Price: \$2.00 per year.

## PRODUCTION OF EGGS

Sepfember, 1959

The estimated production of eggs in Canada 1 during September was $33,723,000$ dozen as compared with $33,740,000$ dozen for the same month last year. Although the number of layers was 2.8 per cent lower than in September 1958 a higher rate of lay resulted in the production being about the same as last year.

With the usual seasonal increase in the number of pullets oomencing to lay in September the number of layers increased by 8.5 per cent between August and Septerber while the rate of lay declined from 2,489 per hundred layers to 1,377 but increased from the rate of 1,335 in September 1958.

Froducers sold 29.0 million dozen egge for market during Septsaber compared with 29.2 million dozen in September 1958 and 28.6 sillion dozen in August 2959. The value of eggs bold for market declined from $\$ 11,597,000$ in September 1958 to $\$ 10,296,000$ in September 1959. The estimate of eggs sold wes 6 per cent lower than in September 1958, while the decrease in value amounted to 11.2 per cent, which indicates a lower average price to producer than in 1958. The average price incressed to 35.5 cents from 33.3 cents in August.

FROZAN EGGS: Processing to frozen egg in all plants under inspection reporting to the Department of Agriculture during September 1959 was 2,583,935 pounds as compared with $1,145,882$ pounds in Septerber 1958.

Exclusive of Newfoundland.
