LIVE STOCK AND ANIMAL PRODUCTS STATISTICS, 1925

PREFACE

The present report on the live stock and allied industries in Canada, 1925, is the seventh of its series, which now covers the period from 1909 to 1925. The Live Stock Branch and Health of Animals Branch of the Department of Agriculture, Canada, have cooperated in the preparation of the report.

Live Stock.—Data are included showing the number and farm values of live stock in Canada in comparison with other branches of agriculture, more particularly field crops. The marketing of live stock is then traced through receipts, sales and disposition of live stock at the principal live stock yards in Canada, tables being included showing the origin of such receipts by counties or provincial electoral districts. Interprovincial and export shipments of live stock are shown both by provinces of origin and provinces of destination, together with slaughterings at Canadian inspected establishments.

Animal Products.—The production of meats and dairy products is next taken up from figures compiled through the Census of Manufactures. The operations of creameries and cheese factories are covered as well as those of packing houses and abattoirs. Summary statements are included of stocks on hand in cold storage and process of cure during 1925. The interprovincial and export movement of meats is next traced. The latter figures are compiled from bills of lading filed in the office of the Veterinary Inspector General under the Meat Inspection Act. Similarly, data have been compiled showing the export and interprovincial movement of eggs from inspection returns made under the Live Stock and Live Stock Products Act. The annual per capita consumption in Canada of meats, dairy products, poultry and eggs is finally arrived at.

International Trade.—Numbers of live stock on farms in principal countries are shown with comparative figures for previous years, with a summary of the international trade in live stock and animal products. Canada exports and imports are given in detail. Canada's position in the live stock industry is thus presented in comparison with other countries. Information relating to the trade of other countries is based upon the statistics of the International Institute of Agriculture and other official sources.

Prices.—Comprehensive tables of wholesale and retail prices of live stock and animal products in Canada during 1925 are included, together with comparative data showing live stock prices in the United States.

Freight Rates.—Information as to railway freight rates has been made available through the co-operation of the Board of Railway Commissioners for Canada. As no changes were reported from the rates published in the report for 1923, tables of freight rates are not repeated and readers are referred to that report.

The report has been prepared in the Internal Trade Branch of the Dominion Bureau of Statistics under the direction of Mr. F. J. Horning, B.A., F.S.S., Chief of the Branch.

R. H. COATS,

Dominion Statistician.

INTRODUCTION AND SUMMARY

Live Stock.—The number of animals reported on farms in Canada in June, 1925, showed increases, as compared with June 1924, in milch cows and sheep but decreases in other cattle and swine. The number of milch cows increased from 3,726,985 to 3,830,175; other cattle declined from 5,733,851 to 5,477,123; sheep increased from 2,684,743 to 2,755,556; and the number of swine decreased from 5,069,181 to 4,426,148. The totals for all poultry on farms were 47,538,130 in 1924 and 48,133,969 in 1925.

Ontario holdings are largest in all groups, the returns for 1925 being as follows: milch cows 1,232,679; other cattle, 1,576,694; sheep 868,526; swine 1,678,595; and poultry 17,778,581. Quebec stands second in the holdings of milch cows and sheep, totals being as follows: milch cows 1,021,210; other cattle 820,348; sheep 843,579; swine 781,143; poultry 7,029,000. Alberta holdings of other cattle and swine rank second in number, returns for all groups being—milch cows 460,722; other cattle 1,066,007; sheep 236,804; swine 854,902; poultry 6,352,717. Saskatchewan farm animals in 1925 numbered 496,502 milch cows; 1,002,909 other cattle; 131,359 sheep; 610,973 swine; and 7,944,400 poultry. Saskatchewan was the second largest holder of poultry among the provinces of Canada, standing first in turkeys.

The average values of farm live stock in 1925 show an increase for all descriptions, as compared with 1924. For Canada, the average price for milch cows was \$51 as compared with \$46 in 1924; other cattle \$31 as against \$27; sheep \$10 as against \$9; swine \$16 as against \$12 and poultry 98 cents as against 89 cents.

By application of the average values per head to the total numbers as returned in June 1925 it is possible to estimate approximately the total value of farm live stock in Canada for the year 1925. Values are therefore given as follows, with the comparative figures for 1924 placed within brackets; milch cows \$193,989,000 (\$170,567,000); other cattle \$168,037,000 (\$154,524,000); sheep \$26,795,000 (\$24,036,000); swine \$69,702,000 (\$62,596,000). The estimated total value of these descriptions of farm live stock for 1925 amounts to \$458,523,000 as compared with \$411,723,000 in 1924. The total value of all poultry in Canada in 1925 was \$47,171,000 as against \$42,434,000. The total value of the combined holdings of live stock and poultry on farms in Canada was therefore approximately \$505,694,000 in 1925 and \$454,157,000 in 1924.

Tables 1, 2 and 3 show the numbers of farm live stock and poultry in Canada by provinces from 1921 to 1925, with average values per head and total farm value. Table 4 gives a comparison of the number of live stock on farms in Canada with other branches of agriculture, more particularly field crops. The rapid expansion of the live stock industry, particularly dairying, in the Prairie Provinces, during the past few years is of special interest.

A liberal increase in volume of cattle and calf marketings, a good hog run (though less than in 1924), a medium offering of sheep and lambs, and strongly advanced prices in all classes, combined with the harvesting of a big feed crop, marked 1925 as an extremely good year for the live stock raiser. Cattle marketed numbered 967,712 in 1925; 872,932 in 1924; 830,898 in 1923; 862,203 in 1922 and 688,104 in 1921. Increases were registered in 1925 in all centres over 1924. Marketings of calves increased from 283,204 in 1924 to 314,088 in 1925. The increase in 1925 over 1921 was nearly fifty per cent. The volume of hogs marketed through the stock yards was slightly less in 1925 than in 1924. An increase of nearly one hundred per cent has been shown in hog marketings, totals by years being as follows: 1921—681,427; 1922—835,773; 1923—1,031,656; 1924—1,311,362; 1925—1,286,154. Marketings of sheep and lambs were the smallest in five years. These have shown a steady decline from 590,149 in 1921 to 414,374 in 1925. Full details as to sales at live stock yards with particulars of disposition are shown in tables 5 and 6.

Table 7 shows counties and districts from which the animals were shipped in the first instance. In addition to consignments to the live stock yards, the number of animals shipped direct to packers and direct for export is also shown. In Ontario the direct shipments to packers exceeded shipments through stock yards so the importance of these shipments may be seen. The total number of live stock marketed from each county or district is shown by the inclusion of these data. Ontario was the largest shipper in all groups, the totals for 1925 being as follows: cattle 407,660; calves 209,521; hogs 1,488,567; sheep 188,492. Quebec shipments were as follows: cattle 25,637; calves 73,620; hogs 77,511; sheep 158,918; MANITOBA, cattle 104,380; calves 20,076; hogs 259,507; sheep 20,001; SASKATCHEWAN, cattle 219,557; calves 29,313; hogs 342,513; sheep 27,919; ALBERTA, cattle 312,279; calves 48,996; hogs 646,552; sheep, 52,340.

York County in Ontario was the largest shipper of hogs, handling 122,257 in 1925, with Kent County, Ontario, following with 122,232. Leading counties or districts in other provinces were Shefford, P.Q., (9,467); Winnipeg, Man., (16,705); Kinistino, Sask., (14,502); Edmonton, Alberta, (47,891). Cannington, Sask., was also ranked high with 14,221. Leading counties or districts in the shipment of cattle were Compton, P.Q., (2,813); Bruce, Ont., (35,597); St. George, Man., (6,555); Maple Creek, Sask., (11,285); Vegreville, Alberta, (14,748). Leading shippers of calves were Pontiac, P.Q., (4,484); York, Ont., (18,859); Dufferin, Man., (1,387); Turtleford, Sask., (1,261); Vegreville, Alberta, (4,805). Sheep shipments show the following as leading counties or districts: Peacock, P.Q., (20,431); York, Ont., (23,109); Dufferin, Man., (1,686); Maple Creek, Sask., (7,893); Bow Valley, Alberta, (6,393).

The interprovincial and export movement of cattle and calves was heavier in 1925 than in 1924, but the movement of swine and sheep showed declines. Total shipments in 1925, with comparative figures for 1924 placed within brackets, were as follows: cattle 766,362 (680,038); calves 173,175 (158,653); swine 689,623 (758,029); sheep 141,603 (152,599). Saskatchewan was the largest shipper leading not only in cattle shipments but also in swine shipments out of the province. Ontario was the leader in shipments of calves and Quebec in shipments of sheep. The interprovincial and export movement of live stock from live stock yards is shown by provinces of origin in table 8 and by provinces of destination in table 9.

Slaughterings in inspected establishments during 1925 reflected the movement of live animals through the stock yards. Increases were shown in the number of cattle killed and decreases in the numbers of sheep and swine. The total for 1925, comparative figures for 1924 being shown in brackets were as follows: cattle 975,814 (899,621); sheep 490,704 (510,241); swine 2,641,731 (2,913,643).

Animal Products.—The total value of all products of packing houses and abattoirs in 1924 was \$133,740,271 as compared with \$138,218,909 in 1923. The quantity and value of the principal items making up this total are given in table 11.

Production of creamery butter in Canada in 1924 increased to 178,893,937 pounds valued at \$60,494,826 from 162,834,608 pounds valued at \$56,873,510. Corresponding figures were 152,501,900 pounds and \$53,453,282 in 1922 and 128,744,610 pounds and \$48,135,439 in 1921. The quantity produced has shown a gratifying increase each year, and, although total values are not so high as in the peak year 1920, a steady improvement has been shown since 1921.

Production of factory cheese showed a slight decrease from 151,624,376 pounds in 1923 to 149,707,530 pounds in 1924. This year's (1924) production, however, shows a greater falling off when compared with 162,117,494 pounds in 1921 and 166,421,871 pounds in 1919. The value of factory cheese produced in 1924 amounted to \$24,201,923 as against \$28,645,192 in 1923, \$21,824,760 in 1922, and \$28,710,030 in 1921.

Ontario was the largest shipper of meats in 1925, moving in all 226,498,131 pounds of meats out of the province. Beef shipments amounted to 60,959,313 pounds; veal 1,635,399 pounds; mutton and lamb 2,358,958 pounds; fresh pork 5,579,286 pounds; cured pork 106,875,005 pounds. Manitoba shipped 78,131,632 pounds, the principal items being: beef 24,085,007 pounds; veal 935,754 pounds; mutton and lamb 115,729 pounds; fresh pork 5,092,555 pounds; cured pork 15,656,353 pounds. Shipments from Quebec totalled 38,555,321 pounds, 4,736,022

pounds being beef; 2,376,256 pounds veal; 561,604 pounds mutton and lamb; 492,203 pounds fresh pork and 14,654,499 pounds cured pork. Alberta shipments amounted to 24,304,234 pounds, beef shipments comprising 4,282,175 pounds; veal 234,533 pounds; mutton and lamb 37,585 pounds; fresh pork 3,052,244 pounds; cured pork 10,834,754 pounds. Total shipments from other provinces were as follows: Prince Edward Island 401,546 pounds; Nova Scotia 1,171,762 pounds; New Brunswick 511,004 pounds; Saskatchewan 2,963,460 pounds; and British Columbia 1,092,208 pounds.

Interprovincial shipments of meats by provinces of destination were as follows: Prince Edward Island 1,803,185 pounds; Nova Scotia 19,329,730 pounds; New Brunswick 16,481,348 pounds; Quebec 83,805,222 pounds; Ontario 42,695,679 pounds; Manitoba 2,458,617 pounds; Saskatchewan 4,055,988 pounds; Alberta 273,301 pounds; British Columbia 4,502,020 pounds.

Inspections of eggs for interprovincial and export shipments amounted to 302,152 cases in 1925, of which 85,745 cases were for export. Inspections in Eastern Canada totalled 160,009 cases, 81,022 cases being for export, and in Western Canada 142,143 cases, with 4,723 cases for export. Table 17 shows inspections by provinces by months during 1925.

The consumption of meats in Canada in 1925 is estimated at 1,509,517,857 pounds as compared with 1,533,061,739 pounds in 1924. This shows a slight decrease on the whole, although the falling off in pork was in part offset by an increase in the consumption of beef. Mutton and lamb showed but little change. Totals for the various kinds of meats in 1925, with comparative figures for 1924 in brackets, are as follows: Beef 701,502,963 pounds (646,032,875 pounds); Pork 730,959,055 pounds (809,282,942 pounds); Mutton and lamb 77,055,839 pounds (77,745,922 pounds). The per capita consumption of all meats amounted to 161.2 pounds in 1925 as compared with 166.16 pounds in 1924; the per capita consumption of beef was 74.91 pounds, as against 70.02 pounds; pork was 78.06 pounds as against 87.71 pounds; and mutton and lamb 8.23 pounds as against 8.43 pounds. The corresponding figures for other animal products for 1925 are as follows: Butter 266,686,635 pounds, or 28.48 pounds per capita; cheese 30,540,058 pounds, or 3.26 pounds per capita; eggs 251,038,908 dozen or 26.81 dozen per capita; and poultry, 69,412,757 pounds, or 7.41 pounds per capita. Complete details for 1925 are shown in tables 18, 19 and 20 together with comparative figures for previous years.

International Trade in Animal Products.—Canada ranked ninth among the principal cattle-holding nations according to official returns for the latest year for which sufficient data are available for purposes of comparison. British India was the largest holder with 143,174,516 head and United States second with 66,506,000 head; the Union of Socialist Soviet Republics in Europe had 37,716,700; Argentina 37,064,850; Germany 17,326,098; France 14,024,960; Australia 13,357,508; Great Britain and Ireland 12,062,623; and Canada 9,460,836.

Australia was the largest holder of sheep with 80,110,461 head. Other principal sheep holding countries had sheep and lambs on farms as follows: Union of Socialist Soviet Republics in Europe 54,675,600; United States 38,300,000; Argentina 36,208,981; British India 33,537,213; Union of South Africa 31,223,746; Great Britain and Ireland 24,964,366; New Zealand 23,775,776. Canada had 2,684,743 head.

Principal countries with swine on farms, and the number reported, were as follows: United States 66,130,000; Germany 16,894,874; Union of Socialist Soviet Republics in Europe 15,124,900 Philippines 7,525,000; France 5,801,830; Canada 5,069,181.

Full particulars as to farm holdings of live stock are shown in tables 21 and 22, followed by summaries of the statistics showing the international trade of principal countries in live stock and animal products in table 23.

During the fiscal year 1924-5 exports of Canadian cattle increased to 218,879 head valued at \$13,372,861 as compared with 190,166 head valued at \$10,852,558 during 1923-4. Exports of sheep fell off from 30,226 to 28,099 in number. The value of sheep exported, however, increased from \$250,490 to \$266,111. The export movement of swine showed a decided revival after a comparatively long period when exports were very small. During 1924-5 swine exported numbered 68,644 valued at \$1,274,858.

Pork was the most important export among meat products, amounting to 149,557,400 pounds, valued at \$26,829,075 during the fiscal year 1924-5, increases being shown over similar figures for 1923-4. Beef exports amounted to 26,540,600 pounds valued at \$2,318,240. While the quantity exported in 1924-5 was greater than in 1923-4 the total value dropped owing to the lower prices prevailing during the period. Exports of mutton and lamb decreased from 1,716,100 pounds valued at \$403,860 to 1,167,200 pounds valued at \$233,646. The total value of all meats exported during the fiscal year 1924-5 was \$29,032,978 as compared with \$22,504,357 in 1923-4.

Butter exports increased from 13,648,968 pounds, valued at \$5,070,691 to 24,501,981 pounds valued at \$8,715,962. Exports of cheese also showed an increase, from 116,777,000 pounds in 1923-4 to 126,963,200 pounds in 1924-5. The value of cheese exports increased from \$23,426,282 to \$24,112,475. Exports of eggs amounted to 2,690,959 dozen, valued at \$1,000,804, a decrease from the previous year. Exports of wool amounted to 5,625,265 pounds valued at \$2,434,524, a decrease in volume but an increase in value owing to higher prices.

Prices.—Average prices for all kinds of live stock were higher in 1925 than in 1924. This not only applied to the average for all markets but also to prices ruling at the individual centres. The smaller hog run, coupled with sustained demand, raised prices for this group. Higher prices for hogs accelerated the demand for other descriptions, and in spite of the increased marketings of cattle, these prices were also maintained. Weighted average prices per cwt. at the various markets together with the weighted average for all markets and comparative figures for previous years, are shown in the following table:—

Meat prices generally followed the rise in the prices of live stock. The price of smoked ham averaged 27.5c. per pound at Montreal and 28.6c. at Toronto, prices generally being higher

during the summer and early fall than during other parts of the year. Prices for No. 1 fresh beef carcasses averaged 13.8c. at Montreal and 15.5c. at Toronto, ranging from 12½c. to 17½c. Prices for beef at Winnipeg and Vancouver were generally lower than at the Eastern cities.

The average price of fresh milk was slightly lower at Toronto, Montreal and Vancouver. Butter prices were higher, however, owing to the improved export demand, average prices at Montreal and Toronto being 39.2c. and 39.9c. per pound respectively. Increased exports also tended to increase the price of cheese, averages at Montreal and Toronto rising to 23.2c. and 23.6c. respectively.

Complete data as to prices of live stock and animal products, both wholesale and retail, during 1925, are given in tables 29 and 30. For purposes of comparison, live stock prices at Chicago are also included in table 31.

Estimated Annual Agricultural Revenue and Wealth of Canada in Live Stock and Animal Products by Provinces, 1923-24-25

Shipments from British Columbia—					
To Alberta	56	10	—	111	En Alberta.
Total to other provinces	56	10	—	111	Total aux autres provinces.
Total Exports	5,365	1,360	71,834	15	Total des exportations.
Total shipped out of province	5,421	1,370	71,834	126	Total des expéditions hors la province.

Note.—Export figures are based on Customs returns and are shown according to the Provinces in which final ports of exit from Canada were located. Shipments to other provinces include in some cases shipments ultimately exported.

Nota.—Les chiffres des exportations sont puisés dans les rapports des Douanes; elles sont attribuées aux provinces d'où elles sont définitivement sorties du Canada. Les expéditions aux autres provinces comprennent en certains cas des réexportations.

^fThe classification of "Meats, Canned and Preserved" in British and Canadian records is not identical. British Imports include "Meats not elsewhere specified 1. Tinned or Canned 2. Salted." Canadian import figures include: 1. Canned Meats and Canned Poultry and Game. 2. Dried or Smoked Meats and Meats preserved in any other way than salted or pickled, n.o.p. 3. Other Meats, salted, n.o.p. Canadian exports are given under the simple heading, "Canned Meats, n.o.p."

^fLa classification des viandes en boîte et viandes de conserve n'est pas la même dans le Royaume-Uni et au Canada. Dans les importations du Royaume-Uni on trouve: Viandes non numérotées nulleurs, 1 En boîte, 2. Salées. Les importations canadiennes comportent les divisions suivantes: Viandes, volaille et gibier, en boîte. 2. Viandes séchées ou fumées et viandes conservées autres que celles saumurées ou marinées, n.a.e. 3. Autres viandes salées, n.a.e. Quant aux exportations, elles sont groupées sous un seul article: "Viandes en conserve, n.a.e."

IMPRIMEUR DE SA TRÈS EXCELLENTE MAJESTÉ LE RÔI
1926

PRÉFACE

Le présent rapport sur le bétail et les industries connexes au Canada en 1925 est le septième de sa série, laquelle couvre maintenant la période écoulée de 1909 à 1925. La section du Bétail et de l'Hygiène Animale du ministère fédéral de l'Agriculture a coopéré à la préparation de cette brochure.

Bétail.—Les données sous cet en-tête couvrent le nombre et la valeur des bestiaux sur les fermes canadiennes comparativement aux autres branches de l'agriculture, et plus particulièrement les récoltes. L'écoulement du bétail est ensuite retracé par les arrivages et les ventes aux principaux pôles à bestiaux du Canada, des tableaux montrant la provenance des arrivages par comtés ou par districts électoraux provinciaux. Les expéditions interprovinciales de bétail vivant, aussi bien que les exportations, sont données selon les provinces de provenance et selon les provinces sur lesquelles elles sont dirigées, de même que les exportations et les abatages dans les établissements canadiens soumis à l'inspection du gouvernement.

Viandes et produits laitiers.—Pour établir la production des viandes et des produits laitiers, on s'est servi des chiffres du recensement des manufactures qui renseignent exactement sur les opérations des beurreries et des fromageries, des abattoirs et des conserveries de viande. Plus loin, on trouvera des états sommaires donnant les quantités de produits alimentaires se trouvant dans les entrepôts frigorifiques ou en cours de préparation pendant l'année 1925. Plus loin, nous abordons le mouvement interprovincial et l'exportation des viandes, en nous servant des connaissances déposées au bureau de l'Inspecteur Général Vétérinaire en vertu des dispositions de la Loi sur l'Inspection de la Viande. Nous en arrivons ensuite à la consommation de viande, produits laitiers, volaille et œufs par bouche au Canada.

Commerce international.—Le cheptel des principaux pays éleveurs mis en comparaison avec les années précédentes est donné avec un résumé du commerce international du bétail et des produits animaux. Les exportations et importations canadiennes sont données en détail. La position du Canada dans l'industrie animale est ainsi montrée en comparaison avec celle des autres pays. Les informations sur le commerce des pays étrangers sont puisées dans les statistiques de l'Institut International d'Agriculture, et autres sources officielles.

Cours.—La mercuriale, en gros et en détail, du bétail et des produits animaux canadiens en 1925 est l'objet de tableaux très détaillés accompagnés de comparaisons avec les prix en cours aux Etats-Unis.

Taux de fret.—La coopération de la Commission des Chemins de Fer du Canada nous a permis de donner les taux de transport par voie ferrée. Comme il n'y a pas eu de déviation des taux déjà publiés dans notre rapport de 1923, les tableaux ne sont pas répétés, les lecteurs étant priés de s'en rapporter à ce rapport antérieur.

Cette revue a été préparée sous la direction de M. F. J. Horning, B.A., F.S.S., chef de la section du Commerce Intérieur du Bureau Fédéral de la Statistique.

R. H. COATS,
Statisticien du Dominion.

PÉRÉFACE.....	87
INTRODUCTION.....	89
ESTIMATION DES REVENUS ANNUELS AGRICOLES ET DE LA RICHESSE DU CANADA EN BÉTAIL ET PRODUITS ANIMAUX, PAR PROVINCES, 1923-24-25.....	93
TABLEAUX PRINCIPAUX—	
I. BÉTAIL.	
(A) Sources d'approvisionnement—	
Tableau I. Nombre d'animaux de ferme et de volailles du Canada, par provinces, 1921-25.....	11
Tableau II. Moyenne de la valeur par tête du bétail et des volailles du Canada, par provinces, 1921-25.....	12
Tableau III. Valeur des animaux de ferme et des volailles du Canada, par provinces, 1921-25.....	13
Tableau IV. Bétail et récoltes—	
(a) Nombres-indices des différentes branches de l'Agriculture, 1923-1925, comparativement à la période d'avant-guerre.....	14
(b) Nombres-indices des différentes branches de l'agriculture en 1925, comparativement à la moyenne des trois années 1922-1924.....	14
(B) Distribution—	
Tableau V. Ventes hebdomadaires du bétail sur pied aux principaux marchés, 1925.....	16
Tableau VI. Arrivages et disposition du bétail sur pied aux principaux marchés, 1925.....	22
Tableau VII. Origine du bétail expédié aux marchés par provinces et par districts, 1925.....	24
Tableau VIII. Expéditions interprovinciales et exportations de bétail sur pied des parcs à bestiaux, par provinces d'origine, 1925.....	34
Tableau IX. Expéditions interprovinciales de bétail sur pied des parcs à bestiaux, par provinces de destination, 1925.....	35
(C) Abatage—	
Tableau X. Bétail abattu dans les abattoirs canadiens inspectés, 1925.....	36
II. PRODUITS ANIMAUX—	
(A) Production—	
Tableau XI. Abatages dans les fabriques de conserves alimentaires et les abattoirs d'après le recensement industriel de 1924.....	37
Tableau XII. Production et valeur du beurre de fabrique dans toutes fabriques (y compris fabriques de lait condensé), 1921, 1922, 1923 et 1924.....	40
(B) Stock visible—	
Tableau XIII. Stocks de produits alimentaires en entrepôts et en cours de préparation, par mois, par provinces et par denrées, 1925.....	41
(C) Distribution—	
Tableau XIV. Relevé des expéditions interprovinciales et des exportations de viandes abattues, avec indication des provinces d'origine, 1925.....	48
Tableau XV. Relevé des expéditions interprovinciales de viandes abattues, par provinces destinataires, 1925.....	56
Tableau XVI. Résumé des expéditions interprovinciales et des exportations de viandes abattues, 1924-25.....	58
Tableau XVII. Exportations et expéditions interprovinciales d'œufs inspectés, par provinces et par mois, 1925.....	59
(D) Consommation—	
Tableau XVIII. Consommation approximative des viandes au Canada, 1922-25.....	60
Tableau XIX. Consommation approximative de beurre, fromage et œufs au Canada, 1922-1925.....	61
Tableau XX. Consommation approximative de viande de volailles au Canada, 1922-25.....	62
III. MARCHÉ INTERNATIONAL.	
Tableau XXI. Cheptel des principaux pays, 1920-24.....	63
Tableau XXII. Nombre relatifs de bêtes à cornes et de porcs dans les principaux pays en 1923 ou 1924 comparativement à 1918 ou 1919.....	66
Tableau XXIII. Relevé du commerce international des principaux pays, en bétail et produits animaux, en 1923.....	67
Tableau XXIV. Exportations de bêtes à cornes canadiennes, par ports de sortie, en 1925.....	69
Tableau XXV. Commerce de bétail du Canada avec l'étranger—	
(a) Volume des exportations et importations de bétail, 1921-1925.....	70
(b) Valeur des exportations et importations de bétail, 1921-1925.....	70
Tableau XXVI. Importations d'œufs inspectés (en coquille) pour consommation au Canada en 1924 et 1925 (par caisses de 30 douz.).....	71
Tableau XXVII. Relevé du commerce des denrées alimentaires avec l'étranger, par volume.....	72
Tableau XXVIII. Relevé du commerce des denrées alimentaires avec l'étranger, par valeur.....	73
IV. COURS DU BÉTAIL ET DES PRODUITS ANIMAUX—	
Tableau XXIX. Prix de gros au Canada, 1925—	
(a) Animaux sur pied.....	74
(b) Viande et volaille.....	78
(c) Produits laitiers.....	79
(d) Laine, peaux et cuirs.....	80
Tableau XXX. Cours moyen, au détail, des denrées alimentaires, dans différentes villes canadiennes, 1925.....	82
Tableau XXXI. Cours moyen du bétail à Chicago, E.-U., en 1925.....	83

VI. <i>Œufs</i> —Stocks en entrepôts frigorifiques et prix, 1923-24-25.....	46

INTRODUCTION ET SOMMAIRE

Bétail.—Le nombre d'animaux relevé sur les fermes du Canada en juin 1925, comparativement à juin 1924, accuse des augmentations pour les vaches à lait et les moutons, mais des diminutions pour les autres bêtes à cornes et les porcs. Le nombre de laitières a avancé de 3,726,985 à 3,830,175; le nombre d'autres bovins a diminué de 5,733,851 à 5,477,123; les moutons ont augmenté de 2,684,743 à 2,755,556; le nombre de porcs a baissé de 5,069,181 en 1924 à 4,426,148 en 1925. Le total de tous les animaux de basse-cour qui était de 47,538,130 en 1924 était de 48,133,969 en 1925.

Ontario est à la tête des autres provinces pour son cheptel qui se dénombre ainsi en 1925: vaches à lait, 1,232,679; autres bovins, 1,576,694; moutons, 868,526; porcs, 1,678,595; volailles, 17,778,581. Québec vient en deuxième lieu pour l'importance de ses troupeaux de laitières et de moutons qui comptent 1,021,210 vaches à lait, 820,348 autres bovins, 843,579 moutons, 784,143 porcs et 7,029,000 volailles. L'Alberta tient le deuxième rang pour autres bovins et porcs, avec 460,722 vaches à lait, 1,066,007 autres bovins, 236,804 moutons, 854,902 porcs et 6,352,717 volailles. Le dénombrement des animaux de ferme de la Saskatchewan en 1925 donne 496,502 vaches à lait, 1,002,909 autres bovins; 131,359 moutons, 610,973 porcs et 7,944,400 volailles. La Saskatchewan tient le deuxième rang par le nombre d'animaux de basse-cour, et le premier rang par le nombre de dindes et dindons.

Comparativement à 1924, la valeur de toutes les espèces d'animaux de ferme a avancé en 1925. Pour l'ensemble du Canada, le prix moyen d'une vache laitière a été de \$51 au lieu de \$46 en 1924; celui des autres bovins, de \$31 au lieu de \$27; des moutons \$10 au lieu de \$9; des porcs, \$16 au lieu de \$12 et des volailles, 98 cents au lieu de 89.

En appliquant ces prix moyens aux chiffres relevés dans le dénombrement de juin 1925, il est possible d'estimer d'une manière approximative la valeur totale des animaux de ferme du Canada en 1925. Ces valeurs sont comme suit, celles de 1924 étant données entre parenthèses pour fins de comparaison; vaches laitières, \$193,989,000 (\$170,567,000); autres bovins, \$168,-037,000 (\$154,524,000); moutons, \$26,795,000 (\$24,036,000); porcs, \$69,702,000 (\$62,596,000). La valeur totale de ces trois espèces animales en 1925 est donc estimée à \$458,523,000 comparativement à \$411,723,000 en 1924. La valeur totale des animaux de basse-cour du Canada en 1925 était de \$47,171,000 au lieu de \$42,434,000 en 1924. La valeur totale des bestiaux et des volailles donnait donc approximativement, en 1925, \$505,694,000 au lieu de \$454,157,000 en 1924.

Les tableaux 1, 2 et 3 montrent les nombres d'animaux de ferme et de volailles au Canada, par provinces, de 1921 à 1925, les valeurs par tête et les valeurs totales. Le tableau 4 donne une comparaison du nombre d'animaux au Canada avec certaines autres branches de l'agriculture, particulièrement les récoltes. La rapide expansion de l'élevage dans les provinces des prairies au cours de ces dernières années mérite un intérêt spécial.

L'année 1925 a été extrêmement bonne pour l'éleveur, ayant donné une forte augmentation dans le volume du bœuf et du veau absorbés par le marché, une bonne vente de porcs (cependant moins considérable qu'en 1924), et une offre moyenne de moutons et agneaux à des prix beaucoup plus forts, en même temps qu'une forte récolte fourragère. Le marché a absorbé 967,712 bovins en 1925; 872,932 en 1924; 830,898 en 1923; 862,203 en 1922 et 688,104 en 1921. Il y a eu en 1925 des augmentations dans tous les centres d'écoulement. Le marché des veaux a absorbé 314,088 têtes en 1925 au lieu de 283,204 en 1924. L'année 1925 a donné sur 1921 une augmentation de près de cinquante pour cent. Le nombre de porcs vendus aux parcs à bestiaux en 1925 a été un peu plus faible qu'en 1924, mais les ventes en ont augmenté de presque cent pour cent depuis 1921, le total de chaque année étant comme suit: 1921, 681,427; 1922, 835,773; 1923, 1,032,656; 1924, 1,311,362; 1925, 1,286,154. Les ventes de mouton et d'agneau ont donné le plus faible volume depuis cinq ans, la diminution étant continuelle, partant de 590,149 bêtes en 1921 et allant à 414,372 en 1925. Les tableaux 5 et 6 donnent des détails complets sur les ventes de bétail dans les parcs à bestiaux ainsi que la destination des animaux.

Le tableau 7 donne les comtés et districts d'où se sont faites les expéditions initiales. Il donne outre les consignations directes aux parcs à bestiaux, les expéditions directes aux salaisons ou pour l'exportation. L'importance des expéditions directes aux saleurs se démontre par le fait que dans l'Ontario, elles ont dépassé celles faites aux parcs à bestiaux. L'inclusion de ces chiffres

permet d'établir le nombre de bestiaux vendus par chaque comté ou district. En 1925, Ontario a été le plus grand expéditeur dans tous les groupes, comme le démontrent les chiffres suivants: bovins, 407,660; veaux, 209,521; porcs, 1,488,567; moutons, 188,492. Les expéditions du Québec ont été: bœufs, 25,637; veaux, 73,620; porcs, 77,511; moutons, 158,918; le Manitoba: bœufs, 104,380; veaux, 20,076; porcs, 259,507; moutons, 20,001; la Saskatchewan: bœufs, 219,557; veaux, 29,313; porcs, 342,513; moutons, 27,919; l'Alberta: bœufs, 312,279; veaux, 48,996; porcs, 646,552; moutons, 52,340.

Le comté d'York, Ontario, a été le plus grand expéditeur de porcs, avec 122,257; le comté de Kent, Ontario, vient en second avec 122,232. Les principaux comtés ou districts dans les autres provinces dans l'expédition du porc sont: Shefford, Québec, (9,467); Winnipeg, Man., (16,705); Kinistino, Sask., (14,502); Edmonton, Alberta, (47,891); Cannington, Sask., (14,221). Les districts ayant expédié les plus grands nombres de bovins sont: Compton, Québec, (2,183); Bruce, Ont. (35,597); St-George, Man., (6,555); Maple Creek, Sask., (11,285); Vegreville, Alberta, (14,748). Les comtés ou districts ayant expédié les plus grands nombres de veaux sont: Pontiac, Québec, (4,484); York, Ont., (18,859); Dufferin, Man., (1,387); Turtleford, Sask., (1,261); Vegreville, Alberta, (4,805). Dans l'expédition du mouton, les principaux comtés ou districts sont: Beauce, Québec, (20,431); York, Ont., (23,109); Dufferin, Man., (1,686); Maple Creek, Sask., (7,893); et Bow Valley, Alberta, (6,383).

Le mouvement interprovincial et d'exportation des bœufs et des veaux a été plus considérable en 1925 qu'en 1924, mais il y a eu moins d'activité dans les expéditions de porcs et de moutons. Les expéditions totales de 1925 ont été comme suit, les chiffres entre parenthèses donnant celles de 1924: bovins, 766,362 (680,038); veaux, 173,175 (158,653); porcs, 689,623 (758,029); moutons, 141,603 (152,599). La Saskatchewan a donné le plus gros chiffre d'expéditions, étant à la tête non seulement pour le bœuf mais aussi pour le porc sortis de la province. Ontario a été le principal expéditeur de veaux et Québec est à la tête pour les expéditions de mouton. Le tableau 8 montre le mouvement interprovincial et d'exportation du bétail vendu aux pâres à bestiaux par provinces de provenance et le tableau 9 donne les mêmes renseignements par provinces de destination.

Les abatages dans les établissements inspectés en 1925 donnent le mouvement du bétail dans les pâres à bestiaux. Il y a augmentation dans le nombre de bœufs abattus et diminution dans le nombre de porcs et dans celui de moutons. Les totaux de 1925 sont comme suit, les chiffres correspondants de 1924 suivant entre parenthèses: bêtes à cornes, 975,814 (899,621); moutons, 490,704 (510,241); porcs, 2,641,731 (2,913,643).

Produits animaux.—La valeur totale de tous les produits des conserveries, salaisons et abattoirs a été de \$133,740,271 en 1924 et de \$138,218,909 en 1925. Le tableau 11 donne les quantités et valeurs des principaux produits.

La production canadienne de beurre de crème a augmenté de 162,834,608 livres valant \$56,873,410 en 1924 à 178,893,937 livres valant \$60,494,826 en 1925. En 1922, les chiffres correspondant étaient 152,501,900 livres et \$53,453,282, et en 1921, 128,744,610 et \$48,135,439. La production accuse chaque année une augmentation flatteuse, et bien que les valeurs ne soient pas aussi élevées qu'en 1920, quand les prix étaient à leur sommet, il y a amélioration constante depuis 1921.

La production fromagère de 1924 accuse un certain déclin, ayant reculé de 151,624,376 livres en 1923, à 149,707,530 livres en 1924. Le déclin est encore plus considérable si on établit la comparaison avec la production de 162,117,494 livres en 1921 et 166,421,871 en 1919. La valeur du fromage de fabrique produit en 1924 a été de \$24,201,923; en 1923, de \$28,645,192; en 1922, de \$21,824,760, et en 1921, de \$28,710,030.

L'Ontario a expédié la plus forte quantité de viande en 1925, soit 226,498,131 livres, dont 60,599,313 livres de bœuf; 1,635,399 livres de veau; 2,358,958 livres de mouton et agneau; 5,579,286 livres de porc frais; 106,875,005 de porc conservé. Le Manitoba en a expédié 78,131,632 livres, dont 24,085,007 livres de bœuf; 935,754 livres de veau; 115,729 livres de mouton et agneau; et 15,656,353 livres de porc conservé. Les expéditions du Québec ont formé 38,555,321 livres, dont 4,736,022 livres de bœuf; 2,376,256 livres de veau; 561,604 livres de mouton et agneau; 2,376,256 livres de porc frais et 14,654,499 livres de porc conservé. Les expéditions de l'Alberta se chiffrent à 24,304,234 livres, dont 4,282,175 livres de bœuf; 234,533 livres de veau; 37,585 livres de mouton et agneau; 3,052,244 livres de porc frais; et 10,834,754 livres de porc

conservé. Les expéditions totales des autres provinces sont comme suit: Ile du Prince-Edouard, 401,546 livres; Nouvelle-Ecosse, 1,171,762 livres; Nouveau-Brunswick, 511,004 livres; Saskatchewan, 2,963,460 livres; et Colombie Britannique, 1,092,208 livres.

Les expéditions interprovinciales de viande, par provinces de destination, ont été comme suit: Ile du Prince-Edouard, 1,803,185 livres; Nouvelle-Ecosse, 19,329,730 livres; Nouveau-Brunswick, 16,481,348 livres; Québec, 83,805,222 livres; Ontario, 42,695,679 livres; Manitoba, 2,458,617 livres; Saskatchewan, 4,055,988 livres; Alberta, 273,301 livres; Colombie Britannique, 4,502,020 livres.

Les inspections d'œufs destinés à d'autres provinces ont couvert 302,152 caisses en 1925 et dont 85,745 caisses pour l'exportation. Les inspections dans l'est du Canada ont couvert 160,000 caisses, dont 81,022 pour l'exportation et dans l'ouest canadien, 142,143 caisses, dont 4,723 pour l'exportation. Le tableau 17 donne les inspections dans chaque province, pour chaque mois de 1925.

La consommation de viande au Canada en 1925 est estimée à 1,509,517,857 livres, comparativement à 1,533,061,739 livres en 1924. C'est une légère diminution dans l'ensemble, bien que le recul du porc soit en partie compensé par l'avance dans la consommation de bœuf. Il y a très peu de changement dans la consommation de mouton et d'agneau. Les totaux de la consommation de différentes viandes sont comme suit, avec entre parenthèses les chiffres correspondants de 1924: bœuf, 701,502,963 livres (646,032,875 livres); porc, 730,959,055 livres (809,282,942); mouton et agneau, 77,055,839 livres (77,745,922). La consommation par bouche, pour toutes viandes, a été de 161.2 livres en 1925, comparativement à 166.16 livres en 1924; la consommation de bœuf a été de 74.91 livres par bouche, au lieu de 70.02 en 1924; de porc, 78.006 livres au lieu de 87.71; de mouton et d'agneau, de 8.23 livres au lieu de 8.43. Les chiffres de la consommation d'autres produits animaux en 1925 sont: beurre, 266,686,635 livres, ou 28.48 livres par bouche; fromage, 30,540,058 livres, ou 3.26 livres par bouche; œufs, 251,038,908 douzaines, ou 26.81 douzaines par bouche; volaille, 69,412,757 livres ou 7.41 livres par bouche. Les tableaux 18, 19 et 20 donnent des détails complets sur la consommation en 1925 avec les chiffres correspondants des années précédentes.

Le commerce international de produits animaux.—Selon les statistiques les plus récentes, le Canada occupe le neuvième rang parmi les principaux pays éleveurs de bovins. L'Inde britannique occupe la première place, ses troupeaux comptant 143,174,516 têtes; les Etats-Unis viennent ensuite avec 66,506,000 têtes; l'Union des Républiques Soviétiques d'Europe arrive en troisième avec 37,716,700 têtes; l'Argentine en quatrième avec 37,064,850; viennent ensuite l'Allemagne, 17,326,098; la France, 14,024,970; l'Australie, 13,357,508; la Grande-Bretagne et l'Irlande, 12,062,623; et le Canada, 9,460,836.

L'Australie possède les plus gros troupeaux de moutons formés de 80,110,461 têtes. Les autres principaux pays dans l'élevage de l'espèce ovine sont l'Union des Républiques Soviétiques d'Europe, 54,675,600; les Etats-Unis, 38,300,000; l'Union de l'Afrique-Sud, 31,223,746; la Grande-Bretagne et l'Irlande, 33,537,213; la Nouvelle-Zélande, 23,775,776, et le Canada, 2,684,743 têtes.

Les principaux pays faisant l'élevage du porc sont, par ordre d'importance: les Etats-Unis, 66,130,000; l'Allemagne, 16,894,874; l'Union des Républiques Soviétiques d'Europe, 15,124,900; les Philippines, 7,525,000; la France, 5,801,830, et le Canada, 5,069,181 têtes.

Les tableaux 21 et 22 donnent des détails complets sur le cheptel des fermes suivis dans le tableau 23 de résumés statistiques sur le commerce extérieur de bétail et de produits animaux des principaux pays.

Au cours de l'année fiscale 1924-25, les exportations canadiennes de bovins ont monté à 218,879 têtes valant \$13,372,861, comparativement à 190,166 têtes valant \$10,852,558 en 1923-24. Les exportations de moutons ont tombé de 30,226 à 28,099 têtes, mais en valeur ont avancé de \$250,490 à \$266,111. L'exportation des pores a montré un gain considérable après une accalmie assez prolongée, ayant été en 1924-25 de 68,644 têtes valant \$1,274,858.

La viande de porc a été en 1924-25 la plus importante exportation dans les produits animaux, formant une quantité totale de 149,557,400 livres et valant \$26,829,075. Les exportations de bœuf ont été de 26,540,000 livres et leur valeur, de \$2,318,240. Bien que la quantité exportée en 1924-25 ait été plus considérable qu'en 1923-24, la valeur a baissé parce que les prix étaient

plus faibles. Les exportations de mouton et d'agneau ont baissé de 1,716,100 livres valant \$403,860 à 1,167,200 livres valant \$233,646. La valeur totale de toutes les viandes exportées en 1924-25 a été de \$29,032,978 comparativement à \$22,504,357 en 1923-24.

Les exportations de beurre ont avancé de 13,648,968 livres valant \$5,070,691 à 24,501,981 livres valant \$8,715,962. Les exportations de fromage accusent aussi une augmentation de 116,777,000 livres qu'elles étaient en 1923-24 à 126,963,200 livres en 1924-25. La valeur des exportations de fromage a avancé de \$23,426,282 à \$24,112,475. Les exportations d'œufs, 5,625,265 douzaines valant \$2,434,524, accusent une diminution en volume, mais une avance en valeur grâce à des prix plus élevés.

Prix.—La moyenne des prix de toutes les espèces de bétail vivant a été plus élevée en 1925 qu'en 1924. Cette remarque s'applique non seulement à la moyenne de tous les marchés pris dans leur ensemble, mais aussi aux prix de chaque centre en particulier. Une offre moins grande de porcs et une demande bien soutenue ont contribué à une avance des prix. La force des prix du porc a accéléré la demande pour les autres espèces, et malgré une plus grande offre de bovins, les prix se sont bien maintenus. La moyenne pondérée des prix par quintal aux différents marchés, et la moyenne générale pondérée de tous les marchés pris dans leur ensemble, et les chiffres correspondants des années précédentes forment le tableau qui suit :

Les prix de la viande ont généralement suivi la marche ascendante des prix du bétail vivant. La moyenne du jambon fumé a été de 27·5 cents la livre à Montréal et de 28 cents à Toronto, les prix étant généralement plus forts en été et au commencement de l'automne que pendant le reste de l'année. Le prix moyen des carcasses fraîches de bœuf N° 1 a été de 13·8 cents la livre à Montréal et de 15·5 cents à Toronto, oscillant de 12 à 17 cents. Les prix du bœuf à Winnipeg et à Vancouver ont été généralement plus bas que dans les villes de l'est.

La moyenne des prix du lait a été un peu plus basse à Toronto, Montréal et Vancouver. Le beurre a été plus haut, parce que la demande pour l'exportation a été plus forte, la moyenne étant de 39·2 cents la livre à Montréal et de 39·9 cents à Toronto. De plus volumineuses importations ont aussi contribué à faire monter le prix du fromage dont la moyenne a atteint 23·2 cents la livre à Montréal et 23·6 cents à Toronto.

Des données complètes sur les prix des bestiaux et des produits animaux en gros ou en détail, en 1925, forment les tableaux 29 et 30. Pour fins de comparaison, le tableau 31 donne les prix des bestiaux à Chicago.

Estimation des revenus annuels agricoles et de la richesse du Canada en bétail et produits animaux, par provinces.
