Note

This and other government publications may be purchased from local authorized agents and other community bookstores or by mail order.

Mail orders should be sent to Publications Distribution, Statistics Canada, Ottawa, K1A 0T6, or to Publishing Centre, Supply and Services Canada, Ottawa, K1A 0S9.

Inquiries about this publication should be addressed to:

CANSIM Division,

Statistics Canada, Ottawa, K1A 0T6 (telephone: 995-0575) or to a local office of the bureau's User Advisory Services Division:

St. John's (Nfld.)	(726-0713)
Halifax	(426-5331)
Montréal	(283-5725)
Ottawa	(992-4734)
Toronto	(966-6586)
Winnipeg	(949-4020)
Regina	(569-5405)
Edmonton	(425-5052)
Vancouver	(666-3695)

Toll-free access to the regional statistical information service is provided in Nova Scotia, New Brunswick, and Prince Edward Island by telephoning 1-800-565-7192. Throughout Saskatchewan, the Regina office can be reached by dialing 1-800-667-3524, and throughout Alberta, the Edmonton office can be reached by dialing 1-800-222-6400.

Nota

On peut se procurer cette publication, ainsi que toutes les publications du gouvernement du Canada, auprès des agents autorisés locaux, dans les librairies ordinaires ou par la poste.

Les commandes par la poste devront parvenir à Distribution des publications, Statistique Canada, Ottawa, K1A 0T6, ou à Imprimerie et édition, Approvisionnement et services Canada, Ottawa, K1A 0S9.

Toutes demandes de renseignements sur la présente publication doivent être adressées à:

Division CANSIM,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 995-0575) ou à un bureau local de la Division de l'assistance-utilisateurs situé aux endroits suivants:

St. John's (T.-N.)	(726-0713)
Halifax	(426-5331)
Montréal	(283-5725)
Ottawa	(992-4734)
Toronto	(966-6586)
Winnipeg	(949-4020)
Regina	(569-5405)
Edmonton	(425-5052)
Vancouver	(666-3695)

On peut obtenir une communication gratuite avec le service régional d'information statistique de la Nouvelle-Écosse, du Nouveau-Brunswick et de l'Île-du-Prince-Édouard en composant 1-800-565-7192. En Saskatchewan, on peut communiquer avec le bureau régional de Regina en composant 1-800-667-3524, et en Alberta, avec le bureau d'Edmonton au numéro 1-800-222-6400.

Note to Users

Data in this publication were retrieved from CANSIM (Registered Trade Mark of Statistics Canada for its Canadian Socio-economic Information Management System) and processed to create a photo-ready copy from which this publication was produced. CANSIM is the Statistics Canada computerized data bank; series published in the Supplement (as well as other data) are available on computer printouts, cards, tape or directly via terminal.

The seasonal adjustment method applied to economic time series at Statistics Canada is a computerized ratio-to-moving average method. The standard computer program used in Statistics Canada is the U.S. Bureau of the Census Method II, X-11 variant. Seasonal adjustment removes the effect of repetitive intra-year variations resulting from normal differences in weather, holidays with invariable dates, or other events which repeat with the same timing.

While seasonal adjustment allows a much better look at the underlying trend of a series, the adjusted series will contain irregular fluctuations. Small changes between months in the adjusted series may simply be erratic movements and, to obtain a clearer idea of the underlying trend, users should examine the adjusted series over a number of months. The MCD, or Months for Cyclical Dominance, in a table containing seasonally adjusted series, indicates the smallest span of months for which the average percent change without regard to sign in the trend cycle is greater than that in the irregular factor. For the smoothest series in MCD it is one, for the most erratic series it is six. Applying a moving average of the period equal to the MCD tends to smooth irregular movements which may obscure the underlying trend.

Editor's Note

The CSR staff is always examining new ways of presenting information to its readers. Please do not hesitate to inform us of your needs and to offer us your suggestions.

Note

In the tables, components may not necessarily sum to totals because of rounding.

Note aux lecteurs

Les données qui apparaissent dans la Revue statistique du Canada ont été extraites du CANSIM (marque déposée de Statistique Canada pour son "Système canadien d'information socio-économique") et traitées pour donner une copie destinée à la photocomposition et à partir de laquelle cette publication est produite. CANSIM est la banque informatique de données de Statistique Canada. Les séries qui se trouvent dans le Supplément (ainsi que d'autres données) sont disponibles sur imprimés d'ordinateur, cartes, bandes ou par accès direct au terminal.

Le procédé utilisé pour la désaisonnalisation des séries chronologiques à Statistique Canada fait appel à l'application informatique d'un rapport à la moyenne mobile. Le programme informatique standard utilisé à Statistique Canada est le programme dit *Method II, X-11 variant* du U.S. Bureau of the Census. La désaisonnalisation supprime les effets des variations répétitives qui se produisent dans l'année et sont imputables à l'évolution normale du climat, aux congés fixes, ou à d'autres événements qui se répètent à des intervalles réguliers.

Bien que la désaisonnalisation permette de mettre bien mieux en évidence la tendance fondamentale d'une série, les séries désaisonnalisées n'en contiennent pas moins des fluctuations irrégulières. De légères variations d'un mois à l'autre dans les séries désaisonnalisées peuvent être de simples mouvements irréguliers, et pour avoir une meilleure idée de la tendance fondamentale, les utilisateurs doivent examiner les séries désaisonnalisées d'un certain nombre de mois. Le MDC, ou mois à dominance cyclique, dans un tableau contenant des séries désaisonnalisées, donne le plus petit nombre de mois pour lesquels le taux de variation moyen compte non tenu du signe de la tendance générale, est supérieur à celui du facteur irrégulier. Dans le cas de la série la plus lisse possible, le MDC est égal à un; dans celui de la série la plus irrégulière, il est égal à six. L'application d'une moyenne mobile dont la période est égale au MDC tend à lisser les mouvements irréguliers pouvant dissimuler la tendance fondamentale.

Note du rédacteur-réviseur

Le personnel de la Revue est toujours à la recherche de nouveaux modes de présentation de l'information à ses lecteurs. N'hésitez pas à nous faire connaître vos besoins et à nous présenter vos suggestions.

Nota

Dans ces tableaux, les chiffres ayant été arrondis, leur somme peut ne pas correspondre aux totaux indiqués.

Introduction

This eighteenth edition of the *Annual Supplement to the Canadian Statistical Review* gives historical detail for the selected economic indicators appearing in Section 1 of the monthly *Canadian Statistical Review*. The latest revised monthly and quarterly data, both seasonally adjusted and unadjusted are given for these indicators up to December 1978. They may be best updated by referring to current issues of the *Canadian Statistical Review*.

NOTE ON CANSIM

Series published in the Supplement are available from CANSIM. All or any part of the CANSIM data bank contents may be purchased on magnetic tapes or as computer printouts. The CANSIM identifiers appear with each series and should be used when ordering series. For further information direct inquiries to: Canadian Statistical Review, 23 M, R. H. Coats Bldg., Statistics Canada, Ottawa, K1A 0T6.

Introduction

Cette dix-huitième livraison du *Supplément annuel de la Revue statistique du Canada* décrit en détail l'évolution de certains indicateurs économiques qui figurent à la section 1 des livraisons mensuelles de la *Revue statistique du Canada*. Les plus récentes données mensuelles et trimestrielles rectifiées y sont présentées, aussi bien avant qu'après désaisonnalisation, pour ces indicateurs et ce jusqu'en décembre 1978. La meilleure façon de les actualiser est de se reporter aux dernières livraisons de la *Revue statistique du Canada*.

NOTE CONCERNANT CANSIM

Les séries présentées dans le Supplément sont stockées dans le CANSIM. On peut se procurer contre acquittement des frais l'ensemble ou une partie du contenu de la banque de données CANSIM sous forme de bandes magnétiques ou d'imprimés d'ordinateur. Les indicatifs du CANSIM, accompagnent chacune des séries et doivent être utilisés pour une commande de séries. Pour de plus amples renseignements, s'adresser à: Revue statistique du Canada, 23 M, Édifice R.H. Coats, Statistique Canada, Ottawa, K1A 0T6.
