FARM WAGES IN CANADA(1)

JANUARY 1968

MAR 8 1968

PROPERTY OF THE
LIBRARY

This memorandum sets forth the average rates of cash wages paid to male hired help on farms as of January 15, 1968 and, for comparative purposes, the corresponding figures for 1966 and 1967. In all cases, wage rates are shown with and without board provided by the employer. Reports for the annual rates were not sufficient to provide reliable provincial estimates with the result that these rates are being presented only for Eastern and Western Canada. The wage rates presented in this report purport to reflect the average of the wages paid to all farm help regardless of age and skill. Because the wage rates reported to the Bureau may cover a wide range of skills, types of work and ages of hired workers, it is felt that the chief value of the following data is as an indicator of trends rather than a measure of absolute levels. No attempt has been made to have the wage rates reflect such perquisites as separate housing accommodation, fuel, electricity and certain food supplies which under some conditions of hiring are supplied by employers to their hired farm help.
