FOREWORD

This first instalment of the eleventh edition of the "Annual Supplement to the Canadian Statistical Review" covers 78 of the 93 selected economic indicators appearing in Section 1 of the Review. It contains the monthly and quarterly historical records, unadjusted and adjusted for seasonality. Further instalments will be issued as revision programs for the series are completed. All pages should be released by early 1973.

The pages and the series are arranged in the same order as they appear in the "Review". Thus T-2-1 signifies that the series contained therein is the first one in Table 2. This edition supersedes all previous editions, the last of which was published in October 1971.

The unadjusted and adjusted data are the latest revised figures published and extend to December 1971; they may be kept up-dated by referring to current issues of the "Review". Should the original data or the method of seasonal adjustment be revised during the year, the complete revisions will be made available to all subscribers through the medium of the "Weekly Supplement of the Canadian Statistical Review" (Catalogue No. 11-004). They should be inserted into the present publication in place of the obsolete sheets. In this way, users will be kept abreast of all revisions to the data and of all additions or deletions to the series in Section 1 of the Review, and have at all times the entire postwar record.

On the following pages are revisions to unadjusted and/or seasonally adjusted series. For most series, revisions to seasonally adjusted figures reflect the incorporation of current data. For exports and imports, adjustments have been made to eliminate minor statistical discrepancies between the sum of the seasonally adjusted components and published totals, and between the annual sum of seasonally adjusted monthly data and published raw data.

AVANT-PROPOS

Cette première partie de la onzième édition du "Supplément annuel de la Revue statistique du Canada" vise 78 des 93 indicateurs économiques figurant dans la Section 1 de la Revue. Elle comprend des données chronologiques mensuelles et trimestrielles, corrigées et non corrigées des variations saisonnières. D'autres parties seront publiées, à mesure que des révisions des séries seront terminées. La dernière tranche devrait paraître au début de 1973.

La disposition des pages et des séries est la même que dans la Revue. Ainsi, T-2-1 signifie qu'il s'agit de la première série du Tableau 2. La présente édition remplace toutes les éditions antérieures, dont la dernière a paru en octobre 1971.

Les données désaisonnalisées et non désaisonnalisées représentent les chiffres rectifiés les plus récents et s'étendent jusqu'à décembre 1971; on peut les mettre à jour en se reportant aux derniers numéros de la Revue. Advenant la modification, au cours de l'année, des données initiales ou de la méthode de désaisonnement, toutes les rectifications seront mises à la disposition des abonnés par l'intermédiaire du "Supplément hebdomadaire de la Revue statistique du Canada" (n° 11-004 au catalogue). Il faut les ajouter à la présente publication, à la place des feuilles périmées. Ainsi, les utilisateurs seront tenus au courant de toutes les données ajoutées ou supprimées dans la Section 1 de la Revue, et auront constamment à leur disposition l'ensemble de la statistique de l'après-guerre.

On trouvera aux pages suivantes des révisions aux séries désaisonnalisées et non désaisonnalisées. Pour la plupart des séries, la révision des données désaisonnalisées résulte de l'introduction des dernières données. En ce qui concerne les exportations et les importations, on a effectué des rectifications afin de supprimer les petites divergences statistiques entre la somme des éléments désaisonnalisés et les totaux publiés, ainsi qu'entre les données mensuelles désaisonnalisées et les données brutes publiées.

Series published in the Supplement are available from CANSIM, the computerized time series data bank of Statistics Canada. All or any part of the data bank contents may be purchased on magnetic tape or as computer printouts. The CANSIM identifiers appear above each series and either number may be used in ordering series. For example, T-1-1, Labour Force - Total (not adjusted) may be referenced by either 401.1 (CANSIM identification) or D 750200 (Databank).

For further information direct inquiries to:

General Time Series Staff
Statistics Canada
Ottawa.

Les séries publiées dans ce Supplément peuvent être obtenues de CANSIM, la banque électronique de données chronologiques de Statistique Canada. On peut se procurer l'ensemble des séries ou n'importe quelle partie des séries contenues dans la banque des données sur bande magnétique ou imprimé d'ordinateur. Les indicatifs CANSIM paraissent en haut de chaque série et on peut utiliser l'un ou l'autre nombre pour commander les séries. Par exemple, T-1-1, Main-d'oeuvre - Total (non désaisonnalisé) peut être identifié soit par 401.1 (identification CANSIM) ou par D 750200 (Databank).

1) STARTING IN JANUARY 1962, THE DATA ARE NOT ENTIRELY COMPARABLE WITH EARLIER YEARS BECAUSE MORE CENTRES ARE INCLUDED AND BECAUSE OF THE EXPANSION OF THE BOUNDARIES OF METROPOLITAN AREAS. PRIOR TO 1962, DATA RELATE TO CENTRES WITH A POPULATION OF 5,000 AND OVER. -- A COMPTER DE JANVIER 1962, LES CHIFFRES NE SONT PAS ENTIEREMENT COMPARABLES À CEUX DES ANNÉES ANTIÈREURES EN RAISON DU PLUS GRAND NOMBRE DE CENTRES ET DE L'EXPANSION DES LIMITES DES ZONES MÉTROPOLITAINES. AVANT 1962, LES DONNÉES S'APPLIQUENT AUX CENTRES DE 5,000 ET PLUS DE POPULATION.

NEW DWELLING UNITS COMPLETED, CENTRES 10,000 AND OVER -- LABOUR FORCE ACHIEVEMENTS, CENTRES 10,000 AND OVER IN UNITS

(1) NEW EXPORT AND IMPORT PRICE INDEX SERIES HAVE BEEN INTRODUCED STARTING WITH 1967 STATISTICS ON 1968 PRICE AND WEIGHT BASIS. BECAUSE OF MAJOR CHANGES IN COMPOSITION, THESE SERIES ARE NOT COMPARABLE WITH PREVIOUSLY PUBLISHED SERIES (1948=100). -- DES NOUVELLES SÉRIES D'INDICE DE PRIX D'EXPORTATIONS ET D'IMPORTATIONS ONT ÉTÉ INTRODUITES À COMPTER DES STATISTIQUES POUR L'ANNÉE 1967 SUR LA BASE DE 1968, COMME BASE DE PRIX ET DE LA PONDÉRATION. PAR SUITE DE CHANGEMENTS Majeurs DANS LA COMPOSITION DES INDICES, CES SÉRIES NE SONT PAS COMPARABLES AUX SÉRIES PUBLIÉES ANTÉRIEUREMENT (1948=100).
