## FISH FREEZINGS AND STOCKS

FEBRUARY 1960

*Published by Authority of*

The Honourable Gordon Churchill, Minister of Trade and Commerce

**DOMINION BUREAU OF STATISTICS**

Industry and Merchandising Division

6512-501-20

Price \$2.00 per year

Vol. 43—No. 2

The Queen's Printer and Controller of Stationery, Ottawa, 1960

## CONTENTS

Starting with January 1958, the tables included in this report (previously "COLD STORAGE HOLDINGS OF FISH") were recasted to give information on fish freezings on an area basis as well as for the whole country. It is noteworthy that Table 1, for Canada, refers to a greater number of products than the subsequent ones for the provinces or areas. It is therefore not always possible to obtain from the report all the figures accruing to product totals given in Table 1.

Figures on freezings and on stocks are given in the following combined tables:

	<u>Page</u>
Table 1. Freezings and Stocks of Frozen Fishery Products, Canada .....	2
Table 2. Freezings and Stocks of Frozen Fishery Products, Newfoundland .....	4
Table 3. Freezings and Stocks of Frozen Fishery Products, Maritime Provinces .....	5
Table 4. Freezings and Stocks of Frozen Fishery Products, Québec .....	6
Table 5. Freezings and Stocks of Frozen Fishery Products, Ontario .....	7
Table 6. Freezings and Stocks of Frozen Fishery Products, Prairie Provinces and Northwest Territories .....	8
Table 7. Freezings and Stocks of Frozen Fishery Products, British Columbia .....	10

## EXPLANATION OF SYMBOLS

- nil
- less than 500 or negligible
- less than three firms reporting (and figures included under "n.o.p." or "other")
- p preliminary

## INVENTORIES OF FROZEN FISH, FEBRUARY, 1960

Total holdings of frozen fish at the end of February amounted to 51,198,000 pounds, an increase of 28 per cent over the 39,943,000 pounds held at the end of the same month last year. Current stocks were 23 per cent less than the 58,726,000 pounds held at the end of the preceding month. Inventories of frozen sea fish at 34,779,000 pounds declined 15 per cent since the end of last month but were 46 per cent higher than on February 28th 1959 when there were only 23,788,000 pounds on hand. The present inventories of frozen fresh inland fish of 4,728,000 pounds are 25 per cent lighter than the 6,342,000 pounds held on the last day of January. However, compared with February last year stocks are five per cent heavier.

### Stocks of Frozen Fish by Products

February inventories of frozen Atlantic cod fillets (including blocks) at 10,419,000 pounds were more than seven and a half times greater than the 1,369,000 pounds held at the same date last year. The current stocks however are 23 per cent below the 13,452,000 pounds held a month ago. Haddock fillets at 5,591,000 pounds were 248 per cent greater than the 1,605,000 pounds held on the same date last year and are also 37 per cent greater than at the end of January when there were 4,095,000 pounds on hand. Pacific halibut stocks on February 29th at 5,790,000 pounds were 26 per cent lighter than at the end of January but 27 per cent greater than at the end of the corresponding month of 1959. Stocks of small flatfish fillets dropped by 38 per cent since last month but are 12 per cent greater than at the end of February last year. Supplies of frozen Pacific salmon were substantially lower than in February, 1959.

### Freezings of Fishery Products.

Total freezings of fish during February amounted to 9,901,000 pounds. This represents an increase of 12 per cent over the same month last year. February freezings of sea fish at 7,183,000 pounds shows an increase of 19 per cent over 6,043,000 pounds during February 1959. Atlantic Cod fillets (including blocks) amounted to 1,303,000 pounds which is 64 per cent greater than the February output a year ago. Freezings of haddock fillets (including blocks) at 3,461,000 pounds were 70 per cent higher than the 2,035,000 pounds in the comparative month of 1959. Small flatfish fillet production during the past month was also substantially heavier than in February 1959 and amounted this year to 498,000 pounds. Since January 1 1960, 17,689,000 pounds of fish products were frozen throughout Canada. For the comparative period last year 17,197,000 pounds were produced. With the exception of haddock fillets all major commodities show an increase over last year for the first two months.

---

N. B. - This report has been compiled from the reports of 208 firms. However, 13 of these establishments failed to report on time for February 29 1960; eight in Quebec; two in New Brunswick; one in Prince Edward Island; one in Ontario; one in British Columbia.
