Melationship of Milk and Cream Sales in Selected
Markets total Sales in Each of Five EconomicAreas of Canada6

Part I February Estimate of Fluid Milk and Cream Salos in Canada
Combined Saless The combined sales of fluid milk and cream in the whole of Canada amounted to $326,851,000$ pounds during the month of February，nearly $2 \frac{1}{1}$ million pounds or approximately i per cont less than those of the same month last year．of this amount， 85 per cent was sold as milk and 15 per cont was sold as crean．During the twomonth period，January to February，fluid sales reached a total of $676,061,000$ pounds，a decline of almost $1 \frac{1}{4}$ million pounds or ons quarter of one per cent as come pered with those of the corresponding period in 1948 ．

Milk Sales．The quantity of fluid milk sold in Canada during February amounted to $27 \overline{6,361,000}$ pounds，which was nearly 1 million pounds below the salas of February，1948。 During the january－February period of 1949 fluld milk sales amounted to $568,698,000$ pounds．Compared with the same period of the previous year these sales represent an increase of almost $\frac{1}{2}$ million pounds，or one－tenth of one per cento

Croam Sales 8 Cream Sales exprossed as milk amounted to $50,490,000$ pound in the month of February．These represented a decreass of slightiy more than $1 \frac{1}{4}$ mililion pounds or $2 \frac{1}{2}$ per cont in comparison with those of the same month last year．During the first two months of the year，cream sales on milk basis were estimated at $107,363,000$ pounds，falling nearly $1 \frac{3}{4}$ million pounds or $81 i g h t l y$ more than $1 \frac{1}{2}$ per cent from January－February，1948。

Part II－February Sales of Milk and Cream Reported from Forty Markets in Canadao． （Table I－IX）

Combined Saless In forty Canadian markets selected for this review，milk and cream sales（the latter expreseed as milk）reached a total of $171,660,000$ pounds in February，1949，in comparison with 172，718，000 pounds in February，1948，representing a reduction of about one ohalf of one per cent．During the januaryofebruary period the percentage reduction was less than that of February．

Milk Sales：Sales of fluid milk in these forty markets smounted to 141，491，000 pounds（54，841，000 quarts）during February．Compared with 141，982，000 pounds （ $55,032,000$ quarts）in the same month of the previous year，a decline of nearly one． half of one per cent was indicated．During the twomonth period，January to February． milk sales shown in this report were approximately the same as those reported for the same period a year ago．

Cream Saless The February sales of fluid cream in forty Canadian markets amounted to $30,169,000$ pounds，expressed as milk（ $2,854,000$ quarts of cream），while corresponding figures for the same month of 1948 were $30,736,000$ pounds（ $2,933,000$ quarts of cream）o On milk basis，February sales declined nearly 2 per cent from the same month last year，and during the twomonth period，January ofebruary，there was a reduction of approximately $1 \frac{1}{4}$ per cent as compared with the same period in 1948。 How ever，on a quart basis，cream showed a drop of nearly 3 per cent in February and a reduction of almost 2 per cent in the two－month period ended February．

## Part III－Estimated Per Capita Per Day Consumption of Milk and Croam In Canada

In the month of February the overwall consumption of mill and cream by the milk purchasing population in urban areas increased from a daily average of 0.84 pints of milk per capita in 1948 to 0.85 pints in 1949。 Milk alone rose from 0.71 pints in Fobruary，1948，to 0.72 pints in February，1949．Cream consumption in torms of milk which was 0.13 pints per capita in February 1948 stood at the same level in February， 1949。
