The Canada Year Book, 1905	XI
Events of the Year	XIII-XLI

I. TABLES COMPILED FROM CENSUS REPORTS.

POPULATION

Sex, conjugal state, birthplace, race and religion, 1871-1901.	2-12
II. Ages of the living, males and females, 1871-1901	13
III. Ages of the living, males, 1871-1901	14-18
III. Ages of the living, females, 1871-1901	15-19
IV. Ages of the dead, males, 1871-1901	20-24
IV. Ages of the dead, females, 1871-1901	21-25
V. Mortality by causes of death, males, 1871-1901	4
V. Mortality by causes of death, females, 1871-1901	27-35
VI. Infirmities, unsound mind, 1871-1901	36-40
VII. Infirmities, deaf and dumb, 1871-1901	41-45
VIII. Infirmities, blind, 1871-1901	46-50
IX. Infirmities, totals of unsound mind, deaf and dumb and blind	51
A. Families and houses, 1871-1901	52
XI. Houses and families, 1901	53
XII. Education of the people, school attendance and educational status	54-55
XIII. School attendance, pupils five years and over at school, 1900-01	56-57
XIV. Schools, colleges and universities, 1901	58-59
XV. Institutions, charitable, educational and penal, 1871-1901	60-61
XVI. Institutions, charitable, penal and other kinds, 1901	62-65
XVII. Churches and Sunday schools, 1901	66-69
XVIII. Religious denominations, 1871-1901	70-71

POPULATION AND REPRESENTATION

XIX. Population of Canada, 1901, and representation in the House of Commons according to the districts of the Representation Acts 1903 and 1904.	72-74
XX. Members of the House of Commons and Senate, 1867-1905.	75

AGRICULTURE

XXI. Occupiers of lands and lands occupied, 1871-1901	76-77
XXII. Products of field crops, 1871-1901	78-80
XXIII. Areas and products of field crops, 1891-1901	81-84
XXIV. Comparative statistics of principal grain crops in eastern provinces with Manitoba and the territories, 1891-1901	85
XXV. Fruit production, 1871-1901	86-87
XXVI. Number of fruit trees and grape vines and area of orchards, gardens, vineyards and nurseries, 1901	88-89
XXVII. Live stock, 1871-1901	90-91
XXVIII. Animal products, 1871-1901	92-93
XXIX. Values of farm property and products, 1901	94-95
XXX. Summary of farm values, 1901	96
XXXI. Rent and hired labour, 1901	97

AGRICULTURE—con.		PAGE.
XXXII.	Butter and cheese making, 1901.....	98-99
XXXIII.	Butter and cheese making, 1871-1901.....	100
XXXIV.	Average number of live stock per farm, 1901.....	101
XXXV.	Average of animal products per farm, 1901.....	101
XXXVI.	Average production of principal field crops per farm, 1901.....	101
THE FOREST		
XXXVII.	Production of timber, logs, wood, etc., 1871-1901.....	102-105
XXXVIII.	Values of timber, logs, wood, etc., 1901.....	106-108
XXXIX.	Value of furs.....	109
THE MINES		
XL.	Mineral products by quantities, 1871-1881-1901.....	110-111

Lieutenant-Governors of Provinces, 1867-1906.....	340-341

THE CANADA YEAR BOOK 1905

This volume begins the Second Series of the Canada Year Book. The short notes of Events of the Year, and all the tables, relate to Canada. No attempt has been made to make a record of all affairs of the Dominion, but only of such as are of a public or official character. In the selection of materials and preparation of the notes all public documents have been carefully consulted and free access has been allowed to the year's files of correspondence in the Governor General's office. The statistics have been prepared as far as practicable in comparative form, and the aim has been to present all information contained in federal public documents since the union of the provinces that is tabulatable. But where the details would be too voluminous if prepared for every year, as in the case of articles of import and export, they are given for a shorter period. Details are for the official departmental reports: this is meant to be a handy-book for the pocket or the desk. Statistics of the provinces of the Dominion, of the United Kingdom and of foreign countries will be prepared for publication as bulletins of the Office.

ARCHIBALD BLUE,
Chief Officer.

Census and Statistics Office,
Ottawa, July, 1906.

EVENTS OF THE YEAR

The first session of the tenth Parliament of Canada opened on the 11th day of January, 1905, and closed by prorogation on the 20th day of July. In this session forty-nine general public acts and one hundred and seventy-six local and private acts were passed. The public acts include an act respecting the Census and Statistics, acts to establish the provinces of Alberta and Saskatchewan and provide for their government, an act for the regulation of wireless telegraphy, an act for the inspection and sale of seeds, and acts respecting the salaries of certain functionaries and judges, allowances to members of the Senate and the House of Commons, and annuities to certain Privy Councillors.

The Census and Statistics Act makes provision for organizing a permanent office under the Minister of Agriculture to take a general census of the Dominion in the first year of each decade, and a census of population and agriculture in the provinces of Alberta, Manitoba and Saskatchewan in the middle year of each decade, commencing with 1906. The office is authorized under the direction of the Minister and subject to approval by the Governor in Council to collect, abstract and tabulate agricultural, commercial, criminal, educational, manufacturing, vital and other statistics and information from time to time in the intercensal years of each decade, which the Minister may publish in such form and manner as the Governor in Council may provide. The Minister may direct the office to abstract and tabulate in concise form such information on subjects susceptible of being represented by figures as is contained in departmental or other public reports and documents, of which the Year Book is an example; and the Governor in Council may authorize the Minister to cause special statistical investigations to be made by the office in the manner and by the means prescribed in such authorization. The office is also required to abstract and tabulate all records of crime in the Dominion collected by the Minister as provided in the act, in order that the results may be printed and published in an annual report to Parliament.

The office of Census and Statistics was organized in October by the appointment of officers and a staff of clerks.

Alberta and
Saskatchewan
Acts.

The Alberta and Saskatchewan Acts came into force on the first day of September. Ceremonies of inauguration, in which the Governor General and the Prime Minister took part, were held at Edmonton, the capital of Alberta, on Saturday, 1st of September, and at Regina, the capital of Saskatchewan, on Monday, 4th of the same month. Hon. George H. V. Bulyea became Lieutenant Governor of Alberta and Hon. Amédée E. Forget Lieutenant Governor of Saskatchewan. Alexander C. Rutherford was chosen as Premier of Alberta and Walter Scott as Premier of Saskatchewan, and the administrations formed by these gentlemen were sustained at the general elections. Each province is represented in the Senate of Canada by four members, and until the readjustment after the next quinquennial census (1906) the two provinces are to remain represented in the House of Commons by ten members. The Legislature of each province consists of the Lieutenant Governor and one House styled the Legislative Assembly, the latter being composed of 25 members; and the provisions of the British North America Act, 1867, with its several amendments apply to the new provinces in the same way and to the like extent as they apply to the older provinces comprised in the Dominion. Annual subsidies payable by the Government of Canada are allowed to each province as follows :

Subsidies.	For support of the Government and Legislature...\$	50,000
	On an estimated population of 250,000 at 80 cents per head	200,000
	For proportion on public debt account, computed at five p. c. on \$3,107,500	403,375
	For compensation in lieu of public lands as a source of revenue on the present assumed population.	375,000

The per capita grant of 80 cents per head is to continue until the population has reached 800,000 souls. The provinces have no debt, but as under the terms of the Confederation Act they would be entitled to enter the Union with a debt of \$3,107,500, they are allowed an annual sum equivalent to interest on that amount at the rate of five per cent. The public lands are retained by the Government of Canada, and in place of these as a source of revenue the provinces receive an annual sum based upon the population as from time to time ascertained by the quinquennial census. Until the population has reached

400,000 the annual sum payable is \$375,000; thereafter until the population has reached 800,000 it is \$562,500; thereafter until the population has reached 1,200,000 it is \$750,000; and thereafter the annual sum payable is \$1,125,000. A further additional annual allowance of \$93,750, in lieu of public lands, is payable by Canada to each of the provinces for five years to provide for the construction of necessary public buildings.

Alberta and Saskatchewan are divided by the meridian of 110° west from Greenwich. They lie between British Columbia on the west and Manitoba and the Northwest territories on the east, and between the international boundary at the 49th parallel on the south and the 60th parallel on the north. Alberta is 185 miles wide at 49°, 403 miles at 54° 30', and 347 miles at 60°, with a land area of 251,180 square miles, and a water area of 2,360 square miles. Saskatchewan is 393 miles wide at 49°, 330 miles wide at 54° 30', and 277 miles at 60°, with a land area of 242,332 square miles and a water area of 8,318 square miles. The area of the two provinces is 504,190 square miles, which is as large as the united areas of Great Britain, France and Germany, as large as the states of Michigan, Wisconsin, Iowa, Minnesota and the two Dakotas, and more than twice as large as the six New England states, together with New York, New Jersey, Pennsylvania, Ohio and Indiana. Some of the world's prize wheat has been grown at Fort Vermilion on Peace river, north of the 58th parallel; and on the Liard river three degrees farther north, where the climate is said to be warmer than on any part of Peace river, wheat always succeeds. From north to south each province extends 766 miles, or as long as from the mouth of the Detroit river to the mouth of the Saguenay in a straight line.

The control of wireless telegraphy in the Dominion is secured by chapter 49, which provides that no person shall establish a wireless telegraph station or install or work any apparatus in any place or on board any registered ship, except under and in accordance with a license granted by the Minister of Marine and Fisheries with the consent of the Governor in Council. Whoever establishes a wireless telegraph station without a license is liable on summary conviction to a fine not exceeding \$50, and on conviction upon indictment to a fine not exceeding \$500 and to imprisonment for a term not exceeding twelve months, and in either case shall be liable to forfeit any apparatus

installed or worked without a license. But where the sole object of an applicant for a license is to conduct experiments in wireless telegraphy, a license may be granted subject to such special terms, conditions and restrictions as the Minister thinks proper. This is the first measure of legislation in the matter of wireless telegraphy provided for by the Parliament of Canada.

The Seed
Control Act.

Prohibited
seeds.

Another original measure of legislation passed in the same session of Parliament is an act respecting the inspection and sale of seeds, being chapter 41 of the statutes of 1905. The act came into operation on the first of September, and provides that no person shall sell, or offer, or expose, or have in his possession for sale for seeding any seeds of cereals, grasses, clovers or forage plants unless they are free from any seeds of the following weeds, viz.: wild mustard or charlock, tumbling mustard, hare's ear mustard, ball mustard, field pennycress or stinkweed, wild oats, bindweed, perennial sow-thistle, ragweed, great ragweed, purple cockle, cow cockle, orange hawkweed or paint brush and ergot of rye, unless each package or sack containing such seeds or a label securely attached thereto is marked in a plain and indelible manner. This provision, however, does not apply to the sale of seed that is grown, sold and delivered by any farmer on his own premises, for seeding by the purchaser himself, unless the purchaser obtains from the seller at the time a certificate that the seed is subject to the provisions of the Seed Control act. The act also provides that no person shall sell, offer, expose or have in his possession for sale any seeds of timothy, red clover, alsike or any mixture of these seeds in or from any package marked "No. 1" or any other designation which represents the seeds as of first quality, unless they are free from the seeds of weeds named in the foregoing list, and also from the seeds of white cockle, night-flowering catchfly, false flax, Canada thistle, ox-eye daisy, curled dock, blue weed, rib-grass and chickory, and contain out of every 100 seeds not less than 99 of the kind or kinds represented, or seeds of other useful and harmless grasses and clovers, of which 99 seeds 90 must be germinable. But the Governor in Council may make regulations determining the maximum proportion of seeds of the weeds specified that may be tolerated in seeds of commerce without affecting their character as being within the meaning of the act.

No person shall sell, offer, expose or have in his possession for sale, for the purpose of seeding in Canada, any seeds of timothy, alsike or red clover, or any mixture containing these seeds, if the seeds of weeds named in the act are present in a greater proportion than five to 1,000 of the seed sold or held in possession for sale. None of the provisions contained in the act, however, shall apply to any person growing or selling seeds for the purpose of food, or any person selling seeds direct to merchants to be cleaned or graded before being offered for sale for the purpose of seeding, or to seed held in storage for the purpose of being re-cleaned, or to seed marked 'not absolutely clean' and held or sold for export only.

The Seed Control Act.
Exemptions from the Act.

As regards penalties upon summary conviction for violating any of the foregoing provisions, they shall not exceed a fine of \$1 for each offence for the first offence, nor \$5 for each subsequent offence, together with the costs of prosecution for each package or bag in or from which seeds are sold, offered, exposed or had in possession for sale; provided that in the case of the first offence the total fine shall not exceed \$5, and of the second offence \$25, or imprisonment for a term not exceeding one month. But in case the accused person proves to the magistrate before whom he is tried that the seed was purchased by him directly from a seed merchant in Canada, and that the package was not opened by him and that he had no reason to believe that the seed did not comply with the provisions of the act, he shall not be liable beyond the costs of prosecution, providing that he discloses to the magistrate the name and address of the person from whom the purchase was made; and the magistrate is required to report the case to the Minister of Agriculture.

Penalties

Any person charged with the enforcement of the act is empowered to enter upon any premises to make examination of seeds with respect to which he has reason to suspect that the provisions of the act are being violated, and to take samples for which the owner shall be paid, and any person who obstructs or refuses to permit the making of such examination is liable upon summary conviction to a penalty not less than \$25 nor exceeding \$500 with costs, and to imprisonment not exceeding six months unless the fine and costs are paid. Any purchaser of seeds, or any person charged with the enforcement of the act at the purchaser's request, may take a sample from the seeds and forward it to such person as the Governor in Council appoints

Enforcing the provisions of the Act.

The Seed
Control Act.

as an official seed analyst to examine and report thereon ; but any sample of seed taken for analysis shall be taken in the presence of the person who sold or had it in possession, or of two impartial and non-interested witnesses, and the certificate of analysis of any official seed analyst shall be accepted as evidence in prosecution of the person charged with having sold or offered, exposed or had in his possession for sale, in violation of the provisions of the act, seeds from which the sample purports to have been taken, or of any person from whom such person purchased the seeds. Regulations necessary to secure the efficient enforcement and operation of the act may be made by the Governor in Council, and by such regulations penalties may be imposed not exceeding \$50 on any person offending against them, to be recoverable by summary conviction ; and the regulations so made shall be in force from the date of their proclamation in the Canada Gazette, or from a date specified in the proclamation.

Several acts were passed during the session relating to payments of salaries, allowances and annuities.

By chapter 12 the former addition of \$1,000 to the salary of \$7,000 for the member of the king's Privy Council holding the recognized position of first minister was increased to \$5,000 per annum, and by chapter 20 the salaries of the lieutenant governor of Saskatchewan and the lieutenant governor of Alberta respectively were fixed at \$9,000 per annum.

Salaries of the
Prime Minister,
and the
Lt. Governors
of Saskatchewan
and Alberta.

Annuities to
members of
the Privy
Council.

By chapter 30 provision is made for the payment of pensions or annuities to members of the king's Privy Council for Canada after retirement from office. Every member of the Council who has served as prime minister or cabinet minister, or partly in both capacities for the full period of five years, is entitled after retirement to receive an annuity equal to one-half of the salary attached to his position at the time of his retirement ; but in the event of any such person becoming entitled to any other annuity, pension or allowance, or to any salary or allowance in respect of any position or office of emolument—whether federal or provincial under the Crown—or to the additional sessional allowance provided for the leader of the Opposition in the House of Commons, the annuity provided for in chapter 30 shall from time to time be reduced by the amount of such other annuity, pension, salary or allowance.

¹ The Act respecting annuities for certain Privy Councillors, passed in the session of 1905, has since been repealed.

By chapter 31 the salaries provided for the judges of the supreme court of judicature of Ontario are made \$8,000 for each of the chief justices of the five divisional courts, and \$7,000 for each of the twelve other judges of the supreme court; for each of the chief justices of the king's bench and of the superior court of Quebec \$8,000, for each of the five puisné judges of the king's bench \$7,000, for each of seventeen puisné judges of the superior court whose residences are fixed at Montreal or Quebec \$7,000, for each of sixteen puisné judges of the superior court whose residences are fixed within districts other than Bonaventure and Gaspé or Saguenay \$5,000, and for each of two puisné judges whose residences are fixed within the districts of Bonaventure and Gaspé or Saguenay \$4,500; for the chief justice of the supreme court of Nova Scotia \$7,000, for the judge in equity \$6,000, for each of the five puisné judges of the supreme court \$6,000, and for the judge of the court for divorce and matrimonial causes \$500; for the chief justice of the supreme court of New Brunswick \$7,000, for the judge in equity \$6,000, for each of the four puisné judges of the supreme court \$6,000, and for the judge of the court of divorce and matrimonial causes \$500; for the chief justice of the supreme court of Prince Edward Island (being also judge of the court of vice-admiralty) \$6,000, one assistant judge of the supreme court (being also master of the rolls in chancery) \$5,200, and one assistant judge (being also vice-chancellor) \$5,200; for the chief justice of the court of king's bench of Manitoba \$7,000, and for each of three puisné judges of the said court \$6,000; for the chief justice of the supreme court of British Columbia \$7,000, and for each of four puisné judges of the said court \$6,000; and for the chief justice of the supreme court of the Northwest territories \$7,000, and for each of seven puisné judges of the said court \$6,000.

The salaries of the judges of county courts are fixed as follows: in Ontario, \$3,500 for the senior judge of the county of York, and \$2,500 for each of sixty-seven judges and junior judges during the first three years of service and thereafter \$3,000; in Nova Scotia, \$3,500 for the judge of the county of Halifax, \$3,000 for the judge of the county court of district No. 7, and \$2,000 for each of five other county court judges during the first three years of service and thereafter \$3,000; in New Brunswick, \$3,500 for the county court of the city and county of St. John, and \$2,500 for each of five other county court

judges during the first three years of service and thereafter in Prince Edward Island, \$3,000; in Prince Edward Island, \$3,500 for the judge of the county court of Queens county, and \$2,500 for each of two other county court judges during the first three years of service and thereafter \$3,000; in the province of Manitoba, \$2,500 each to six county court judges during the first three years of service and thereafter \$3,000; in British Columbia, the judges of the county courts of Cariboo, Westminster, Yale, Nanaimo, Vancouver, Victoria and Atlin, the judge and junior judge of the county court of Kootenay, and the judge of the county court of East Kootenay, each \$3,000. But it was provided in the case of all county court judges that the increases of salary should take effect only after the act came into force.

Travelling allowances.

In the case of all judges there is paid the sum of six dollars per day in addition to moving or transportation expenses for each day during which they are attending in court or in chambers at any other place than that at which they are obliged to reside, providing, however, that in the case of any district or county court judge the amount shall not exceed \$200 in any one year.

Judges required to devote themselves to judicial duties.

Besides making provision for the foregoing allowances, the act provides that no judge mentioned shall, either directly or indirectly, as director or manager of any corporation, company or firm, or in any other manner whatever, for himself or others, engage in any occupation or business other than his judicial duties, but shall devote himself exclusively to such duties.

Salaries of supreme court judges.

By chapter 47 the salary of the chief justice of the supreme court of Canada is made \$10,000 a year, and of each of the puisné judges \$9,000, and of the judge of the exchequer court \$8,000; and the judges of these courts are in the same way as all other judges prohibited from engaging in any other occupation, and required to devote themselves exclusively to their judicial duties.

Allowances to members of Parliament.

By chapter 43 an allowance is made to each member of the Senate and House of Commons of \$20 for each day's attendance if the session does not extend beyond thirty days, and if the session extends beyond that time the allowance is made \$2,500. For every day on which a member does not attend a sitting of the House of which he is a member a deduction at the rate of \$15 per day is required to be made. Actual moving or transportation expenses between his place of residence and Ottawa,

once each way going and coming, is allowed to each member, but no allowance may be made for travelling outside of Canada except from one point in Canada to another by any direct route. To the member occupying the recognized position of leader of the Opposition in the House of Commons there is payable an additional sessional allowance of \$7,000.

The records of the immigration office show that 144,621 persons arrived in Canada in the year ending December 31, 1905. This number is made up of 64,863 from the United Kingdom, 44,427 from the United States and 35,331 from the continent of Europe and elsewhere. Most of them settled in the prairie provinces, but many thousands made homes or found employment in the older provinces, on farms and in the industrial centres. The whole number does not appear large when compared with the immigration figures of the United States. But if they were brought together in one area they would equal the population of the counties of Annapolis, Digby, Kings, Lunenburg, Queens, Shelburne and Yarmouth in Nova Scotia, or of the counties of Arthabaska, Brome, Compton, Drummond, Shefford, Sherbrooke and Stanstead in Quebec, or of the electoral districts of the two Oxfords, the two Perths and the two Waterloos in Ontario. In the calendar year 1904 the immigrant arrivals made a total of 134,749, comprising 55,913 from the United Kingdom, 43,444 from the United States and 35,392 from Europe and elsewhere. As an evidence of the number of persons who settled in the provinces of Manitoba, Saskatchewan and Alberta, it may be stated that the number of homestead entries made in these provinces during the calendar year was 34,645 in 1905 and 26,513 in 1904, about one-fourth of which were made by Canadians.

A movement has been started in Russia for the return to that country of Doukobors now settled near Yorkton in Saskatchewan, and a letter of October 8th from the British consul at Batoum to the Marquis of Lansdowne reports that the conditions upon which the Russian government is prepared to permit them to return are the following: (1) A free passage from Canada to Russia. (2) A guarantee that they will receive three times more land than was allotted to them previous to their departure from Canada. (3) Absolute liberty of religion. The consul adds, however, that several Doukobor families in Batoum

Proposals for
return of
Doukobors
from Canada
to Russia.

Doukobors. were endeavoring to procure passages to England en route for Canada, and he thinks it is doubtful if any Doukobors now residing in Canada are likely to avail themselves of this tardy token on the part of the Russian government to befriend them. The fact that earlier in the year the Russian ambassador at London had reported in a note to the Marquis of Lansdowne that passports had been granted to 85 Doukobors who intended emigrating to Canada, now that the order for their detention in the province of Yakoutsk had been cancelled, does not indicate that the people of this sect have any desire to remain in Russia when they are given freedom to leave it, much less to return to it from a country where they may acquire good homes and all the liberties of citizenship.

Secretary of State's report. The report of the Secretary of State shows that in the calendar year 293 companies were granted incorporation with an authorized capital of \$99,910,900. For the preceding year the number was 206 and the authorized capital \$80,597,752. Existing companies were also authorized to increase their capital last year by \$9,685,000, making a total authorized capital of \$109,595,900. The authorized capital of new companies organized in the six years 1900-1905 was \$332,318,294, and existing companies were allowed to increase their capital by \$30,731,520. Companies organized and naturalizations effected. The revenue of the Department during the year, which is derived mainly from fees upon charters, was \$76,512, or \$20,605 more than in the previous year. Ten years ago the cost of maintenance of the Department was \$42,000 more than the revenue, and last year the revenue was \$19,000 more than the cost of maintenance. Returns are now made half yearly to the Secretary of State of the number of naturalizations effected in the Dominion under the act of 1902, and large increases are shown for each year. This is noticeably the case as regards former citizens of the United States, of whom 6,074 were naturalized last year.

Canada's foreign trade. Canada's foreign trade came very close to the half billion mark in the calendar year 1905, being in value \$495,010,028. This is \$130,295,385 more than in the calendar year 1900, or an increase of 36 per cent. The following table shows the imports and exports of each year by classes and the increase in each class, together with the duty collected on imports :

Schedule.	1900.	1905.	Increase.
	\$	\$	\$
IMPORTS.			
Dutiable goods for consumption.	104,083,645	160,033,585	55,949,940
Free goods for consumption	68,817,013	102,339,985	33,522,972

Coin and bullion	4,774,454	1,759,072	3,015,382 ¹
Total exports	185,874,757	224,623,798	38,749,041

Canada's trade.

¹ Decrease.

The value of dutiable and free goods entered for consumption last year was \$262,373,570, and the value of domestic goods exported was \$210,806,459, being an increase in five years of \$89,472,912, or 51.75 per cent on imports and \$43,046,237 or 25.66 per cent on exports. Coin and bullion and foreign products comprise the rest of the trade of the Dominion. The increase of dutiable goods in the five years was 53.75 per cent, and of free goods 48.71 per cent. The increase of animal products exported in the five years was 21.61 per cent, of agricultural products 61 per cent, and of manufactured products 46.68 per cent. The increase in the amount of duty collected on imports in the five years, without any change in the rates of duty, was 52 per cent.

A new industry in Canada is the manufacture of beet sugar. Two factories were erected in Ontario in 1902, one at Wallaceburg in Kent county, and one at Berlin in Waterloo county. In 1903 a third factory was built at Raymond in Alberta. The

The sugar beet industry.

following table gives the statistics of the industry for the four years 1902-05 :

	1902.	1903.	1904.	1905.
Tons of beets . . .	51,067	51,159	76,000	118,095
Paid growers . . . \$	221,569	254,564	391,532	575,296
Paid for wages . . "	93,230	121,203	186,656	173,906
Value of sugar . . "	383,678	546,508	751,379	1,045,288

In the four years there was paid to farmers for beets \$1,442,961, and to employees for wages \$525,045, and the value of sugar manufactured was \$2,728,853.

Preferential
trade relations
with other
Colonies.

Correspondence took place through the Colonial Office during the year on the subject of preferential trade between Canada and the Commonwealth of Australia, as well as on an extension of the existing preference with the South African colonies. The communication with the Australian Government was based on a Minute of Council of 22nd July, inquiring if that Government would be willing to enter into negotiations with the Canadian Government for establishing trade relations between the two countries, and if so whether the Commonwealth would be prepared to offer stated tariff concessions to the Dominion, or would prefer to make the subject one for consideration by conference between delegates representing the two Governments. The reply of the Australian Government intimated that a convenient course would be for the Canadian Government to first submit for consideration a memorandum setting out (a) what articles of Canadian produce or manufacture they desire to be favoured on admission to Australia, and (b) what similar articles from Australia to which they are prepared to give a preference and to what extent. Further correspondence indicates that as regards trade relations with Australia and South Africa discussion and consideration will be deferred until the next colonial conference at London.

Embargo on
cattle in the
United
Kingdom.

The embargo on cattle in the United Kingdom was the subject of correspondence last year through the office of the Governor General. An address from the Senate (April 6) called the attention of the Imperial Government to the fact that Canadian

herds are now and have been for many years past free from those diseases against which the British embargo has been imposed; that this fact has been repeatedly admitted by the Imperial authorities; and that under these circumstances the continued prohibition of Canadian cattle, on the pretext of danger of the spread of diseases among the British herds, is an unjust imputation on the condition of Canadian cattle. The address therefore respectfully suggested that the Imperial act should be repealed. The matter was referred to the Board of Agriculture, and Mr. Alfred Lyttleton, the Colonial Secretary, informed the Governor General (August 17) that His Majesty's Government had given the fullest consideration to the representations made on the subject, but felt themselves unable to propose to Parliament any amendment of the existing law. The attitude of the Board of Agriculture is that the statute which requires all imported cattle to be slaughtered at the port of landing is no obstacle to the development and maintenance of a large and valuable trade, as shown by the increase in imports from Argentina, the United States and Canada. The law, it is further maintained, does not cast discredit upon Canadian cattle, for it holds good in the case of every other British colony and of all foreign countries, being in fact a sanitary law of universal application, and of great importance to British stock owners as a safeguard against the introduction of disease. The sudden outbreak of disease amongst Argentina cattle in 1900 and of United States cattle in 1902 are given as instances of possible danger in spite of the maintenance of an efficient veterinary organization. "The enormous losses which British agriculturists have suffered during the last thirty years, mainly by reason of the increased pressure of colonial and foreign competition," the Board's memorandum states, "make it more than ever necessary that every possible precaution should be taken against the introduction of disease, consistent with the reasonable requirements of colonial producers and the interests of consumers at home."

The act of the Legislature of the province of Quebec providing for a tax on certain commercial travellers (5 Edward VII., chap. 14) has been the subject of vigorous remonstrance by British business houses and chambers of commerce through the Board of Trade and the Colonial Office. The general sense of British sentiment is expressed by the Association of Chambers of Commerce of the United Kingdom in a memorial to the

The cattle embargo.

Tax on commercial travellers in Quebec.

Tax on commercial travellers.

Colonial Secretary. "The Association views with much regret the growing practice in the various colonies of imposing these taxes, not only upon foreigners but upon British commercial travellers visiting these countries. A consideration of the burdens willingly borne by the mother country in safeguarding the colonies should be sufficient to ensure the free access of every British subject to all parts of the British dominions. The imposition of such a petty tax seems to this Association to be out of harmony with current opinion as to the unity of the Empire." A statement of the British Board of Trade shows that in only a few countries has a tax on British commercial travellers been laid. In one of the states of the Argentine Republic it is as high as £147, in Bolivia it is £45, in some of the states of Brazil it reaches £60, in Paraguay £10 and in Uruguay £21. In the Congo Free State, Africa, it is £20, in Denmark £9, in Norway £5 10s. a month, in Russia £25, in Sweden £5 10s. and in some of the states of Mexico it is as high as £20 a month. In the British possessions, besides Quebec, £10 is imposed in the Bechuanaland Protectorate, \$4 in Prince Edward Island, £10 for six months in British Columbia, £25 in Cape Colony, \$5 in Honduras, and £5 a quarter in the Orange River Colony. In nearly all other colonies of the Empire, as well as in other foreign countries, no tax is imposed. The statement for the province of Quebec, made by the Attorney General's Department, has been forwarded with a Minute of Council to the Colonial Office by the Governor General. It explains that the act was passed solely for revenue purposes. Under the constitution the provinces of the Dominion may resort to direct taxation only in order to procure revenue needed to meet the public wants. Through the increase of population greater expenditure has become necessary in Quebec, and the sources of revenue have not correspondingly expanded. Local corporations and companies have been and are now taxed in order to meet the demands upon the exchequer. Moreover, extra-Canadian business houses although enjoying the freedom of competition with local concerns were, up to the coming into force of the act imposing a tax on commercial travellers, free from provincial or municipal taxation. The local corporations paying taxes have repeatedly complained that the non-resident representatives of such extra-Canadian business houses were not taxed. It was therefore deemed just and equitable, both

Remonstrance and defence.

from a fiscal and commercial point of view, that non-resident representatives of extra-Canadian houses should be called upon to contribute their share to the public revenue. It may be added, however, that some changes in the act have been made during the session of the Legislature of the current year which are meant to lighten the tax upon commercial travellers.

The amended act respecting the Militia and Defence of Canada was a subject of consideration with the Imperial authorities early in the year with reference to section 4 of the act, in which the Command in Chief is declared to continue and be vested in the King and exercisable by His Majesty or by the Governor General as his representative. This reference drew attention to the fact that the letters patent and commission constituting the appointment of the Governor General had by oversight omitted to confer upon him the style and office of Commander in Chief, and steps were taken to rectify the omission. This was done under amended letters patent dated 15th June, constituting the office of Governor General and Commander in Chief of the Dominion in substitution for those of the 5th of October, 1878, which constituted the office of Governor General.

In the speech with which the Governor General closed the 1905 session of Parliament he said: "The addition to the number of the permanent force which you have authorized will enable my Government to relieve the taxpayers of the United Kingdom from the burden of keeping up the garrisons of Esquimalt and Halifax." This was the most important event of the year in the Dominion from a military point of view, and as a first result of it the Government took over from the king's regular troops the responsibility for the maintenance of the Imperial fortress at Halifax. Esquimalt will be taken over during the present year, and so a matter which has been a subject of consideration and discussion for half a century will be finally settled by the withdrawal from Canada of the last British soldier and the occupation of the two fortresses fully equipped in every respect by Canadian officers and men.

Reorganization of the system of administration of the militia outside the headquarters office was effected during the year, as a consequence of the establishment of the Militia Council and the abolition of the office of General Officer Commanding. The

Reorgani-
zation of
militia
administra-
tion.

militia authorities at headquarters are now charged with the administration of the force, which means that while they assume the responsibility for directing what is to be done in all questions affecting the militia, the executive commands and the orders for carrying them out are the duties of the executive commanders outside the headquarters staff office and in the military districts throughout the country. To ensure the proper performance of these duties certain of the existing military districts are grouped together and placed under the command of officers selected for their experience and ability, who are charged within the limits of the new commands with the executive duties formerly exercised at headquarters by the General Officer Commanding. It is hoped that the exercise of these powers will train senior officers in initiative in the best possible way, and that the creation of these commands will also open a far wider prospect of suitable employment to the senior officers of the militia than has hitherto been attainable. Four superior military districts, designated commands to distinguish them from existing districts, have been constituted as follows: The Western Ontario Command, with headquarters at Toronto; the Eastern Ontario Command, with headquarters at Kingston; the Quebec Command, with headquarters at Montreal; and the Maritime Provinces Command, with headquarters at Halifax. The duties of the officers appointed to these higher commands are fully defined in the Minute of Council, and the rates of pay and allowances are made commensurate with the increased responsibilities imposed upon them.

Inspection of
Canadian
militia by an
Imperial
officer.

Concerning the inspection of the militia, the Colonial Secretary in a despatch to the Governor General of April 17th observed: "I note that section 31 of the act provides for the regular periodical inspection of the militia, but it appears to his Majesty's Government that occasional inspections of the Canadian defences and forces by an officer of the highest standing and recent experience in the regular army, such as the Inspector General of the Forces, will be advantageous, since in the event of war Imperial troops might be sent to Canada to co-operate with the militia, and the value of any plans of action for the combined forces must depend largely on the efficiency of the Canadian forces and on their powers of co-operation with the regular army in regard to training, organization and equipment. Such occasional inspection would not only place at the disposal

of the Imperial and Canadian Governments the best independent expert advice as to the organization and efficiency of the Canadian militia, but would afford the officers entrusted with the duty of making them invaluable opportunities for acquiring at first hand the knowledge of the personnel and organization of the military forces of Canada, which would be essential to their effective co-operation with Imperial troops in time of war." This proposal was approved by a Minute of Council under date of June 14th, which was duly communicated to the Colonial Secretary by the Governor General.¹ The Inspector General of the British Army is His Royal Highness the Duke of Connaught.

Inspection of
Canadian
militia.

A proposition in which the Government of the Commonwealth of Australia took the first step was favorably considered by the Home Government, the Canadian Government and the Indian Government during the year, namely, the introduction of a system of interchange of Imperial and Colonial military officers. The Militia Council of Canada have strongly endorsed

Interchange
of Imperial
and Colonial
officers.

¹ Just as this Book is going through the press a new Army Order has been published in London formally constituting a General Staff for the British Army, in accordance with the recommendations of the Esher Committee, which marks an important step in the reconstitution of the British military system. This order defines broadly the functions of the General Staff at headquarters and in the commands and districts, how it is to be formed and maintained, the duration of appointments in it, and the recognition that approved service on the Staff will receive. A memorandum by Mr. Haldane, Secretary of State for War, discusses the general principle underlying the formation of the General Staff, whose business it is, he says, to ensure that the military system in every part is always up to date and that military science in all its branches receives adequate protection, and whose name implies that it will be just as much responsible for the training and war organization of the auxiliary forces as of the regular army. And referring to the ideal relation of the General Staff to the Colonies, Mr. Haldane says:

"Provided the General Staff can avoid the suspicion of wishing to interfere in purely administrative matters, there is no reason why its influence should not extend ultimately far beyond these shores and India. The self-governing colonies will, it is certain, never brook interference in matters connected with the administration and the finance of their own military forces. But it is perhaps not too much to hope that they may in time welcome the assistance of a body of highly-trained experts, drawn from all parts of the Empire, whose concern is mainly the war organization and the war training of the Imperial forces as a whole. Should such an ideal ever be realized, the new General Staff will become a real bond of union between the widely-scattered military forces of the Empire, giving to them all common ideas even in matters of detail, so that, if ever the necessity should arise, they could readily be concentrated to form a really homogeneous Imperial Army."

the proposal, to be limited for the present to three officers,— one with the Army either in Great Britain or one of the Colonies, one with India and one with Australia. A proposal of the Canadian Government to the effect that Imperial staff officers should be sent to Canada in place of any Canadian officers who may pass the Staff College and receive appointments either in England or India was agreed to by the Imperial Army Council. In the opinion of the Army Council such an interchange of selected officers cannot fail to be beneficial to the military forces of the Empire as a whole, and the Colonial Secretary heartily associated himself with this opinion in communicating it to the Governor General.

Canadian sealers' claims against Russia settled.

The claims of Canadian sealers for the seizure and confiscation by order of the Russian Government of six sealing vessels in the North Pacific ocean in 1892 has been finally arranged. In 1904 the matter was referred for settlement by diplomatic procedure, in which each country was to be represented by one delegate. Russia however sent two delegates to the conference, which met at London, while Canada was represented by one delegate, Mr. Henry Alexander Little of Woodstock. The claims as originally advanced by the Canadian Government for the six vessels amounted to \$139,812.50. The Russian delegates agreed to acknowledge the claims of two of the vessels for an amount of \$44,701 with interest at six per cent from the date of seizure or arrest, on condition of the withdrawal of the other four claims. The Canadian delegate recommended to his Government this basis of settlement as the only one which appeared possible, and after much correspondence with the Home Government it has been accepted in this current year as a settlement of the whole matter with Russia. In a Minute of Council of December 29, 1904, the view of the Minister of Marine and Fisheries was submitted for consideration as to how far Canada might be justified in withdrawing claims filed by the owners of the vessels which for years had been pressed upon the Imperial Government, and in turn pressed by them upon the Russian Government, and to what extent, if any, such action might render the Canadian Government liable to the claimants for the satisfaction of their claims under the peculiar circumstances. But while His Majesty's Government appreciated the difficulty in which the Canadian Ministers were placed by the stipulation of the Russian Govern-

ment, they wished it to be clearly understood that if the Canadian Government accepted the compromise the Imperial Government could not admit any liability to compensate the parties whose claims were withdrawn. "I would remind you," the Colonial Secretary wrote to the Governor General under date of February 22, 1905, "that your Ministers accepted the proposal for a conference of delegates in London, and duly selected their own representative, Mr. Little, for the purpose. Mr. Little carried on all the discussions with the Russian delegates, and the suggested settlement was recommended by him. His Majesty's Government took no part in the discussions and assumed no responsibility for the result." In so far as this matter of allowance to owners not included in the offer of settlement is concerned therefore, it will doubtless be considered by the Canadian Government as a domestic one to be dealt with as the justice of the case may require.

On August 13 the Canadian barque *Antiope* of Victoria, B.C., with a cargo of salt for Nikolaievsk was seized by the Japanese authorities upon the ground that she was carrying contraband of war in the form of foodstuffs. The vessel was sent to Hakodate for trial, and upon a protest by the owners to the Canadian Government a request was cabled to the Colonial Secretary for measures to be taken to obtain release of the vessel if the facts so warranted. Trial took place before the Japanese lower prize court in November, when the vessel was released but the cargo of 1,800 tons was adjudged a prize. An appeal on behalf of the Canadian owners was lodged as regards the cargo to the higher prize court, where early in the present year vessel and cargo were confiscated.

A case of lowering the British flag occurred in the port of Rochester on the 4th of July. The Canadian schooner *Accacia*, employed in carrying coal from Rochester to Kingston, was in port on the morning of that day, which was being duly celebrated by the citizens as Independence day. The master of the vessel, Captain William Simmons, hoisted the British flag, which according to his own report to the Canadian Government, communicated through Hon. William Harty, M.P. for Kingston, was made on the suggestion of an American citizen and as an act of courtesy to the Americans. Apparently his action was misunderstood, for soon a crowd gathered and

Canadian vessel and cargo seized and confiscated by Japan.

Case of lowering the British flag on a Canadian vessel in a United States port.

Lowering the
British flag on
a Canadian
vessel.

demands were made on the captain to haul down the flag, accompanied by threats, to which no attention was paid until an officer of the Customs arrived who made the same demand and claimed that the floating of the British flag on Independence day was an insult. The captain protested that it was not intended as an insult and should not be so regarded; but having raised the flag, as he thought he had a right to do on his own vessel, he declined to lower it. To another officer the captain stated that the flag had been raised as a compliment to the celebration, but he was told that it could not remain unless he would fly the Stars and Stripes along side of it. "I told him that I would be glad to do so, but I had no Stars and Stripes to fly," the captain states in his report, "and having raised the British flag would not take it down on my own vessel." The demand was repeated, more threats were made by the crowd, and finally the officer said that he would hold the vessel and would not give the captain clearance unless he lowered his colours; and so, although refusing to lower the flag on the threats of force, he was compelled to do so in order to get his clearance. A statement of the matter as made in a Minute of Council was communicated by the Governor General to the British Ambassador at Washington, with a request that it should be brought to the attention of the United States authorities. This was done, and an inquiry took place at which it was shown that Captain Simmons was in error as to the name of the officer who made the threat to refuse him clearance, and the officer also denied that he had made such a threat. Collector Roth, who conducted the inquiry for the Secretary of the Treasury, stated in his report that while he was of opinion that the officer had acted unwisely in asking the captain to lower his flag, he was sure from the captain's account given to himself "that he did not lower the flag by reason of anything that Torpy said to him, but that he thought to save himself trouble from the mob on the pier that he finally lowered the flag." In giving to the British Minister the explanation of the occurrence offered by the United States official, Acting Secretary of State Loomis wrote: "This incident, arising out of what seems to have been a misunderstanding, is to be greatly regretted. The Department hopes however that Collector Roth's statement will sufficiently indicate that the deputy collector's action, although perhaps misjudged, was not actuated by offensive motives." In view of

An expression
of regret.

this expression of regret by the United States Department of State it was felt that no good purpose would be served by further correspondence on the subject, and a Minute of Council approving this decision was communicated to the Ambassador at Washington.

A proposal of certain citizens of Detroit in the state of Michigan to remove the hulls of three British battleships which were sunk in the river Thames by General Proctor in the year 1813, with a view to placing them as trophies of victory in Belle Isle park, in United States territory, came before the Canadian Government in August through the provincial archivist of Ontario. The Minister of Justice, to whom the matter was referred, was of opinion that the hulls of the battleships in question are vested in His Majesty in right of his imperial crown, but not in right of the Dominion. The question was referred to the Colonial Secretary for the consideration of His Majesty's Government, with the request that the minister might be empowered to take suitable action to prevent the removal of the hulls should steps be taken to carry out the reported intention. In a despatch of November 2 the Colonial Secretary said he was advised that the hulls of the battleships are vested in His Majesty, and he expressed the opinion that the Canadian Government would no doubt take such measures as might be necessary to prevent their removal from Canadian territory. Since then, in response to a request, the Dominion Government has been authorized to take steps to remove the hulls so as to ensure their better preservation.

British battleships sunk in Canadian waters are in right of the Imperial Crown.

The National Transcontinental Railway consists of two divisions, the Eastern from Winnipeg to Moncton, and the Western from Winnipeg to the Pacific Ocean. The first of these is under construction by a Government Commission, known as the Corporation of the Commissioners of the Transcontinental Railway, and the second by the Grand Trunk Pacific Railway Company.

National Transcontinental Railway.

Thirty-four survey parties were employed during the year on the Eastern division. The length of the location run was 895 miles, in six districts numbered from A to F. The survey of section A comprises 58 miles from Moncton to Chipman, 87 miles of unconnected sections from Chipman to Plaster Rock on

Eastern division.

National
Transconti-
ental Railway.

Tobique river, and 64 miles from Grand Falls to the Quebec boundary. District B was surveyed 328 miles from the Quebec boundary to Au Chat lake on Batiscan river, crossing the St. Lawrence at Quebec, and 32 miles from La Tuque on the St. Maurice river west; district C, 21 miles from the Megiskan or Bell river west; and district D, 50 miles from Makamik river west. The Makamik is the outlet of a lake of the same name in Quebec, and flows southwest into Abitibi lake. In district E, north of Nipigon lake, two sections were surveyed, one eastward from Robinson lake 26 miles and one eastward from Tunnel lake 12 miles. Section F was surveyed 217 miles west from Pelican lake to Winnipeg. On 187 miles of the Eastern division the maximum grade is 0.4 per hundred feet going east and on 41 miles it is 0.6 per hundred feet going west. No part of the division had been put under contract during the year.

Western
division.

Thirty-seven survey parties were employed between Winnipeg and the Pacific coast, and 12 parties on the branch from Fort William on lake Superior to the junction with the main line at Pelican lake. Between Winnipeg and Edmonton 736 miles were located, on which the maximum grade going west is 0.5 per hundred feet for 141 miles and going east 0.4 per hundred feet for 96 miles. The maximum grade on the Fort William branch is 0.4 per hundred feet for 47 miles going east and 0.6 per hundred feet for 51 miles going west. On the main line and the branch all grades are fully compensated for curvature. Surveys on the section from Winnipeg to Portage la Prairie had not been completed last year, but that portion of the line is not likely to reach the maximum grade at any point in either direction. A section of 275 miles on the main line between Portage la Prairie and Touchwood Hills was placed under contract during the year, together with the whole of the Fort William branch. Construction work began on the main line in August and on the branch in November, and at the end of the year grading was completed on 55 miles.

Pacific
terminus.

The Grand Trunk Pacific Railway Company has selected for the Pacific terminus of the railway Prince Rupert, situated on Kaien island, off the Tsimpsean peninsula, and about half way between the mouth of Skeena river and the Portland canal, but the choice awaits confirmation by the Government.

It was selected by the Company on account of its natural advantages as a harbour with safe and easy access to the ocean through Dixon entrance, a wide channel between Prince of Wales island and the Queen Charlotte islands. A terminus at this point would also, it is claimed, facilitate the opening up of a new and undeveloped portion of British Columbia, and afford the shortest possible distance to the Orient.

A further step in Imperial penny postage was taken last year when an arrangement was concluded between the British Government and the Government of Australia, under which the Commonwealth Postal Administration will admit without surcharge letters posted in the United Kingdom or any British colony or possession, postage on which has been prepaid at the rate of one penny per half ounce. This reduction however will not at present apply to letters from Australia, postage on which will be at the rate of two pence per half ounce.

In view of the difficulty experienced in establishing the nationality of claimants when British claims came up for examination before the Venezuelan Claims Commission, the Imperial Government has decided to encourage as much as possible the practice of registration at British consulates abroad, especially in the case of British subjects in Central and South America. Under the new regulation (March 18, 1905) every British subject is entitled, should he so desire, to register himself at a British consulate upon establishing his claim to the satisfaction of the consular officer, and to obtain a certificate of registration; and an applicant of European descent who claims nationality on the ground of birth within British dominions, and produces satisfactory evidence of his identity and British nationality, is also entitled to registration and the protection which it affords. A British subject possessed of double nationality is entitled to registration in his country of origin, even though he may not be entitled to protection.

There were fewer industrial disputes in Canada during the year 1905 than in any of the previous years of the decade, the total number being 87 as compared with 104 in 1901, 123 in 1902, 160 in 1903 and 103 in 1904. The most serious and important industrial dispute during the year was the strike of coal miners in the employ of the Western Fuel Company at Nanaimo,

Industrial
disputes.

B.C., which commenced on June 1 and continued until September 30, on which day a settlement was effected through the intervention of the Deputy Minister of Labour, Mr. Mackenzie King. The strike affected directly between 700 and 800 miners, there being a loss in wages alone of \$300,000 during the time of its continuance. It had the effect of temporarily paralyzing all business in the city of Nanaimo and of seriously affecting different interests throughout the whole of Vancouver island and parts of British Columbia. Under the settlement effected an agreement covering conditions of employment for a period of two years was signed by both parties. Another important strike settled during the year through the intervention of the Deputy Minister of Labour under the Conciliation Act was a strike of street railway employees at Cornwall, Ontario, which commenced on June 28 and was settled on July 3. Nineteen out of the 87 disputes were in the building trades, 13 in the metal trades, 12 in mines and mining works and 11 in the clothing industry. In 30 cases the disputes were for increase of wages, in 9 for employment of particular persons, and in eight each for reduction in wages and conditions of employment. All except one of the 87 disputes were terminated either through definite settlements being reached or through industrial conditions ceasing to be affected by them.

Change of
Government
in Ontario.

After a political innings of thirty-three years the provincial Liberal party in Ontario was defeated by a large majority at the general elections of January 25. With Edward Blake as Premier the Liberals entered upon their long career of local government in December, 1871. In the following year, as a consequence of the abolition of dual representation in the Federal Parliament, Mr. Blake resigned and was succeeded as Premier by Oliver Mowat, who also took the portfolio of Attorney General. From October 25, 1872, to July 9, 1896, a period of twenty-four years, Mr. Mowat guided the affairs of the province, when as Sir Oliver he withdrew to accept the portfolio of Justice under the leadership of Sir Wilfrid Laurier at Ottawa. Arthur Sturgis Hardy then became Premier and Attorney General of Ontario and continued until October 17, 1899, when he retired on account of failing health. George W. Ross followed as Premier and Treasurer, and resigned upon the defeat of his Government at the January elections. James Pliny Whitney, leader of the Liberal Conservative party, became

Premier on 8th February, and in a house of 98 members he has a majority of nearly forty.

The boundary between Newfoundland and the province of Quebec in the Labrador peninsula has been in a condition of dispute for the last four years, owing to the disposal of an extensive timber license on both sides of Hamilton river by the Government of Newfoundland to a company carrying on pulp and lumber operations there. The intervention of the Canadian Government in the matter was sought by the Quebec Government, and the correspondence shows a wide difference of claims. In August, 1903, the Colonial Secretary suggested to the Canadian Government the taking of steps to obtain a legal decision on the matter, and at the request of the Government of Quebec representations have been made to the Colonial Secretary with a view to having the questions in dispute referred for hearing to the Judicial Committee of the Privy Council. To this proposal the Newfoundland Government has replied that before they are called upon to decide as to the course of action to be pursued they should be furnished with a statement in detail of the grounds upon which the Government of Canada has based its appeal to His Majesty's Government in relation to the Labrador boundary. "For it is possible," they say, "that a consideration of the same may obviate the necessity for an appeal to the Privy Council or other tribunal." And there for the present the matter rests.

By royal warrant of 10th May directed to the Duke of Norfolk, hereditary marshal of England, there was granted for the province of Manitoba, to be borne on seals, shields, banners, flags or otherwise according to the Laws of Arms, the armorial ensigns following: "Vert on a Rock a Buffalo statant proper, on a Chief Argent the Cross of St. George. By warrant of 30th May there was also granted for the province of Prince Edward Island the armorial ensigns following: "Argent on an Island Vert, to the Sinister an Oak Tree fructed, to the Dexter thereof three Oak Saplings sprouting all proper, on a Chief Gules a Lion Passant Guardant Or.

The following acts passed by the Legislature of British Columbia were disallowed by the Governor General in Council upon the advice of the Minister of Justice: An act passed in

The Labrador and Quebec boundary.

Armorial ensigns for Manitoba and Prince Edward Island.

Provincial Acts disallowed.

1904 to regulate immigration into British Columbia (Jan. 20). An act further to amend the Coal Mines Regulation Act; also an act to regulate immigration into British Columbia; also an act relating to employment on works carried on under franchise granted by private acts; also an act further to amend the Supreme Court Act (Nov. 13).

For solemn and public acknowledgment the 26th of October Thanksgiving was appointed by proclamation of the Governor General in Council to be observed as a day of thanksgiving to Almighty God for the bountiful harvest and other blessings with which Canada had been favoured during the year.

The
Senate.

Three vacancies in the Senate occurred by death during the year. The centennarian member of that chamber, David Wark of Fredericton, N. B., died August 20. He was born February 19, 1804, and was called to the Senate in 1867. Thomas Reuben Black of Amherst, N. S., died September 14. He was born October 16, 1832. George Taylor Fulford of Brockville, Ontario, was fatally injured in an automobile accident. He was born August 8, 1852, and died October 15, 1905. The only member called to the Senate in 1905 was Hon. William Ross of Halifax.

The House
of Commons.

Four members of the House of Commons died during the year, namely: Edward F. Clarke of Centre Toronto on 3rd March, Hon. James Sutclerland of North Oxford on 3rd May, L. J. Demers of Levis on 29th April, and T. G. Johnston of West Lambton on 4th July.

New members elected were: Arthur Lachance for Quebec Centre, E. B. Devlin for Wright, Edmund Bristol for Centre Toronto, Louis August Carrier for Levis, George Smith for North Oxford, Hon. A. B. Aylesworth for North York, William Chisholm for Antigonish and F. F. Pardee for West Lambton.

Old members re-elected were: R. L. Borden for Carleton, Ontario, Hon. Frank Oliver for Edmonton, Hon. C. S. Hyman for London, and E. D. Smith for Wentworth.

Judicial
Appoint-
ments.

Jan 7. Albert Malouin of the city of Quebec, a puisne judge of the Superior Court for the province of Quebec, in the room and stead of Hon. Philippe August Choquette, resigned.

Jan. 13. Hon. Robert Linton Weatherbee of Halifax, one of the puisne judges of the Supreme Court of Nova Scotia, to be

chief justice of the Supreme Court of Nova Scotia, in the room and stead of Hon. James McDonald, resigned.

Feb. 10. Hon. John Idington of Toronto, one of the justices of the High Court of Justice for Ontario, to be a puisné judge of the Supreme Court of Canada. Judicial
Appoint-
ments.

Feb. 10. Roger Conger Clute of Toronto, barrister-at-law, to be a judge of the Supreme Court of Judicature for Ontario, a justice of the High Court of Justice for Ontario and a member of the Exchequer Division of the said court.

June 13. Hon. John Wilberforce Longley of Halifax, Attorney General of Nova Scotia, to be a puisné judge of the Supreme Court of Nova Scotia in the room and stead of Hon. Robert Linton Weatherbee, appointed chief justice.

July 31. Lawrence John Cannon of the city of Quebec to be a puisné judge of the Superior Court of the province of Quebec.

Aug. 24. Thomas G. Mathers of Winnipeg to be a puisné judge of the Court of King's Bench for Manitoba in the room and stead of John Farquhar Bain, deceased.

Oct. 5. Hon. James McLennan of Toronto, one of the judges of the Court of Appeal for Ontario, appointed to be a puisné judge of the Supreme Court of Canada, in the room and stead of Hon. Justice Nesbitt, resigned.

Oct. 16. Hon. Sir William Mulock to be judge of the Supreme Court of Judicature for Ontario, a justice of the High Court of Justice for Ontario, and a member of and president of the Exchequer Division of the High Court of Justice for Ontario, with the title of Chief Justice of the Exchequer Division.

Nov. 11. Hon. Richard Martin Meredith, a judge of the Supreme Court of Judicature for Ontario, a justice of the High Court of Justice for Ontario and a member of the Chancery Division of the said High Court of Justice, to be a justice of the Court of Appeal in the room and stead of Hon. James McLennan, resigned.

Nov. 18. James Pitt Mabee, of Toronto, to be a judge of the Supreme Court of Judicature for Ontario, a justice of the High Court of Justice and a member of the Chancery Division of the said High Court of Justice.

May 27. William Wallace Burns McInnes of Nanaimo, B.C., barrister, to be Commissioner of the Yukon territory in the room and stead of Frederick Tennyson Congdon, resigned. Lieutenant
Governors.

Lieutenant
Governors.

July 24. George Hadley Vicars Bulyea of Regina, to be from 1st September Lieutenant Governor of the province of Alberta.

July 24. Amédée Emmanuel Forget, of Regina, to be from 1st September Lieutenant Governor of the province of Saskatchewan.

Ministerial
changes.

May 22. Charles Smith Hyman, a member of the king's Privy Council for Canada, to be Minister of Public Works in the room and stead of Hon. James Sutherland, deceased.

Oct. 16. Allen Bristol Aylesworth, a member of the king's Privy Council for Canada, to be Postmaster General of Canada in the room and stead of the Hon. Sir William Mulock resigned.

Commis-
sioners.

Jan. 7. James Henry Ashdown of Winnipeg, to be a member of the Commission to inquire into and report upon questions affecting the transportation of Canadian products to the markets of the world through and by Canadian ports, etc., in the room and stead of John Bertram, Esq., deceased.

Jan. 7. James P. Mabee of Toronto, barrister-at-law, and Louis Coste of Ottawa, civil engineer, to be members of the International Commission to investigate and report upon the conditions and uses of the waters adjacent to the boundary line between the United States and Canada. William Frederick King, chief astronomer, was appointed a member of the Commission by Order in Council of December 3, 1904.

Feb. 6. Albert Clement Killam of Ottawa, to be the Chief Commissioner of the Board of Railway Commissioners in the room and stead of Hon. Andrew George Blair, resigned.

April 11. Judge Winchester of the county court of the county of York, Ontario, a Commissioner to inquire into and report upon the alleged employment, etc., of aliens and the discharge of Canadians or bona fide residents of Canada, by the Pere Marquette Railway Company of Canada.

July 31. Simon Napoleon Parent of the city of Quebec, to be a member and chairman of the corporation of the Commissioners of the Transcontinental Railway in the room and stead of Fletcher B. Wade, deceased.

July 31. Colin F. McIsaac of Antigonish, Nova Scotia, to be a member of the corporation of the Commissioners of the Transcontinental Railway, in the room and stead of Alfred Brunet.

Aug. 24. Frederick White of Ottawa, comptroller of the Northwest Mounted Police, to be Commissioner of the Northwest territories to administer the government thereof under the provisions of the Northwest Territories Act, 1905. The district of Keewatin, which had formerly been under the administration of the Lieutenant Governor of Manitoba, was by Order in Council of July 24 re-annexed to the Northwest territories and made subject to the same government and laws as the territories.

Nov. 18. George C. Gibbons of London, barrister-at-law, to be chairman of the Canadian section of the International Waterways Commission, in the room and stead of James P. Mabee, resigned.

Jan. 9. Hon. Raoul Dandurand of Montreal, member of the Senate for the electoral division of DeLorimier, to be Speaker of the Senate of Canada.

Jan. 12. Hon. Lawrence Geoffrey Power, a member of the Senate and a senator for the province of Nova Scotia, to be a member of the king's Privy Council for Canada.

Jan. 12. Napoleon Antoine Belcourt of Ottawa, a member of the House of Commons, to be a member of the king's Privy Council for Canada.

July 22. John Fraser of Ottawa, chief clerk in the Department of Finance, to be Auditor General of Canada from 1st August, in the room and stead of John Lorne McDougall, resigned.

Nov. 18. Thomas Côté of Ottawa, to be secretary of the Canadian section of the International Waterways Commission, to date from 20th February.

¹ Since the Representation Act was passed these territories, exclusive of Yukon, have been erected into the provinces of Alberta and Saskatchewan, and in the acts constituting the provinces provision has been made for the continuance of their representation until the census of 1906 is taken. Some of the districts at present are partly in one province and partly in another.

² The unorganized territories are without representation in Parliament.

¹ Not taken in 1871.

NOTE. The number of tenants for the census years 1871, 1881 and 1891 includes employees who had the charge of farms. Persons occupying farm land, part of which was owned and part rented, were recorded in 1901 as owners and tenants. The number of occupiers of land in 1901 is exclusive of all persons holding less than five acres.

Oats.....	9,998,556	16,654,322		31.4

NOTE. The average production of wheat per acre in Manitoba for the thirteen years 1890-1902, according to the local government returns, was 19.22 bushels per acre, of barley 30.77 bushels, and of oats 35.65 bushels. In the territories according to similar returns for the five years 1898-1902 the average of wheat was 19.53 bushels, of barley 25.6 bushels, and of oats 35.30 bushels. The low average yield in the Census year 1901 was due to the relative dryness of the growing season—the rainfall being but little more than one-half an average.

Other products	306,100	119	39,619	72,320

¹ In this table the value of copper ore and products comprises \$1,095,753 copper, \$250,175 gold and \$294,188 silver; the value of gold ore and products comprises \$4,496,681 gold, \$28,637 silver, \$39,811 lead and \$22,725 arsenic; and the value of placer gold comprises \$400 platinum. The total production of gold in the census year is 862,000 ounces, worth \$14,493,417. The statistics of values of real estate and plant, number of officers and workmen and cost of salaries and wages for placer gold mines are exclusive of Yukon district.

¹ Not including duties collected in the Northwest Territories by Northwest Mounted Police.

² Not including the difference between special deposits and duties returned.

NOTE. Duties collected in 1889-1905 do not include additional duties, post entries, over-collections, etc. For the years 1897-1899 they do not include duties collected in Yukon Territory, and for 1905 they do not include special duties on articles shipped to Canada at lower than usual home trade price.

TRADE AND COMMERCE.

TRADE AND COMMERCE.

TABLE LXX. Values of exports which may be classed as manufactures
—concluded.

Principal articles by classes.	1901.	1902.	1903.	1904.	1905.
	\$	\$	\$	\$	\$
Mineral products—con.					
Platinum contained in concentrates, etc....		631	316	64	423
Silver contained in ore, concentrates, etc....	2,420,750	2,055,428	1,802,690	1,865,528	2,098,778
Oils, mineral, coal and kerosene, refined....	1,395	206	31	216	480
Salt.....	11,238	4,965	2,724	7,579	2,920
Totals.....	8,564,299	6,775,155	5,975,391	7,937,208	9,331,178

NOTE. The articles in this table are usually grouped as natural products, as has been done in table xlix. But by some authorities they are grouped with manufactured products, and they have been abstracted here to show the kinds and values of articles to be added to manufactures if so classified. Their chief component value however is that of raw material.

TRADE AND COMMERCE.

TABLE LXXI. Imports of Canada by classes and values entered for consumption in the five fiscal years 1901-1905.

Principal articles by classes.	1901.	1902.	1903.	1904.	1905.
	\$	\$	\$	\$	\$
i. Agricultural produce totals	17,813,186	16,666,529	18,469,684	19,391,113	20,727,997

¹ NOTE. By 60-61 Vic., cap. 4, 62-63 Vic., cap. 7, 63-64 Vic., cap. 8, 1 Edward VII., cap. 7, 3 Edward VII., cap. 57, and 4 Edward VII., cap. 34, a subsidy was authorized on certain mileage of this railway, specified in the Act of Parliament, of \$3,200 per mile and a further subsidy beyond the sum of \$3,200 per mile, of 50 per cent on so much of the average cost of the said specified mileage subsidized as is in excess of \$15,000 per mile, such subsidy not exceeding in the whole the sum of \$6,400 per mile. The amount of certain of the subsidies authorized by Parliament given in this statement includes the determined portion of the subsidies under 60-61 Vic., cap. 4, 62-63 Vic., cap. 7, 63-64 Vic., cap. 8, and 1 Edward VII., cap. 7, 3 Edward VII., cap. 57, and 4 Edward VII., cap. 34, viz. . The amount produced by the \$3,200 per mile, but the other portion is now an undetermined amount, and therefore cannot be shown here.

Totals	10,635	4,053,390	5,410	64,168,415

¹ British and Canadian sea-going vessels in Canadian waters and Canadian vessels in other waters.

² 545 persons were lost by the wreck of the *White Star* ss. *Atlantic* in Turns Bay, Nova Scotia.

³ The returns of the Department of Marine and Fisheries give the number of lives lost at 602, but they erroneously include 562 persons who were drowned in the wreck of the steamship *La Bourgoyne*, 60 miles to the south of Sable Island and therefore on the high seas. The vessel was running between New York and Havre.

NOTE. The statistics for the years 1895 to 1905 are for the 12 months ending June 30.
