XXIV. Areas and products of field crops, 1891-1901.....	85-88
XXV. Comparative statistics of principal grain crops in eastern provinces with Manitoba and the territories, 1891-1901.....	89
XXVI. Fruit production, 1871-1901.....	90-91
XXVII. Number of fruit trees and grape vines and area of orchards, gardens, vineyards and nurseries, 1901.....	92-93
XXVIII. Live stock, 1871-1901	94-95
XXIX. Animal products, 1871-1901.....	96-97

AGRICULTURE—con.	PAGE.
XXX. Values of farm property and products, 1901.....	98-99
XXXI. Summary of farm values, 1901.....	100
XXXII. Rent and hired labour, 1901.....	101
XXXIII. Butter and cheese making, 1901.....	102-103
XXXIV. Butter and cheese making, 1871-1901.....	104
XXXV. Average number of live stock per farm, 1901.....	105
XXXVI. Average of animal products per farm, 1901.....	105
XXXVII. Average production of principal field crops per farm, 1901.....	105
 THE FOREST	
XXXVIII. Production of timber, logs, wood, etc., 1871-1901.....	106-109
XXXIX. Values of timber, logs, wood, etc., 1901.....	110-112
XL. Values of forest products exported from Canada in the five fiscal years 1902-1906.....	113
XLI. Value of furs 1881-1901.....	113
 THE MINES	
XLII. Mineral products by quantities, 1871-1881-1901.....	114-115
XLIII. Mineral products by quantity and value, 1901.....	116-121
XLIV. Averages and ratios for mines and works, 1901.....	122
XLV. Metals and metal products (including pig iron), 1891 and 1901.....	122
XLVI. Mineral products of the Dominion, 1901.....	123
 MANUFACTURES	
XLVII. Statistics of industries, 1871.....	124-127
XLVIII. Statistics of industries, 1881.....	128-131
XLIX. Statistics of industries, 1891.....	132-136
L. Statistics of industries, 1901.....	137-142
LI. Values of real estate, plant and working capital, 1901.....	143
LII. Persons employed on salaries, 1901.....	143
LIII. Persons employed on wages, 1901.....	143
LIV. Working time of wage-earners, 1901.....	144
LV. Total employees, salaries and wages, 1901.....	144
LVI. Averages of salaries and wages, 1901.....	144
LVII. Working time of establishments in year, 1901.....	145
LVIII. Miscellaneous expenses, 1901.....	145
LIX. Cost of materials and value of products, 1901.....	145
LX. Principal statistics of manufactures, 1901.....	146
LXI. Power employed in manufacturing establishments, 1901.....	146
LXII. Horse power aggregates and averages, 1901.....	147
LXIII. Classes of power, 1901.....	147
LXIV. Principal manufacturing establishments of 1901 by groups of products.....	147-148
LXV. Statistics of industries, 1906.....	149-153
LXVI. Principal manufacturing establishments of 1906 by groups of products.....	154-155
LXVII. Comparative statement of values of production, 1881-1906.....	156
LXVIII. Averages of production per wage-earner, 1881-1906.....	156
 WAGE-EARNERS	
LXIX. Number of occupations of wage-earners by classes, 1901.....	157-158

WAGE-EARNERS—con.		PAGE.
LXX.	Earnings at regular work by classes of occupations, 1901.....	159
LXXI.	Extra earnings by classes of occupations, 1901.....	159
LXXII.	Employees and salaries by principal occupations in the professional class, 1901.....	159
LXXIII.	Number and average wages of teachers by sex in provinces, 1901...	160
LXXIV.	Percentage of time and earnings by sex in provinces, 1901.....	160
LXXV.	Percentage of occupation by sex in provinces, 1901.....	160
LXXVI.	Percentage of time and earnings by classes of occupation, 1901.....	160
NORTHWEST PROVINCES		
LXXVII.	Population by districts, 1901 and 1906.....	161

THE CANADA YEAR BOOK 1906

This volume of the Year Book, being 11 of the Second Series, brings all available statistics of Canada down to the end of the fiscal year 1906. The trade tables have been changed and enlarged to embrace by quantities and values imports and exports under the heads of agriculture, animals and their products, fisheries, forest products, manufactures and miscellaneous articles separately for Britain, the United States, other countries and all countries for the five fiscal years 1902-1906. A number of new tables have also been added to complete more fully the statistics of the Dominion. Among the most important of these are tables of the census of manufactures of Canada for the calendar year 1905, taken in 1906, and of the population and agriculture of the Northwest provinces in 1906 taken in June of that year. The notes of Events of the Year have been prepared from original and official sources of information, following the plan adopted in last year's volume.

ARCHIBALD BLUE,
Chief Officer.

Census and Statistics Office,
Ottawa, October, 1907.

EVENTS OF THE YEAR

The second session of the tenth Parliament of the Dominion of Canada opened on March 8, 1906, and closed by prorogation on July 13. One hundred and eighty-five measures were enacted during the session, comprising 52 public general acts and 133 local and private acts. Of the 52 public acts 27 were in amendment or repeal of existing statutes and 25 were new measures. The principal subjects of legislation were immigration, forest reserves, observance of the Lord's day, the marking of gold and silver, the control of money lenders, penitentiaries and placer mining in the Yukon. Parliament reassembled for its third session on November 22, 1906 ; but no further legislation was accomplished during the remainder of that year.

Session of Parliament, 1906.

The Immigration Act of 1906 consists of 73 sections, and deals in a comprehensive manner with the conditions under which immigrants may in future enter Canada. In effect, though not in form, the act is an amending one, for it repeals the Immigration Act (R. S. C., vol. I, 1886, ch. 65) and the subsequent acts of 1887 (ch. 34) and 1902 (ch. 14). It has in view two main objects, viz: (1) the provision of better safeguards for the exclusion from Canada of undesirable persons, and (2) the greater care and protection of bonâ fide settlers whose immigration it is the policy of Canada to encourage and promote.

The Immigration Act.

The provisions of the repealed acts under which persons afflicted with disease or with mental or bodily infirmities were prohibited from landing in Canada are by the new act made more stringent; and, subject to certain exceptions, they are made obligatory where formerly they were permissive in character. Giving of bonds by masters, owners or charterers of vessels is abolished, and the landing in Canada of any mentally or bodily afflicted person (unless belonging to a family providing for his permanent support) and of paupers, beggars, criminals and other immoral persons, is absolutely prohibited.

Exclusion of undesirable persons.

By further new provisions of considerable importance any person who within two years of landing in Canada either (a) becomes a charge upon the public funds or upon any charitable institution, or (b) commits a crime involving moral turpitude, may be

Deportation of paupers and criminals,

and regula-
tions as to
amount of
money posses-
sed by immi-
grants.

deported and returned to the country whence he sailed for Canada. In these cases the transportation companies who brought the immigrants are required to take them back without receiving the usual payment. Further, the Governor in Council is empowered to issue regulations prescribing the minimum amount of money which must be possessed by immigrants, the amount varying according to the class and destination of the immigrant, or other circumstances.

Protection of
immigrants.

For greater precaution against the overcrowding of immigrant vessels, the proportion of twelve superficial feet to each adult passenger which was required in every ship bringing immigrants to Canada is raised by the new act to fifteen feet. The regulations designed for the protection of female immigrants whilst on board ship are made more strict, and members of crews guilty of infringing them are rendered liable to a penalty equal in amount to their wages during the voyage. The Minister of the Interior is authorized to provide temporary shelter and accommodation for immigrants on landing before they proceed to their destination.

British legis-
lation to deter
emigration to
Canada by
false repre-
sentations.

Legislation of some importance to Canada was enacted during the year by the British Parliament on representations made on behalf of the Canadian Government. In the session of 1904-5 the Dominion Parliament passed a measure making it a penal offence to induce or deter immigration by means of false representations. The scope of this act was necessarily limited to offences committed in the Dominion. An investigation by the Deputy Minister of Labour into the case of certain printers who had been induced by misrepresentations to emigrate to Winnipeg, during the continuance of a printers' strike in that city, showed that these misrepresentations had been made in Great Britain, and did not therefore come within the scope of the Canadian act. His Excellency the Governor General, in forwarding a report of the investigation to the Secretary of State for the Colonies, at whose request it had been made, after showing that the Canadian act was inadequate to meet the case, intimated that a remedy against further cases of like character might be provided by Imperial legislation analogous to the Dominion act. Subsequently Mr. P. M. Draper, secretary of the Trades and Labour Congress of Canada, wrote to the Minister of Labour urging the importance to the workmen of Canada of securing the enactment of such legislation, and that some one

should be sent to England by the Canadian Government to impress upon the authorities the urgency of the matter, with a view to having immediate action taken. Mr. W. L. Mackenzie King, the Deputy Minister of Labour, who had made the investigation into the case of the English printers was suggested by Mr. Draper as one who would be in his opinion specially acceptable to the workmen of Canada for the mission in question. The Minister of Labour decided to send his Deputy Minister to England to press upon the attention of the Home authorities the desirability of the enactment of such legislation as that above indicated. Mr. King sailed for England on September 18, and had conferences on the subject in question with the Secretary for the Colonies and other officials of the Colonial Office. As a result of his representations the Imperial Government promised to introduce an amendment to the Merchant Shipping Bill then before Parliament which would secure the object desired. The proposed amendment, making it a penal offence to induce or attempt to induce emigration by means of misrepresentation, was accordingly inserted in the Merchant Shipping Bill, and the Bill received the Royal assent on December 21. Made a penal offence.

The preamble of the Dominion Forest Reserves Act recites the expediency of reserving Dominion forest lands in the provinces of Manitoba, Saskatchewan, Alberta and British Columbia for the purposes of providing a permanent supply of timber, of maintaining conditions favourable to a continuous water supply, and of protecting, so far as the Parliament of Canada has jurisdiction, animals, fish and birds within the reserve boundaries. The forest reserves thus set apart consist of six in Manitoba, with a total area of 3,575 square miles; four in Saskatchewan, with a total area of 740 square miles; three in Alberta, with a total area exceeding 168 square miles; and eight in British Columbia, with a total area of 890 square miles. In all four provinces there are therefore 21 forest reserves, with a total area of about 5,373 square miles, or 3,438,720 acres. Dominion Forest Reserves Act.

The act provides for the control and management of the reserves by the Superintendent of Forestry, subject to the direction of the Minister of the Interior, for the appointment of forest rangers, and for the issue of regulations by the Governor in Council for the maintenance, protection, care, management, and utilization of the timber, minerals, animals, birds and fish Control and management of forest reserves.

therein. It confers upon the forest rangers all the powers of a justice of the peace within the districts to which they are appointed, and requires them to subscribe to an oath for the faithful performance of their duties. It deals also with public roads and road allowances, protection against fires, and the interests of land owners within the reserves. It provides expressly that compensation for any future extinction of existing licenses to cut timber shall not be larger in consequence of the land being situated within a forest reserve.

Penalties on
summary
conviction.

A penalty of not more than \$100 may, upon summary conviction, be imposed for any violation of the act or regulations made thereunder; or, in default of payment and costs, imprisonment, with or without hard labour, may be inflicted for any term not exceeding six months.

Observance of
Lord's day.

Chapter 27, an Act respecting the Lord's day, provides that it shall not be lawful for any person on the Lord's day to sell or offer for sale or purchase any goods, chattels or other personal property, or any real estate, or to transact any business of his ordinary calling, or to employ any person for gain to do on that day any work, business or labour. The Lord's day is defined as the period of time which begins at 12 o'clock on Saturday afternoon and ends at 12 o'clock on the following afternoon. Works

Exceptions to
operation of
the act.

of necessity or mercy are excepted from the operation of the act, and whilst not restricting the ordinary meaning of the expression "work of necessity or mercy", this is declared by the act to include 24 different descriptions of work, connected with divine worship, sickness, transportation, communications, food, water, light, heat, animals, fires and emergencies. Games and performances for gain, shooting for gain or to the disturbance of other persons, and the sale or distribution within Canada of foreign newspapers on the Lord's day are all forbidden by the act. Employees who, except in cases of emergency, are employed on the Lord's day in certain defined classes of work, must be allowed during the next six days 24 consecutive hours without labour; but this provision applies only where the regular day's labour exceeds eight hours in duration.

Time limit of
60 days.

The act does not override any existing statute, nor does it affect the liberty of each province to make its own laws upon this subject. It comes into force on March 1, 1907, and no action or prosecution for a violation of it may be commenced without leave of the Attorney General for the province in which the offence is alleged to have been committed, nor after the

expiration of 60 days from the time of the commission of the alleged offence.

Violation of the act is punishable by fines, on summary conviction, differing in amount as to persons (not less than \$1 and not exceeding \$40), employers (not exceeding \$100 and not less than \$20), and corporations (for the first offence not exceeding \$250 and not less than \$50 and for each subsequent offence not exceeding \$500 and not less than \$100). Penalties are graded.

The Gold and Silver Marking Act, 1906, regulates the manufacture, sale and importation into Canada of articles of gold and silver with the object of preventing fraudulent misrepresentations by the marks thereon indicating quality, alloy and date of manufacture. Gold and silver articles may not bear any marks other than the trade mark, the date mark and marks truly and correctly indicating the quality of the metal or alloy used. Articles sold as gold must be of not less than 10 karats in fineness, and indefinite marks may not be applied to them. Articles sold as of sterling silver must not contain silver in less proportion than 925 parts of pure silver in every 1000 parts of metal or alloy of which such articles are made. An allowance of 25 parts in 1000 is made when solder is used and of 10 parts in 1000 when solder is not used. The Gold and Silver Marking Act, 1906.

A schedule affixed to the act settles the Canadian date marks for gold and silver articles in nine five-year periods from June 30, 1906 to July 1, 1950, the marks consisting of the Roman capital letters A to I. Gold and silver date marks.

It is provided that the act shall not come into force until twelve months after receiving the royal assent. This was signified on July 13, 1906¹. Date of commencement of the act.

Chapter 32 controls the transactions of money lenders by limiting their rates of interest. The preamble refers to the practice of some money lenders of charging exorbitant rates of interest to needy or ignorant borrowers. Where the original principal of any loan is under \$500 the interest charged must not exceed 12 per cent per annum, and shall be reduced to 5 per cent per annum from the date of judgment in any proceeding for the recovery of the amount due. The measure is partly retroactive, and money lenders who lend money at a higher rate of interest than Control of money lenders

¹ The section containing this provision has since been repealed, March 13, 1908, being substituted as the date for the commencement of the operation of the act.

the rate authorized are rendered liable to imprisonment for a term not exceeding one year or to a penalty not exceeding \$1,000.

Change of the fiscal year.

By chapter 12 the fiscal year of Canada, which has heretofore extended from June 30 in one year to June 30 in the next year, is altered so that in future it will extend from April 1 in one year to March 31 in the next year, thus bringing it more into harmony with the active business season. The change took effect on July 1, 1906, and it is provided that the fiscal year 1906-1907 shall consist of nine months only, that is, from July 1, 1906, to March 31, 1907. The Canadian fiscal year is therefore now for the same period as that of the United Kingdom.

Repeal of act granting annuities to members of the P. C.

Chapter 40 repeals the act of 1905 by which it was provided that certain annuities should be paid to members of the King's Privy Council for Canada after retirement from office.

Act against bribery and corruption of members of parliament.

By chapter 49 members of parliament are expressly prohibited from receiving directly or indirectly any compensation for services in connection with any matter before the Senate or the House of Commons. Any member of the Senate offending against this provision is rendered liable to a fine of not less than \$1,000 nor more than \$4,000. Any member of the House of Commons so offending is rendered liable to a fine of not less than \$500 nor more than \$2,000, and for five years after conviction of such offence is disqualified from being a member of the House of Commons and from holding any office in the public service of Canada.

Salaries of judges, Manitoba.

By chapter 4 cognizance is taken of an act of the Legislature of Manitoba constituting for that province a court of appeal, and the salaries of the judges of the court are fixed at \$8,000 for the chief justice and \$7,000 for each of the three puisné judges. The salaries of the judges of the court of king's bench of the province of Manitoba are fixed at \$7,000 for the chief justice and \$6,000 for each of the two puisné judges.

Travelling allowances to judges.

Chapter 22 repeals the section in the act of 1905 relating to travelling allowances to the judges of provincial courts. The sum of six dollars per day, in addition to moving or transportation expenses, is still payable, but the limit of \$200 is abolished and certain conditions are laid down for different provinces, whilst judges of district courts in Ontario are to receive a travelling allowance of \$500 per annum.

Brief mention may be made of a variety of other acts of parliament which were passed during the session of 1906. Chapter 5 amends the criminal code of 1902 by providing that with the consent of the Attorney General judges of superior or county courts may appoint commissioners to take the evidence upon oath of persons resident out of Canada. Chapter 8 provides for the redemption of light coin. Chapter 15 amends the Fruit Marks Act of 1901 and Chapter 18 the Grain Inspection Act of 1904. Chapter 23 repeals an act of 1890 for the collection and publication of labour statistics. Chapter 24 deals with the disease of leprosy, including the formation and regulation of lazarettos for lepers and the apprehension and segregation of leprosy persons. Chapter 33 contains fresh legislation as to the six penitentiaries of Canada, their control, limits, administration and the treatment of convicts. The salaries and wages payable to the wardens, officers and other employees are scheduled, and previous acts are repealed. Chapter 39 regulates placer mining in the Yukon. Chapter 42, consisting of 35 sections, amends the Railway Act of 1903 and chapter 43 authorizes the granting of certain railway subsidies in lieu of subsidies granted under previous acts.

Evidence upon oath of persons outside Canada.

Light coin, Fruit Marks and Grain Inspection acts.

Repeal of act for collection of labour statistics.

Leprosy.

Penitentiaries.

Placer mining in the Yukon.

Railways and railway subsidies.

The industrial disputes during 1906 numbered 138 as compared with 87 in 1905 and 103 in 1904. The months showing the greatest industrial disturbance were May, August and September, there being 28, 17 and 15 disputes respectively in these months. There was consequently a large increase in the number of employees affected. This increase was, however, emphasized by several cases in which, though the disputes were but of short duration, several thousand workmen were involved. Examples of such were the strikes of rolling mill hands at Montreal, involving 1,175 employees, of coal miners at Spring Hill, N.S., involving 1,500 employees, and of building trades at Winnipeg and Toronto, involving 4,000 and 1,800 workmen respectively. A strike of coal miners at Lethbridge, affecting 500 employees, commenced on March 9 and continued until December 2, and a strike of about 600 piano workers at Toronto continued for four months. A strike of coal miners, occurring in Fernie and Michel, B.C., and involving about 1,600 employees, lasted from September 22 to November 13. In all about 26,000 work people were involved in trade disputes during the year, and the loss of time to employees through these

Industrial disputes of the year.

disputes represented approximately 489,775 working days. The greatest number of disputes occurred in the building trades, being 29 in number; there were 21 disputes in the metal trades, 14 in the transport and 13 in the mining industries. Of the total number of disputes 55 were occasioned solely by a demand for increased wages, while the question of wages was either the sole or contributory cause in 82 disputes. There were 13 disputes due to the refusal of employees to work with particular persons, 13 in which a recognition of the union was demanded and three against the employment of non-unionists. Of the 138 disputes definite settlements were reached in 130 cases; 67 of these were brought about by direct negotiations between the parties concerned and three by arbitration. Four disputes were settled by conciliation, three through the friendly intervention of the Department of Labour under the Conciliation Act and one through the mediation of the Ministerial Association of Winnipeg.

The most serious dispute of the year was that of the coal miners at Lethbridge, Alberta, which continued as stated above from March until December. The strike had seriously reduced the output of coal available for consumption in the West, and large portions of the provinces of Saskatchewan and Alberta were menaced with a severe fuel famine, while a general derangement threatened the transportation facilities and industrial enterprises of the country. The dispute was fortunately terminated by the intervention, at the request of the Premier of Saskatchewan, of Mr. W. L. Mackenzie King, the Deputy Minister of Labour, and work was resumed in time to avert the most serious aspects of the fuel famine.

Other serious disputes were those of sawmill hands at Buckingham, Quebec, in September, and street railway strikers at Hamilton and Winnipeg. In connection with each of these the Militia was called out to assist the municipal authorities. In the case of the strike at Buckingham there was a serious loss of life in consequence of a riot occurring in connection with the dispute. Correspondence laid on the table of the House of Commons with regard to the Buckingham strike showed that the Department of Labour had, at the request of the employees, offered its good offices for the purpose of effecting a settlement, but these had been refused by the employing firm.

The Industrial Disputes Investigation Act, 1907, as the title indicates, was not actually enacted until 1907, but it was introduced into the House of Commons on December 17 by the Minister of Labour, and on account of its importance deserves to receive mention here. The act was the outcome of the observations and investigations made by the Deputy Minister of Labour into the strike at the coal mines of the Alberta Railway and Irrigation Company at Lethbridge, Alberta, during 1906, which was finally settled by his intervention and mediation, and the long continuance of which was in some degree responsible for the scarcity of fuel throughout a large portion of western Canada during the winter of 1906-07. The Deputy Minister in his report to the Minister of Labour in December, 1906, of the settlement effected at Lethbridge and of the situation he had found in existence between the disputing parties, made the following recommendations :

Industrial Disputes Investigation Act, 1907.

The situation which called for the act.

Inasmuch as coal is in this country one of the foremost necessities, on which not only a great part of the manufacturing and transportation industries, but also, as the recent experience has shown, much of happiness and life itself depends, it would appear that if legislation can be devised which, without encroaching upon the recognized rights of employers and employees, will at the same time protect the public, the State would be justified in enacting any measure which will make the strike or lockout in a coal mine a thing of the past. Such an end, it would appear, might be achieved, at least in part, were provisions made whereby, as in the case of the Railway Labour Disputes Act, all questions in dispute might be referred to a board empowered to conduct an investigation under oath, with the additional feature, perhaps, that such reference should not be optional but obligatory, and pending the investigation and until the board has issued its finding the parties be restrained on pain of penalty from declaring a lockout or strike. In view of past experience and the present situation, I would therefore respectfully recommend that the attention of parliament be, at as early a date as possible, invited to a consideration of some such or other measure with a view of preventing a possible recurrence of an experience such as this country has been forced to witness during the past month, and of promoting in the interests of the whole people the cause of industrial peace.

A Bill was introduced to give effect to these recommendations, which after being actively debated by both houses of parliament become law.

The outstanding feature of the new act is its provision that before a strike or lockout can be legally declared in a difference between employer or employees in connection with a mine or any industry connected with a public utility, the difference in question shall be submitted to a Board of Conciliation and Investigation established under the act with a view to arriving at a settlement. Put in other words, the act demands an investigation before the declaration of a strike in the class of industries indicated, in order that the parties to the differences may be brought face to face, and that degree of conference

The chief feature of the act.

and discussion secured which experience proves to be frequently sufficient to restore amicable relations.

Notice of
thirty days
required from
parties.

Further provisions of the act require that employers and employees shall give at least thirty days' notice of an intended charge affecting conditions of employment with respect to wages or hours, and that pending proceedings before a board the relation to each other of the parties to the dispute shall remain unchanged and neither party shall do anything tending to bring about respectively a lockout or a strike. Penalties are indicated for infringement of the various provisions of the act, whether as to employer or employed. A penalty is also prescribed for one who incites or encourages or aids others to bring about or continue a lockout or a strike contrary to the provisions of the act.

Extending the
provisions of
the act.

Two other important features of the act are the following: (1) that which provides that the statute may be made applicable to disputes other than those relating to mines or public utilities when the parties concerned in such dispute may so desire; and (2) that which provides for making obligatory and binding the award of the board with regard to any dispute referred to it; this also being done by agreement between the parties concerned, in the absence of which agreement the finding of the board leaves the parties to the dispute free to take such action as they may respectively choose.

Board of Con-
ciliation and
Investigation.

The Board of Conciliation and Investigation, as established under the act, will consist of three members: two appointed by the Minister of Labour on the recommendation of the respective parties to the difference, the third appointed on the recommendation of the two first appointed; if these fail to agree within five days on a recommendation to the Minister then the third member will be selected and appointed by the Minister himself. The third member is to be chairman of the Board.

Statement of
the applicant
to the Board.

With the application forwarded to the Minister asking for the establishment of a Board the applicant is required to submit a statement setting forth the names of the parties to the dispute, the nature and cause of the dispute, an approximate estimate of the number of persons affected, and the efforts made by the parties themselves to adjust the dispute. The application must also be accompanied by 'a statutory declaration setting forth that, failing an adjustment of the dispute and a reference thereof by the Minister to a Board of Conciliation and Investigation under the act, to the best of the knowledge and belief of

the declarant, a lockout or strike, as the case may be, will be declared, and that the necessary authority to declare such lockout or strike has been obtained'. The Board, when constituted, is invested under the act with full power to summon and enforce the attendance of witnesses, administer oaths and otherwise to do or cause to be done all that may be necessary to secure a full investigation of the matter referred to it.

The act does not contemplate that the Department of Labour, or any Department of the Government, shall institute proceedings when its provisions are believed to have been infringed. Initiation of proceedings. Any individual may lay the information necessary to initiate such proceedings, as in the case of any other infringement of the law, when the procedure for enforcing penalties is that prescribed by part xv of the Criminal Code (Chap. 146, R.S.C., 1906).

The Commission appointed on November 21, 1902, to revise, classify and consolidate the public general statutes of Canada completed their task during the year by the issue of the Statutes of Canada in four volumes, intitled 'The Revised Statutes of Canada, 1906', and consisting of the acts of the parliament of the Dominion of Canada in 155 chapters, with three appendices and an index. Consolidation of Statutes.

On March 25 a joint address from the Senate and House of Commons, expressing loyalty and devotion to His Majesty the King and praying that His Majesty and Her Majesty the Queen would be graciously pleased to visit the Dominion, was forwarded to the Imperial Secretary of State. In reply, a despatch dated July 7 was received by the Governor General from Lord Elgin setting forth by command of His Majesty in very gracious terms reasons why it was not possible for the Sovereign to pay a visit to the Dominion at the present time. The full text of this despatch was published in the Canada Gazette of July 21; but the concluding paragraph may here be quoted as follows: Address from the Senate and House of Commons praying the King and Queen to visit Canada.

In spite, however, of the many and strong inducements which prompt Him to gratify the loyal wishes of His Canadian subjects, I am to say that the King feels unable at present to entertain the idea of a journey to Canada. Whether the difficulties suggested in an early portion of this despatch, and others which I need not particularise, could be overcome, it is premature to discuss now. But His Majesty desires that your lordship should make it known to

all that He is prevented by the necessities of His position and not by any lack of appreciation of the loyalty and devotion of the people of Canada to His Throne and Person.

H. M. King Christian of Denmark, father of H. M. Queen Alexandra, died at Copenhagen on January 29, aged 88. A despatch from Lord Grey tendering the devoted sympathy of the people of Canada to their Majesties the King and Queen in the loss which they have sustained was acknowledged by Lord Elgin, in which he stated that he was commanded to request His Excellency to convey to the Canadian people 'the cordial thanks of Their Majesties for this mark of sympathy' and to say that 'Her Majesty the Queen has been greatly comforted by the expressions of affectionate regard towards herself and by knowing that the heart of Canada goes out to Her in Her sorrow.'

Early in the year H. R. H. Prince Arthur of Connaught, son of H. R. H. the Duke of Connaught and nephew of H. M. the King, visited Tokio for the purpose of presenting to the Emperor of Japan the insignia of the Order of the Garter. His Royal Highness returning home by way of Canada landed at Victoria, B.C., on March 27, and was welcomed with loyal enthusiasm by the Dominion and Provincial authorities and by the people of Canada.

The appalling earthquake of April 18 on the Pacific coast by which, with the subsequent outbreak of fire, nearly the whole of the city of San Francisco, California, was reduced to ruins, occasioned immense losses of life and property, and evoked universal sympathy with the sufferers. Nowhere was this sympathy more keenly felt than in our own country, and it found practical expression in a grant of \$100,000 which the parliament of the Dominion voted on April 20 towards the relief of the distress caused by the earthquake and fire.

During the winter a serious famine in northern Japan caused acute distress amongst a population of nearly 3,000,000 persons. The parliament of the Dominion voted a sum of \$25,000 towards the relief of the sufferers, and flour to this value was despatched to the districts in Japan affected by the famine.

A convention between the United Kingdom and Japan respecting the commercial relations between Canada and Japan was signed at Tokio on January 31. By this convention it was agreed that the stipulations of the treaty of commerce and navi-

gation between Great Britain and Japan, dated July 16, 1894, and coming into operation five years from that date, should be applied to the international commerce and navigation between Canada and Japan. Article I of this treaty stipulates that 'the subjects of each of the two high contracting parties shall have full liberty to enter, travel or reside in any part of the dominions and possessions of the other contracting party, and shall enjoy full and perfect protection for their persons and property' The treaty consists of twenty-two articles, which with a protocol and an exchange of notes, dated July 16, 1894, and a supplementary convention, dated July 16, 1895, contain the regulations agreed upon for the commercial intercourse between the two countries and the ad valorem and specific duties payable upon imports into Japan. A bill to sanction the convention of January 31, 1906, was introduced into the Dominion parliament at the beginning of the third session towards the close of the calendar year¹.

In the speech from the throne at the close of the session His Excellency the Governor General observed: 'It is very gratifying to note that Canada continues to enjoy a prosperity rarely equalled in the history of nations. The volume of exports and imports during the year just closed exceeds that of any previous record. The revenue also shows a remarkable increase, the receipts on account of the consolidated fund having doubled in the last ten years. The large number of private bills that have received your approval—having for their object the incorporation of railway and other industrial enterprises—affords additional evidence of the general prosperity prevailing over the Dominion.' Further reference was made to this subject in the Governor General's speech on the opening of the third session of Parliament on November 22, when His Excellency said: 'The harvest has been abundant, and the trade with both British and foreign nations continues to expand in annually increasing volume, with every prospect of continued growth for many years to come.'

Prosperity of
Canada.

In pursuance of the provisions of the Census and Statistics Act of 1905 a census of population and agriculture in the provinces of Manitoba, Saskatchewan and Alberta was taken for the date of June 24. E. H. St. Denis, J. C. Macpherson and

Census of
population
and agricul-
ture of the
Northwest
provinces.

¹ Assented to on January 30, 1907, as The Japan Treaty Act, 1906.

E. S. Macphail, of the Census and Statistics Office, were appointed commissioners to take the census under instructions and with the aid of schedules approved by the Minister of Agriculture and assented to by the Governor in Council. As the result of the census, the total population of the three provinces was ascertained to be 808,863 as compared with 419,512 at the general census of 1901. In the schedules for agriculture provision was made for records of acreage and yield of crops for the year 1905 and for records of acreage for the year 1906. Estimates of the yield of crops in 1906 were made subsequently from the returns of correspondents selected from farmers throughout the three provinces. The detailed results of the census are in course of preparation by the Census and Statistics Office, and tables compiled therefrom are included in the present edition of the Year Book.

The foreign trade of the Dominion, exclusive of coin and bullion, of goods not the produce of Canada and exports estimated short, has grown from \$336,017,668 in the last fiscal year of the nineteenth century to \$518,766,160 in the sixth year of the twentieth. It was \$122,983,266 in 1870 and \$162,374,956 in 1876. Thirty years ago, at the end of a period of six years Canada's foreign trade showed a gain of \$39,391,690 and at the end of the last period of six years it shows a gain of \$182,748,492.

Chartered banks, which in 1870 had assets of \$103,197,103 and in 1876 of \$183,499,801, had assets of \$459,715,065 in 1900 and of \$878,512,076 in 1906, being a gain in the former period of \$80,302,698 and in the latter of \$418,797,011. In 1870 the total cash on deposit in the banks was \$18,763,205 and \$72,852,686 in 1876; and after thirty years the amount was \$305,140,242 in 1900 and \$605,68,513 in 1906. In the first period of six years the gain was \$24,089,481 and in the last it was \$300,828,271. The monthly average reserve fund held by the banks was \$32,372,394 at the end of 1900 and \$64,002,266 at the end of 1906, and in the same period their paid-up capital was increased by \$25,881,010. The clearing house statements, which are a certain measure of the volume of the country's business, show an expansion of \$2,361,140,851 in the six years of this century, the amount being \$1,589,560,411 in 1900 and \$3,950,701,262 in 1906. There was at the credit of depositors in Post Office and Dominion Government savings

Population.

Acreage and yield of crops.

Some illustrations of the growth of Canada in the 20th century.

Foreign trade.

Chartered banks.

banks at the end of June, 1870, a sum of \$3,411,419, which grew to \$7,044,118 in 1876, to \$53,149,722 in 1900 and to \$61,911,182 in 1906. Altogether there was at the credit of depositors in chartered and savings banks in 1906 a sum of \$667,879,125, whereof the large amount of \$309,589,170 has been an accumulation of this century. In the chartered banks alone the increase of deposits from \$48,763,205 in 1870 to \$305,140,242 in 1900 and to \$605,968,513 in 1906 shows the very large extent to which the banks have been assisted above their own capital in maintaining the business of the country.

Steam railways in operation in the Dominion in 1870 had a length of 2,617 miles and in 1876 of 5,218 miles. At the end of the century they had a length of 17,657 and in 1906 of 21,353 miles, together with 814 miles of electric railways. The earliest statistics of railway operations go back to 1875, and in the following table a few comparative figures are given to show the progress of the Dominion in this great branch of transportation:

I. COMPARATIVE STATISTICS OF RAILWAY TRANSPORTATION.

Steam railways.	1876.	1900	1906.
Train mileage... m.	18,103,628	52,647,684	72,723,482
Passengers..... No.	5,544,814	17,122,193	27,989,782
Freight..... ton.	6,331,757	35,764,970	57,966,713
Gross earnings... \$	19,354,085	70,231,979	125,322,865
Net earnings..... "	3,555,364	22,826,383	38,193,431

The increase of train mileage in the six years of the twentieth century is 20,075,798, of passengers 10,867,589, of freight 22,201,743 tons, of gross earnings \$55,090,886, and of net earnings \$15,367,048, as against an increase of 34,544,056 train mileage, of 11,577,379 passengers, of 29,433,213 freight tons, of \$50,873,894 gross earnings and \$19,271,019 net earnings in the last twenty-four years of the nineteenth century. The statistics of electric railways are complete only for the six years of this century, in which they show an increase of 116,720,418 passengers carried and of \$1,958,714 net earnings, being for a period of five years increases of over 100 and 84 per cent respectively. The paid-up capital of steam railways in 1876, comprising ordinary and preference shares, was \$180,955,656. In

Increase of
railway
business.

1900 it was \$410,326,094 for steam and electric railways, and \$601,653,899 in 1906. Including bonds sold, government and municipal aid, and capital from other sources, the total investment for railways in the Dominion in 1900 was \$998,268,405 and \$1,396,356,675 in 1906.

Trade, transportation and banking have been the most active and potent of all agencies in the development of the country. Without international trade we should exist as a hermit nation; without railways the opening up of the great interior between ocean and ocean could not be achieved; and without banks there would be little business beyond a simple exchange between neighbour and neighbour. The figures given show how Canada is advancing on the highways of the nations.

Illustrations of another sort are found in the records of the census of the Northwest provinces, taken during the year.

The North-
west provin-
ces.

Manitoba, Saskatchewan and Alberta were an unknown and untravelled region less than forty years ago. Manitoba was admitted to the status of a province of the Confederation in 1870, and Saskatchewan and Alberta attained to the same rank only in 1905. In 1881, when the first census of those three areas was taken, they had a population of 100,014; in 1891 they had 219,305; and in 1901 they had 419,512. In 1906, five years later, the population was 808,863. Manitoba's share in this growth was 110,477, Saskatchewan's was 166,484, and Alberta's was 112,390, and the rate of increase for the three provinces in the five years was 93 per cent. There were 2,370 townships with inhabitants in 1901 and 4,365 in 1906, and the cities, towns and incorporated villages grew in the same period from 85 to 185.

Farms.

The number of farms in the three provinces in 1906 was 122,398, being 67,773 more than in 1901. In Manitoba there were 36,141, an increase of 4,329; in Saskatchewan 55,971, an increase of 42,591; and in Alberta 30,286, an increase of 20,853.

Live stock.

The total number of horses in 1906 was 682,919, being an increase in five years of 342,590; of milch cows 384,006, an increase of 139,790; of other horned cattle 1,560,592, an increase of 862,183; of sheep and lambs 304,531, an increase of 121,915; and of swine 439,048, an increase of 238,673.

The area sown to wheat, oats, barley, rye, flax, potatoes, other field roots, forage crops and cultivated hay in 1900 was 3,597,-

691 acres, in 1905 it was 6,298,288 acres, and in 1906 it was 8,327,970 acres. In the first of these years crops were light, owing to an unusual season of drouth; but in the other two years, when the conditions were normal, the yield of wheat was Field crops. 82,461,627 bushels in 1905 and 110,586,824 in 1906, of oats 68,810,855 bushels in 1905 and 110,569,628 in 1906, and of barley 10,971,755 bushels in 1905 and 18,684,609 in 1906. The increase in the areas of those field crops in the five years 1900 to 1905 was 2,700,597 acres, and in the six years 1900 to 1906 it was 4,730,279 acres.

Comparing the areas of all field crops in 1905 and 1906, there were in the Northwest provinces 6,338,325 acres in the former and 8,407,697 in the latter year, being an increase of 2,069,372 acres or nearly 33 per cent in one year. In Manitoba the increase was 603,240 acres, in Saskatchewan 1,166,853 and in Alberta 299,279, which in the aggregate is equal in extent to ninety townships. Yet the whole area in crops in the three provinces in 1906 was only 28 per cent of the land occupied as farms and only 7 per cent of the surveyed land in the provinces—the land occupied as farms and ranches being 30,502,927 acres and the land surveyed for settlement 120,484,455 acres.

A census of manufactures taken in 1906 for the year 1905 Census of manufactures. supplies interesting illustrations of the growth of the Dominion in the twentieth century.

A comparison of works employing five hands and over in 1905 Statistics of the calendar years 1900 and 1905. with those of 1900 cannot be accurately made for numbers, partly because in the interval many works have been merged under one management, such as butter and cheese factories and canning works; partly because in large establishments carrying on several kinds of industries one return has been made in 1906 where in 1901 separate returns were made for each kind; and partly also because owners of shops in receipt of stated salaries or allowances from the business who were counted in 1901 have not been so counted in 1906. Consequently in hundreds of cases in the census of the latter year such shops are put into a class of four employees and under. For these reasons the number of works in 1905 appears to be more than 2,000 less than in 1900. In one establishment, for example, eleven kinds of industries are carried on under one management, and the statistics for it are compiled in the tables with the

Varieties of
production.

industry of greatest production. An attempt was made in all such cases to procure with the return a statement of the several kinds of products and the value of each product, which would be useful in showing the extensive variety of the manufactures, but many of the returns are defective in these particulars. In the example already referred to the products for which separate values are given consist of corsets, furs, harness, men's and boys' clothing, photo-engraving, printing, shirts, ties, upholstery, whitewear and women's clothing, all of which are grouped with the class last named because it is the one of greatest value, and the total values run up into several millions. Inquiries are often made by traders and consumers as to whether particular kinds of articles are made in the country; and if the information was fully supplied by manufacturers it would possess not a practical use only, but an economic importance in exhibiting the extent and range of the country's industries.

The reasons already given account for the apparent decrease in the number of establishments employing five hands and over; but it may be added that in 27 principal classes of industries showing a decrease in the number of works—a decrease numbering more than 3,000—there is a net increase of \$40,000,000 in the value of products. Flouring mills and electric light plants, like butter and cheese factories, brick and tile works and lime-kilns, have been classed with establishments employing five hands and over on account of their relatively large production.

The principal industries employing less than five hands are those of baking, blacksmithing, carding, dress-making, millinery-making, tailoring, printing and harness-making. These comprise 3,249 shops or works with 8,610 employees, and the value of their products is \$11,906,025.

Employees on
salaries and
wages.

Taking the two classes of establishments, viz: those employing five persons and over and those employing less than five—the whole number in the Dominion whose statistics have been compiled for the calendar year 1905 is 15,796. The capital employed in these works, including land, buildings, plant and working capital, is \$846,585,023. The employees on salaries and wages, with earnings and average earnings, are as in table 2 (p. xxxi).

2. EARNINGS AND AVERAGE EARNINGS.

Sex.	No.	\$	Averages. \$
On salaries—			
Male.....	31,545	28,938,637	917·38
Female.....	4,951	1,785,449	360·62
On wages—			
Male.....	288,033	119,550,821	415·06
Female....	68,001	14,825,104	218·01

The number of employees on salaries and wages is 392,530, their total earnings are \$165,100,011, and the total value of products is \$718,352,603. But to make a fair comparison of 1900 with 1905 the statistics of works employing five persons and over will be used here.

The following table shows the growth of the Dominion in five years for manufacturing establishments employing five persons and over under the heads of capital, employees, earnings and value of products :

Capital,
employees,
salaries and
wages and
value of
products.

3. CAPITAL, EMPLOYEES, EARNINGS AND PRODUCTS.

Schedule.	1905.	1900.	Increase.
Capital..... \$	833,916,155	446,916,487	386,999,668
Employees..... NO.	383,920	339,173 ¹	44,747
Salaries and wages..... \$	162,175,578	113,249,350	48,926,228
Value of products..... "	706,446,578	481,053,375	225,393,203

In the five years of this century capital has increased in the ratio of 100 to 186 and value of products in the ratio of 100 to 147, which indicates that in some industries and works production has not reached a full measure of development. The average ratio of capital to production for all industries in 1900 was 100 to 108, and in 1905 it was 100 to 85. The cause of this change is revealed in the returns of some of the recently organized works. The capital invested in electric light and power plants, for example, increased during the five years by \$68,502,420, and its ratio to production is 100 to 9·44. So also with

¹An excess error of 4,862 employees crept into the tables of the 1901 census which is corrected here. It was made in the return of one establishment of men's factory clothing in Centre Toronto and was overlooked in the compilation.

smelting works like those in Nova Scotia, Ontario and British Columbia, whose capital has been increased by nearly \$76,000,000, the ratio of capital to production is 100 to 32.38. It is obvious from the number of persons employed in some of these works that they have not been working to full capacity. But industries which show in the aggregate an increase of \$48,906,238 in salaries and wages and of \$225,393,203 in production in the fifth year of the twentieth century are setting a good pace for the century.

Compared by groups of industries for 1900 and 1905, the values of products in each year and the increase in five years are shown in the next table :

4. GROUPS OF INDUSTRIES COMPARED.

Production by groups of industries.	Groups of industries.	1905.	1900.	Increase.
		\$	\$	\$
	Food products	172,017,002	125,202,620	46,814,382
	Textiles	84,370,099	67,724,839	16,645,260
	Iron and steel products	52,587,051	34,878,402	17,708,649
	Timber and lumber and their re-manufactures	109,500,970	80,341,204	29,159,766
	Leather and its finished products	41,201,872	34,720,513	6,481,359
	Paper and printing	32,773,880	20,653,028	12,120,852
	Liquors and beverages	13,928,701	9,191,700	4,737,001
	Chemicals and allied products	15,290,822	11,437,300	3,853,522
	Clay, glass and stone products	13,558,921	7,318,582	6,240,339
	Metals and metal products other than steel	50,068,669	19,561,261	30,507,408
	Tobacco and its manufactures	15,189,720	11,802,112	3,387,608
	Vehicles for land transportation	36,911,124	19,971,605	16,939,519
	Vessels for water transportation	1,892,253	2,043,668	-151,415 ¹
	Hand trades	1,433,753	599,329	834,424
	Miscellaneous industries	65,721,741	35,607,212	30,114,529
	Totals	706,446,578	481,053,375	225,393,203

¹Decrease.

The large increases have been made in food products, timber and lumber and their re-manufactures, metals and metal products other than iron and steel, iron and steel products, textiles, vehicles for land transportation, and paper and printing, ranging in these several groups from \$12,120,852 to \$46,814,382 of increase.

Comparing the principal manufacturing establishments by value of products, there were 479 works in 1905 with products of \$200,000 to under \$500,000 each, against 323 in 1900 of the same class; there were 139 in 1905 with products of \$500,000 to under \$1,000,000 each, against 68 in 1900 of this class; and there were 81 in 1905 with products of \$1,000,000 and over against 39 in 1900 of this class. And as showing growth in industrial efficiency, which implies improved methods and machinery and harder work, it can be said that in every group of our industries the average of production has increased substantially in five years. In 1900 it was for all industries \$1,559, and in 1905 it was \$2,028 per wage worker; or, compared on the basis of all employees on salaries and wages, it was \$1,418 in 1900 and \$1,840 in 1905.

Another comparison may be made here, viz: the cost of management and labour in manufacturing establishments. In 1900 the average salary of managers, officers, clerks, etc., was \$833 for males and \$317 for females, and in 1905 it was \$925 for males and \$362 for females. For wage-earners employed in the works the average in 1900 was \$334 for males and \$176 for females, and in 1905 it was \$417 for males and \$219 for females. But for both sexes the average cost of salaries per employee was \$771 in 1900 and \$849 in 1905, an increase of \$78; while the cost of wages was \$286 in 1900 and \$379 in 1905, an increase of \$93 per employee.

Capital employed in manufactures.

¹Decrease.

The capital employed in manufacturing establishments, including land, buildings, plant and working capital is shown by table 5 (p. xxxiii) for the provinces of the Dominion, together with the increase of capital in each province at the end of the fifth year.

In all the provinces except Prince Edward Island there has been an increase of capital as measured by the value of land, buildings, plant and working capital ; and while the greatest per cent of increase has been made in the western provinces, the large investments have been made in Ontario and Quebec.

The value of products is shown by provinces in the next table for the two census years, together with the increase in five years.

6. VALUE OF PRODUCTS COMPARED FOR 1900 AND 1905.

¹Decrease.

British Columbia manufacturers nearly doubled the value of their products in the five years, Manitoba manufacturers doubled theirs, and Saskatchewan and Alberta nearly quadrupled theirs. The value of preserved fish in British Columbia was increased by \$1,492,120, of log products by \$6,960,052 and of smelting works by \$5,512,010. In Manitoba the chief increase has been in the products of flour and grist mills, amounting to \$3,183,482, and in Saskatchewan and Alberta the values of log products and flour and grist mill products have increased by \$846,830 and \$1,605,363 respectively. Nova Scotia shows an increase of \$711,611 in log products and of more than \$5,500,000 in the products of smelting works. For Ontario and Quebec value and

increase are given in the following table for industries in which the increase in the five years is \$2,000,000 and over :

7. PRINCIPAL INDUSTRIES OF ONTARIO AND QUEBEC COMPARED.

continue to hold the first five places in the order named. Peterborough has stepped up from ninth to six place and Ottawa has dropped from sixth to seventh. Vancouver retains the eighth rank, and Brantford drops from seven to ninth. Berlin retains the tenth place. Sault Ste. Marie has displaced Kingston for the eleventh place, and Kingston, Amherst and Sydney are at the foot. But when ranked according to increase in the value of products the order is to some extent changed. Montreal and Toronto are yet in the first and second places; but Winnipeg and Peterborough take rank before Hamilton, and Vancouver and Sault Ste. Marie before London. In the fourteen cities and towns the increase in the value of manufactures in the five years is \$112,419,041, or 58 per cent. Montreal's increase is 40 per cent and Toronto's is 47 per cent. Adding to these cities the value of products for works employing less than five hands in 1905, Montreal's total is \$100,433,764 and Toronto's is \$86,838,101.

The general outlook for the century.

The evidences of the growth of Canada in the twentieth century found in the statistics of manufactures, of railways, banking and commerce are for the whole Dominion, and they show a surprising record of expansion. The census of population and agriculture in the Northwest provinces shows if possible development on a larger scale, and while it will not be claimed that

the older provinces are growing at the same rate there is no doubt that all parts of the country have prospered in their varied industries. The interests of agriculture, transportation, banking, manufactures, trade and all business affairs act and react upon each other, and with its great natural resources in land and forest, minerals, fisheries and water-powers, there is no limit within sight to the greatness to which Canada may attain before the century is out.

Much correspondence took place during the year on the subject of the colonial conference at London in 1907. The date of the opening of the conference was fixed for April 15, as the time best suited for the convenience of all the colonies, and among the matters suggested for discussion were the following, viz: Constitution of the conference, covering questions of the legislative powers of the colonies in the matter of mutual trade preference and of merchant shipping and coastwise trade; emigration to the colonies, naturalization and imperial defence. These were the subjects of first importance, and it was proposed that if time allowed discussion might proceed with regard to uniformity of patents and merchandise marks, reciprocity in the professions, extension of British interests in the Pacific ocean in view of the construction of the Panama canal, reservation of bills, judicial appeals and the metric system.

A proposal to change the name of this assembly of colonial ministers from that of colonial conference, by which it was designated in 1887, 1897 and 1902, to that of Imperial Council, was not received with favour by the Canadian Government, and in a Minute of Council forwarded to the Colonial Office it was apprehended that the proposed name would be interpreted as marking a step distinctly in advance of the position hitherto attained in the discussion of the relations between the mother country and the colonies. A 'conference', it was stated, is a more or less unconventional gathering for informal discussion of public questions, continued, it may be, from time to time, as circumstances external to itself may render expedient, but possessing no faculty or power of binding action. The term 'council', on the other hand, indicated in the view of the Canadian ministers a more formal assemblage, possessing an advisory and deliberative character, and, in conjunction with the word 'imperial', suggesting a permanent institution which, endowed with a continuous life, might eventually come to be

Colonial conference at London, 1907.

Title of conference.

regarded as an encroachment upon the full measure of autonomous legislative and administrative power now enjoyed by all the self-governing colonies. The date of this Minute is November 13, 1905.

Canada represented at the Universal Postal Union.

The Universal Postal Union held its periodical Congress in 1906. Rome was the place of meeting and the sessions opened on April 7. The principal purpose of the Congress, in which with a few unimportant exceptions all the countries of the world took part, was to discuss and arrange a convention embodying the terms and regulations under which correspondence of all kinds is exchanged between the several countries of the Union. The first convention was adopted in 1874, and while the main features of that convention have been preserved in the subsequent ones there have been a series of modifications on lines indicated by experience, and all in the direction of augmenting the facilities for the exchange of correspondence and of lowering and re-adjusting the charges which every country is entitled to make for the conveyance across its territory of correspondence passing between two other countries.

New rate of postage between Postal Union countries.

At the Rome Congress, there were the representatives of 65 countries. The delegate from Canada was the Deputy Postmaster General, Dr. R. M. Coulter. The most important act of the Congress was the reduction in the rate of postage on letters passing between any two countries. Heretofore the Postal Union letter rate has been 5 cents per $\frac{1}{2}$ oz.

On October 1, 1907, when the new Convention comes into operation, the rate will be 5 cents for a letter weighing up to one ounce, and if it weigh more the additional weight will be chargeable at the rate of 3 cents per ounce. The extent of the reduction will be appreciated by an example. A letter from Canada to any Postal Union country, outside of the British Empire, weighing 2 ounces must, under the old scale, be prepaid 20 cents; after October 1, the charge will be only 8 cents. On the heavier letters the reduction is therefore very great.

Another measure, and one in which Canada had a particular interest, was the re-adjusting of the transit charges, that is, the amounts each country is entitled to charge for the conveyance across its territory of mails passing between two other countries. Canada does a very considerable amount of service to other

countries in this way. It is the intermediary for the conveyance of mails between Great Britain and Europe on the one hand and Australasia and the Orient on the other; between the United States and Newfoundland; and between the United States and the Orient. Hitherto there has been the rather peculiar practice of fixing one charge for a service, whether the distance across an intermediate country was 10 miles or 4000. Thus the transit across a small corner of one of the smaller countries in Europe entitled that country to claim the same rate of charge as Canada has for the conveyance from the Atlantic to the Pacific oceans. The Canadian delegate was instructed to support an amendment to the Convention which would remedy this state of things, and as the result of his action co-operating with the British delegates the element of distance will be hereafter recognized as determining the rate to be paid for transit service. The unit of distance will be 3,000 kilometres, or 1875 miles. As the distance across this continent is over double the unit, Canada will receive a much greater allowance than heretofore for this service to other countries. The arrangements for the taking of statistics to determine the transit charges have been greatly simplified.

Among the other matters adopted was a device which will permit persons to prepay the reply to letters they may write. This practice has occupied earlier congresses, but no satisfactory scheme has hitherto presented itself. All countries are made responsible to the extent of 50 francs or \$10 for foreign registered articles lost within their service. Regulations were framed for giving effect to the Hague Convention of 1899 respecting laws and customs of war on land, whereby correspondence and parcels sent to and from prisoners of war are to be exempt from payment of postage and insurance fees. They may also make use of the Money Order system for remittances free of charge.

The total number of immigrants who arrived in Canada during the year ended December 31, 1906, was 215,912, as compared with 145,862 during the previous 12 months, an increase for the year of 70,050. Of the total of 215,912 who arrived in 1906, 97,757, or 45 per cent, were from the United Kingdom, 63,782, or 30 per cent, were from the United States and 54,373, or 25 per cent, were from European and other countries. These proportions are almost identical with those of 1905 for the smaller aggregate of 145,862. The number of homestead entries

Transit charges fixed by a unit of distance.

Prepayment of reply to letters, responsibility for registered articles, and favours to prisoners of war.

Immigration and homestead entries.

made in the Northwest provinces for the calendar year 1906 was 42,012, as compared with 34,645 for the year 1905. During the first six fiscal years of the present century, ended June 30, 1906, the average yearly number of homestead entries reported was 25,497, as compared with only 4,266, the annual average for the last six years of the nineteenth century.

Juvenile
immigration.

A branch of organized immigration which is annually increasing in importance is that concerned with the introduction into Canada of destitute children from the United Kingdom. So long ago as 1868 a small grant was made to assist the late Miss Rye in her efforts to bring from England girls for domestic service. Other English philanthropists became interested in juvenile emigration, and the work thus inaugurated has since continued. Destitute children, selected with careful respect for the Canadian laws against the admission of undesirable immigrants, are now sent to Canada (a) by local boards of guardians in Great Britain with the consent of and under regulations prescribed by the British central authorities acting in concert with the Dominion Government, and (b) by charitable organizations in the United Kingdom devoted to the training of orphaned and destitute children. The latter maintain in different parts of Canada seventeen receiving homes or agencies whence the children are drafted under indentures to suitable situations with farmers and others. They remain under supervision until 16 years of age. The receiving homes, and also the children when placed out, are inspected periodically by officers of the Immigration Branch of the Department of the Interior; and encouraging accounts of the after-careers of children who have entered Canada under these conditions are continually

9. JUVENILE IMMIGRANTS.

Fiscal year.	Juvenile immigrants.	Applications for their services.
	No.	No.
1900-01	977	5,783
1901-02	1,540	8,587
1902-03	1,979	14,219
1903-04	2,212	16,573
1904-05	2,814	17,833
1905-06	3,258	19,374
Totals.	12,780	82,369

received. The annual average number of juvenile immigrants into Canada is about 2,000. For the services which they are able to render there is a large and increasing demand, greatly in excess of the supply. This is apparent from the statement of table 9, (p. xl), which shows for each of the last six fiscal years the number (a) of juvenile immigrants, and (b) of applications for their services received by the various homes and other agencies.

The British charitable institutions engaged in this work are supported entirely by voluntary contributions, and they claim to have sent out to Canada a total of nearly 60,000 children since the commencement of this branch of their operations. Foremost amongst them are the well-known homes of the late Dr. Barnardo, from which nearly 20,000 children, or about one-third of the total number, have been sent to Canada.

From the report of the Secretary of State it is apparent that the incorporation of new companies continues to increase steadily. The number of charters of incorporation issued during the calendar year 1906, including supplementary charters, was 374, as compared with 293 in 1905 and 206 in 1904. The total capitalization of the new companies in 1906 was \$180,173,075 and the capital of existing companies was increased during the year by \$32,403,000, making the total of the capital authorized in 1906 to amount to \$212,576,075, which is nearly double that of the preceding year, when the total was \$109,595,000. For the six years ended 1906 the total capitalization of companies incorporated under the Companies Act was \$502,932,469, which added to \$59,783,520, the amount by which existing companies increased their capital during those years, makes a grand total of \$562,715,989 as the amount of authorized capital for companies incorporated during the first six years of the present century. The revenue of the Department, derived mainly from fees upon charters, was \$108,913 for the calendar year 1906, an increase of \$32,400 as compared with 1905, when the revenue was \$76,513. The naturalizations effected under the Naturalization Act, 1902, since the date of the last return in 1905 and up to June 30, 1906, number 10,778. Of these 4,954, or nearly half, were formerly citizens of the United States.

Report of the
Secretary of
State.

Companies
organized and
naturaliza-
tions effected.

The control of the military garrison at Halifax, Nova Scotia, was, on January 16, formally transferred from the Imperial to the Dominion Government of Canada under the conditions noted

Halifax garrison and dockyard.

in the Year Book for 1905. On April 2 the Dominion Government decided to accept from the Imperial Government the transfer of the naval dock yard at Halifax and to assume the entire responsibility for its future maintenance.

Thursday, October 18, was appointed by proclamation of the Deputy Governor General in Council as a day of thanksgiving to Almighty God for the bountiful harvest and other blessings with which Canada had been favoured during the year.

By royal warrant of March 31, directed to the Duke of Norfolk, K.G., G.V.O., earl marshal and hereditary marshal of England, there was granted to the province of British Columbia to be borne on seals, shields, banners, flags or otherwise according to the Laws of Arms the armorial ensigns following: "Argent three Bars wavy Azure issuant from the base a demi-Sun in splendour proper, on a Chief of the Union Device charged in the centre Point with an Antique Crown Or" By similar warrant of August 25, there was also granted for the province of Saskatchewan the armorial ensigns following: "Vert three Garbs in fesse Or, on a Chief of the last a Lion passant guardant Gules"

Two vacancies in the Senate occurred by death last year. The Hon. John Dobson died on January 27, and the Hon. William Kerr on November 22. New senators appointed and sworn in during the year were the Hon. Robert Jaffray, of Toronto, the Hon. Peter Talbot, of Lacombe, the Hon. L. George DeVeber, of Lethbridge, the Hon. Philippe Roy, of Edmonton, the Hon. James M. Douglas, of Tantallon and the Hon. George Riley, of Victoria, B.C.

Seventeen vacancies occurred in the House of Commons during the year, and the following members were elected to fill them, viz: A. B. Hunt for Compton, Dr. A. N. Worthington for Sherbrooke, George E. McCraney for Saskatchewan, W. E. Knowles for Assiniboia West, Alphonse Verville for Maisonneuve, the Hon. William Templeman for Victoria, B.C., Alexander C. Ross for North Cape Breton and Victoria, N.S., Dr. Wilbert McIntyre for Strathcona, Lorenzo Robitaille for Quebec County, the Hon. W. S. Fielding for Shelburne and Queens, John Tolmie for Bruce North, Médéric Martin for Montreal St. Marie, J. C. Walsh for Montreal St. Anne, G. V. White for Renfrew North, David Marshall for Elgin East, Joseph Demers for St. Johns and Charles R. Devlin for Nicolet.

New regulations respecting the pay and allowances of the Canadian militia came into force on May 1. They were promulgated in a supplement to the Canada Gazette of May 5.

Pay and allowances of Canadian militia.

Dec. 25, 1905. Death of the Hon. J. Raymond F. Préfontaine, Minister of Marine and Fisheries, in Paris, France. His remains by direction of the Imperial Government were conveyed from Cherbourg to Halifax on the battleship Dominion and were accorded a public funeral at Montreal on Jan. 25.

Obituary notes.

Mar. 14. Death of the Hon. A. G. Jones, Lieutenant Governor of Nova Scotia, aged 82.

May 3. Death of the Hon. Peter White, M.P., formerly Speaker of the Dominion House of Commons, aged 68.

June 11. Death of the Hon. Sir Hector L. Langevin, formerly Minister of Public Works, aged 78.

Aug. 5. Death of the Hon. Robert Sedgewick, K.C., a judge of the Supreme Court of Canada, aged 58.

Nov. 18. Death of the Hon. Alexander Vidal, member of the Senate, aged 87.

Nov. 22. Death of the Hon. William Kerr, member of the Senate, aged 77.

Dec. 10. Death of Col. Louis F. Pinault, C.M.G., Deputy Minister of Militia and Defence for Canada.

Feb. 3, Joseph Lavergne, one of the judges of the superior court for the province of Quebec, to be a puisné judge of the court of king's bench for Quebec in the room and stead of the Hon. J. A. Ouimet, resigned.

Judicial appointments.

June 4. The Hon. Charles Fitzpatrick, K.C., to be chief justice of Canada in the room and stead of the Right Hon. Sir H. E. Taschereau, resigned.

June 6. The Hon. Sir Melbourne McTaggart Tait, a puisné judge of the superior court of the province of Quebec, to be chief justice of the Superior Court of the province of Quebec in the room and stead of the Hon. A. B. Routhier, resigned.

July 23. Hector Mansfield Howell, of Winnipeg, to be chief justice of Manitoba. The Hon. Albert Elswood Richards, the Hon. William Egerton Purdue, puisné judges of the court of king's bench for Manitoba, and Frank Hedley Phippen, barrister-at-law of Winnipeg, to be judges of the court of appeal for Manitoba.

Judicial
appointments.

Daniel Alexander Macdonald, of Portage la Prairie, to be a puisné judge of the court of king's bench for Manitoba in the room and stead of the Hon. Albert Elswood Richards, appointed a judge of appeal.

Aug. 31. Louis Philippe Demers, of Montreal, to be a puisné judge of the superior court of the province of Quebec in the room and stead of the Hon. Mr. Justice Lemieux, transferred to the judicial district of Quebec.

The Hon. John Charles McCorkill, of Sweetsburg, to be a puisné judge of the superior court of the province of Quebec in the room and stead of the Hon. Mr. Justice Andrews, deceased.

Pierre Eugène Lafontaine, of Montreal, to be a puisné judge of the superior court of the province of Quebec in the room and stead of the Hon. Mr. Justice Lavergne, appointed a puisné judge of the court of king's bench for the province of Quebec.

Sept. 27. The Hon. Lyman Poore Duff, one of the puisné judges of the supreme court of British Columbia, to be a puisné judge of the supreme court of Canada in the room and stead of the Hon. Robert Sedgewick, deceased.

Oct. 8. Charles Allen Stuart, of Calgary, and Thomas Cooke Johnstone, of Regina, to be puisné judges of the supreme court of the Northwest territories.

Oct. 10. William Renwick Riddell, of Toronto, to be a judge of the supreme court of judicature for Ontario, a justice of the high court of justice for Ontario and a member of the king's bench division of the high court of justice for Ontario in the room and stead of the Hon. W. P. R. Street, deceased.

Dec. 7. His Honour William Henry Pope Clement, judge of the county courts of Yale and Kootenay, to be a puisné judge of the supreme court of British Columbia in the room and stead of the Hon. L. P. Duff, appointed a puisné judge of the supreme court of Canada.

Lieutenant
Governors.

March 27. The Hon. Duncan Cameron Fraser, of Halifax, Nova Scotia, to be Lieutenant Governor of Nova Scotia in the room and stead of the Hon. Alfred Gilpin Jones, deceased.

May 11. Sir Daniel Hunter McMillan, K.C.M.G., of Winnipeg, to be Lieutenant Governor of Manitoba.

May 11. James Dunsmuir of Victoria, B.C., to be Lieutenant Governor of British Columbia.

Ministerial
changes.

February 6. The Hon. Louis Philippe Brodeur, to be Minister of Marine and Fisheries in the room and stead of the Hon. J. R. F. Préfontaine, deceased.

February 6. The Hon. William Templeman, to be Minister of Inland Revenue in the room and stead of the Hon. L. P. Brodeur, appointed Minister of Marine and Fisheries. Ministerial changes.

June 4. The Hon. Allen Bristol Aylesworth, K.C., of Ottawa, to be Minister of Justice in the room and stead of the Hon. Charles Fitzpatrick, K.C., resigned.

June 4. Rodolphe Lemieux, of Ottawa, to be a member of the Privy Council and to be Postmaster General of Canada in the room and stead of the Hon. A. B. Aylesworth, resigned.

February 28. His Honour Duncan Byron MacTavish, judge of the Carleton County Court, Ontario, John W. Langmuir, of Toronto and Ambrose L. Kent, of Montreal, with Henry T. Ross of Bridgewater, Nova Scotia, as Secretary, to be a Commission to inquire into, investigate and report upon the general subject of life insurance and life insurance systems in Canada. Commission-
ers.

July 19. John Miller of Indian Head, Saskatchewan, William L. McNair, of Keyes, Manitoba, and George E. Goldie, of Ayr, Ontario, to be a commission to investigate and report upon all matters connected with the grain trade of Canada. John Miller to be the Chairman and (July 20) J. R. Boyle, of Edmonton, Alberta, to be the Secretary of the Commission.

July 20. James Andrew Joseph McKenna, of Winnipeg, to be a commissioner to negotiate a treaty with certain Indians in the provinces of Alberta and Saskatchewan, also to investigate, hear and determine the claims of half breeds therein.

Nov. 6. William Robert Aylesworth of Belleville, Ontario, to be a commissioner to investigate and report upon claims by certain persons for compensation in respect of alleged damages to property consequent upon the construction and operation of the Trent Canal.

Nov. 13. Arnold Cloudsley Westley, Esquire, Barrister-at-law, of Melbourne, Victoria, Australia, to be a commissioner to administer oaths and to take and receive affidavits in the State of Victoria in or concerning any proceeding had or to be had in the Supreme Court of Canada, and in the Exchequer Court of Canada.

Dec. 22. George W. Stephens, L. Elie Geoffrion and C. C. Ballantyne, of Montreal, to be members of the corporation of "The Harbour Commissioners of Montreal", to date from January 1, 1907. George W. Stephens to be president of the corporation.

Imperial deco-
rations.

June 26. To be Companions of the Order of St. Michael and St. George: The Hon. Adélarde Turgeon, Minister of Lands and Forests for Quebec; William Lyon Mackenzie King, M.A., LL.B., Deputy Minister of Labour for Canada; Samuel Edward Dawson, Lit.D., King's printer and controller of stationery (Nov. 9).

To be Companions of the Imperial Service Order: George Levack Bower Fraser, K.C., Chief Clerk, Department of Justice; Louis Kossuth Jones, Secretary, Department of Railways and Canals; Juchereau de Saint Denis Le Moine, Sergeant-at-Arms of the Senate; Joseph Pope, C.M.G., Under Secretary of State and Deputy Registrar General; Edward Davenport Sutherland, Assistant Auditor General. By royal warrant, dated November 29, the Imperial Service Order is appointed to rank next to and immediately after the Distinguished Service Order, Companions ranking immediately after Companions of the Distinguished Service Order and amongst themselves according to the dates of their respective nominations.

To receive the Imperial Service Medal: June 2. John Black, lock labourer, Williamsburg Canals; Michael White, lockmaster, Welland Canal; François Xavier Bilodeau, messenger, Quebec Department of Agriculture. June 26: James McDonald, light-keeper at Port Hawkesbury, Nova Scotia; Martin O'Meara, messenger, Post Office Department; James Perry, light-keeper at Sheet Harbour, Nova Scotia. Oct. 1: John Chisholm, lockman, Cornwall Canal; George Dancause, seaman and carpenter, Grosse Isle Quarantine Station; André Gravelle, house carpenter, The Senate; Jean Baptiste Sirois dit Duplessis, messenger, Department of Public Works and Labour, Province of Quebec; Jonathan May Woodall, lockmaster, Welland Canal.

Official ap-
pointments.

Mar. 27. Albert Peter Low, B. Ap. Sc., to be Deputy Head and Director of the Geological Survey Department of Canada in the room and stead of the late Dr. G. M. Dawson.

Oct. 24. Thomas Cooper Boville, B.A., of Ottawa, to be Deputy Minister of Finance in the room and stead of J. M. Courtney, C.M.G., I.S.O., retired.

Dec. 22. Col. Eugène Fiset, D.S.O., of Ottawa, to be Deputy Minister of Militia and Defence in the room and stead of Col. L. F. Pinault, C.M.G., deceased.

NOTE. New Brunswick, Nova Scotia, Ontario and Quebec, the original provinces of the Dominion, were given representation in Parliament as provided in the B. N. A. Act, 1867, s. 37. British Columbia and Prince Edward Island were admitted 20 July, 1871, by an Imperial Order in Council of 16 May in the same year. Chapter 3 of 33 V. provided that on, from and after a day the Queen should by Order in Council admit Rupert's Land and Northwest Territory into the Dominion, there should be formed out of the same a province to be called the province of Manitoba. The admission of Rupert's Land and Northwest Territory was made under an Imperial Order in Council of 23 June 1870, to date 15 July of the same year. Manitoba was admitted under authority of chapter 3 of 33 V., 1870; but a doubt having arisen, the Imperial Parliament in 1871 passed an Act to make the Canadian Act valid and effectual. The Northwest Territories Representation Act, chapter 24 of 49 V. (assented to June 1886), gave two members to Assiniboia, one member to Alberta and one to Saskatchewan.

¹ Since the Representation Act was passed the districts in these territories, exclusive of Yukon, have been erected into the provinces of Alberta and Saskatchewan, and in the acts constituting the provinces provision has been made for the continuance of their representation until the census of 1906 is taken. Some of the districts at present (1905) are partly in one province and partly in another. But see census tables of the Northwest provinces, 1906.

² The unorganized territories are without representation in Parliament.

Total acres occupied	3,827,731	3,809,621	4,471,250	4,433,937

¹ Not taken in 1871.

NOTE. The number of tenants for the census years 1871, 1881 and 1891 includes employees who had the charge of farms. Persons occupying farm land, part of which was owned and part rented, were recorded in 1901 as owners and tenants. The number of occupiers of land in 1901 is exclusive of all persons holding less than five acres, and land occupied is farm land only.

AGRICULTURE.

NOTE. The average production of wheat per acre in Manitoba for the thirteen years 1890-1902, according to the local government returns, was 19·22 bushels per acre, of barley 30·77 bushels, and of oats 35·65 bushels. In the territories according to similar returns for the five years 1898-1902 the average of wheat was 19·53 bushels, of barley 25·6 bushels, and of oats 35·30 bushels. The low average yield in the Census year 1901 was due to the relative dryness of the growing season—the rainfall being but little more than one-half an average.

¹ In this table the value of copper ore and products comprises \$1,095,753 copper, \$250,175 gold and \$294,188 silver; the value of gold ore and products comprises \$4,496,681 gold, \$28,637 silver, \$39,811 lead and \$22,725 arsenic; and the value of placer gold comprises \$400 platinum. The total production of gold in the census year is 862,000 ounces, worth \$14,493,417. The statistics of values of real estate and plant, number of officers and workmen and cost of salaries and wages for placer gold mines are exclusive of Yukon district.

NOTE. A census of population and agriculture of the Northwest provinces was taken under date of June 24, 1906, as provided by chapters 5 and 6 of 4 and 5 Edward VII. The electoral districts are as constituted by chapter 60 of 3 Edward VII, except that by an Order in Council of May 15, 1906, part of the electoral district of Selkirk, in the province of Manitoba, was added to the district of Winnipeg so as to conform with the boundaries of the city of Winnipeg as constituted by an Act of the Manitoba Legislature, assented to February 9, 1906; and except that the census districts of Saskatchewan North, in the province of Saskatchewan and Alberta North, in the province of Alberta, are as constituted by the Order in Council aforesaid.

NOTE. The articles in this and the following table are usually grouped as natural products, as has been done in table lxxxviii under the heads of agricultural, animal, fishery, forest and mineral products, as well as in tables xcii-xcv. But by some authorities they are grouped with manufactured products, and they have been abstracted here to show the

TRADE AND COMMERCE.

Totals.....	72,598,430	80,739,863	79,383,977	80,118,919	96,726,727

kinds and values of articles to be added to manufactures in those several tables, if so classified. If added to the exports of manufactures as given in table lxxxviii, p. 178, or in table xcv, p. 242, the total values would be \$91,061,400 for 1902, \$101,364,830 for 1903, \$99,248,026 for 1904, \$101,310,252 for 1905 and \$121,287,839 for 1906. Added to the exports of manufactures to Britain in table lxxxviii the total value for 1906 would be \$62,277,538, to the United States, \$43,124,911, and to other countries \$15,885,390; and the total increase in the four years from 1902 to 1906 would be 33 per cent. But, of course, the chief component value of these exports is that of raw material.

TRADE AND COMMERCE.

Totals.....	2,590,167	3,507,422	5,755,148	4,754,195	4,117,683
Mineral products—					
Britain.....	323,055	332,659	330,700	341,888	337,830
United States.....	1,120,873	1,562,704	1,954,977	1,317,143	1,308,072
Other countries.....	87,510	53,028	42,560	38,702	49,225
Totals.....	1,531,468	1,948,391	2,328,237	1,697,733	1,695,128
Aggregates by countries—					
Britain.....	776,863	805,613	798,253	915,520	934,492
United States.....	5,249,730	6,629,178	9,234,895	7,678,179	7,263,085
Other countries.....	919,371	890,739	840,546	1,046,298	1,079,267
Totals.....	6,945,964	8,325,530	10,873,694	9,639,997	9,276,844

NOTE. The articles in tables cii and ciii if added to the imports of manufactures in tables xcvi-xcix would give totals of \$138,731,293 for the fiscal year 1902, \$158,915,697 for 1903, \$169,764,117 for 1904, \$175,182,611 for 1905 and \$197,100,033 for 1906. The imports of manufactures from Britain with the articles in these tables added would reach a total for 1906 of \$58,166,919, from the United States of \$107,509,477 and from other countries of \$31,423,637.—making an aggregate import of manufactures for the year of \$197,100,033, or nearly 70 per cent of all our imports.

TRADE AND COMMERCE.

TABLE CXCIII. Steam and electric railways of Canada, June 30, 1906—con.

Name of Railway.	Location.	Miles.	Total miles.
Steam Railways—con.			
Canadian Pacific Railway—con.	Leased lines—		
	Atlantic and Northwest (in Canada)—		
	Renfrew Jct. to Eganville, Ontario	18 80	
	South end Lachine bridge to Maine boundary, Que.	182 60	201 40
	British Columbia Southern—Nelson to Proctor.		20 40
	Calgary and Edmonton—		
	Calgary Jct. to Macleod Jct.	105 20	
	Calgary Jct. to Strathcona	190 60	
	Lacombe to Stettler	49 60	
	Wetaskiwin to Daysland	51 00	396 40
	Cap de la Madeline—From main line C.P.R., at Jct. with Piles branch to Cap de la Madeline.		2 30
	Columbia and Kootenay—		
	Nelson to Robson	27 40	
	Slocan Jct. to Slocan.	31 30	
	Spur to mouth Kootenay river.	80	59 50
	Columbia and Western—		
	Castlegar Jct. to Rossland	29 30	
	Mining spurs (including Rossland to Le Roy)	24 80	
	Castlegar Jct. to Midway	101 00	
	Trail to Smelter Jct	2 00	157 10
	Credit Valley—		
	Cataract to Elora	27 30	
	Streetsville Jct. to Melville Jct.	31 60	
	Toronto Jct. to St. Thomas.	116 80	175 70
	Fredericton—		
	Fredericton Jct. to Fredericton.		22 10
	Great Northwest Central—		
	Chater to Minioto	71 00	
	Forrest to Lenore	40 70	111 70
	Guelph Junction—		
	Guelph Jct. on C.V.R. to Guelph.		15 00
	Kootenay and Arrowhead—		
	Lardo to Gerrard		33 20
	Lindsay, Bobcaygeon and Pontypool—Burketon Jct. to Bobcaygeon		38 70
	Manitoba and Northwestern—		
	Binscarth to Russell	11 30	
	Portage la Prairie to Yorkton.	222 90	
	Yorkton to Sheho	42 20	276 40
	Saskatchewan and Western—		
	Minnedosa to Rapid City.		18 20
	Manitoba Southwestern Colonization—		
	Elm Creek to Carman.	12 10	
	La Rivière to Glenboro'.	103 30	
	Manitou to Deloraine	100 30	215 70
	Montreal and Lake Maskinongé—		
	St. Felix to St. Gabriel de Brandon		11 00
	Montreal and Ottawa—		
	Rigaud to Pt. Fortune.	6 80	
	Vaudreuil to Jct. with C.A.R.	86 70	93 50
	Nakusp and Slocan—Nakusp on Arrow lake to Three Forks of Carpenter's creek, B.C.		36 50

¹ British and Canadian sea-going vessels in Canadian waters and Canadian vessels in other waters.

² 545 persons were lost by the wreck of the White Star ss. *Atlantic* in Turns Bay, Nova Scotia.

³ The returns to the Department of Marine and Fisheries give the number of lives lost at 602, but they erroneously include 562 persons who were drowned in the wreck of the steamship *La Bourgogne*, 60 miles to the south of Sable Island and therefore on the high seas. The vessel was running between New York and Havre.

NOTE. The statistics for the years 1895 to 1905 are for the 12 months ending June 30.

¹The Eastern inspection division consists of all that portion of Ontario lying east of Port Arthur, and the provinces of Quebec, New Brunswick, Nova Scotia and Prince Edward Island; and the Manitoba division consists of Manitoba, Saskatchewan, Alberta, British Columbia and that portion of the province of Ontario lying west of and including the district of Port Arthur. The statistics of 1905 and 1906 in the table are based on the qualities of grain determined by sections 88-90 of the Grain Inspection Act of 1904.
