## PREFACE

This report is the fiftieth in an annual series covering livestock and animal products in Canada. The first volume, issued in 1920, covered the years 1909 to 1919 and subsequent volumes have maintained a continuous annual record of the operations of the livestock industry in Canada. Some historical and summary statements have been included to afford a long-time view of the industry. Newfoundland entered Confederation March 31, 1949, but, for the most part, current statistical data for Newfoundland are not available. Except for external trade statistics and estimates of meat production and consumption for the years 1949-1968, all data in this report refer to the other nine provinces only.

Historical tables of the semi-annual estimates of livestock numbers on farms and annual estimates of meat and wool production, for which the Census of Agriculture provides benchmark data, have been revised for the period between the 1961 and 1966 Censuses. A revision symbol indicates changes from previously published data in all appropriate tables of this volume.

Information has been assembled from various departmental sources. Commercial marketing and inspected slaughter of livestock are as reported by Production and Marketing Branch of the Department of Agriculture. Freight rate data relating to rail movement of livestock and meat was supplied by the Railway Transport Committee, Canadian Transport Commission. United States prices and world estimates of per capita disappearance of meats were provided by the U.S. Department of Agriculture. Within the Dominion Bureau of Statistics information on the livestock industry is compiled by the Prices Division, the Industry and Merchandising Division, the International Trade Division, and the Agriculture Division. Basic data pertaining to numbers, prices and value of livestock and the production of animal products are compiled in the Agriculture Division, which is the co-ordinating agency in the editing of the publication.

WALTER E. DUFFETT,  
*Dominion Statistician.*

## PRÉFACE

Le présent rapport est le cinquantième rapport annuel sur le bétail et les produits animaux du Canada. Le premier volume, paru en 1920, porte sur les années de 1909 à 1919 et lui et les volumes subséquents constituent un relevé ininterrompu des activités auxquelles a donné lieu l'industrie du bétail du Canada. Y figurent des états chronologiques et récapitulatifs qui donnent un aperçu rétrospectif de l'industrie. Terre-Neuve fait partie de la Confédération depuis le 31 mars 1949; toutefois, la plupart des statistiques courantes ne sont pas encore disponibles. Sauf pour ce qui est du commerce extérieur et des estimations de la production et de la consommation de viande des années 1949-1968, les données du présent rapport ne portent que sur les neuf autres provinces.

Les tableaux chronologiques et les estimations semestrielles relatifs au nombre de bestiaux dans les fermes ainsi que les estimations quant à la production de viande et de laine, dont le recensement de l'agriculture donne les chiffres de base, ont été revisés pour la période intercensale de 1961 à 1966. Un signe conventionnel de révision indique les changements au regard des chiffres publiés antérieurement dans tous les tableaux appropriés du volume.

Les renseignements proviennent de divers ministères. Ceux qui concernent la commercialisation et l'abatage de bestiaux soumis à inspection proviennent du Service de la production et des marchés du ministère de l'Agriculture. Le Comité des transports par chemin de fer de la Commission canadienne des transports a fourni les données relatives au tarif des bestiaux et de la viande. Le ministère de l'Agriculture des É.-U. a fourni les prix de la viande aux États-Unis et l'évaluation de la disparition mondiale de la viande par tête d'habitant. Au Bureau fédéral de la statistique, les renseignements sur l'industrie du bétail sont réunis par la Division des prix, la Division de l'industrie et du commerce, la Division du commerce international et la Division de l'agriculture. Les données de base relatives au nombre, aux prix et à la valeur du bétail et aux produits animaux sont recueillies par la Division de l'agriculture qui est l'organisme qui coordonne la publication de ce rapport.

WALTER E. DUFFETT,  
*Statisticien fédéral.*

### **SYMBOLS**

The following standard symbols are used in Dominion Bureau of Statistics publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- p preliminary figures.
- r revised figures.

### **SIGNES CONVENTIONNELS**

Les signes conventionnels suivants sont employés uniformément dans les publications du Bureau fédéral de la statistique.

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- p nombres provisoires.
- r nombres rectifiés.

1918 .....	12.89				
1919 .....	13.06				

Note: Prices from 1890 to 1918 are taken from the "Toronto Globe": from 1890 to 1910 they are averages of quotations on the first market day of each month and from 1911 to 1918 averages of quotations on the first market day of each week. From 1919 to 1968 the prices are weighted averages compiled by the Canada Department of Agriculture. — Note: Les prix de 1890 à 1918 ont été extraits du *Toronto Globe*: ceux de 1890 à 1910 sont les moyennes des cotes le premier jour de marché de chaque mois et de 1911 à 1918 ils sont les moyennes des cotes le premier jour de marché de chaque semaine. De 1919 à 1968 les prix sont les moyennes pondérées compilées par le ministère fédéral de l'Agriculture.

1916	10.54	1941	13.26		

Note: Prices from 1890 to 1918 are taken from the "Toronto Globe;" from 1890 to 1910 they are averages of quotations on the first market day of each month and from 1911 to 1918 averages of quotations on the first market day of each week. From 1919 to 1968 prices are weighted averages compiled by the Canada Department of Agriculture. From 1890 to 1939 prices are on a live basis and from 1940 to 1968 on a dressed basis. Until 1934 all hogs were graded alive; in that year carcass grading was inaugurated and in October, 1940, live grading was discontinued. The price per cwt. of dressed hogs is approximately  $\frac{1}{4}$  that of live hogs. — Note: Les prix de 1890 à 1918 ont été extraits du *Toronto Globe*; ceux de 1890 à 1910 sont les moyennes des cotés le premier jour de marché de chaque mois et de 1911 à 1918 ils sont les moyennes des cotés le premier jour de marché de chaque semaine. De 1919 à 1968 les prix sont les moyennes pondérées calculées par le ministère fédéral de l'Agriculture. De 1890 à 1939 les prix sont pour les animaux sur pieds et de 1940 à 1968 ils sont pour les animaux habillés. Jusqu'à 1934 tous les porcs étaient classés vivants; la même année le classement des carcasses a été inauguré et en octobre 1940, le classement des animaux vivants a été discontinué. Le prix par cwt. des porcs habillés est d'environ  $\frac{1}{4}$  fois celui des porcs vivants.

Note: Prices from 1890 to 1921 are taken from the "Toronto Globe"; from 1890 to 1910 they are averages of quotations on the first market day of each month, for 1911 and 1912, averages of quotations on the first market day of each week, and from 1913 to 1921 averages of monthly quotations. From 1922 to 1968 prices are weighted averages compiled by the Canada Department of Agriculture. — Note: Les prix de 1890 à 1921 ont été extraits du *Toronto Globe*; ceux de 1890 à 1910 sont les moyennes des cotés le premier jour de marché de chaque mois, de 1911 à 1912, les moyennes des cotés le premier jour de marché de chaque semaine et de 1913 à 1921, les moyennes de cotés mensuelles. De 1922 à 1968 les prix sont les moyennes pondérées calculées par le ministère fédéral de l'Agriculture.
