THE DAIRY REVIEW

Vol. 27 No. 11

NOVEMBER 1966

Price \$2.00 per year

WHOLE MILK EQUIVALENT OF DAIRY FACTORY PRODUCTS, CANADA BY MONTHS 1965 AND 1966

PRELIMINARY INDICATIONS OF THE DAIRY SITUATION, NOVEMBER, 1966

The preliminary estimate of milk produced in November is 1,241,000,000 pounds. This is 2.5 per cent higher than production in the same month last year and would make the total estimate of production during the first eleven months of the year 17,044,000,000 pounds. This is 0.5 per cent below production in the January-November period a year ago.

Slightly more than 55 per cent of the milk produced in November, or 685,000,000 pounds, was used for dairy factory products. This was 5.4 per cent above factory utilization in November, 1965, with increased quantities going into all but concentrated whole milk products. Approximately 9.9 per cent less milk was utilized for the manufacture of concentrated whole milk products in November than a year ago, while that for butter, cheese and ice cream mix increased 4.3, 8.7 and 32.5 per cent, respectively. The decline in the use of butter for the manufacture of ice cream mix is reflected in the increased use of milk for that product. Approximately 48 per cent less butter was used for mix in November than in the same month a year earlier. During the January-November period, 0.1 per cent more milk was utilized for dairy factory products than in the corresponding period in 1965.

TABLE 1. Preliminary Estimates of Milk Equivalent of Dairy Factory Products, November and January to November, 1965 and 1966

Product	November			January - November		
	1965	1966	Percentage change	1965	1966	Percentage change
	'000 lb.		%	'000 lb.		%
Creamery butter....	432,198	450,801	+ 4.3	7,507,469	7,426,528	- 1.1
Factory cheese.....	131,662	143,061	+ 8.7	1,786,727	1,919,081	+ 7.4
Concentrated whole milk products....	54,750	49,347	- 9.9	924,878	811,111	- 12.3
Ice cream mix.....	31,763	42,099	+ 32.5	505,691	574,921	+ 13.7
Totals.....	650,373	685,308	+ 5.4	10,724,765	10,731,641	+ 0.1

Fluid sales of milk and cream during November, for the purpose of the preliminary estimate, are calculated at 442,100,000 pounds, an increase of 0.3 per cent over fluid sales in November, 1965. This assumes the same relationship to year-earlier estimates as for the August-October period.

According to indications from the monthly survey of farms keeping milk cows, milk and cream consumed in farm homes was 1.5 per cent above that used in November, 1965, while milk used for livestock feeding dropped 14.2 per cent from that a year ago. Reports from farm dairy correspondents participating in the survey indicate 0.9 per cent fewer cows kept on farms at November 15 than at the same date last year, but also that this decrease was offset by more cows being milked on farms in the sample and an increase in milk production per cow.

FARM MILK PRODUCTION, UTILIZATION AND CASH RECEIPTS IN OCTOBER, 1966

Farm Milk production: The estimated quantity of milk produced on farms in October amounted to 1,516 million pounds, an increase of 42 million pounds or 2.9 per cent over that of October, 1965. Of this amount, 954 million pounds or 63 per cent was utilized in factory production, and approximately 442 million pounds or 29 per cent was used for fluid sales. During the January - October period, the estimated production was 15,803 million pounds, a decrease of 113 million pounds below that produced in the same period of the previous year. The quantity of milk utilized for factory production in the January - October period amounted to 10,046 million pounds while fluid sales accounted for 4,347 million pounds.

Fluid Sales: Sales of fluid milk and cream, the latter expressed as milk, amounted to 442 million pounds in October, a decrease of approximately 1 million pounds in comparison with October of the previous year. This included about 375 million pounds of fluid milk, comprising about 25 per cent of the farm milk supply, and fluid cream sales of 67 million pounds representing about 4 per cent. During the ten month period, fluid sales totalled 4,347 million pounds, an increase of 6 million pounds or 0.1 per cent over those of the corresponding 1965 period.

Farm Butter: Butter made on farms in October amounted to 277,000 pounds, decreasing 10 per cent from the corresponding month in 1965. For the January - October period, 2,838,000 pounds were produced, a decrease of 11 per cent from the same period last year.

Farm Cash Receipts: Cash receipts from the sale of dairy products in October amounted to \$49,932,000. This represented an increase of 5.6 per cent or \$2,636,000 in comparison with the same month last year. The weighted average value of \$3.58 per hundred pounds of milk was 9 cents higher than in October, 1965. Fluid milk at \$5.57 per hundred was 50 cents higher than in October, 1965. Creamery butterfat decreased from 78.9 cents to 76.1 cents per pound, and farm butter at 59 cents per pound was 2 cents higher than in October, 1965. Milk used in manufacture averaged \$3.14 per hundred, 7 cents higher than in October, 1965. Cheese milk decreased to \$3.22 per hundred, a decrease of 5 cents per hundred in comparison with the same month a year earlier.

Farm cash receipts estimates cover all money received by farmers for the sale of milk, cream and farm butter. Where applicable, quality premiums, bonuses and patronage dividends are included in the estimates. The estimates do not make any allowances for costs incurred by farmers in the production of dairy products. During the current dairy year, April 1, 1966 to March 31, 1967, both federal and provincial subsidy payments with respect to manufacturing milk and cream are treated as Supplementary Payments and consequently are not reflected in average farm unit values and farm cash receipts published in this report. In addition to farm cash receipts, producers of manufacturing milk and cream in Canada receive direct payments from the Agricultural Stabilization Board of 75 cents a hundred for 3.5 per cent milk or the equivalent of 21.43 cents per pound butterfat on cream. Quebec producers also receive 5 cents per pound of fat of the product delivered from April 1 to September 30 and 10 cents per pound of fat of the product delivered from October 1 to March 31, and effective from October 1, 1966, Ontario producers also receive 25 cents a hundred on all industrial or manufactured milk, basis 3.5 per cent milk fat, and 25 cents a hundred on all secondary and excess milk delivered to the dairy, as well as 10 cents per pound milk fat on all cream grading Special and First Grade. The latter two subsidy payments are being paid by the provincial government concerned.

PRODUCTION AND PRICES OF DAIRY PRODUCTS IN OCTOBER, 1966

Creamery Butter

Production: Creamery butter production amounted to 27.7 million pounds in October, 1966, an increase of approximately 1.2 million pounds as compared to production in the same month of the previous year.

Stocks: Combined holdings of creamery butter and butter oil (in butter equivalent) in store and transit on November 1, 1966, amounted to 83.4 million pounds, approximately 20.5 million pounds lower than at November 1 last year. On October 1, 1966, stock holdings at 86.9 million pounds were 22.1 million pounds less than at the same date a year earlier.

Supply: The combined quantity of creamery butter and butter oil represented by stocks on October 1, plus production and imports during the month, amounted to 114.6 million pounds of butter at October 31, 1966. This was a decrease of approximately 20.9 million pounds compared to the corresponding supply figure at October 31, 1965.

Domestic Disappearance: The combined domestic disappearance of creamery butter and butter oil in October amounted to 31.1 million pounds of butter, a decrease of 0.4 million pounds or 1.3 per cent less than the corresponding figure for the same month last year. On a per capita basis, it amounted to 1.57 pounds as compared with 1.61 pounds in October, 1965. Data excludes butter imported under special permit and processed into materials for food preparations for export.

Prices at Montreal: Butter prices at Montreal, based on dealers' quotations for first grade solids, averaged 60 3/4 cents per pound in October, as against 55 1/8 cents in October, 1965.

Cheddar Cheese

Production: Cheddar cheese production in October amounted to approximately 15.3 million pounds, an increase of about 0.7 million pounds compared to production in the same month of the previous year.

Prices: The Belleville price of Ontario coloured cheese averaged 43 1/8 cents per pound in October. The comparative price in 1965 was 41 3/4 cents.

Ice Cream Mix

The quantity of ice cream mix manufactured in October was approximately 1.7 million gallons or 45 thousand gallons more than that produced a year ago.

(1) See paragraph 5, page 4, re farm cash receipts.

(2) Includes the milk equivalent of cheddar and other factory cheese made from whole milk and cream.

(3) Not fully comparable to other provinces, weighted according to relative quantities of milk and cream deliveries.

(4) Average values for milk used in ice cream mix based on 10% quota milk and 20% surplus milk from whole milk producers, compared with averages based on manufacturing milk in 1965. (5) Based on Class III accounting value.

TABLE 11. Creamery Butter: Domestic Disappearance for October, January to October and January to December, 1957 to 1966(1)

Year	October		January to October		January to December	
	Total	Per capita	Total	Per capita	Total	Per capita
	'000 lb.	lb.	'000 lb.	lb.	'000 lb.	lb.
1957	28,330	1.71	267,325	16.10	321,554	19.36
1958	29,236	1.71	258,229	15.12	312,255	18.28

TABLE 16. Total Reported Domestic Sales of Skim Milk Powder with Related Price Data, Quebec and Ontario, November, 1966(1)

(Data on Export Sales not included due to disclosure provisions of Statistics Act)

Province and classification	Domestic sales of skim milk powder			
	Total reported	Range of reported prices(2)	Weighted average selling price F.O.B. plant (net)	Price range of "bulk of sales"
	'000 lb.	¢ per lb.	¢ per lb.	¢ per lb.
Quebec:				
Spray	6,029	13.3 - 18.8	17.59	17.6 - 18.0
Roller	1,800	11.3 - 16.3	14.51	14.6 - 15.0
Feed	802	4.3 - 13.8	12.13	13.1 - 13.5
Ontario:				
Spray	6,866	13.8 - 19.8	17.67	17.6 - 18.0
Roller	799	12.8 - 15.8	14.88	14.6 - 15.0
Feed	107	4.8 - 15.8	12.87	13.6 - 14.0

(1) At time of publication reports had not been received from 5 of 67 plants listed as producing in Quebec and Ontario, therefore, the table should not be interpreted as covering total sales in these provinces.

(2) Mid-points of lowest and highest half cent range in which sales were reported.
