Note of Appreciation

Canada owes the success of its statistical system to a long-standing cooperation involving Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.

Note

Most of the series shown in these tables have three lines. The first of these lines is the series itself, usually expressed in millions of dollars and sometimes expressed as an index with 1986=100. The second line, italicized and in smaller typeface, is the annual or year-over-year percentage change and the third line, also italicized and in smaller typeface, is the quarterly percentage change. The two percentage change lines are omitted for series which are either very volatile or quite small.

Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans ce document:

Pour commander

Pour commander,appelez au 613-951-3640 et demandez la responsable des services aux clients. Pour de l'information sur le contenu,appelez le même numéro et demandez l'agent d'information.

Note

La plupart des séries figurent dans ces tableaux sous trois lignes. La première ligne représente la série elle-même, habituellement exprimée en millions de dollars, et parfois sous forme d'indice (1986=100). La deuxième ligne, en italique et en caractères plus petits, représente la variation annuelle ou année sur année en pourcentage, et la troisième, aussi en italique et en caractères plus petits, la variation trimestrielle en pourcentage. Dans le cas des séries très instables ou très faibles, les deux lignes de variation en pourcentage sont omises.
