BRITISH COLUMBIA

PART III

Section I - Geographical Code for British Columbia

Sub-section (1) Details of Code

The Province of British Columbia is the third largest and most westerly in the Dominion of Canada, covering a land area of 359,279 square miles. With ninety per cent of its area included in the great mountain ranges which partition the province, it nevertheless has many pleasant and fertile valleys. In the largest of these valleys, on either side of the Fraser River, resides over 55 per cent of the total population, in a land area of 9,764 square miles.

The surface features of British Columbia create many difficulties in setting up areas for the purpose of administration and presentation of statistical facts. There is a county system in the province which differs from the county systems in Eastern Canada, in that it is generally used for judicial purposes and not for purposes of political administration by an elected corporate body. County officials, such as Court Judges, Registrars and Clerks, are appointed by the Provincial Government. The counties in many instances cover huge areas of territory which are not suitable either for Census enumeration or for Vital Statistics analysis and publication. For this reason the Census Branch of the Dominion Bureau of Statistics in collaboration with the provincial officials had the province divided into ten Census Divisions similar to those created for the prairie provinces. These divisions were further laid-out into some forty-three sub-divisions for the purpose of enumeration and publication of material for the decennial Censuses and are used extensively for the Vital Statistics and Trade and Industry Statistics of British Columbia.

There are three levels of Municipal Government; namely, cities, village municipalities and district municipalities. For tabulation purposes these areas have been assigned code numbers. The hundred's and ten's columns indicate the divisions and sub-divisions. The unit column "0" indicates the rural area which includes Indian Reserves, unorganized territory, and city, village and district municipalities under 1,000 population; "1" Vancouver City; "2" Victoria City; "3" and "4" cities under 40,000 and over 5,000 population; "5", "6", "7" and "8" cities and villages under 5,000 and over 1,000 population.

PARTIE III

Section I - Code géographique pour la Colombie Britannique

Sous-section (1) Détails du Code

La Colombie Britannique est la troisième en superficie en même temps que la plus à l'Ouest des provinces du Dominion du Canada. Elle s'étend sur une superficie de 359,279 milles carrés. Bien qu'enfermée dans la proportion de quatre-vingt-dix pour cent au cœur des grandes chaînes de montagnes qui la divisent, elle compte plusieurs vallées riantes et fertiles, dont la plus grande, celle de la rivière Fraser, abrite 55 p. cent de sa population totale. Sa superficie est de 9,764.

Les caractéristiques de surface de la Colombie Britannique ne compliquent pas peu la délimitation des régions pour fins administratives et statistiques. Il existe dans cette province un système de comtés qui diffère de ceux des provinces de l'Est en ce qu'il sert généralement à des fins judiciaires plutôt qu'à des fins d'administration politique par un corps électif. Les fonctionnaires de comtés, tels que les juges, les régistreurs et les greffiers sont nommés par le Gouvernement provincial. Dans plusieurs cas, ces comtés s'étendent sur de vastes régions qui se prêtent mal à l'énumération de recensement et à l'analyse et à la publication des statistiques vitales. Pour cette raison, la Branche du Recensement du Bureau Fédéral de la Statistique, en collaboration avec les représentants de la province, ont divisé celle-ci en dix divisions de recensement semblables à celles établies pour les Provinces des Prairies. Ces divisions ont été ensuite morcelées en quarante-trois sub-divisions pour fins d'énumération et de publication de renseignements concernant les recensements décennaux. Ces divisions sont aussi utilisées généralement pour fins de statistiques vitales, commerciales et industrielles en Colombie Britannique.

Il y a trois niveaux de gouvernement municipal, à savoir, cités, municipalités de village et municipalités de district. Pour fins de tabulation ces régions sont désignées par des numéros de code. Les colonnes des centaines et des dizaines indiquent les divisions et les sub-divisions. La colonne de l'unité "0" indique les régions rurales qui comprennent les réserves indiennes, les territoires inorganisés et les villes, villages et municipalités de village et de district d'une population inférieure à 1,000 âmes. "1", la cité de Vancouver; "2", la cité de Victoria; "3" et "4", les cités de moins de 40,000 et de plus de 5,000 habitants; "5", "6", "7" et "8", les villes et les villages de moins de 5,000 et de plus de 1,000 habitants.

The land area in square miles for each Census Division is indicated in brackets.

La superficie de chaque division de recensement est indiquée en milles carrés entre parenthèses.

CENSUS TRACTS

The Dominion Bureau of Statistics, recognizing the value of statistical data pertaining to special social areas in urban parts of Canada, has agreed to compile certain census material according to such special social areas which are commonly referred to as "Census Tracts".

For the Census of 1941 a number of census tracts were created for three parts of the Metropolitan area of or adjacent to the City of Vancouver. Vancouver City was divided into 20 census tracts, which includes the University area; New Westminster City into 5 and Burnaby Municipality into 6 census tracts. In collaboration with the Provincial Division of Vital Statistics, the Department of Economics, Political Science and Sociology of the University of British Columbia, the Vancouver Council of Social Agencies and a Representative Committee, the Division of Vital Statistics of the Dominion Bureau of Statistics agreed to tabulate vital statistics data upon a residence basis, according to location within the

CANTONS DE RECENSEMENT

Le Bureau Fédéral de la Statistique, reconnaissant la valeur de statistiques sur certaines régions sociales spéciales dans les centres urbains du Canada, a convenu de compiler certaines données de recensement sur ces régions sociales spéciales communément désignées "Cantons de Recensement."

Au Recensement de 1941, un certain nombre de cantons de recensement ont été créés pour trois parties de la région métropolitaine de la cité de Vancouver ou adjacente à celle-ci. La cité de Vancouver a été divisée en 20 cantons de recensement, comprenant la région de l'Université; la cité de New Westminster, en 5; et la municipalité de Burnaby, en 6 cantons de recensement. De concert avec la Division provinciale des Statistiques Vitales, le Département des Sciences Economiques et Politiques et de la Sociologie de l'Université de Colombie Britannique, le Conseil des Agences Sociales de Vancouver et un Comité représentatif, la Division des Statistiques Vitales du Bureau Fédéral de la Statistique a convenu de tabuler les données de statistiques vitales

several census tracts. In this way, a fairly complete picture of population growth in each area is obtainable and the urban development in these areas which is not static may be studied periodically; in this way the usefulness of a goodly portion of the information collected at the Census would not be limited in point of time to a year or two after the taking of the Census.

The Division of Vital Statistics of the Provincial Board of Health of British Columbia has created a street index to the census tracts which assists in the ready allocation according to residence of vital records to the census tracts for each municipal unit. The census tracts are as follows:

<u>Burnaby Municipality</u>	<u>City of Vancouver</u>
01	01
02	02
03	03
04	04
05	05
06	06
	07
	08
	09
	10
	11
	12
<u>New Westminster City</u>	13
	14
01	15
02	16
03	17
04	18
05	19
(1) 06 District Lot 172	20

(1) Census tract 06 shown as part of New Westminster City is actually District Lot 172 and is unorganized territory. Although only the areas lying within respective fixed boundaries of the cities of Vancouver and New Westminster and the Municipality of Burnaby have actually been constituted as Census tracts, District Lot 172 has been assigned a separate code on account of its geographical location in respect to Vancouver, New Westminster and Burnaby.

d'après le domicile, suivant la localisation dans les divers cantons de recensement. Il est possible, de la sorte, d'obtenir un portrait assez complet de la croissance de la population dans chaque région, et le développement urbain dans ces régions, qui n'est pas statique, peut être étudié périodiquement; de la sorte aussi l'actualité d'une partie importante des données recueillies au Recensement ne serait pas limitée à une année ou deux après la tenue du Recensement.

La Division des Statistiques Vitales de la Commission Provinciale d'Hygiène de la Colombie Britannique a créé un index des rues pour les cantons de recensement qui aide à la prompte attribution d'après le domicile, des registres de statistiques vitales aux cantons de recensement pour chaque unité municipale. Les cantons de recensement sont les suivants:

<u>Municipalité de Burnaby</u>	<u>Cité de Vancouver</u>
01	01
02	02
03	03
04	04
05	05
06	06
	07
	08
	09
	10
	11
	12
<u>Cité de New Westminster</u>	13
	14
01	15
02	16
03	17
04	18
05	19
(1) 06 Lot de district 172	20

(1) Le canton de recensement 06 donné comme partie de la cité de New Westminster est en réalité le lot de district 172 et c'est un territoire non organisé. Bien que seulement les régions situées dans les limites fixées propres aux cités de Vancouver et de New Westminster et à la municipalité de Burnaby aient en réalité été constituée comme cantons de recensement, le lot de district 172 fait l'objet d'un code séparé à cause de sa situation géographique par rapport à Vancouver, New Westminster et Burnaby.

PART III

Section I - Geographical Code for British Columbia

Sub-section (2) Alphabetical

List of Places

As already mentioned in sub-section (1) the geographical nature of British Columbia, with its vast areas of unorganized territory under direct provincial administration, requires a system for the collection of Vital Statistics different from that used in any other part of Canada.

Besides being divided into Census Divisions for statistical publication purposes, British Columbia is divided into registration districts for the collection of registrations of births, deaths and marriages. The "Vital Statistics Act" of British Columbia requires that registration districts be created and defined. The Registration Districts are used for the administration of the "Marriage Act."

The index in this sub-section classifies the places of every rank (city, village, post office, settlement, etc.) according to its location within (a) for collection purposes - the registration district and (b) for statistical purposes - the Census sub-division.

In the Index is shown:

- First - the code number,
- Second - the name of the place,
- Third - the rank of the place,
- Fourth - the Registration District, and
- Fifth - the census sub-division.

PLACES WITHIN ORGANIZED MUNICIPALITIES

In many instances in British Columbia, places (known locally and officially by other names) are situated within the corporate limits of organized municipal units - in such cases, the name of the municipality is indicated by capital letters in parentheses following the name of the place, e.g.-

Albion (MAPLE RIDGE)
Hullcar (SPALLUMCHEEN)
Queensborough (NEW WESTMINSTER)

PARTIE III

Section I - Code géographique pour la Colombie Britannique

Sous-section (2) Liste alphabétique des endroits

Comme il a été mentionné à la sous-section (1) le caractère géographique de la Colombie Britannique, avec ses vastes régions de territoires non organisés directement sous l'administration provinciale, requiert un système de levée des Statistiques Vitales différent de celui de toute autre partie du Canada.

En plus d'être divisée en Divisions du Recensement pour fins de publication des statistiques, la Colombie Britannique est divisée en districts d'enregistrement pour la levée des enregistrements des naissances, décès et mariages. La "Loi des Statistiques Vitales" de la Colombie Britannique requiert que des districts d'enregistrement soient créés et définis. Ces districts servent à l'administration de la "Loi du Mariage."

L'index de cette sous-section classe les endroits de tout rang (cité, village, bureau de poste, colonie, etc.) d'après sa situation (a) dans le district d'enregistrement pour fins de levée et (b) dans la sub-division de recensement pour fins de statistique.

L'index donne:

- Premièrement - le numéro de code,
- Deuxièmement - le nom de l'endroit,
- Troisièmement - le rang de l'endroit,
- Quatrièmement - le District d'Enregistrement, et
- Cinquièmement - la subdivision de recensement.

ENDROITS DANS DES MUNICIPALITES ORGANISEES

Il arrive souvent en Colombie Britannique que des endroits (connus localement et officiellement sous d'autres noms) sont situés dans les limites d'incorporation des unités municipales organisées - dans ces cas, le nom de la municipalité est indiqué par des majuscules entre parenthèses après le nom de l'endroit, e.g.-

Albion (MAPLE RIDGE)
Hullcar (SPALLUMCHEEN)
Queensborough (NEW WESTMINSTER)

British Columbia. Section I (2) Continued.

PLACES WITH ALTERNATE NAMES

In a number of cases a place in British Columbia is known by two names, in such cases the alternate name of the place is indicated by lower case letters in parentheses following the name of the place, e.g.-

Adelphi (Westwold)
Ironton (Gray Creek)
Quesnel Dam (Likely)

REGISTRATION DISTRICTS AND CITIES WITH
SYNONYMOUS NAMES

Places indicated by "(Outside)" following the registration district are situated within the registration districts of New Westminster, North Vancouver, Vancouver or Victoria, but outside the corporate limits of the city concerned, e.g.-

Albert Head Victoria (OUTSIDE)
Hope Point Vancouver (OUTSIDE)
Rand (Langley) New Westminster
(OUTSIDE)

CITIES AND MUNICIPALITIES WITH SYNONYMOUS
NAMES

In three instances City names in British Columbia are duplicated for nearby district municipalities, viz., Chilliwack, North Vancouver and Salmon Arm. A similar situation exists in the case of Mission, where a Village and District Municipality have the same name. In each case places situated within the District Municipal corporate limits are indicated by the word "District" in lower case and in parentheses immediately following the name of the registration district, e.g.-

Lichman (CHILLIWACK) RS Chilliwack (District)
Steelhead (MISSION) SPO Mission (District)
Cove Cliff (NORTH VANCOUVER) Ig North Van-
couver (District)
Broadview (SALMON ARM) SPO Salmon Arm (District)

EXPLANATION OF ABBREVIATIONS

The abbreviations used in this index indicate the rank of each place as follows:

Colombie Britannique. Section I (2) suite.

ENDROITS AVEC D'AUTRES NOMS

Souvent un endroit en Colombie Britannique est connu sous deux noms; dans ces cas l'autre nom de l'endroit est indiqué par des minuscules entre parenthèses après le nom de l'endroit, e.g.-

Adelphi (Westwold)
Ironton (Gray Creek)
Quesnel Dam (Likely)

DISTRICTS D'ENREGISTREMENT ET CITES AVEC
NOMS SYONYMES

Les endroits indiqués comme "(Extérieur)" après le district d'enregistrement sont situés dans les districts d'enregistrement de New Westminster, Vancouver-Nord, Vancouver ou Victoria, mais à l'extérieur des limites d'incorporation de la cité en question, e.g.-

Albert Head Victoria (EXTERIEUR)
Hope Point Vancouver (EXTERIEUR)
Rand (Langley) New Westminster
(EXTERIEUR)

CITES ET MUNICIPALITES DONT LE NOM EST LE
MEME

Le nom de trois cités en Colombie Britannique est le même que celui des municipalités de district voisines, à savoir, Chilliwack, North Vancouver et Salmon Arm. Il en est de même dans le cas de Mission, alors qu'un village et une municipalité de district portent le même nom. Dans chaque cas, les endroits situés dans les limites de la corporation du district municipal sont indiqués par le mot "District", en minuscules, entre parenthèses immédiatement après le nom du district d'enregistrement, e.g.-

Lichman (CHILLIWACK) RS Chilliwack (District)
Steelhead (MISSION) SPO Mission (District)
Cove Cliff (NORTH VANCOUVER) Ig North Van-
couver (District)
Broadview (SALMON ARM) SPO Salmon Arm (District)

EXPLICATION DES ABREVIATIONS
