PREFACE

The present report on the live stock and allied industries in Canada, 1924, is the sixth of its series, which now covers the period 1909 to 1924. The Live Stock Branch and Health of Animals Branch of the Department of Agriculture, Canada, have co-operated in the preparation of the report. The production figures for meats and dairy products are based upon data compiled through the Census of Manufactures conducted by the Bureau. Information as to railway freight rates has been made available through the co-operation of the Board of Railway Commissioners for Canada. As no changes were recorded from the rates published in the 1923 report, tables of freight rates are not repeated and readers are referred to that report.

Provision for the grading and marketing of eggs destined for export shipment (in lots of 25 cases or more) or for interprovincial shipment (in lots of 350 cases or more) is contained in the regulations under the Live Stock and Live Stock Products Act, 13-14 George V, chapter 18. From these reports data have been compiled showing the export and interprovincial movement of eggs during 1924.

A table showing the agricultural revenue and wealth of Canada in live stock (farm animals) was included in the historical review of the industry of the 1922 report and continued in 1923. This table has been expanded to include revenue from dairy products, wool, poultry and eggs in order to cover the industry more completely. The data showing animals on farms in other countries have also been extended.

The report has been prepared in the Internal Trade Branch of the Dominion Bureau of Statistics under the direction of Mr. F. J. Horning, B.A., F.S.S., Chief of the Branch.

R. H. COATS,
Dominion Statistician.

INTRODUCTION AND SUMMARY

Live Stock.—The number of farm animals reported in Canada as at June 15, 1924, showed increases, as compared with June 15, 1923, in all classes except sheep. The number of milch cows increased from 3,659,365 to 3,726,985; other cattle from 5,586,866 to 5,733,851; and swine from 4,405,316 to 5,069,181. The number of sheep decreased from 2,753,860 to 2,684,743. The totals for all poultry on farms were 47,538,130 in 1924 and 45,469,292 in 1923.

Ontario stands first as a live stock province, farm holdings in 1924 being as follows: milch cows, 1,203,527; other cattle, 1,713,775; sheep, 870,279; swine, 1,807,903; and poultry 16,751,345. Quebec is also an important province standing second in the number of milch cows and sheep on farms, holdings being: milch cows, 988,079; other cattle, 813,046; sheep, 831,227; swine, 797,726; poultry, 6,718,612. Alberta had large holdings of cattle and swine, totals being as follows: milch cows, 433,528; other cattle, 1,188,468; sheep, 206,458; swine, 949,891; poultry, 6,482,084. Saskatchewan holdings in 1924 were: milch cows, 468,151; other cattle, 1,060,716; sheep, 123,326; swine, 872,819; poultry, 8,831,629. Saskatchewan was the second largest holder of poultry among Canadian provinces, standing first in turkeys.

Tables 1, 2 and 3 show the numbers of farm live stock and poultry in Canada by provinces from 1920 to 1924, with value per head and total farm value. Table 4 gives a comparison of the number of live stock in Canada with other branches of agriculture, more particularly field crops. The rapid expansion of the live stock industry in the Prairie Provinces during the past few years is of special interest.

The number of cattle marketed at live stock yards showed a steady advance and the marketings of hogs a very substantial increase in 1924 over 1923 which was also a record year. Cattle marketed numbered 872,932 in 1924; 830,898 in 1923; 862,203 in 1922 and 688,104 in 1921. The number of cattle sold was slightly less in Eastern yards than in 1923, but this was more than offset by increased marketings in Western Canada. The total numbers of hogs marketed were 1,311,362 in 1924; 1,031,656 in 1923; 835,773 in 1922 and 681,427 in 1921. The increase was shared in by all centres except Montreal. Marketings of calves also increased but sheep sales have fallen from 598,305 head in 1920 to 440,065 in 1924. Full details as to sales at live stock yards with particulars of disposition are shown in tables 5 and 6.

Table 7 shows counties and districts from which the animals were shipped in the first instance. In addition to consignments to the live stock yards, the number of animals shipped direct to packers and direct for export is also shown. The total number of live stock marketed from each county is therefore indicated. Direct shipments of cattle for export from Ontario amounted to 53,641 head. Direct shipments of hogs to packers in Ontario exceeded the number marketed through the live stock yards, the totals being 1,206,886 and 561,564 respectively. Kent county in Ontario was the largest shipper of hogs, the total for 1924 amounting to 149,932. Leading counties or districts in other provinces were Shefford, Que., (13,125); Dufferin, Man., (16,657); Kimistino, Sask., (22,910); and Vegreville, Alberta, (52,083). Leading counties or districts in the shipment of cattle were Huntingdon, Que., (3,151); Bruce, Ont., (31,607); St. George, Man., (4,999); Turtleford, Sask., (10,401); and Alexandra, Alberta, (14,384).

The interprovincial movement of cattle through live stock yards was heavier in 1924 than in 1923. Saskatchewan was the largest shipper leading not only in cattle but also in swine shipments out of the province. Ontario was the leader in calf shipments and Alberta in shipments of sheep. Full details of interprovincial and export shipments of live stock through live stock yards are shown by provinces of origin in table 8 and by provinces of destination in table 9.

The slaughterings in inspected establishments during 1924 reflected the increase in marketings. The numbers slaughtered during 1924, totals for 1923 being shown in brackets, were as follows: cattle, 899,621 (812,142); sheep, 510,241 (499,745); hogs, 2,913,643 (2,256,394).

Animal Products.—Production of creamery butter in 1923 increased to 162,834,608 pounds valued at \$56,873,510, from 152,501,900 pounds valued at \$53,453,282 in 1922. Corresponding figures were 128,744,610 pounds and \$48,135,439 for 1921 and 111,691,718 pounds and \$63,625,203 for 1920. The quantity produced shows a healthy expansion of this industry. Although values are not so high as in the peak year 1920, a steady increase has been shown since 1921.

Production of factory cheese in 1923 increased to 151,624,376 pounds as compared with 135,821,116 pounds in 1922. This still shows a falling off when compared with the production of 162,117,494 pounds in 1921 and 166,421,871 pounds in 1919. The value of factory cheese produced in 1923 amounted to \$28,645,192 against \$21,824,760 in 1922 and \$28,710,030 in 1921. The decrease in quantity produced in 1923 as compared with 1921 is therefore practically offset by improved prices.

Data covering the interprovincial and export shipments of meats are shown in tables 14, 15 and 16. This material is based upon compilations made from the bills of lading of all such shipments in Canada. The law requires that these bills of lading must be supplied to the Veterinary Director General for all meats shipped out of inspected establishments; and, since all concerns doing interprovincial or export business must have their establishments inspected, theoretically these data must be complete. Complete comparability with statistics gathered by other methods is not to be expected, but it may be pointed out that the only figures for which comparable data gathered on a different basis is available, viz., the customs returns, show only a small percentage of difference. The classification is not quite on the same basis, but the following comparison is of interest:

| Shipments in pounds | Fiscal Year 1922-23 | | Fiscal Year 1923-24 | | Calendar Year 1924 | |
|----------------------|---------------------|-----------------|---------------------|-----------------|--------------------|-----------------|
| | Customs Returns | Bills of Lading | Customs Returns | Bills of Lading | Customs Returns | Bills of Lading |
| Beef..... | 29,145,800 | 29,735,568 | 20,577,400 | 18,872,446 | 23,207,200 | 22,431,137 |
| Mutton and Lamb..... | 3,610,100 | 2,988,277 | 1,716,100 | 1,671,488 | 9,22,200 | 1,196,163 |
| Pork..... | 104,260,600 | 102,799,039 | 103,531,600 | 100,768,113 | 128,171,200 | 126,321,062 |
| Lard..... | 4,263,300 | 4,175,352 | 5,334,200 | 5,286,718 | 11,034,100 | 10,601,685 |
| Miscellaneous..... | 7,473,930 | 8,806,763 | 8,308,140 | 9,284,213 | 8,608,337 | 10,172,142 |
| Total..... | 148,753,730 | 148,504,999 | 139,467,440 | 135,882,978 | 171,943,037 | 170,722,789 |

Ontario was the largest shipper of meats in 1924, shipping in all 213,563,998 pounds of meats out of the province. Beef shipments amounted to 55,159,064 pounds; veal, 2,757,752 pounds; mutton and lamb, 1,308,264 pounds; fresh pork, 5,957,037 pounds; cured pork, 99,392,323 pounds. Manitoba shipped 60,256,910 pounds, the principal items being: beef, 21,994,140 pounds; veal, 620,388 pounds; mutton and lamb, 140,312 pounds; fresh pork, 5,588,507 pounds; cured pork, 10,971,049 pounds. Shipments from Quebec points totalled 32,853,598 pounds, 3,610,210 pounds being beef; 2,230,426 pounds veal; 464,860 pounds mutton and lamb; 591,912 pounds fresh pork; and 11,130,713 pounds cured pork. Alberta shipments amounted to 26,957,180 pounds, beef shipments comprising 2,504,611 pounds; veal, 186,654 pounds; mutton and lamb, 57,788 pounds; fresh pork, 3,651,144 pounds; cured pork, 11,633,611 pounds. Total shipments from other provinces were as follows: Prince Edward Island, 277,900 pounds; Nova Scotia 1,565,190 pounds; New Brunswick 110,069 pounds; Saskatchewan 2,511,359 pounds; and British Columbia 1,266,552 pounds.

Similar data are now available covering interprovincial and export shipments of eggs. Table 17 shows this movement of inspected eggs by months during 1924.

The consumption of meats in Canada in 1924 is estimated at 646,032,875 pounds of beef; 809,282,942 pounds of pork; and 77,745,922 pounds of mutton and lamb. The per capita consumption of beef on this basis amounted to 70.02 pounds; pork 87.71 pounds; mutton and lamb 8.43 pounds; a total of 166.16 pounds of meats per capita per annum. The corresponding figures for other animal products are as follows: Butter 254,203,762 pounds or 27.55 pounds per capita; cheese 29,975,469 pounds or 3.25 pounds per capita; eggs 240,406,877 dozen or 26.06 dozen per capita; and poultry 69,523,240 pounds or 7.54 pounds per capita per annum. Comparative figures for 1921, 1922 and 1923, as well as detailed information for 1924, are shown in tables 18, 19 and 20.

International Trade in Animal Products.—Canada stood tenth among the leading cattle-holding nations according to official returns for the latest year for which sufficient data are available for purposes of comparison. British India was the largest holder with 143,176,955 head and United States was second with 67,240,000 head; Argentina had 37,064,850; Russia in Europe, 32,716,000; Germany, 16,652,831; Australia, 14,336,673; France, 13,749,290; Great Britain and Ireland, 12,005,944; Colombia, 9,427,605; and Canada, 9,246,231.

Australia was the largest holder of sheep with 78,803,261 head. Other principal sheep-raising countries had sheep on farms as follows: Russia in Europe, 46,967,600; United States, 37,223,000; Argentina, 36,208,981; British India, 34,012,253; Union of South Africa, 28,495,748; Great Britain and Ireland, 24,150,058; New Zealand, 23,081,439. Canada had 2,753,860 head.

Principal countries with swine on farms, with the number reported, were as follows: United States, 68,227,000; Germany, 17,225,855; Russia in Europe, 8,176,100; France, 5,405,840; Spain, 4,727,914; Canada, 4,405,316.

Full particulars as to farm holdings of live stock are shown in table 21, followed by summaries of the statistics showing the international trade of principal countries in live stock and animal products in table 22.

Data as to Canada's exports and imports of live stock and animal products are shown in tables 24-27. Exports of cattle, sheep and swine were less during the fiscal year ended March 31, 1924, than in previous years. Values of cattle exports were higher, however, owing to improved prices.

Pork was the most important export among meat products, shipments amounting to 108,-865,800 pounds, valued at \$19,492,258, during the fiscal year 1923-24. Beef exports amounted to 20,577,400 pounds valued at \$2,327,184 and exports of mutton and lamb to 1,716,100 pounds valued at \$403,860. The quantity of pork was slightly higher than during the previous year but decreases were shown in both beef and mutton. The total value of all meats exported during 1923-24 was \$22,504,357.

Cheese exports increased from 114,548,900 pounds, with a value of \$20,828,234 during 1922-23 to 116,777,000 pounds valued at \$23,426,282. Butter exported amounted to 13,648,968 pounds with a value of \$5,070,691; eggs to 2,890,509 dozen and \$1,027,171; wool, 6,009,079 pounds and \$1,947,234. Quantities and values were lower in all three commodities than during the previous fiscal year.

Prices.—Average prices for live stock were lower in 1924 than in 1923, sheep prices alone showing a real increase. This drop in prices naturally followed the increase in the number of cattle, calves and hogs marketed, while the smaller number of sheep marketed resulted in an increase in prices. There were also fewer sheep reported on farms in 1924 while other classes of live stock showed increases. The weighted average price of sales of total cattle on all markets was \$4.30 as compared with \$4.40 in 1923 and \$4.37 in 1921. Prices averaged \$5.40 at Toronto in 1924 and \$5.50 in 1923. Winnipeg average prices were \$3.55 and \$3.60 respectively. Average prices for calves for 1924 were higher at Montreal than in 1923, \$5.25 against \$5.05, but showed no change at Toronto, the weighted average being \$8.25 for both 1924 and 1923. Winnipeg average fell from \$4.86 to \$4.65. The average for total sales of calves on all yards was \$6.19 in 1924, \$6.05 in 1923 and \$6.53 in 1922. The heavy marketings of hogs reduced prices from an average of \$9.20 in 1923 to \$8.20 in 1924. The average price in 1922 was \$11.47. Average prices of hogs at Toronto were \$9.75 in 1923 and \$9.10 in 1924; at Montreal \$9.95 and \$9.15 respectively; and at Winnipeg \$8.40 and \$7.30. The average price of sheep in all yards increased from \$10.20 in 1923 to \$10.80 in 1924. Average price on the individual yards showed corresponding increases, the average at Toronto rising from \$11.05 to \$11.70; at Montreal from \$9.90 to \$10.30 and at Winnipeg from \$8.10 to \$9.75.

Meat prices generally followed the fall in the prices of live stock. In the latter half of the year prices of meat products generally improved. Increased export demand from Great Britain for ham and bacon improved the prices for these products. The price of smoked ham at Montreal rose from 20-22 in June to 25-26 in August and September falling to 23-24 during the last three months of the year. Similarly the price of light bacon at Toronto rose from 17-20 in May to 22-26 in September later falling to 22-24 in December.

The average price of fresh milk was slightly lower at Toronto but higher at Montreal, Winnipeg and Vancouver. Butter prices were lower, the increase in production from 162,834,608 pounds in 1923 to 182,062,120 pounds in 1924 not being compensated for by a corresponding increase in export demand. Exports of butter in 1924, however, amounted to 22,343,939 pounds compared with 13,173,711 pounds in 1923. The price of cheese was also lower. Stocks in cold storage were high and although production in 1924 was slightly less than in 1923, prices remained low.

Complete data as to prices of live stock and animal products, both wholesale and retail, during 1924, are given in tables 28 and 29. For purposes of comparison, live stock prices at Chicago are shown in table 30.

[†]The classification of "Meats, Canned and Preserved" in British and Canadian records is not identical. British Imports include "Unenumerated Salted" and "Other Sorts (preserved otherwise than by salting, including tinned and canned)." Canadian import figures include: 1. Canned Meats and Canned Poultry and Game. 2. Dried or Smoked Meats and Meats preserved in any other way than salted or pickled, n.o.p. 3. Other Meats, salted, n.o.p. Canadian exports are given under the simple heading, "Canned Meats, n.o.p."

[†]La classification des viandes en boîte et viandes de conserve n'est pas la même dans le Royaume-Uni et au Canada. Dans les importations du Royaume-Uni on trouve: "non énumérées, salées" et "autres sortes (conservées autrement que par la saumure, y compris celles en boîte)". Les importations canadiennes comportent les divisions suivantes: Viandes, volaille et gibier, en boîte. 2. Viandes séchées ou fumées et viandes conservées autres que celles saumurées ou marinées, n.a.e. 3. Autres viandes salées, n.a.e. Quant aux exportations, elles sont groupées sous un seul article: "Viandes de conserve, n.a.e."

PRÉFACE

Le présent rapport sur le bétail et les industries connexes au Canada, pour l'année 1924, est le sixième d'une série couvrant maintenant la période de 1909 à 1912. La section du bétail et de l'hygiène animale du ministère fédéral de l'Agriculture a coopéré à la préparation de ce travail. Les chiffres de la production des viandes et des laitages sont basés sur des données compilées au moyen du recensement industriel effectué par ce Bureau. Les informations relatives aux taux de transport par chemin de fer ont été fournies par la Commission des Chemins de fer du Canada.

Comme il n'y a pas eu de changements dans les taux tels que publiés dans le rapport de 1923, les tableaux de ces taux ne sont pas répétés, et le lecteur est référé au rapport de l'an dernier.

Les règlements gouvernant la classification des œufs destinés à l'exportation (en lots de 25 caisses ou plus) ou pour expédition d'une province à une autre (en lots de 350 caisses ou plus) font partie de la loi du bétail et des produits animaux, 13-14 George V, chapitre 18. Les données sur l'exportation et le mouvement interprovincial des œufs ont été puisées dans les rapports faits en vertu de cette loi.

Un tableau montrant le revenu et les richesses agricoles du Canada dérivant du bétail (animaux de ferme) a paru dans la revue historique de l'industrie, publiée en 1922 et continuée en 1923. Ce tableau a été élargi de manière à comprendre maintenant les revenus provenant des produits laitiers, de la laine et de la basse-cour, afin de mieux embrasser toute l'industrie. Les données sur le cheptel d'autres pays sont aussi plus complètes.

Ce rapport a été préparé par la section du Commerce intérieur du Bureau fédéral de la Statistique sous la direction de M. F. J. Horning, B.A., F.S.S., chef de cette section.

R. H. COATS,
Statisticien du Dominion.

INTRODUCTION ET SOMMAIRE

Bétail.—Le 15 juin 1924, le nombre d'animaux sur les fermes du Canada, comparativement au 15 juin 1923, accuse une augmentation dans toutes les espèces, excepté le mouton. Le nombre de vaches laitières a augmenté de 3,659,365 à 3,726,985; celui des autres bêtes à cornes, de 5,586,-866 à 5,733,851; celui des porcs, de 4,405,316 à 5,069,181. Celui des moutons a diminué de 2,753,860 à 2,681,743. Le nombre total de volailles sur les fermes est de 47,538,130 en 1924 et de 45,469,292 en 1923.

Ontario est à la tête des autres provinces pour son cheptel qui se dénombre ainsi en 1924: vaches laitières, 1,203,527; autres bêtes à cornes, 1,713,775; moutons, 870,279; porcs, 1,807,903; volailles, 16,751,345. Québec est aussi une province très importante, étant la deuxième pour le nombre de vaches laitières et de moutons. Son cheptel se dénombre ainsi: vaches laitières, 988,079; autres bêtes à cornes, 813,046; moutons, 831,227; porcs, 797,725; volailles, 6,718,612. Alberta possède beaucoup de bêtes à cornes et de porcs, ayant en tout: vaches laitières, 433,528; autres bêtes à cornes, 1,188,468; moutons 206,458; porcs, 949,891; volailles, 6,482,084. En 1924, la Saskatchewan a: vaches laitières, 468,151; autres bêtes à cornes, 1,060,716; moutons, 125,326; porcs, 872,819; volailles, 8,831,629. La Saskatchewan a le deuxième rang par le nombre de ses volailles et est la première par le nombre de ses dindes et dindons.

Les tableaux 1, 2 et 3 montrent les nombres d'animaux sur les fermes au Canada, par provinces, de 1920 à 1924, les valeurs par tête et leur valeur totale. Le tableau 4 donne une comparaison du nombre d'animaux au Canada avec certaines autres branches de l'agriculture, principalement les récoltes. La rapide expansion de l'élevage dans les provinces des prairies au cours de ces dernières années mérite un intérêt spécial.

Le nombre d'animaux vendus aux parcs à bestiaux est allé en augmentant constamment, et le nombre de porcs accuse, en 1924, une forte augmentation sur 1923, qui dépassait déjà tous les précédents. Le nombre de bestiaux vendus est de 872,932 en 1924; 830,898 en 1923; 862,208 en 1922 et 688,104 en 1921. Aux parcs à bestiaux de l'est, le nombre d'animaux vendus a été un peu inférieur à celui de 1923, ce qui a été plus que compensé par les augmentations dans les parcs de l'Ouest. Le nombre de porcs vendus à ces parcs est de 1,311,362 en 1924; 1,031,656 en 1923; 835,773 en 1922 et 681,427 en 1921. Il y a eu augmentation dans tous les centres excepté Montréal. Le nombre de veaux vendus a aussi augmenté, mais il y a eu recul dans le nombre de moutons, qui a décliné de 598,305 en 1920 à 440,065 en 1924. Pour plus de détails sur les ventes de ces grands marchés à bestiaux, et sur la destination des achats, voir les tableaux 5 et 6.

Le tableau 7 donne les comtés et districts d'où les animaux ont été expédiés en première instance. Il montre aussi les animaux expédiés directement aux salaisons ou aux exportateurs en outre des consignations aux parcs à bestiaux. Il donne le nombre d'animaux expédiés par chaque comté. Dans l'Ontario les expéditions directes de bétail pour exportation ont été de 53,641 têtes; les expéditions directes de porcs aux salaisons ont dépassé le nombre d'animaux vendus aux parcs à bestiaux, les totaux respectifs étant de 1,206,886 et de 561,564. Le comté de Kent est le principal expéditeur de porcs, son total de 1924 étant de 149,932. Les autres principaux districts ou comtés, dans les autres provinces, sont Shefford, Qué., (13,125); Dufferin, Man., (16,657); Kinistino, Sask., (22,910); et Vegreville, Alberta, (52,083.) Les principaux comtés ou districts dans l'expédition de bêtes à cornes sont: Huntingdon, Qué., (3,151); Bruce, Ont., (31,607); St. George, Man., (4,999); Turtledford, Sask., (10,401); et Alexandra, Alberta, (14,384).

Le mouvement interprovincial des bestiaux, par les parcs à bestiaux, a été plus considérable en 1924 qu'en 1923. La Saskatchewan a expédié le plus grand nombre de porcs et de bêtes à cornes. Ontario a expédié le plus grand nombre de veaux et Alberta le plus grand nombre de moutons. Le tableau 8 donne en détails les expéditions interprovinciales et les expéditions à l'étranger; le tableau 9 donne les provinces de destination.

Les abatages dans les établissements inspectés ont subi la même avance que le nombre d'animaux vendus. Voici les abatages de 1924, avec, entre parenthèses, ceux de 1923: bêtes à cornes, 899,621 (812,142); moutons, 510,241 (499,745); porcs, 2,913,643 (2,256,394).

Produits animaux.—La production de beurre de crème qui était de 152,501,900 livres valant \$53,453,282 en 1922 a augmenté à 162,834,608 valant \$56,875,510 en 1923. Les chiffres correspondants des deux années précédentes sont 128,744,610 livres et \$48,135,439 en 1921 et

111,691,718 livres valant \$63,625,203 en 1920. La quantité produite montre que cette industrie se développe normalement. La valeur n'est pas aussi grande qu'en 1920, lors de l'apogée des prix, mais il y a avance continue depuis 1921.

La production de fromage de fabrique en 1923 a avancé à 151,624,376 livres, de 135,821,116 livres en 1922. Il y a cependant une baisse comparativement à la production de 1921 (162,117,-494 livres) et à celle de 1919 (166,421,871). La valeur du fromage de fabrique produit en 1923 est de \$28,645,192 au lieu de \$21,824,760 en 1922, et de \$28,710,030 en 1921. La baisse dans le volume de la production de 1923 comparativement à 1921 se trouve donc compensée par une avance des prix.

Les tableaux 14, 15 et 16 donnent les expéditions de bestiaux entre les provinces ou à l'étranger. Ces chiffres sont basés sur la compilation des connaissances de toutes ces expéditions. La loi exige que les connaissances de toutes les viandes expédiées des établissements inspectés soient communiqués au directeur général du service vétérinaire; comme tous les établissements expédiant des viandes en dehors d'une province ou du pays sont sous inspection, ces données sont théoriquement complètes. On ne peut s'attendre à leur complète comparabilité avec les statistiques provenant d'autres sources, mais il convient de remarquer que les seuls autres chiffres disponibles offrant une base différente de comparaison, les rapports des douanes, n'accusent qu'une différence d'un faible pourcentage. La classification n'est pas exactement sur la même base, mais les comparaisons ci-dessous ne manquent pas d'intérêt.

| Expéditions en livres | Année fiscale 1922-23 | | Année fiscale 1923-24 | | Année civile 1924 | |
|-----------------------|--------------------------|---------------|--------------------------|---------------|-------------------------|---------------|
| | Rapports des douanes | Connaissances | Rapports des douanes | Connaissances | Rapports des douanes | Connaissances |
| Boeuf | 29,145,800 | 29,735,568 | 20,577,400 | 18,872,446 | 23,207,200 | 22,431,137 |
| Mouton et agneau..... | 3,610,100 | 2,988,277 | 1,716,100 | 1,671,488 | 922,200 | 1,196,163 |
| Porc..... | 104,260,600 | 102,799,039 | 103,531,600 | 100,768,113 | 128,171,200 | 126,321,662 |

| Divers..... | 7,473,930 | 8,806,763 | 8,308,140 | 9,284,213 | 8,608,337 | 10,172,142 |
| Total..... | 148,753,730 | 148,504,999 | 139,467,440 | 135,882,978 | 171,943,037 | 170,722,789 |

Ontario a été le plus fort expéditeur de viandes en 1924, 243,563,998 livres de viande ayant été expédiées de la province. Ces expéditions se divisent comme suit: bœuf, 55,159,064 livres; veau, 2,757,752; mouton et agneau, 1,308,264; porc frais, 5,957,037; porc fumé ou salé, 99,392,323. Le Manitoba en a expédié 69,256,910 livres se répartissant comme suit: bœuf, 21,994,140 livres; veau, 620,388; mouton et agneau, 140,312; porc frais, 5,588,507; porc fumé ou salé, 10,971,049. Québec, 32,853,598 livres de viande se répartissant comme suit: bœuf, 3,610,210 livres; veau, 2,230,426; mouton et agneau, 464,860; porc frais, 591,912; porc fumé ou salé, 11,130,713. Les expéditions de l'Alberta forment 26,957,180 livres dont: bœuf, 2,504,611 livres; veau, 186,654; mouton et agneau, 57,788; porc frais, 3,651,144; porc fumé ou salé, 11,633,611. Les expéditions totales des autres provinces donnent: île du Prince-Edouard, 277,900 livres; Nouvelle-Écosse, 1,565,100; Nouveau-Brunswick, 110,069; Saskatchewan, 2,511,359; Colombie Britannique, 1,266,552.

Des renseignements semblables sont donnés sur les expéditions interprovinciales et les exportations d'œufs. Le tableau 17 donne le mouvement des œufs inspectés pour chaque mois de 1924.

La consommation canadienne de viande en 1924 est estimée à 646,032,873 livres de bœuf; 809,282,942 livres de porc et 77,745,922 livres de mouton ou agneau. La consommation moyenne, par bouche, suivant cette base, est de 70.02 livres de bœuf, 87.71 livres de porc et 8.43 livres de mouton et agneau; soit un total de 166.16 livres de viande par bouche par année. Les chiffres correspondants des autres produits animaux sont: beurre, 254,203,762 livres, ou 27.55 livres par tête; fromage, 29,975,469 livres, ou 3.25 livres par tête; œufs, 240,406,877 douzaines, ou 26.06 douzaines par tête; volailles, 69,523,240 livres, ou 7.54 livres par tête par année. Les tableaux 18, 19 et 20 donnent ces informations en détail, et comparaisons avec 1921, 1922 et 1923.

Le commerce international des produits animaux.—Selon les rapports officiels de la dernière année sur laquelle il existe des données suffisantes pour établir une comparaison, le Canada tient le dixième rang parmi les principaux pays élevateurs de bêtes à cornes. L'Inde britannique est à la tête, avec 143,176,955 têtes; viennent ensuite les Etats-Unis, 67,240,000; l'Argentine, 37,064,850; la Russie d'Europe, 32,716,100; l'Allemagne, 16,652,831; l'Australie,

14,336,944; la France, 13,749,290; l'Angleterre et l'Irlande, 12,005,944; la Colombie, 9,427,605, et le Canada, 9,246,231.

L'Australie est le premier pays dans l'élevage du mouton, avec 78,803,261 têtes. Les autres principaux pays éleveurs sont la Russie d'Europe, 46,967,000; les Etats-Unis, 37,223,000; l'Argentine, 36,208,981; l'Inde britannique, 34,012,253; l'Afrique-Sud, 28,495,748; la Grande-Bretagne et l'Irlande, 24,150,053; la Nouvelle-Zélande, 23,081,439, et le Canada, 2,753,860.

Voici dans leur ordre d'importance les principaux pays faisant l'élevage du porc, et le nombre de têtes, suivant la même source: Etats-Unis, 68,227,000; Allemagne, 17,225,855; la Russie d'Europe, 8,170,100; la France, 5,405,840; l'Espagne, 4,727,914; le Canada, 4,405,316.

Le tableau 21 donne des détails complets sur la situation des bestiaux de ferme, et il est suivi de statistiques résumées montrant, tableau 22, le commerce international des principaux pays en bétail et produits animaux.

Les importations et exportations de bétail et de produits animaux du Canada sont données dans les tableaux 24-27. Les exportations de bœuf, mouton et porc ont été, dans l'année terminée le 31 mars 1924, moindres que l'année précédente. Cependant la valeur des exportations est plus grande à la suite de l'avance des prix.

Le porc est la viande exportée en plus grand volume, les expéditions de l'année fiscale 1923-24 étant de 108,865,800 livres, valant \$19,492,258. Les exportations de bœuf donnent 20,577,400 livres valant \$2,327,184, et les exportations de mouton et agneau, 1,716,100 livres valant \$403,860. La valeur du porc est un peu plus grande que l'année précédente, mais il y a diminution pour le bœuf et le mouton. La valeur totale de toutes les viandes exportées en 1923-24 est de \$22,504,-557.

Les exportations de fromage ont avancé d'un volume de 114,548,900 livres et une valeur de \$20,828,234 en 1922-23, à 116,777,000 livres et \$25,426,282 en 1923-24. Les exportations de beurre forment 13,648,968 livres valant \$5,070,691; les exportations d'œufs, 2,890,509 douzaines valant \$1,027,171; la laine, 6,009,079 livres et \$1,947,234. Dans ces trois denrées les quantités et les valeurs ont été moindres que l'année précédente.

Prix.—Les prix moyens des bestiaux en 1924 ont été plus faibles qu'en 1923, excepté pour le mouton qui a été plus fort. La baisse des prix a été suivie naturellement par une augmentation dans le nombre de bêtes à cornes, veaux et pores mis sur le marché, et le contraire s'est produit pour le mouton à la suite de l'avance des prix. Les constatations sont qu'il y a moins de moutons sur les fermes en 1924 qu'en 1923, tandis qu'il y a augmentation dans les nombres des autres animaux. La moyenne de prix de toutes les bêtes à cornes vendues sur tous les marchés est de \$4.30 comparativement à \$4.40 en 1923 et \$4.37 en 1921. A Toronto, les prix moyens ont été de \$5.40 en 1924 et de \$5.50 en 1923. Les moyennes correspondantes de Winnipeg ont été respectivement de \$3.55 et \$3.60. Les prix moyens des veaux à Montréal ont été plus forts en 1924 qu'en 1923, \$5.25 au lieu de \$5.05, mais n'ont pas varié à Toronto, la moyenne étant de \$8.25 en 1924 et en 1923. La moyenne de Winnipeg a baissé de \$4.86 à \$4.65. La moyenne de toutes les ventes dans tous les parcs à bestiaux est de \$6.10 en 1924, \$6.05 en 1923 et \$6.50 en 1922. L'offre très considérable de pores a réduit les prix moyens de \$9.20 en 1923 à \$8.20 en 1924. Le prix moyen de 1922 était de \$11.47. Les prix moyens du porc à Toronto en 1923 étaient de \$9.75; de \$9.10 en 1924; à Montréal, \$9.95 et \$9.15 respectivement; et à Winnipeg, \$8.40 et \$7.30. Le prix moyen du mouton sur tous les marchés a avancé de \$10.20 en 1923 à \$10.80 en 1924. Les moyennes de chaque marché ont accusé des augmentations correspondantes, la moyenne de Toronto montant de \$11.05 à \$11.70; celle de Montréal, de \$9.90 à \$10.30 et celle de Winnipeg, de \$8.10 à \$9.75.

Les prix de la viande ont généralement suivi les fluctuations du marché aux animaux. Dans le deuxième semestre de l'année, le prix des viandes s'est généralement amélioré. Une meilleure demande en Angleterre pour jambon et bacon a fait avancer ces produits. Le prix du jambon fumé à Montréal a avancé de 20-22 en juin à 25-26 en août et septembre, retombant à 23-24 au cours des trois derniers mois de l'année. De même, le prix du bacon léger, à Toronto, a monté de 17-20 en mai, à 22-26 en septembre, tombant ensuite à 22-24 en décembre.

Le prix moyen du lait frais a été un peu plus bas à Toronto et un peu plus élevé à Montréal, Winnipeg et Vancouver. Les prix du beurre ont été plus bas, l'augmentation de la production de 162,834,608 livres en 1923 à 182,062,120 livres en 1924 n'étant pas compensée par une avance correspondante dans la demande pour exportation. Cependant, les exportations de beurre en 1924 ont été de 22,343,939 livres, comparativement à 13,173,711 livres en 1923. Le prix du

fromage a aussi été plus bas. Les stocks dans les entrepôts frigorifiques ont été considérables, bien que la production de 1924 ait été un peu moins forte que celle de 1923, les prix restant bas.

Des données complètes sur les prix de gros et de détail des bestiaux et des produits animaux, en 1924, sont donnés dans les tableaux 28 et 29. Le tableau 30 donne, pour fins de comparaison, les prix des bestiaux de Chicago.

Estimation des revenus annuels découlant de l'agriculture et de la richesse du Canada en bétail et produits animaux, par provinces.
