Data in many forms

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered. Data are available on the Internet, compact disc, diskette, computer printouts, microfiche and microfilm, and magnetic tape. Maps and other geographic reference materials are available for some types of data. Direct online access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable database and retrieval system.

Standards of service to the public

Statistics Canada is committed to serving its clients in a prompt, reliable and courteous manner and in the official language of their choice. To this end, the agency has developed standards of service which its employees observe in serving its clients. To obtain a copy of these service standards, please contact your nearest Statistics Canada Regional Reference Centre.

Des données sous plusieurs formes

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes. Les données sont disponibles sur Internet, disque compact, disquette, imprimé d'ordinateur, microfiche et microfilm, et bande magnétique. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordinolinguistique et le système d'extraction de Statistique Canada.

Note of Appreciation

Canada owes the success of its statistical system to a long-standing cooperation involving Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.

(1) Total includes supplementary labour income; industry data is wages and salaries. Annual supplementary labour income by industry is available on request.

(1) Le total inclut le revenu supplémentaire du travail, les données désagrégées par industrie portent sur les salaires et traitements. Les données annuelles sur le revenu supplémentaire du travail par industrie sont disponibles sur demande.

(2) Services include electric utilities.

(2) Les services incluent l'électricité.

(3) Annual data are the averages of the monthly indexes. How the fixed-weighted indexes (1986=100) are constructed is described in the September 1989 issue of the CEO.

(3) Les données annuelles sont la moyenne des indices mensuels. L'article de l'édition de septembre 1989 de L.O.É.C. décrit en détail la construction de ces indices à pondération fixe (1986=100).

(1) Annual data are averages of the month estimates except for benefit weeks and claims received, where the sums are used. Another estimate of insurance coverage, derived from annual tax returns filed with Revenue Canada, is also available on request.

(2) The calculation of these figures changed as of July 1, 1996, as did the CANSIM identifiers for the series, due to definitional differences created by new legislation.

(3) Includes all strikes and lockouts, legal or illegal, lasting one-half day or more and amounting to 10 or more person-days lost. Time lost by workers indirectly affected, such as those laid off because of a stoppage by other employees, is not included.

(4) Effective percentage increase in base rates at annual rates.

(1) Les données annuelles sont obtenues en calculant la moyenne des totaux mensuels sauf dans le cas du nombre de prestations et des demandes initiales et renouvelées pour lesquelles on prend la somme. Une autre estimation annuelle du nombre de personnes visées par l'assurance, tirée des déclarations d'impôt de Revenu Canada, est disponible.

(2) A partir du juillet 1996, ces séries sont calculées différemment et les identificateurs de CANSIM ont changé en raison des nouvelles définitions attribuables aux modifications législatives.

(3) Comprend tous les lock-out et les grèves, qu'ils soient légaux ou illégaux, d'une durée d'une demi-journée ou plus et représentant 10 jours-personnes ou plus de temps perdu. Le temps perdu par les travailleurs indirectement touchés, comme ceux qui sont mis à pied par suite de l'arrêt de travail d'autres employés, n'est pas compris.

(4) Augmentation effective des taux de base aux taux annuels en pourcentage.

(1) Total exports includes domestic exports and re-exports, for further information, refer to *Summary of Canadian International Trade* (Catalogue no. 65-001-XPB).

(2) The figures reflect a number of adjustments applied to the customs totals to make them consistent with the concepts and definitions used in the system of national accounts. For more information about these adjustments, refer to *Quarterly Estimates of the Canadian Balance of International Payments* (Catalogue no. 67-001-XPB).

(3) Sums of components do not equal totals, due to balance of payments adjustments.

(1) Les exportations totales comprennent les exportations nationales et les réexportations. Pour plus d'information, voir la publication <i>Sommaire du commerce international du Canada</i> (n° 65-001-XPB au catalogue).
(2) Les chiffres tiennent compte d'un certain nombre d'ajustements apportés aux totaux douaniers afin de les rendre compatibles avec les concepts et les définitions utilisés dans le système des comptes nationaux. Pour plus de renseignements à propos de ces ajustements, voir la publication <i>Estimations trimestrielles de la balance canadienne des paiements internationaux</i> (n° 67-001-XPB au catalogue).
(3) Le total ne correspond pas à la somme des composantes en raison des ajustements de la balance des paiements.

(1) Supply and disposition for both crude oil and natural gas will not agree because of losses, inventory changes, pipeline fuel used, etc.

(2) Includes crude oil, condensate and pentanes plus.

(1) Les ressources et les emplois du pétrole brut et du gaz naturel ne concordent pas en raison des pertes, des variations de stocks, du carburant de pipe-lines utilisé, etc.

(2) Comprend le pétrole brut, les condensates et les pentanes plus.

(1) Retail sales estimates exclude the Goods and Services Tax (GST). Prior to January 1991, sales data included the Federal Sales Tax (FST). Due to this change in indirect taxes, data for 1991 and after are not strictly comparable with those of previous years. For users interested in deriving comparable data, an estimate of the amount of FST included in sales for 1990 is available.

(1) Les estimations des ventes de détail excluent la taxe sur les produits et les services (TPS). Les données sur les ventes antérieures à janvier 1991 incluent la taxe de vente fédérale (TVF). Dû à ce changement dans les taxes indirectes, les données à partir de 1991 ne sont pas tout à fait comparables à celles des années précédentes. Pour les utilisateurs intéressés à calculer des données comparables, une estimation du montant de la TVF inclus dans les ventes pour 1990 est disponible.
