CHICAGO, ILL. 60607

Preliminary Indications of the Dairy Situation, November, 1962

The preliminary estimate of milk produced in November is 1,286,000,000 pounds. This is 3.0 per cent below production in the same month last year and would make the estimate of production for the first eleven months of the year 18,047,000,000 pounds. This is 0.1 per cent above production in the January to November period a year ago.

About 51 per cent of the milk produced in November, or 659,000,000 pounds, was used for factory dairy products. This represented a decrease of 6.5 per cent from factory utilization in November, 1961. Creamery butter production during the month used 478,000,000 pounds of milk, 5.6 per cent less than in November, 1961, while milk used for concentrated whole milk products and ice cream mix was down 5.5 and 35.9 per cent, respectively. Despite a decrease in November cheddar cheese production, 0.2 per cent more milk was used in the manufacture of all types of factory cheese than a year ago. During the January to November period, only 0.7 per cent less milk was used for factory dairy products than in the corresponding period a year ago.

TABLE 1. - Milk Equivalent of Dairy Factory Products, November and January to November, 1961 and 1962

Product	November			January - November		
	1961	1962	Percentage Change	1961	1962	Percentage Change
	'000 lb.	'000 lb.	%	'000 lb.	'000 lb.	%
Creamery Butter	506,798	478,319	(-) 5.6	7,829,290	8,047,588	(+) 2.8
Factory Cheese	101,845	102,028	(+) 0.2	1,356,888	1,333,505	(-) 1.7
Concentrated Whole Milk Products	55,342	52,305	(-) 5.5	982,865	880,904	(-) 10.4
Ice Cream Mix <u>1/</u>	40,528	25,973	(-) 35.9	688,432	520,717	(-) 24.4
Totals	704,513	658,625	(-) 6.5	10,857,475	10,782,714	(-) 0.7

1/ Beginning May, 1962, data excludes the milk equivalent of creamery butter used in the manufacture of ice cream mix.

Fluid sales of milk and cream during November, for the purpose of the preliminary estimate, amounted to 485,000,000 pounds, an increase of 0.9 per cent over fluid sales in November, 1961. This assumes the same relationship to year-earlier estimates as the August to October average.

According to indications from the monthly survey of farms keeping milk cows, milk and cream consumed in farm homes was 2.1 per cent below that used in November, 1961, but more milk was fed to livestock than a year earlier. Farm dairy correspondents report 0.7 per cent fewer cows kept on farms at November 15, and 2.2 per cent less cows being milked than at the same date last year. Milk production per cow, for cows milked on farms in the sample, increased 1.4 per cent above the level at November 15, 1961.

Farm Milk Production, Utilization and Income in October, 1962

Farm Milk Production: The estimated quantity of milk produced on farms in October amounted to 1,646 million pounds, a decrease of 15 million pounds or 0.9 per cent below that of October, 1961. Of this amount, 993 million pounds or 60 per cent was utilized in factory production, and approximately 507 million pounds or 31 per cent was used for fluid sales. During the January - October period, the estimated production was 16,761 million pounds, an increase of 62 million pounds over that produced in the same period of the previous year. The quantity of milk utilized for factory production in the January - October period amounted to 10,124 million pounds while fluid sales accounted for 4,935 million pounds.

Fluid Sales: Sales of fluid milk and cream, the latter expressed as milk, amounted to 507 million pounds in October, an increase of approximately 17 million pounds in comparison with October of the previous year. This included about 425 million pounds of fluid milk, comprising about 26 per cent of the farm milk supply, and fluid cream sales of 82 million pounds representing 5 per cent. During the ten month period, fluid sales totalled 4,935 million pounds, an increase of 103 million pounds or 2.1 per cent over those of the corresponding 1961 period.

Farm Butter: Butter made on farms in October amounted to 526,000 pounds, decreasing 30 per cent from the corresponding month in 1961. For the January - October period, 5,777,000 pounds were produced, a decrease of 18 per cent from the same period last year.

Farm Cash Income: Cash income from the sale of dairy products in October amounted to \$47,350,000. This represented an increase of 0.9 per cent or \$409,000 in comparison with the same month last year. The weighted average value of \$3.16 per hundred pounds of milk was 6 cents higher than in October, 1961. Fluid milk at \$4.80 per hundred was 1 cent lower than in October, 1961. Creamery butter-fat increased from 68.0 cents to 68.5 cents per pound, and farm butter at 58 cents per pound was 4 cents lower than in October, 1961. Milk used in manufacture averaged \$2.76 per hundred, 2 cents higher than in October, 1961. Cheese milk increased to \$2.85 per hundred, an increase of 23 cents per hundred in comparison with the same month a year earlier. Part of the increase may be attributed to the collection of more detail information from Ontario cheese factories since the beginning of the year, which has resulted in higher calculated average unit values than a year ago.

Farm cash income estimates cover all money received by farmers for the sale of milk, cream and farm butter. Government subsidies and bonuses are included in these estimates.

Production and Prices of Dairy Products in October, 1962

Creamery Butter

Production: Creamery butter production amounted to 32.3 million pounds in October, 1962, a decrease of approximately 0.1 million pounds as compared to production in the same month of the previous year.

Stocks: Combined holdings of creamery butter and butter oil (in butter equivalent) in store and transit on November 1, amounted to 260.3 million pounds, approximately 48.3 million pounds higher than at November 1 last year. On October 1, 1962, stock holdings at 258.2 million pounds were 53.6 million pounds greater than at the same date a year earlier.

Supply: The combined quantity of creamery butter and butter oil represented by stocks on October 1, plus production and imports during the month, amounted to 290.5 million pounds at October 31, 1962. This was an increase of approximately 53.5 million pounds compared to the corresponding supply figure at October 31, 1961.

Domestic Disappearance: The combined domestic disappearance of creamery butter and butter oil in October amounted to 30.2 million pounds, an increase of 5.2 million pounds or 20.7 per cent more than the corresponding figure for the same month last year. On a per capita basis, it amounted to 1.64 pounds as compared with 1.37 pounds in October, 1961.

Prices at Montreal: Butter prices at Montreal, based on dealers' quotations for first grade solids, averaged 50 3/4 cents per pound in October, as against 62 1/2 cents in October, 1961.

Cheddar Cheese

Production: Cheddar cheese production amounted to approximately 11.0 million pounds, a decrease of approximately 0.2 million pounds as compared to production in the same month of the previous year.

Prices: The Belleville price of Ontario coloured cheese averaged 37 3/4 cents per pound in October. The comparative price in 1961 was 34 3/4 cents.

Ice Cream Mix

The quantity of ice cream mix manufactured in October was approximately 1.4 million gallons or 14 thousand gallons more than that produced a year ago.

1/ Not available.

2/ Includes adjustment for September trade statistics.

3/ Disappearance for the month cannot be estimated because month-end stocks and exports (with inevitable lag) exceed total supply.

4/ Less than 500 pounds.

Prepared in the Livestock & Animal Products Section, Agriculture Division.

Issued Friday, December 21, 1962.

Publications Prepared by the Dominion Bureau of Statistics
dealing with dairying

Catalogue Number	Title and Description	Price per year \$
32-002	Dairy Factory Production Monthly - Production of creamery butter, cheddar cheese, ice cream mix and concentrated milk products	1.00
23-002	Fluid Milk Sales Monthly - Sales of fluid milk, cream, chocolate drink, buttermilk and skim milk in leading urban markets	1.00
32-008	Advance Statement of Stocks of Dairy and Poultry Products in Nine Cities of Canada Monthly - Figures of holdings in Quebec, Montreal, Toronto, Winnipeg, Regina, Saskatoon, Calgary, Edmonton, Vancouver	1.00
32-009	Stocks of Dairy and Poultry Products Monthly - Stocks of creamery butter, cheese, concentrated milk products, eggs and dressed poultry on first day of each month	2.00
32-217	Stocks of Food Commodities in Cold Storage and Other Warehouses Annual - Includes summary tables by months and by provinces	.50
23-201	Dairy Statistics Annual - Estimates of total milk production and utilization, factory production, fluid milk and cream sales, farm value of milk production and domestic disappearance of milk and milk products	.50
32-209	Dairy Products Industries Annual - A statistical summary of the factories making up the Dairy Products Industries, their operations and their products	.75
