This is the first issue of a new Annual Supplement to the Canadian Statistical Review. It is an additional service provided by the Dominion Bureau of Statistics and will be supplied without additional charge to all subscribers of the Review. The issues will contain monthly and quarterly historical records, adjusted and not adjusted for seasonality, of all the series appearing in the S-section of the Review. The pages are numbered and the series arranged in the same order as they appear in the Review. Thus S-1-1 signifies that the series contained thereon is the first one found on page S-1 of the Review. In addition, in most of the series a table number precedes the title of the series; this indicates that the series is also carried in that Table of the Review.

The historical record covers the post-war period, and the general rule has been to extend the series back to 1946, or barring this, as far back as data are available. The series may be kept up to date by referring to the current issues of the Review.

The publication has a loose-leaf format (although binders are not supplied) to provide for convenient replacement of out-dated series; as series in the S-section are revised or extended during the year, new sheets containing the complete revisions will be distributed and should be inserted in place of the obsolete sheets. In this way users will be kept abreast of all revisions and have available at all times the entire post-war record for the S-section.

Note: The Biennial Supplement, originally scheduled to appear in 1961, has been postponed. The present publication should be used independently of the last (1959) Biennial Supplement.

Walter E. Duffett,
Dominion Statistician.

Le présent numéro est le premier d'un nouveau Supplément annuel à la Revue statistique du Canada. Il constitue un service additionnel assuré par le Bureau fédéral de la statistique sans frais supplémentaires à tous les abonnés de la Revue. Le Supplément renfermera les chiffres chronologiques mensuels et trimestriels, désaisonnalisés et non désaisonnalisés, de toutes les séries de la section S de la Revue. Les pages sont numérotées et les séries sont présentées dans le même ordre que dans la Revue. C'est ainsi que S-1-1 signifie que la série contenue dans le Supplément est la première de la page S-1 de la Revue. En outre, l'intitulé de la plupart des séries est précédé d'un numéro de tableau; cela indique que la série figure aussi dans le tableau de la Revue portant ce numéro.

Les chiffres chronologiques embrassent la période d'après-guerre. En règle générale, les séries remontent à 1946 ou, si cela n'est pas possible, aussi loin qu'il existe des chiffres. On peut garder les séries à jour en se reportant aux numéros courants de la Revue.

Le Supplément est fait de feuilles mobiles (le Bureau ne fournit pas la relieure) afin de permettre de remplacer facilement les séries qui ne sont plus à jour; à mesure que les séries de la section S seront révisées ou allongées durant l'année, de nouvelles feuilles incorporant les révisions complètes seront distribuées et devraient être insérées à la place des feuilles désuètes. De cette façon, les usagers seront tenus au courant de toutes les révisions et auront à leur disposition en tout temps l'ensemble des chiffres d'après-guerre des séries de la section S.

Nota: La publication du Supplément biennal, qui devait paraître en 1961, a été remise à plus tard. La présente publication doit s'utiliser indépendamment du dernier Supplément biennal (1959).

Walter E. Duffett,
Statisticien du Dominion

(1) Prior to 1953, the data for total new motor vehicles sales are obtained by the addition of total commercial vehicles, page S-4-8, and total passenger vehicles, page S-4-(6+7). After January 1953, this series is a summation of total commercial vehicles and American and European passenger vehicles, pages S-4-6 and S-4-7.

(1) Les chiffres d'avant 1953 s'obtiennent par l'addition du total des voitures utilitaires, page S-4-8, et du total des voitures particulières, page S-4-(6+7). Après janvier 1953, la série est la sommation du total des voitures utilitaires et des voitures particulières américaines et européennes, page S-4-6, et S-4-7.
