## NEW PUBLICATIONS (July, 1976 - June, 1977)

### 12: Working Manuals

#### 12-202E CANSIM Summary Reference Index. E. and F. 44 pp.

This index summarizes the contents of the CANSIM Main Base by subject and source publication. It provides a key to publication 12-203, CANSIM Main Base Series Directory, and is the first step in locating and obtaining time series from the system. Amendments to this publication are issued periodically. Formerly issued as a non-catalogued publication. **FREE**

#### 12-203E CANSIM Main Base Series Directory. E. and F. Three Volumes.

This Directory provides detailed information on the data contained in the CANSIM Main Base. For each series, the series title, start-date, source of data and other descriptive material is provided. Amendments to the Directory are issued periodically as more series are added to the base and are included in the price of the Directory. The Directory is published in three volumes. Formerly issued as a non-catalogued publication. **\$45**

#### 12-553E CANSIM Interactive System User's Manual, 1977. E. and F. 61 pp.

The CANSIM Interactive System provides access to the CANSIM Main Base. This manual outlines the system options and commands available when using the Interactive System. Formerly issued as a non-catalogued publication. **\$1.05**

### 13: Comprehensive Studies

#### 13-557 Earnings and Work Histories of the 1972 Canadian Labour Force. Bil. 144 pp.

Analysis of the 1972 earnings of Canadians by work history characteristics in conjunction with demographic characteristics. Demographic characteristics include sex, age and education. Work history characteristics include the number of years in the labour force and the mobility experienced between 1967 and 1972. A technical appendix to this report contains a multi-variate regression model explaining the male-female earnings differential. **\$2.10**

#### 13-561 Distributional Effects of Health and Education Benefits, Canada, 1974. Bil. 152 pp.

This report presents, for the first time, data on the utilization of health (medical and/or hospital) and educational services by Canadians. The utilization as well as estimated monetary benefits accruing from these services are studied in respect to selected socio-demographic characteristics such as family income, sex, age, life cycle, size of family and area of residence. This report is based on special supplementary data collected in April 1975 by the Survey of Consumer Finances. **\$2.10**
