PREFACE

The present report on the live stock and allied industries in Canada, 1923, is the fifth of its series, which now covers the period from 1909 to 1923. The Live Stock Branch and Health of Animals Branch of the Department of Agriculture, Canada, have co-operated in the preparation of the report. Annual summaries of the principal statistics of manufactures based on animal products are included for the years 1919 to 1922. These were collected under the Census of Industry conducted by the Bureau. Information as to railway freight rates has been made available through the co-operation of the Board of Railway Commissioners for Canada.

An historical sketch of the live stock and kindred industries in Canada was included in the report for 1922. Data from the census of 1921 were not complete and census figures for 1921 showing home-made butter and cheese, by provinces; animals on farms in Canada, by provinces; and animals killed or sold, and wool sold in Canada, by provinces, are now shown in an appendix to the present report. A table showing the agricultural revenue and wealth of Canada in live stock (farm animals) in 1923, continuing a similar table in the historical review of the 1922 report, is also included in the appendix.

The report as a whole has been prepared in the Internal Trade Branch of the Dominion Bureau of Statistics under the direction of Mr. F. J. Horning, B.A., F.S.S., Chief of the Branch.

LIVE STOCK AND ANIMAL PRODUCTS STATISTICS, 1923

INTRODUCTION AND SUMMARY

Live Stock.—The number of cattle on farms as at June 15, decreased from 9,719,869 in 1922 to 9,246,231 in 1923, of which 3,659,365 were classified as milch cows and 5,586,866 as other cattle. The number of sheep fell from 3,263,525 to 2,753,860, while the number of swine increased from 3,915,684 in 1922 to 4,405,316 in 1923 and poultry from 42,930,562 to 45,469,292. Data are included in tables I, II and III showing the numbers of farm live stock and poultry in Canada by provinces from 1919 to 1923, with value per head and total farm value. Table IV gives a comparison of the number of live stock in Canada with other branches of agriculture, more particularly field crops.

The marketing and disposition of live stock at principal markets is shown in tables V and VI, with counties and districts in which the live stock originated in table VII. Sales of cattle at public stockyards fell off by 32,000 head in 1923, sales of calves by 10,000 head and sales of sheep and lambs by 86,000 head. These decreases were more than offset by an increase in hog marketings amounting to approximately 196,000 head.

The stockyard at Toronto was the only one to show an increase in cattle marketings, a gain of almost 30,000 head being recorded. Decreases at other stockyards were as follows: Montreal, 9,780; Winnipeg, 11,880; Calgary, 12,250; Edmonton, 23,509; Prince Albert, 901; Moose Jaw, 1,347.

The marketings of calves showed but little change at Toronto and Winnipeg, the sales at Toronto in 1923 being but 200 less than in 1922, while sales at Winnipeg were 222 head greater. Montreal sales in 1923 decreased 3,282 from 1922. Calgary and Edmonton sales decreased 4,975 and 2,533 respectively, making a total decrease in the province of Alberta of 7,508. Prince Albert sales showed a decrease of 65 and Moose Jaw an increase of 153.

Hog sales reached a grand total of 1,031,656 in 1923, as compared with 835,773 in 1922. Increases were recorded at all points as follows: Toronto, 58,429; Montreal, 37,360; Winnipeg, 67,015; Calgary, 6,075; Edmonton, 2,454; Prince Albert, 5,232; Moose Jaw, 19,318.

Sales of sheep and lambs at Canadian stockyards fell off from 554,127 in 1922 to 467,586 in 1923. All points showed fewer sales, decreases being as follows: Toronto, 28,671; Montreal, 28,267; Winnipeg, 16,441; Calgary, 4,177; Edmonton, 6,459; Prince Albert, 551; Moose Jaw, 1,975.

The information as to the interprovincial movement of live stock shows that Saskatchewan was the largest shipper of cattle to other provinces in 1923. This province shipped a total of 177,089 head, 164,780 going to other provinces and 12,309 being for export. Manitoba received 157,025 head from Saskatchewan. Manitoba was also a heavy shipper, sending 66,118 head for export and 93,703 to other provinces, a total of 159,821. Alberta shipped 108,208 head, 2,076 for export and 106,132 to other provinces. Manitoba received 42,906 head of the Albertan shipments. Total receipts of cattle in Manitoba from other provinces amounted to 200,175, while Ontario received 104,209 head.

The interprovincial movement of calves in 1923 was comparatively light as compared with other animals. Ontario was the largest shipper, sending 58,659 to other provinces and 17,756 for export, a total of 76,415. Quebec received 63,805 head from other provinces.

Alberta was the principal shipper of sheep, 46,148 head going to other provinces and 2,129 for export, a total of 48,277 head. Saskatchewan shipped a total of 19,158 head, Ontario, 14,501, and Quebec 28,492. British Columbia received a total of 40,171 head, 39,590 coming from Alberta.

The movement of hogs was heaviest in Ontario, which shipped 208,615—208,528 going to other provinces and 87 for export. Quebec received 208,426 of these shipments. Saskatchewan was the second largest shipper, sending 165,157 to other provinces and 1 for export, a total of 165,158. Manitoba received 140,198 and Ontario 17,613 of these shipments. All shipments of hogs from Alberta were to other provinces and amounted to 142,513 head. British Columbia received 68,203; Quebec, 25,267; Ontario, 22,313; and Manitoba, 21,503 hogs from Alberta. Total shipments to Quebec from all other provinces amounted to 255,590, to Manitoba, 161,803, to British Columbia 68,497 and to Ontario 56,552.

The packing industry slaughtered 2,256,394 hogs in inspected establishments, an increase of 329,182 over 1922 slaughterings of 1,927,212. The numbers of cattle and sheep slaughtered in inspected establishments were less in 1923 than in 1922, totals for 1923 with corresponding numbers for 1922 in brackets, being as follows: Cattle 812,142 (831,701); Sheep 499,745 (596,403).

International Trade in Animal products.—Canada stood seventh among the leading cattle-holding nations according to the latest available official returns as to animals on farms. United States was the largest holder with 67,240,000 head; Argentina had 28,138,196; Germany, 16,652,831; Australia, 14,530,081; France, 13,575,840; Great Britain, 12,059,360; and Canada, 9,246,231.

Australia was the largest holder of sheep with 82,226,470 head. Other principal sheep-raising countries had sheep on farms as follows: Argentina, 46,133,866; United States, 37,223,000; United Kingdom, 23,747,000; New Zealand, 22,928,864. Canada stood tenth with 2,753,860.

Principal countries with swine on farms together with the number shown, were as follows: United States, 68,227,000; Germany, 17,225,855; France, 5,195,740; Canada, 4,405,316; United Kingdom, 3,492,481; Denmark, 2,852,826.

A summary of the statistics showing the international trade of principal countries in live stock and animal products is given in table XXIII. The last year for which complete information is available is 1921.

Data as to Canada's exports and imports of live stock and animal products is shown in tables XXIV, XXV and XXVI. During the fiscal year ended March 31, 1923, exports of live cattle from Canada amounted to 258,977 head, valued at \$9,128,476. Imports are shown of 963 cattle, valued at \$143,953, leaving a net export of 258,014 head of cattle with a value of \$8,984,523. Sheep numbering 75,783 valued at \$498,060, were exported while 8,005 head valued at \$48,987 were imported. Net exports amounted to 67,778 head with a value of \$449,073. The exports of live swine were small, amounting to 2,305 animals with a value of \$45,209. Imports of swine for improvement of stock amounted to 13 valued at \$977, while 5,210 pounds valued at \$1,419 were imported for other purposes. The net exports of live swine were valued at \$42,813.

Among the exports of animal products, pork was the most important, 108,523,900 pounds with a value of \$23,583,194. Cheese stood second with an export of 114,548,900 pounds valued at \$20,828,234. Beef exports amounted to 29,145,800 pounds valued at \$2,941,745. The value of all meats exported in the fiscal year 1922-3 was \$28,244,664. Butter exports increased to 21,994,578 pounds, valued at \$8,243,138. Other important items were 3,613,531 dozens of eggs valued at \$1,410,444 and 8,667,400 pounds of wool valued at \$2,363,931.

Prices.—In spite of the falling-off in the number of cattle marketed, prices were generally lower than in 1922. At the peak of prices in the spring, values did not, on the whole, reach the level of 1922. The weighted average price of sales of total cattle on all markets was \$4.40 per cwt. in 1923, as compared with \$4.37 in 1922 and \$5.39 in 1921. The United States tariff still precluded any considerable outlet for surplus cattle and the removal of the British embargo did not materially affect conditions. Calf prices were also lower in 1923, the weighted average price of all sales for the years 1923, 1922 and 1921 being \$6.05, \$6.53 and \$7.24 per cwt. respec-

tively. The heavy marketings of hogs, not being met by adequate demand, depressed prices considerably. The weighted average prices on all markets were \$9.20, \$11.47 and \$11.55 per cwt. respectively for the years 1923, 1922 and 1921. Prices obtained for sheep and lambs, however, were higher in 1923. The weighted average price of total sales on all markets was \$10.20 per cwt. in 1923, compared with \$9.50 in 1922 and \$7.75 in 1921. Prices in the western markets showed the strongest advance.

Price of live animals were reflected in meat and pork prices. Dressed beef hindquarters at Toronto fell from an average of \$16.43 per cwt. in 1922 to \$14.98 per cwt. in 1923. Bacon and ham prices were also lower.

The prices of dairy products showed, on the whole, an upward tendency. Milk was slightly higher at both Montreal and Toronto. Prices of butter, creamery prints, at Montreal averaged 40.67 cents per pound, compared with 38.25 cents in 1922. Toronto prices also increased, the average price per pound for creamery prints being 41.6 cents in 1923 and 40.5 cents in 1922. Cheese prices in Montreal rose from an average of 19.9 cents per pound in 1922 to an average of 23.1 cents in 1923.

Complete data as to prices of live stock and animal products, both wholesale and retail, are given in tables XXVII and XXVIII. For purposes of comparison, live stock prices at Chicago during 1923 are included in table XXIX.

Freight rates.—Tables XXX to XXXV have been compiled to show freight rates from important live stock shipping points in both Eastern and Western Canada to the principal stockyards, and export rates from the yards to the ports of exit to European markets. Table XXXVI has been added to show ocean freight rates on live cattle.

[†]The classification of "Meats, Canned and Preserved" in British and Canadian records is not identical. British Imports include "Unenumerated Salted" and "Other Sorts (preserved otherwise than by salting, including tinned and canned)." Canadian import figures include: 1. Canned Meats and Canned Poultry and Game. 2. Dried or Smoked Meats and Meats preserved in any other way than salted or pickled, n.o.p. 3. Other Meats, salted, n.o.p. Canadian Exports are given under the simple heading, "Canned Meats, n.o.p."

^{††}La classification des viandes en boîte et viandes de conserve n'est pas la même dans le Royaume-Uni et au Canada. Dans les importations du Royaume-Uni on trouve: "non énumérées, saîties" et "autres sortes conservées autrement que par la salaison, y compris celles en boîte". Les importations canadiennes comportent les divisions suivantes: Viandes, volaille et gibier, en boîte. 2. Viandes séchées ou fumées et viandes conservées autres que celles saumurées ou marinées, n.a.e. 3. Autres viandes salées, n.a.e. Quant aux exportations, elles sont groupées sous un seul article: "Viandes de conserve, n.a.e."

Le présent rapport sur le bétail et les industries connexes au Canada, pour l'année 1923, est le cinquième de sa série, laquelle couvre maintenant la période écoulée entre 1909 et 1923. La section du bétail et de l'hygiène animale, du ministère fédéral de l'agriculture, a coopéré à la préparation de ce travail. Des résumés annuels sur les statistiques principales des manufactures traitant les produits animaux y figurent pour les années 1919 à 1922; ces données ont été recueillies au moyen du recensement industriel effectué par le Bureau. Les informations relatives au tarif des transports par voies ferrées ont été fournies par le Bureau des Commissaires des Chemins de fer du Canada.

Le rapport de l'année précédente contenait une brève étude sur la naissance et le développement de cette industrie dans notre pays. Le dépouillement du recensement de 1921 n'était pas alors achevé; c'est pourquoi nous avons ajouté au présent rapport un appendice indiquant les chiffres de 1921 relatifs à la fabrication du beurre et du fromage dans les fermes, par provinces: aux animaux de fermes, par provinces; aux animaux tués ou vendus et à la laine vendue dans chacune des provinces. On trouvera aussi dans le même appendice un tableau présentant une estimation approximative de la valeur du cheptel canadien en 1923 et des revenus en découlant, ce tableau mettant à jour le tableau similaire publié pour l'année 1922.

Ce rapport a été préparé par la section du Commerce intérieur du Bureau Fédéral de la Statistique, sous la direction de M. F. J. Horning, B.A., F.S.S., chef de cette section.

STATISTIQUE DU BÉTAIL ET DES PRODUITS ANIMAUX, 1923 INTRODUCTION ET RÉSUMÉ

Bétail.—Au 15 juin 1923, les bêtes à cornes des fermes canadiennes étaient au nombre de 9,246,231, au lieu de 9,719,869 à la même date de l'année précédente. De ce nombre 3,659,365 étaient des vaches laitières et 5,586,866 étaient qualifiés: autres bovins. Le troupeau ovin est tombé de 3,263,525 à 2,753,860 têtes; par contre, les porcs sont passés de 3,915,684 en 1922 à 4,405,316 en 1923 et les volailles de 42,930,562 à 45,469,292. Les tableaux I, II et III sont consacrés au bétail et aux volailles des fermes canadiennes, par provinces, de 1919 à 1923, avec addition de leur valeur par tête et de la valeur du cheptel. Le tableau IV contient une comparaison de l'importance de l'élevage au Canada, avec les autres branches de l'agriculture, tout particulièrement les récoltes.

Les tableaux V et VI traitent des expéditions et des ventes de bétail aux principaux marchés et le tableau VII indique les comités et les districts d'où il provient. Les bêtes à cornes vendues aux parcs à bestiaux ont subi une réduction de 32,000 têtes en 1923; les veaux accusent une régression de 10,000 têtes et les moutons et agneaux de 86,000 têtes, mais ces décroissances furent compensées et au delà par une augmentation de la vente des porcs se chiffrant par environ 196,000 têtes.

Le parc à bestiaux de Toronto fut le seul établissement de cette nature ayant augmenté le volume de ses affaires, ses gains sur l'année précédente atteignant presque 30,000 têtes. Les autres parcs à bestiaux accusent les diminutions suivantes: Montréal, 9,780; Winnipeg, 11,880; Calgary, 12,250; Edmonton, 23,509; Prince Albert, 901; Moose Jaw, 1,347.

A Toronto et à Winnipeg, le marché aux veaux est demeuré presque stationnaire, les ventes effectuées à Toronto en 1923 n'étant inférieures que de 200 têtes à celles de 1922, tandis que les opérations effectuées à Winnipeg ont porté sur 222 têtes de plus qu'en 1922. A Montréal, la vente des veaux a décrû de 3,282 têtes sur 1922. A Calgary et Edmonton, ces décroissances ont atteint 4,975 et 2,533 têtes respectivement, soit une diminution totale de 7,508 dans la province de l'Alberta. A Prince Albert, ces ventes ont diminué de 65 têtes; enfin, à Moose Jaw, elles ont augmenté de 153 têtes.

Les porcs vendus en 1923 représentaient 1,031,656 animaux au lieu de 835,773 en 1922. De tous les points on signale des augmentations se traduisant ainsi: Toronto, 58,429; Montréal, 37,360; Winnipeg, 67,015; Calgary, 6,075; Edmonton, 2,454; Prince Albert, 5,232; Moose Jaw, 19,318.

Les moutons et agneaux vendus dans les parcs à bestiaux canadiens sont tombés de 554,127 têtes en 1922 à 467,586 en 1923, cette diminution ayant frappé tous les marchés dans les proportions suivantes: Toronto, 28,671; Montréal, 28,267; Winnipeg, 16,441; Calgary, 4,177; Edmonton, 6,459; Prince Albert, 551; Moose Jaw, 1,975.

Il résulte des données relatives au mouvement interprovincial du bétail sur pied qu'en 1923, la province de la Saskatchewan se plaçait au premier rang, ses expéditions ayant été de 177,089 bêtes à cornes, dont 164,780 destinées aux autres provinces et 12,309 à l'exportation. Le Manitoba, pour sa part, a reçu de la Saskatchewan 157,025 têtes de bétail; les expéditions du Manitoba ont été également fort importantes, ayant porté sur 159,821 têtes de bétail, dont 66,118 pour l'exportation et 93,703 pour les autres provinces. L'Alberta a expédié 108,208 têtes, soit 106,132 pour les autres provinces et 2,076 pour l'exportation; 42,906 têtes du bétail de l'Alberta sont entrées au Manitoba. Au total, le Manitoba a reçu des autres provinces 200,175 têtes de bétail et Ontario 104,209.

Comparés à ceux des autres animaux, les échanges inter provinciaux de veaux en 1923 ont été relativement minimes. Ontario fut le plus fort expéditeur, ayant envoyé 76,415 veaux, dont 58,659 à destination des autres provinces et 17,556 pour l'exportation. Québec a reçu des autres provinces 63,805 veaux.

L'Alberta fut le principal expéditeur de moutons, avec 48,277 têtes, soit 46,148 pour les autres provinces et 2,129 pour l'exportation. La Saskatchewan en a expédié 19,158; Ontario 14,501, et Québec 28,492. La Colombie Britannique a reçu 40,171 ovins, dont 39,590 venant de l'Alberta.

C'est dans la province d'Ontario que le mouvement des porcs fut le plus actif, cette province en ayant expédié 208,615, soit 208,528 dans les autres provinces et 97 pour l'exportation; à elle seule, la province de Québec en a reçu 208,426. La Saskatchewan se place au second rang avec 165,158 têtes, dont 165,157 pour les autres provinces et une pour l'exportation; le Manitoba en a reçu 140,198 et Ontario 17,613. Les expéditions de l'Alberta ont atteint 142,513 têtes, dont la totalité à destination des autres provinces, notamment 62,803 pour la Colombie Britannique, 25,267 pour Québec, 22,313 pour Ontario et 21,503 pour le Manitoba. La province de Québec a reçu des autres provinces 255,590 porcs, le Manitoba en a reçu 161,803, la Colombie Britannique 68,497 et Ontario 56,552.

Dans les abattoirs inspectés on a tué 2,256,394 porcs, soit une augmentation de 329,182 sur l'année 1922, dont les abatages se chiffraient par 1,927,212. Au contraire, les abatages de bêtes à cornes et de moutons dans les établissements inspectés ont été en 1923, inférieurs à ceux de 1922, ainsi que le démontrent les chiffres suivants: bêtes à cornes 812,142, au lieu de 831,701 en 1922; moutons 499,745, au lieu de 596,403 l'année précédente.

Produits animaux.—En 1922, la production du beurre de fabrique s'est élevée à 152,501,900 livres, ayant une valeur de \$53,453,282, au lieu de 128,744,610 livres, valant \$48,135,439 en 1921. Au contraire, en la même année 1922, la production du fromage de fabrique est descendue à 135,821,116 livres, valant \$21,824,760, au lieu de 162,117,494 livres, ayant une valeur de \$28,710,030 en 1921. Le capital absorbé par les industries laitières en 1922 atteignait \$36,824,319 et la valeur totale de tous leurs produits était de \$104,172,046; les chiffres correspondants de 1921 étaient respectivement de \$35,257,831 et \$111,924,017.

Les abattoirs et salaisons du Canada représentaient, en 1922, un capital de \$56,710,481, contre \$58,459,555 en 1921; les matières premières consommées par ces établissements valaient \$115,154,525, contre \$113,389,835 en 1921 et la valeur de leurs produits atteignait \$143,414,693, au lieu de \$153,136,289 en 1921.

En 1923, la province d'Ontario occupait le premier rang parmi les expéditeurs de viande, ses expéditions, en tous lieux, ayant été de 210,337,918 livres, dont 61,253,257 livres de bœuf; 1,390,190 livres de veau; 1,533,182 livres de mouton et d'agneau; 4,468,497 livres de porc frais; 96,272,697 livres de porc salé ou fumé; 16,567,683 livres de saindoux; 9,341,151 livres de succédanés du saindoux et 19,511,261 livres de produits divers. Les expéditions d'Ontario aux autres provinces représentaient 97,767,491 livres, comprenant 50,844,607 livres de bœuf, 11,184,094 livres de porc salé ou fumé et 12,020,452 livres de saindoux. Les expéditions d'Ontario pour l'exportation atteignaient 112,570,427 livres, dont 90,791,873 livres pour la Grande-Bretagne, 11,249,353 livres pour les Etats-Unis, 1,060,701 livres pour Terre-Neuve et 9,468,500 livres pour différents autres pays. Le porc salé ou fumé occupait une place prépondérante dans ces expéditions, car il représentait 85,088,603 livres; le bœuf ne dépassait pas 10,408,650 livres.

Le Manitoba occupait le second rang dans cette industrie, l'ensemble de ses expéditions en 1923 ayant été de 45,591,190 livres de viande ou sous-produits, soit 36,314,019 livres à destination des autres provinces et 9,277,171 livres pour l'exportation. Cette province a expédié 15,133,218 livres de bœuf, 2,491,522 livres de porc frais, 3,596,118 livres de bœuf salé ou fumé et 22,785,536 livres de viande et sous-produits non classifiés; ces exportations se sont dirigées vers la Grande-Bretagne à concurrence de 6,194,005 livres et vers les Etats-Unis à concurrence de 2,167,744 livres. Parmi ces exportations figuraient 5,371,038 livres de bœuf et 2,637,699 livres de porc salé ou fumé.

La province de Québec a expédié 29,812,419 livres de viande, soit 17,880,943 livres aux autres provinces et 11,931,476 livres pour l'exportation; ses expéditions ont été constituées par 8,656,098 livres de porc salé ou fumé, 2,552,172 livres de bœuf et 14,591,650 livres de viande non classifiée.

Quant à l'Alberta, ses expéditions formaient un total de 14,961,162 livres, soit 9,914,696 livres à destination des autres provinces et 5,046,466 livres pour l'exportation; on y voyait figurer 2,203,948 livres de bœuf, 4,167,376 livres de porc salé ou fumé et 6,418,814 livres de produits divers.

Des autres provinces sont parties les expéditions suivantes:—

Saskatchewan.....	1,026,115 "
Nouveau-Brunswick.....	463,788 "
Ile du Prince-Edouard.....	414,887 "

Ontario.....	32,949,946 "
Nouvelle-Ecosse.....	32,770,473 "
Nouvelle-Ecosse.....	20,770,473 "

Saskatchewan.....	5,352,584 "
Manitoba.....	1,888,117 "

On estime qu'en l'année 1923, la consommation des viandes au Canada a porté sur 640,777,958 livres de bœuf, 740,388,765 livres de porc et 78,611,202 livres de mouton et d'agneau. En se basant sur ces données on calcule que la consommation per capita atteignit 70.06 livres de bœuf, 80.95 livres de porc et 8.59 livres de mouton et d'agneau, soit un total de 159.6 livres de viande par tête et par an. En ce qui concerne les autres produits animaux, on obtient les résultats suivants:

	Consommation totale	Consommation per capita
Beurre.....	251,038,733 livres	27.45 livres
Fromage.....	28,503,602 "	3.12 "
Oufs.....	230,909,648 douz.	25.25 douz.

Commerce international des produits animaux.—Il résulte des derniers recensements officiels connus que le Canada se placait au dixième rang sur la liste des nations possédant, dans les fermes, le plus grand nombre de bêtes à cornes. Les Etats-Unis tiennent la tête avec 67,240,000 têtes, puis viennent l'Argentine avec 28,138,196, l'Allemagne avec 16,652,831, l'Australie avec 14,530,081, la France avec 13,575,840, la Grande Bretagne avec 12,059,360 et le Canada avec 9,246,231.

En ce qui concerne les moutons, l'Australie possédait le plus grand troupeau, avec 82,226,470 têtes. Dans les autres pays éleveurs de moutons, le nombre des ovins dans les fermes s'établit ainsi qu'il suit: Argentine, 46,133,866; Etats-Unis, 37,223,000; Royaume-Uni 23,747,000; Nouvelle-Zélande, 22,928,864. Le Canada arrive dixième, avec 2,753,860 moutons.

Quant aux pores, leur recensement donne les résultats suivants: Etats-Unis, 68,227,000; Allemagne, 17,225,855; France, 5,195,740; Canada, 4,405,316; Royaume-Uni, 3,492,481; Danemark, 2,852,826.

Un résumé des statistiques des échanges internationaux des principaux pays, en bétail et produits animaux, fait l'objet du tableau XXIII; on ne possède pas de chiffres complets plus récents que ceux de 1921.

Les tableaux XXIV, XXV et XXVI sont consacrés aux exportations et aux importations de bétail et produits animaux par le Canada. Pendant l'exercice budgétaire terminé le 31 mars 1923, le Canada a exporté 258,977 bêtes à cornes évaluées à \$9,128,476, tandis que ses importations se limitaient à 963 bovins, évalués à \$143,953, laissant une balance favorable de 258,014 bêtes à cornes, ayant une valeur de \$8,984,523. Il a été, de plus, exporté 75,783 moutons, valant \$498,060, tandis que les importations d'ovins ne dépassaient pas 8,005 têtes, valant \$48,987, d'où il suit que les exportations nettes représentaient 67,778 têtes, valant \$449,073. Les pores exportés vivants étaient au nombre de 2,305, valant \$45,209; d'autre part, il a été importé 13 pores pour l'amélioration de la race, d'une valeur de \$977, ainsi qu'une certaine quantité de ces animaux pour d'autres usages, pesant 5,210 livres. Les exportations nettes de pores sur pied représentaient \$42,813.

Parmi les exportations de produits animaux, la viande de porc tient le premier rang avec 108,523,900 livres, ayant une valeur de \$23,583,194. Le fromage occupe la seconde place étant représenté par 114,548,900 livres, évaluées à \$20,828,234. Les exportations de viande de bœuf ont porté sur 29,145,000 livres, valant \$2,941,745. L'ensemble de toutes les viandes exportées durant l'exercice 1922-23, valait \$28,244,664. Les exportations de beurre ont atteint un volume de 21,994,578 livres, valant \$8,243,138. Les autres articles d'une certaine importance comprennent les œufs, avec 3,613,531 douzaines, valant \$1,410,444 et 8,667,400 livres de laine valant \$2,363,931.

Cours.—Nonobstant la réduction du nombre des animaux mis sur le marché, les cours furent généralement inférieurs à ceux de 1922. Au printemps, lorsque les cours atteignaient leur maximum, ils restaient au-dessous du niveau de 1922. En prenant la moyenne du prix de vente des bêtes à cornes sur pied dans tous les marchés, on voit que le cours de 1923 était de \$4.40 par quintal, au lieu de \$4.37 en 1922 et \$5.39 en 1921. La barrière tarifaire des États-Unis s'opposait aux exportations de notre surplus; d'autre part, la suppression de l'embargo qui frappait nos animaux en Grande-Bretagne n'a pas encore fait sentir ses effets. Le veau également se vendit moins cher en 1923, la moyenne calculée sur l'ensemble des ventes pour les années 1923, 1922 et 1921 s'établissant à \$6.05, \$6.53 et \$7.24 par quintal respectivement. Les offres considérables de porcs dépassant de beaucoup la demande, ont amené une dépression considérable des cours; la moyenne des prix sur tous les marchés s'établit à \$9.20, \$11.47 et \$11.55 par quintal respectivement, pour les années 1923, 1922 et 1921. Par contre, en 1923 le mouton et l'agneau ont subi une baisse, la moyenne des cours sur tous les marchés ayant été de \$10.20 par quintal, comparativement à \$9.50 en 1922 et \$7.75 en 1921. C'est sur les marchés de l'ouest que cette augmentation s'est fait sentir le plus fortement.

La baisse du prix des animaux sur pied se répercuta naturellement sur le cours des viandes abattues. À Toronto, le bœuf, quartiers de derrière, est descendu de \$16.43 par quintal en 1922, à \$14.98 par quintal en 1923. Les cours du bacon et du jambon ont également décliné. Dans l'ensemble, les produits laitiers ont manifesté une tendance à la hausse. Le lait s'est vendu légèrement plus cher tant à Montréal qu'à Toronto. Le beurre de fabrique, en petits pains, s'est vendu à Montréal, en moyenne, 40.67¢ par livre, au lieu de 38.25¢ en 1922. À Toronto le beurre a également augmenté, le prix moyen ayant été de 41.6¢ pour le beurre de fabrique en 1923, au lieu de 40.5¢ en 1922.

Enfin, le fromage qui valait en moyenne 19.9¢ en 1922, à Montréal, est monté à 23.1¢ en 1923.

Les tableaux XXVII et XXVIII contiennent les données complètes sur les cours du bétail sur pied et des produits animaux, tant en gros qu'en détail. Pour faciliter les comparaisons, les prix du bétail sur pied, à Chicago, en 1922, sont donnés dans le tableau XXIX.

Tarifs de transport.—Les tableaux XXX à XXXV présentent les tarifs de transport de différents points d'expédition, tant de l'est que de l'ouest du Canada, jusqu'aux principaux marchés à bétail, ainsi que les tarifs spéciaux à l'exportation, à partir de ces marchés jusqu'aux ports d'embarquement. Enfin le tableau XXXVI a été ajouté pour montrer les tarifs du fret océanique concernant les bêtes à cornes.
