THE DAIRY REVIEW

Vol. 26, No. 4

APRIL 1965

Price: \$ 2.00 per year

PRELIMINARY INDICATIONS OF THE DAIRY SITUATION, APRIL, 1965.

The preliminary estimate of milk produced in April is 1,514,000,000 pounds. This is 0.8 per cent higher than production in the same month last year and would make the total estimate of production during the first four months of the year 4,855,000,000 pounds. This is 0.4 per cent above production in the January-April period a year ago.

Approximately 59 per cent of the milk produced in April, or 894,000,000 pounds, was used for dairy factory products. This was 1.2 per cent above factory utilization in April, 1964, with increased quantities going into all products except butter. Creamery butter production during the month accounted for 611,000,000 pounds of milk, 2.7 per cent less than in April a year ago, while milk used for the manufacture of factory cheese, concentrated whole milk products and ice cream mix increased 14.2, 9.2 and 5.3 per cent, respectively. During the January-April period, 0.8 per cent more milk was utilized for dairy factory products than in the corresponding period a year ago.

TABLE 1.- Preliminary Estimates of Milk Equivalent of Dairy Factory Products, April and January to April, 1964 and 1965.

Product	April			January - April		
	1964	1965	Percentage change	1964	1965	Percentage change
	'000 lb.		%	'000 lb.		%
Creamery butter....	628,478	611,325	- 2.7	1,730,804	1,683,561	- 2.7
Factory cheese.....	127,022	145,100	+14.2	335,202	391,536	+16.8
Concentrated whole milk products.....	86,350	94,278	+ 9.2	287,649	287,725	-
Ice cream mix.....	41,271	43,457	+ 5.3	132,264	143,721	+ 8.7
Totals	883,121	894,160	+ 1.2	2,485,919	2,506,543	+ 0.8

Fluid sales of milk and cream during April, for the purpose of the preliminary estimate, are calculated at 422,500,000 pounds, an increase of 1.1 per cent over fluid sales in April, 1964. This assumes the same relationship to year-earlier estimates as for the January-March period.

According to indications from the monthly survey of farms keeping milk cows, milk and cream consumed in farm homes was 2.5 per cent below the quantity used in April, 1964, while milk used for livestock feeding was 0.3 per cent above that of a year ago.

Lateness in the advent of spring growing conditions was very much in evidence throughout most of Canada. Deep frost retarded pasture and hay land development in eastern Canada, while similar conditions in the Prairies were brought about by the relatively heavy snowfall during the past winter and a late spring thaw. In British Columbia, warm temperatures prevailed during April and conditions were about normal by the first part of May.

Farm Milk Production, Utilization and Income in March, 1965

Farm Milk Production: The estimated quantity of milk produced on farms in March amounted to 1,283 million pounds, an increase of 51 million pounds or 4.1 per cent over that of March, 1964. Of this amount, 652 million pounds or 51 per cent was utilized in factory production, and approximately 451 million pounds or 35 per cent was used for fluid sales. During the January-March period, the estimated production was 3,341 million pounds, an increase of 7 million pounds over that produced in the same period of the previous year. The quantity of milk utilized for factory production in the January-March period amounted to 1,612 million pounds while fluid sales accounted for 1,288 million pounds.

Fluid Sales: Sales of fluid milk and cream, the latter expressed as milk, amounted to 451 million pounds in March, an increase of approximately 15 million pounds in comparison with March of the previous year. This included about 382 million pounds of fluid milk, comprising about 30 per cent of the farm milk supply, and fluid cream sales of 69 million pounds representing about 5 per cent. During the three month period, fluid sales totalled 1,288 million pounds, an increase of 14 million pounds or 1.1 per cent over those of the corresponding 1964 period.

Farm Butter: Butter made on farms in March amounted to 274,000 pounds, decreasing 28 per cent from the corresponding month in 1964. For the January-March period, 827,000 pounds were produced, a decrease of 29 per cent from the same period last year.

Farm Cash Income: Cash income from the sale of dairy products in March amounted to \$38,474,000. This represented an increase of 7.7 per cent or \$2,738,000 in comparison with the same month last year. The weighted average value of \$3.48 per hundred pounds of milk was 10 cents higher than in March 1964. Fluid milk at \$5.00 per hundred was 12 cents higher than in March, 1964. Creamery butter-fat increased from 70.4 cents to 72.0 cents per pound, and farm butter at 56 cents per pound was 1 cent lower than in March, 1964. Milk used in manufacture averaged \$2.91 per hundred, 10 cents higher than in March, 1964. Cheese milk increased to \$3.03 per hundred, an increase of 17 cents per hundred in comparison with the same month a year earlier.

Farm cash income estimates cover all money received by farmers for the sale of milk, cream and farm butter. Government subsidies and bonuses are included in these estimates. The estimates, however, do not make any allowances for costs incurred by farmers in the production of dairy products.

PRODUCTION AND PRICES OF DAIRY PRODUCTS IN MARCH, 1965.

Creamery Butter:

Production: Creamery butter production amounted to 18.1 million pounds in March, 1965, an increase of approximately 8 thousand pounds as compared to production in the same month of the previous year.

Stocks: Combined holdings of creamery butter and butter oil (in butter equivalent) in store and transit on April 1, 1965, amounted to 62.5 million pounds, approximately 113.8 million pounds lower than at April 1 last year. On March 1, 1965, stock holdings at 75.5 million pounds were 113.3 million pounds less than at the same date a year earlier.

Supply: The combined quantity of creamery butter and butter oil represented by stocks on March 1, plus production and imports during the month amounted to 93.6 million pounds of butter at March 31, 1965. This was a decrease of approximately 113.3 million pounds compared to the corresponding supply figure at March 31, 1964.

Domestic Disappearance: The combined domestic disappearance of creamery butter and butter oil in March amounted to 31.1 million pounds of butter, an increase of 1.4 million pounds or 4.7 per cent more than the corresponding figure for the same month last year. On a per capita basis, it amounted to 1.60 pounds as compared with 1.54 pounds in March, 1964.

Prices at Montreal: Butter prices at Montreal, based on dealers' quotations for first grade solids, averaged 52 3/4 cents per pound in March, as against 51 cents in March, 1964.

Cheddar Cheese:

Production: Cheddar cheese production in March amounted to approximately 8.4 million pounds, an increase of about 1.8 million pounds compared to production in the same month of the previous year.

Prices: The Belleville price of Ontario coloured cheese averaged 38 cents per pound in March. The comparative price in 1964 was 35 1/2 cents.

Ice Cream Mix:

The quantity of ice cream mix manufactured in March was approximately 1.8 million gallons or 92 thousand gallons more than that produced a year ago.

TABLE 15.- Total Reported Domestic Sales of Skim Milk Powder with Related Price Data, Quebec and Ontario, April, 1965.

(Data on Export Sales not included due to disclosure provisions of Statistics Act)

Province and classification	Domestic sales of skim milk powder			
	Total reported	Range of reported prices(2)	Weighted average selling price F.O.B. plant (net)	Price range of "bulk of sales
	'000 lb.	¢ per lb.	¢ per lb.	¢ per lb.
Quebec:				
Spray	3,824	13.8 - 17.8	14.71	14.6 - 15.0
Roller	1,135	10.8 - 15.8	13.50	13.6 - 14.0
Feed	234	12.8 - 14.8	13.28	12.6 - 13.0
Ontario:				
Spray	3,837	12.8 - 17.3	14.66	14.1 - 14.5
Roller	1,785	11.8 - 15.8	13.50	13.6 - 14.0
Feed	68	4.8 - 12.8	10.23	10.1 - 10.5

(1) At time of publication reports had not been received from 5 of 69 plants listed as producing in Quebec and Ontario, therefore, the table should not be interpreted as covering total sales in these provinces.

(2) Mid-points of lowest and highest half cent range in which sales were reported.

Livestock and Animal Products Section, Agriculture Division

Issued Wednesday, May 26, 1965.
