<sup>1</sup> Unadjusted for seasonality, except regular beneficiaries.<sup>2</sup> Annual data are averages of the monthly estimates except for benefit weeks and claims received, where the sums are used. Another estimate of EI coverage, derived from annual tax returns filed with Revenue Canada, is also available on request.<sup>3</sup> Includes all strikes and lockouts, legal or illegal, lasting one-half day or more and amounting to 10 or more person-days lost. Time lost by workers indirectly affected, such as those laid off because of a stoppage by other employees, is not included.<sup>4</sup> Effective annual % increase in base rates.

Note: STC is monitoring the impact of using more administrative data in SEPH. In the interim, users are reminded that employment data from SEPH are best used in the context of longer time periods and for the distribution of industrial employment. The same applies to Table 9.

CANSIM tables: 382-0006 and 281-0025

Note : Suite à l'augmentation des données administratives dans la composition des estimations, STC étudie l'impact sur l'EERH. Entre-temps, il est préférable d'utiliser les estimations de l'EERH sur une plus longue période de référence et pour la répartition de l'emploi industriel. La même note s'applique au tableau 9.
