PASTURE CONDITIONS ON FARMS KEEPING MILK COWS

MAY 15th 1965

MAY 15th 1964

DERIVED FROM REPORTS BY ABOUT 4,800 CORRESPONDENTS.

PRELIMINARY INDICATIONS OF THE DAIRY SITUATION, MAY, 1965.

The preliminary estimate of milk produced in May is 1,779,000,000 pounds. This is 4.2 per cent lower than production in the same month last year and would make the total estimate of production during the first five months of the year 6,644,000,000 pounds. This is 0.7 per cent below production in the January-May period a year ago.

Slightly more than 65 per cent of the milk produced in May, or 1,162,000,000 pounds, was used for dairy factory products. This was 5.5 per cent below factory utilization in May, 1964. Creamery butter production during the month used 814,000,000 pounds of milk, 7.3 per cent less than in May, 1964, while milk used for factory cheese and concentrated whole milk products was down 0.6 and 4.3 per cent, respectively. Approximately 6.4 per cent more milk was used for the manufacture of ice cream mix than in May a year ago. During the January-May period, 1.2 per cent less milk was utilized for dairy factory products than in the corresponding period in 1964.

TABLE 1. Preliminary Estimates of Milk Equivalent of Dairy Factory Products, May and January to May, 1964 and 1965.

Product	May			January - May		
	1964	1965	Percentage change	1964	1965	Percentage change
	'000 lb.			'000 lb.		
			%			%
Creamery butter ..	878,155	813,782	- 7.3	2,608,959	2,497,343	- 4.3
Factory cheese ...	188,024	186,914	- 0.6	523,226	578,450	+10.6
Concentrated whole milk products ...	111,118	106,323	- 4.3	398,767	394,048	- 1.2
Ice cream mix	51,329	54,603	+ 6.4	183,593	198,324	+ 8.0
Totals	1,228,626	1,161,622	- 5.5	3,714,545	3,668,165	- 1.2

Fluid sales of milk and cream during May, for the purpose of the preliminary estimate, are calculated at 433,600,000 pounds, an increase of 1.8 per cent over fluid sales in May, 1964. This assumes the same relationship to year-earlier estimates as for the February-April period.

According to indications from the monthly survey of farms keeping milk cows, milk and cream consumed in farm homes was 4.2 per cent below that used in May, 1964, while milk used for livestock feeding dropped 10.5 per cent from that a year ago. Reports from farm dairy correspondents participating in the survey, indicate 2.0 per cent fewer cows kept on farms at May 15, and 1.1 per cent less cows being milked than at the same date last year. Milk production per cow, for cows milked on farms in the sample, decreased 2.9 per cent below the level at May 15, 1964.

Except for the prairie provinces, weather conditions throughout May were generally cool and dry, and drought conditions were much in evidence in eastern Canada, particularly in Ontario. Above normal rainfall and below normal temperatures, however, retarded planting operations in nearly all sections of the Prairies. Relatively heavy damage due to winterkill was reported from most provinces. Regional pasture conditions at May 15, 1964 and 1965, are shown by the maps on the opposite page.

FARM MILK PRODUCTION, UTILIZATION AND CASH RECEIPTS IN APRIL, 1965.

Farm Milk Production: The estimated quantity of milk produced on farms in April amounted to 1,524 million pounds, an increase of 21 million pounds or 1.4 per cent over that of April, 1964. Of this amount, 894 million pounds or 59 per cent was utilized in factory production, and approximately 433 million pounds or 28 per cent was used for fluid sales. During the January-April period, the estimated production was 4,865 million pounds, an increase of 28 million pounds over that produced in the same period of the previous year. The quantity of milk utilized for factory production in the January - April period amounted to 2,507 million pounds while fluid sales accounted for 1,721 million pounds.

Fluid Sales: Sales of fluid milk and cream, the latter expressed as milk, amounted to 433 million pounds in April, an increase of approximately 15 million pounds in comparison with April of the previous year. This included about 365 million pounds of fluid milk, comprising about 24 per cent of the farm milk supply, and fluid cream sales of 68 million pounds representing about 4 per cent. During the four month period, fluid sales totalled 1,721 million pounds, an increase of 29 million pounds or 1.7 per cent over those of the corresponding 1964 period.

Farm Butter: Butter made on farms in April amounted to 287,000 pounds, decreasing 32 per cent from the corresponding month in 1964. For the January-April period, 1,114,000 pounds were produced, a decrease of 30 per cent from the same period last year.

Farm Cash Receipts: Cash receipts from the sale of dairy products in April amounted to \$44,374,000. This represented an increase of 6.9 per cent or \$2,870,000 in comparison with the same month last year. The weighted average value of \$3.34 per hundred pounds of milk was 15 cents higher than in April, 1964. Fluid milk at \$4.99 per hundred was 11 cents higher than in April, 1964. Creamery butter-fat increased from 70.7 cents to 74.6 cents per pound, and farm butter at 57 cents per pound was the same as in April, 1964. Milk used in manufacture averaged \$2.89 per hundred, 13 cents higher than in April, 1964. Cheese milk increased to \$3.05 per hundred, an increase of 25 cents per hundred in comparison with the same month a year earlier.

Estimates of farm cash receipts cover all money received by farmers for the sale of milk, cream and farm butter. Government subsidies and bonuses are included in these estimates. The estimates, however, do not make any allowances for costs incurred by farmers in the production of dairy products.

PRODUCTION AND PRICES OF DAIRY PRODUCTS IN APRIL, 1965.

Creamery Butter:

Production: Creamery butter production amounted to 26.1 million pounds in April, 1965, a decrease of approximately 733 thousand pounds as compared to production in the same month of the previous year.

Stocks: Combined holdings of creamery butter and butter oil (in butter equivalent) in store and transit on May 1, 1965, amounted to 59.6 million pounds, approximately 109.2 million pounds lower than at May 1 last year. On April 1, 1965, stock holdings at 62.5 million pounds were 113.8 million pounds less than at the same date a year earlier.

Supply: The combined quantity of creamery butter and butter oil represented by stocks on April 1, plus production and imports during the month amounted to 88.6 million pounds of butter at April 30, 1965. This was a decrease of approximately 114.5 million pounds compared to the corresponding supply figure at April 30, 1964.

Domestic Disappearance: The combined domestic disappearance of creamery butter and butter oil in April amounted to 28.9 million pounds of butter, an increase of 1.6 million pounds or 5.9 per cent more than the corresponding figure for the same month last year. On a per capita basis, it amounted to 1.49 pounds as compared with 1.42 pounds in April, 1964.

Prices at Montreal: Butter prices at Montreal, based on dealers' quotations for first grade solids, averaged 52 3/4 cents per pound in April, as against 51 cents in April, 1964.

Cheddar Cheese:

Production: Cheddar cheese production in April amounted to approximately 11.6 million pounds, an increase of about 1.3 million pounds compared to production in the same month of the previous year.

Prices: The Belleville price of Ontario coloured cheese averaged 38 cents per pound in April. The comparative price in 1964 was 35 1/2 cents.

Ice Cream Mix:

The quantity of ice cream mix manufactured in April was approximately 2.0 million gallons or 58 thousand gallons less than that produced a year ago.

TABLE 15. Total Reported Domestic Sales of Skim Milk Powder with Related Price Data, Quebec and Ontario, May, 1965.

(Data on Export Sales not included due to disclosure provisions of Statistics Act)

Province and classification	Domestic sales of skim milk powder			
	Total reported	Range of reported prices(2)	Weighted average selling price F.O.B. plant (net)	Price range of "bulk of sales
	'000 lb.	¢ per lb.	¢ per lb.	¢ per lb.
Quebec:				
Spray	5,475	13.3 - 18.8	14.54	14.6 - 15.0
Roller	998	10.8 - 15.8	13.43	13.6 - 14.0
Feed	160	7.8 - 14.8	12.87	12.6 - 13.0
Ontario:				
Spray	3,386	12.3 - 17.8	14.48	14.1 - 14.5
Roller	1,575	12.3 - 14.3	13.33	13.1 - 13.5
Feed	83	4.8 - 12.8	11.11	12.6 - 13.0

(1) At time of publication reports had not been received from 6 of 70 plants listed as producing in Quebec and Ontario, therefore, the table should not be interpreted as covering total sales in these provinces.

(2) Mid-points of lowest and highest half cent range in which sales were reported.

Livestock and Animal Products Section, Agriculture Division

Issued Friday, June 25, 1965.
