JUNE 1966

Price: \$2.00 per year

PASTURE CONDITIONS ON FARMS KEEPING MILK COWS

JUNE 15th 1966

JUNE 15th 1965

DERIVED FROM REPORTS BY ABOUT 4,500 DAIRY CORRESPONDENTS

PRELIMINARY INDICATIONS OF THE DAIRY SITUATION, JUNE, 1966

The preliminary estimate of milk produced in June is 2,125,000,000 pounds. This is 1.1 per cent lower than production in the same month last year and would make the total estimate of production during the first six months of the year 8,730,000,000 pounds. This is 0.9 per cent below production in the January-June period a year ago.

Slightly more than 72 per cent of the milk produced in June, or 1,538,000,000 pounds, was used for dairy factory products. This was 1.2 per cent below factory utilization in June, 1965. Creamery butter production during the month used 1,094,000,000 pounds of milk, 2.9 per cent less than in June, 1965, while milk used for concentrated whole milk products was down 14.0 per cent. Approximately 10.4 and 7.3 per cent more milk was utilized for the manufacture of factory cheese and ice cream mix, respectively, than in June a year ago. During the January-June period, 0.6 per cent less milk was utilized for dairy factory products than in the corresponding period in 1965.

TABLE 1. Preliminary Estimates of Milk Equivalent of Dairy Factory Products, June and January to June, 1965 and 1966

Product	June			January - June		
	1965	1966	Percentage change	1965	1966	Percentage change
	'000 lb.			'000 lb.		
			%			%
Creamery butter ...	1,126,804	1,094,465	- 2.9	3,644,433	3,600,160	- 1.2
Factory cheese ...	240,302	265,306	+ 10.4	823,808	895,821	+ 8.7
Concentrated whole milk products ..	120,922	103,973	- 14.0	512,308	444,030	- 13.3
Ice cream mix	68,832	73,873	+ 7.3	265,672	276,734	+ 4.2
Totals	1,556,860	1,537,617	- 1.2	5,246,221	5,216,745	- 0.6

Fluid sales of milk and cream during June, for the purpose of the preliminary estimate, are calculated at 437,600,000 pounds, an increase of 0.5 per cent over fluid sales in June, 1965. This assumes the same relationship to year-earlier estimates as for the March-May period.

According to indications from the monthly survey of farms keeping milk cows, milk and cream consumed in farm homes was 4.1 per cent below that used in June, 1965, while milk used for livestock feeding dropped 3.1 per cent from that a year ago. Reports from farm dairy correspondents participating in the survey, indicate 3.3 per cent fewer cows kept on farms at June 15, and 3.7 per cent less cows being milked than at the same date last year.

Pasture conditions throughout Canada at June 15 were generally good to excellent except for part of southern Saskatchewan where dry conditions prevailed and rain was needed to promote crop and pasture growth. This compares with the very excellent conditions in the West a year ago and the drought conditions experienced throughout most of Eastern Canada during June, 1965. Regional pasture conditions at June 15, 1965 and 1966, are shown by the maps on the opposite page.

FARM MILK PRODUCTION, UTILIZATION AND CASH RECEIPTS IN MAY, 1966

Farm Milk production: The estimated quantity of milk produced on farms in May amounted to 1,816 million pounds, an increase of 30 million pounds or 1.7 per cent over that of May, 1965. Of this amount, 1,204 million pounds or 66 per cent was utilized in factory production, and approximately 436 million pounds or 24 per cent was used for fluid sales. During the January-May period, the estimated production was 6,605 million pounds, a decrease of 58 million pounds below that produced in the same period of the previous year. The quantity of milk utilized for factory production in the January-May period amounted to 3,679 million pounds while fluid sales accounted for 2,169 million pounds.

Fluid Sales: Sales of fluid milk and cream, the latter expressed as milk, amounted to 436 million pounds in May, an increase of approximately 3 million pounds in comparison with May of the previous year. This included about 369 million pounds of fluid milk, comprising about 20 per cent of the farm milk supply, and fluid cream sales of 67 million pounds representing about 4 per cent. During the five month period, fluid sales totalled 2,169 million pounds, an increase of 14 million pounds or 0.6 per cent over those of the corresponding 1965 period.

Farm Butter: Butter made on farms in May amounted to 320,000 pounds, decreasing 10 per cent from the corresponding month in 1965. For the January-May period, 1,377,000 pounds were produced, a decrease of 7 per cent from the same period last year.

Farm Cash Receipts: Cash receipts from the sale of dairy products in May amounted to \$53,792,000. This represented an increase of 4.4 per cent or \$2,281,000 in comparison with the same month last year. The weighted average value of \$3.28 per hundred pounds of milk was 7 cents higher than in May, 1965. Fluid milk at \$5.18 per hundred was 21 cents higher than in May, 1965. Creamery butterfat decreased from 74.8 cents to 73.9 cents per pound, and farm butter at 58 cents per pound was 1 cent higher than in May, 1965. Milk used in manufacture averaged \$3.01 per hundred, 16 cents higher than in May, 1965. Cheese milk increased to \$3.11 per hundred, an increase of 16 cents per hundred in comparison with the same month a year earlier.

Farm cash receipts estimates cover all money received by farmers for the sale of milk, cream and farm butter. Where applicable, quality premiums, bonuses and patronage dividends are included in the estimates. The estimates do not make any allowances for costs incurred by farmers in the production of dairy products. Beginning April 1, 1966, average unit values will no longer include the federal subsidy on butter nor the Quebec butterfat premium on manufacturing milk. The direct subsidy on butter has been discontinued and since the Quebec premium will be made directly to producers, such payments will be treated as Supplementary Payments and not considered in farm cash receipts. Previously, both the federal and Quebec payments were incorporated in the plant price to producers.

PRODUCTION AND PRICES OF DAIRY PRODUCTS IN MAY, 1966

Creamery Butter

Production: Creamery butter production amounted to 36.6 million pounds in May, 1966, an increase of approximately 1.6 million pounds as compared to production in the same month of the previous year.

Stocks: Combined holdings of creamery butter and butter oil (in butter equivalent) in store and transit on June 1, 1966, amounted to 42.2 million pounds, approximately 20.3 million pounds lower than at June 1 last year. On May 1, 1966, stock holdings at 33.9 million pounds were 25.5 million pounds less than at the same date a year earlier.

Supply: The combined quantity of creamery butter and butter oil represented by stocks on May 1, plus production and imports during the month amounted to 70.5 million pounds of butter at May 31, 1966. This was a decrease of approximately 23.9 million pounds compared to the corresponding supply figure at May 31, 1965.

Domestic Disappearance: The combined domestic disappearance of creamery butter and butter oil in May amounted to 28.3 million pounds of butter, an increase of 1.3 million pounds or 4.7 per cent more than the corresponding figure for the same month last year. On a per capita basis, it amounted to 1.43 pounds as compared with 1.38 pounds in May, 1965. Data excludes butter imported under special permit and processed into materials for food preparations for export.

Prices at Montreal: Butter prices at Montreal, based on dealers' quotations for first grade solids, averaged 59 cents per pound in May, as against 54 7/8 cents in May, 1965.

Cheddar Cheese

Production: Cheddar cheese production in May amounted to approximately 16.9 million pounds, an increase of about 1.4 million pounds compared to production in the same month of the previous year.

Prices: The Belleville price of Ontario coloured cheese averaged 43 cents per pound in May. The comparative price in 1965 was 38 cents.

Ice Cream Mix

The quantity of ice cream mix manufactured in May was approximately 2.5 million gallons or 88 thousand gallons less than that produced a year ago.

Totals .. 1965	64,736	17,950	17,113	9,583	91,085	42	200,509
1966	64,647(2)	20,105	16,618	10,274	94,866	45	206,555(2)

(1) See paragraph 5, page 4, re farm cash receipts.

(2) Includes an upward revision of \$424,000 for April, 1966. Average farm values for April, 1966 (Vol. 27 No. 5., Page 13) should therefore be adjusted to read as follows: Ontario creamery butter-fat 71.2¢ per lb. and Canada 73.2¢ per lb.; Ontario average of total sales \$3.40 per cwt. of milk and Canada \$3.41 per cwt. of milk.

TABLE II. Average Farm Values of Butter-fat, Milk and Farm Butter, by Province, May, 1965 and 1966

Province and year	Creamery butter-fat	Cheese milk (1)	Milk for ice cream mix and concentration	Fluid milk	Farm butter	Average of total sales
	per lb. ¢	per cwt. \$	per cwt. \$	per cwt. \$	per lb. ¢	\$ per cwt. of milk

(1) Includes the milk equivalent of cheddar and other factory cheese made from whole milk and cream. (2) Not fully comparable to other provinces, weighted according to relative quantities of milk and cream deliveries. (3) Average values for milk used in ice cream mix based on 10% quota milk and 20% surplus milk from whole milk producers, compared with averages based on manufacturing milk in 1965. (4) Based on class III accounting value.

TABLE 12. Creamery Butter: Domestic Disappearance for May, January to May, and January to December, 1957 to 1966

Year	May		January - May		January to December

TABLE 17. Total Reported Domestic Sales of Skim Milk Powder with Related Price Data, Quebec and Ontario, June, 1966(1)

(Data on Export Sales not included due to disclosure provisions of Statistics Act)

Province and classification	Domestic sales of skim milk powder			
	Total reported	Range of reported prices(2)	Weighted average selling price F.O.B. plant (net)	Price range of "bulk of sales"
	'000 lb.	¢ per lb.	¢ per lb.	¢ per lb.
Quebec:				
Spray	7,105	13.8 - 19.8	17.55	17.1 - 17.5
Roller	690	11.8 - 15.3	14.04	14.1 - 14.5
Feed	110	4.8 - 14.8	13.62	13.6 - 14.0
Ontario:				
Spray	5,917	13.8 - 19.8	17.71	17.6 - 18.0
Roller	1,582	12.8 - 16.3	14.64	14.1 - 14.5
Feed	117	4.8 - 14.8	13.00	13.6 - 14.0

(1) At time of publication reports had not been received from 5 of 64 plants listed as producing in Quebec and Ontario, therefore, the table should not be interpreted as covering total sales in these provinces.

(2) Mid-points of lowest and highest half cent range in which sales were reported.
