large adjustments in the current month.

1941	185.0	128.2	126.1	127.8	155.4	201.4	
1942	202.2	106.2	118.4	141.0	160.6	232.4	
1943	235.9	128.7	112.8	154.3	142.0	223.0	
1944	238.8	176.6	107.3	154.4	120.9	224.8	
1945	212.5	149.7	93.4	163.3	121.2	213.2	

- (a) The index of employment in eight industrial and service groups, finance not being included, transferred to the base of 1935-39=100 by dividing by the average for the five years.
- (b) The index of wholesale prices was transferred to the prewar base by dividing by the average for the period 1935 to 1939.
- (c) The index of common stocks was transferred for the period 1919 to 1934 from the original base of 1926 to that of 1935-39=100. For the period from 1935 to the present the monthly indexes as published in the annual report 1913 to 1943 on Prices and Price Indexes and subsequent publications, were averaged year by year.
- (d) The index of bond prices was prepared from basic material appearing on page 75 of Prices and Price Indexes 1913 to 1943. The index numbers of long-term bond yields given by months in Table 28, were averaged year by year. The reciprocals of the averages were computed and the results placed on the base of 1935-39=100.

(Continued on page 60.)

1945		185.0	172.6	165.7	161.7	175.5
	205.3	187.2	183.8	172.3	187.0	193.7

- (e) The amount of cheques cashed was published in the annual report for 1940 and for 1938 to 1945. The Dominion total was expressed as a percentage of the base period. A statement of the money supply was given in Table 9, of the annual report of Cheques Cashed against Individual Accounts and Money Supply 1938 to 1945. The totals were expressed as a percentage of the period from 1935 to 1939.
2. (a) The monthly average of the index of the physical volume of business from 1919 to 1943 was given on page 29, of the Monthly Review of Business Statistics for February, 1944.
- (b) A special computation was made for the index of agricultural marketings. Grain deliveries at country elevators in the Prairie Provinces were weighted year by year. The statistics of sales of live stock on stock yards were weighted year by year. The sum of the products for grain and livestock marketings was divided by the average for the base period 1935 to 1939.
- (c) The annual copper production reported by the Mining, Metallurgical and Chemical Branch was placed on the base 1935 to 1939.
- (d) & (f) The total production of electric power and steel production as published by the Transportation Branch and the Mining, Metallurgical and Chemical Branch, respectively, were placed on the base of 1935-39 = 100.
- (e) The index of cotton consumption from 1939 to 1945 was based upon statistics furnished by the Cotton Textile Institute. The series was extended backward to 1926 by means of data on the raw cotton consumption by the textile industry as reported to the Manufactures Branch.
3. (a) The statistics of building permits relate to 58 municipalities, collection having been made by the Bureau. The figures for contracts awarded were supplied by MacLean's.
4. The indexes of wholesale and retail distribution were collected and published by the Merchandising and Service Branch of the Bureau.

5. The statistics of exports and imports were taken from the reports of the External Trade Branch. Exports include the domestic and foreign divisions. The totals are exclusive of gold.

6. (a) and (b) Index numbers were constructed by dividing the annual statistics of tons carried and carloadings by the average for 1935-39.

(c) and (d) The statistics of Canadian National revenues embrace Canadian lines only. Under the heading of the Canadian National the following railways were included during the early years:

Cape Breton, Caraquet and Gulf Shore, Grand Trunk, Grand Trunk Pacific, Grand Trunk Pacific Branch Lines, Lotbinière and Megantic, Massawippi Valley, Quebec, Montreal and Southern, Quebec Oriental.

For comparability five additional railways as follows were included with the Canadian Pacific during the early years,—

Dominion Atlantic, Esquimalt and Nanaimo, Fredericton and Grand Lake, Montreal and Atlantic and New Brunswick Coal and Railway.

PUBLICATIONS ISSUED BY THE DOMINION BUREAU OF STATISTICS DURING THE MONTH ENDED JULY 16, 1946

Population.—

EARNINGS AND EMPLOYMENT, No. E-3. Eighth census of Canada, 1941. Earnings of wage-earners by industry group and occupation (Eng. and French), 49 p., 10 cents.

THE FARM DWELLINGS OF CANADA, 10 p. Housing census of Canada MB-1.

Agriculture.—

TOBACCO CROP REPORT, June 18, 1946, 2 p., 10 cents.

TELEGRAPHIC CROP REPORT, June 18, 1946 (C.R. No. 6, 1946-47) 6 p., (R.A. No. 6, 1946-47), June 25, 1946 (C.R. No. 7, 1946-47) (R.A. No. 7, 1946-47) 3 p., July 3rd, 1946 (C.R. No. 8, 1946-47) (R.A. No. 8, 1946-47) 4 p., July 16, 1946 C.R. No. 10, 5 p. (Eng. and French) \$2.00 a year.

FARM WAGES IN CANADA, June 19, 1946, 1 p., 10 cents.

CONDITIONS OF FIELD CROPS, June 30, 1946 (C.R. No. 9, 1946-47) (R.A. No. 9, 1946-47) (English and French), 6 p., \$2.00 a year.

FRUIT AND VEGETABLE CROP REPORT, June 28, 1946, 4 p., \$1.00 a year.

MAPLE PRODUCTS, 1946 (Eng. and French) 3 p., 10 cents.

FUR STATISTICS, Preliminary report on the production of Fur in Canada, season 1944-45 (English and French) 4 p., 10 cents.

Manufactures.—

Vegetable Products.—

FLOUR AND FEED MILLING INDUSTRIES IN CANADA, 1944 (14-1370) 32 p., 25 cents.

PREPARED STOCK AND POULTRY FEEDS' INDUSTRY, 1944 (14-1390) 17 p., 25 cents.

PRELIMINARY REPORT, PACK OF CANNED FRUITS AND VEGETABLES 1945, 3 p., 25 cents.

Textile Products.—

MEN'S FACTORY CLOTHING INDUSTRY, 1944 Section 1. Men's Factory Clothing, Section 2. Clothing Contractors, 14-1660, 32 p.

Wood and Paper.—

CARRIAGES, SLEIGHS AND VEHICLE SUPPLIES, 1944 (13-1340) (Eng. and French) 2 p., 15 cents.

COFFINS AND CASKETS, 1944 (13-1270) (Eng. and French), 2 p., 10 cents.

BOX, BASKET AND CRATE INDUSTRY, 1944 (13-1240) (Eng. and French) 1 p., 10 cents.

PLANING MILLS AND SASH AND DOOR FACTORIES, 1944 (13-1220) (Eng. and French) 1 p., 10 cents.

THE WOOD TURNING INDUSTRY, 1944 (13-1360) (Eng. and French) 2 p., 10 cents.

THE MISCELLANEOUS WOOD-USING INDUSTRIES, 1944 (13-1350) (Eng. and French), 1 p., 10 cents.

WOODENWARE INDUSTRY, 1944 (13-1300) (Eng. and French) 2 p., 10 cents.

THE COOPERAGE INDUSTRY, 1944 (13-1260) (Eng. and French) 2 p., 10 cents.

PRELIMINARY REPORT FURNITURE, 1944 (Eng. and French) 12 p., 15 cents.

Iron and Steel and their products.—

FINAL SUMMARY OF STATISTICS, 1944 (50-27-6-46) 2 p., 10 cents.

Non-Metallic Minerals.—

THE CEMENT PRODUCTS INDUSTRY, 1944 (47-11-6-46) 9 p., 25 cents.

THE ASBESTOS PRODUCTS INDUSTRY, 1944 (46-18-6-46) 6 p., 25 cents.

THE GLASS INDUSTRY, 1944(49-18-6-46) 9 p., 25 cents.

Chemicals and Allied Products.—

MEDICINAL AND PHARMACEUTICAL PREPARATIONS INDUSTRY, 1944 (38-4-4-46) 10 p., 25 cents.

THE ADHESIVE INDUSTRY, 1944 (45-14-6-46), 6 p., 15 cents.

Merchandising and Services.—

OPERATING RESULTS OF UNINCORPORATED RETAIL STORES, 1944: Bulletin No. 5—Independent restaurants, independent drug stores, independent jewellery stores, independent tobacco stores, independent coal and wood distributors, including purpose, importance, explanation of use, summary of results and statistical tables (16-7050), 63 p., 25 cents.

Transportation and Public Utilities.—

EXPRESS STATISTICS, 1945 (20-1400), 8 p., 10 cents.

CANAL STATISTICS, 1945 (20-1300) 41 p., 25 cents.

TRANSIT SYSTEMS, 1933-1945 (20-4750), 5 p.

INDEX NUMBERS OF COST OF ELECTRICITY for domestic service and tables of monthly bills for domestic service, commercial light and small power, 1945, 23 p., 25 cents.

MOTOR CARRIERS, FREIGHT AND PASSENGERS, 1944 (20-1750), 18 p., 25 cents.

Public Finance.—

SUPPLEMENT TO HOUSING STATISTICS, 1945 (calendar year) dwelling units, types of buildings and types of construction for individual municipalities and other areas (D B S-11-1600) (Eng. and French), 32 p., 25 cents.

HOUSING STATISTICS, 1946, dwelling units and type of buildings reported by municipalities for four months ending April 30th, 1946 (D B S-11-4600) (Eng. and French), 19 p., 25 cents.

Institutional Statistics.—

ANNUAL REPORT OF HOSPITALS (Eng. and French), 113 p., 25 cents.

PUBLICATIONS REGULARLY ISSUED BY THE DAY, WEEK MONTH OR QUARTER

Daily Bulletins.—The daily bulletin (Eng. and French)—\$1.50 per year.

Weekly Bulletins.—Canadian grain statistics. Carloadings of revenue freight. The weekly bulletin—\$1.00 per year.

Monthly Reports.—

VITAL STATISTICS.—Births, deaths and marriages registered in cities.

AGRICULTURE.—The wheat situation. Milling statistics. Cold storage holdings of meat and lard. Dairy review. Cold storage holdings of dairy and poultry products. Stocks of butter, cheese and eggs. Storage stocks of fruit and vegetables. Sugar Report.

FISHERIES.—Cold storage holdings of fish.

MINING.—Leading minerals. Gold, copper-nickel, silver-lead-zinc. Clay products and petroleum and natural gas. Asbestos. Cement. Salt. Coal and coke.

MANUFACTURES.—Boot and shoe production. Asphalt roofing production. Asphalt roofing sales. Pig iron, steel and ferro-alloys. Steel ingots. Steel wire. Nails, tacks and staples. Wire fencing. Non-ferrous scrap metal, dealers report. Ingot makers report on non-ferrous scrap metal and secondary non-ferrous ingot. Factory sales of electric storage batteries. Radio receiving sets. Domestic washing machines. Domestic-type electric refrigerators. Refined petroleum products. Sales of manufactured and natural gas. Products made from Canadian clays. Rock wool. Concrete building blocks and cement pipe. Paints, varnishes and lacquers.

CONSTRUCTION.—Building permits.

EXTERNAL TRADE.—Trade of Canada (Totals) Exports by principal commodities. Imports by principal commodities. Exports by principal countries. Imports by principal countries. Exports of Canadian produce. Imports entered for consumption: No. 101, 102. Imports of Milk and its products and eggs; No. 103, Imports of Rubber; No. 104, Exports of Rubber and Insulated Wire Cable; No. 111, 112, Imports of Paints and Varnishes; No. 113, Imports of Lumber; No. 114, Exports of Lumber; No. 117, Imports of Farm Machinery and Implements; No. 118, Exports of Farm Implements and Machinery; No. 119, Imports

of Pulp, Wood Pulp and Paper; No. 120, Exports of Pulpwood, Wood Pulp and Paper; No. 123, Exports and Imports of Tobacco; No. 203, Imports and Exports of Coffee and Tea; No. 204, Imports and Exports of Hides and Skins; No. 207, Imports of Stoves, Sheet Metal Products and Refrigerators; No. 208, Imports and Exports of Vegetable Oils; No. 209, Imports and Exports of Fertilizers; No. 210, Imports and Exports of Wire of Iron and Steel.

Sales and Purchases of Securities between Canada and Other Countries. Highway Traffic at Canadian Border Points by Ports.

INTERNAL TRADE.—Indexes of Wholesale Sales. Indexes of Retail Sales. Indexes of Country General Store Sales. Current Trends in Food Distribution. Financing of Motor Vehicle Sales. Stocks of Raw Hides and Skins in Canada. Departmental Store sales.

LABOUR AND PRICES.—Price movements in Canada (preliminary). Prices and price indexes. Employment and Payrolls. Statistical report on the operation of the Unemployment Insurance Act.

TRANSPORTATION, COMMUNICATION AND PUBLIC UTILITIES.—Railway Revenues, Expenses, Incomes and Operating Statistics. Freight Traffic of Railways. Output of Central Electric Stations. Civil Aviation Operating Statistics.

BUSINESS STATISTICS.—Cheques cashed against Individual Accounts at the Clearing House Centres of Canada and the Money Supply. Monthly Review of Business Statistics.

GENERAL.—A Fact a Day about Canada.

Quarterly Reports.—

VITAL STATISTICS.—Preliminary Report on Vital Statistics of Canada.

AGRICULTURE.—Quarterly Bulletin of Agricultural Statistics with Annual Index. Quarterly Review of Canadian Coarse Grains.

MANUFACTURES.—Stocks of Unmanufactured Tobacco on Hand. Stocks of Canned Fruits and Vegetables. Galvanized Sheets Production and Sales of Radio Sets. Sales of Storage Batteries.

INTERNAL TRADE.—New motor vehicle sales.

BUSINESS STATISTICS.—Commercial failures.
