# $11-D \cdot 01$ <br> Fiblished by Authority of the Hon. James A. MacKinnon, M. P.. Minister of Trade and Commerce <br> DOMIITION BURTATT OF STATISTICS - OTTAFA <br> BUSINESS STATISTICS BRANCH 

Dominion Statistician:
Chief, Business Statistics Branch: Cudmore, M.A. (Oxon.), M.S.S. F.R.S.C.

## ECONOMIC CONDITIONS IN CANADA DIRING THE FIRST QIUARTER COMPARCD WITH THE SAME PHRIOD OF 1944.

The volume of production during the first quarter showed recession from the high Bevel of the same period of 1944. The index of the physical volume of business raceded nearly 9 p.c. to 223.6. A recession was also shown in the general ind ex of employmert. Wholesale prices, on the other hand, showed a minor increase over the first quarter of 1944. the index moving up from 102.7 to 102.9.

The factors indicating farm income were lower in the first quarter than in the same period of 1944. The index of grain marketings receded from 259.6 , the high level of lest year, to 183.2, a decline of more than $29 \mathrm{p} . \mathrm{c}$. Marketings were heavy in January of this year but receded to considerably lower levels in Febrary and March. Livestock marketings, on the other hand, were considerably greater, the index advancing from 124.6 to 142.9. During the first quarter of the year there was a considerable increase in the inspected slaughterings of cattle, the gain being $44.7 \mathrm{p} . \mathrm{c}$, over the first three months of 1944. Hog slaughterings, on the other hand, were sharply raduced, belng 31.6 p.c. less than in the same period one vear ago. Increases were shown in the sutput of butter and cheege, the gain being of relatively minor proportions. The price index of farm products rose slightiv, the advance having been from 104.3 to 104.7.

The forestry industry was more active in the first quarter, the output of newsprint rising from 735,000 tons to 768,000 , a gain of $4.6 \mathrm{p}, \mathrm{c}$. Planks and boards were exported in greater volume, especially during February and Mre ch. Timber scaled in British Columbia amounted to 571.8 million faet against 530.9 mlli ion in the same peri od of last year. The export of fishery products rose from $\$ 14,090,000$ to $\$ 14,213,000$, a galn of 0.9 p.c. while a decline of 16 p.c. was shown in the export of furs.

A considerable decline was recorded in the index of mining production. Bmployment, however, according to the average of the monthly index, showed a recession of only 5.6 p.c. The price level of metals and minerals recorded only a slight gain over the first three months of last year. The production of electric anergy showed a minor recession. The drop in the consumption of primary electrie power from 9.3 billion kilowatt hours to 8.2 billion amounted to 12.3 p.c.

A considerable number of manufacturing industries operated at lower levels in the first quarter of this vear than in that of 1944. The index of production receded from 302.8 to 271.8 , a decline of slightly more than $10 \mathrm{p} . \mathrm{c}$. The leval of employment was also considerably lower during the first quarter. The prices of raw materials and of finlshed manufactured goods showed no appreciable changa in this comparison. According to the statistics of freight loadings in tons and the numerical total of car londings, rallway traffic showed recession in this comparison. The railway freight movement in the first quartar of the year was $1,454,000$ tons less or 5,8 p.c. below the level of the first quarter of 1944. The total was 23.5 million tons compared with nearly 25 million in the first three months of 1944. The first quarter of last vear constituted an all-time record as far as the first quarter of the year is concerned. The movemert in 1945 was greater than in the same period of ans other vear from 1940 to 1943.

Payrolls were somewhat greater in the first quarter of 1945 than in the same perlod of last yenr. The increase was due to a rise in rates rather than in the volume of emplomment. The aggregate weekly pavments, averaged for the three representative weeks, showed an increase of $0.31 \mathrm{p} . \mathrm{c}$. The average weekly rate was $\$ 31.73$ against $\$ 31.24$ for the same period of 1944, a gain of 1.56 p.c. A gain was shown in the employment of logging, highway construction and trade while declines were recorded in manufacturing, mining and building construction.

According to unoficial computations, dividends paid in the first quarter of the present year amounted to $\$ 68,381,000$ against $\$ 61,457,000$, a gain of 11.3 p.c. An index of dividend payments averaged 133.3 against 127.6 in the first quarter of 1944. Interest on the Dominion debt during the first eleven months of the present fiscal year amounted to $\$ 273$ million against $\$ 200.9$ million in the same period of the preceding rear, the indicated gain being $35.9 \mathrm{p} . \mathrm{c}$.

The national income, according to a tentative computation, was $\$ 2,180 \mathrm{milin}$ in the first quarter of the present year against $\$ 2,234$ million, a decline of 2.4 p.c. Recession whe shown in the income originating in agriculture and in manulactures, while many other groups recorded increases. The total in March was $\$ 735.4$ million compared with $\$ 707.6$ million in the preceding month, the standing in March of 1944 having been $\$ 759.3$ million.
