## Note of Appreciation

*Canada owes the success of its statistical system to a long-standing cooperation involving Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.*

## Note de reconnaissance

*Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.*

## Symbols

The following standard symbols are used in this document:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.

These tables together constitute the National Income and Expenditure Accounts. A subset of these tables is also published in ***National Economic and Financial Accounts, Quarterly Estimates*** (Catalogue no. 13-001). Users should refer to this publication for footnotes and other information concerning the estimates in the tables. Users can also consult the ***Guide to the Income and Expenditure Accounts*** (Catalogue no. 13-603E, no. 1) for a more in-depth explanation of concepts and methods. The statistics in these tables are also available on microcomputer diskettes for \$25 per quarter or \$100 for an annual subscription, or on CANSIM, Statistics Canada's on-line computer database.

## To Order

To order, call 613-951-3640 and ask for the client services officer. For information on the content, call the same number and ask for the information officer.

## Note

Most of the series shown in these tables have three lines. The first of these lines is the series itself, usually expressed in millions of dollars and sometimes expressed as an index with 1986=100. The second line, italicized and in smaller typeface, is the annual or year-over-year percentage change and the third line, also italicized and in smaller typeface, is the quarterly percentage change. The two percentage change lines are omitted for series which are either very volatile or quite small.

## Note to users

The Canadian Balance of International Payments has been revised back to the year 1926. The common elements of the Balance of Payments and the NEFA will remain inconsistent until the NEFA are revised on December 1. The 1997 estimates of international trade in goods and services, international investment income flows and transfers, and international financial flows contained in the NEFA have been linked to show the same rates of change as published in the Balance of Payments.

## Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans ce document:

- .. nombres indisponibles.
- ... n'ayant lieu de figurer.
- néant ou zéro.

Ensemble, ces tableaux constituent les comptes nationaux des revenus et dépenses. Un sous-ensemble de ces tableaux est également publié dans ***Comptes économiques et financiers nationaux, estimations trimestrielles*** (n° 13-001 au catalogue). Les utilisateurs sont priés de se reporter à la publication pour des notes et d'autres renseignements au sujet des estimations contenues dans ces tableaux. Ils peuvent aussi consulter le ***Guide des comptes des revenus et dépenses*** (n° 13-603F, n° 1 au catalogue) pour une explication approfondie des concepts et méthodes. Les statistiques dans ces tableaux sont aussi disponibles sur disquette pour microordinateur au prix de 25\$ par trimestre ou 100\$ par an, ou dans la base de données CANSIM de Statistique Canada.

## Pour commander

Pour commander,appelez au 613-951-3640 et demandez la responsable des services aux clients. Pour de l'information sur le contenu,appelez le même numéro et demandez l'agent d'information.

## Note

La plupart des séries figurent dans ces tableaux sous trois lignes. La première ligne représente la série elle-même, habituellement exprimée en millions de dollars, et parfois sous forme d'indice (1986=100). La deuxième ligne, en italique et en caractères plus petits, représente la variation annuelle ou annuelle sur année en pourcentage, et la troisième, aussi en italique et en caractères plus petits, la variation trimestrielle en pourcentage. Dans le cas des séries très instables ou très faibles, les deux lignes de variation en pourcentage sont omises.

## Note à l'intention des utilisateurs

La balance canadienne des paiements internationaux fait l'objet d'une révision remontant à 1926. Les éléments communs de la balance des paiements et des CEFN ne seront pas cohérents jusqu'à ce que ces derniers soient révisés le 1<sup>er</sup> décembre. Les estimations pour 1997 du commerce international de biens et services, des flux internationaux de revenus de placements et de transferts, ainsi que des flux financiers internationaux faisant partie des CEFN ont été raccordées afin que leur taux de variation soit le même que celui publié dans la balance des paiements.

## Note of Appreciation

*Canada owes the success of its statistical system to a long-standing cooperation involving Statistics Canada, the citizens of Canada, its businesses and governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.*

## Note de reconnaissance

*Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.*
