SYMBOLS

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- P preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- P nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

#### FOREWORD

The monthly survey of frozen fish is undertaken by Statistics Canada and is collected in co-operation with Environment Canada, Fisheries Services, and in the case of Quebec firms, the Quebec Bureau of Statistics. Both these agencies have access to the returns.

Every effort is made to include in this survey all firms producing frozen fish products. Also included are public and private cold storage plants, holding significant quantities of frozen fish, (i.e. 30,000 pounds or more at any period in the year).

A "must" list of respondents has been compiled based on those firms which have a substantial effect on statistics; either provincially, regionally or at a product level. Estimates are made for other firms if they fail to reply on time. The actual Freezings and Stocks are substituted for these estimates on receipt of the questionnaire and included in the revised data.

Chapter 21 of the Statutes of Canada 1968-69, covering the Freshwater Fish Marketing Act provides for the creation of a Freshwater Fish Marketing Corporation. This Corporation began operations in Manitoba, Saskatchewan, Alberta and Northwest Territories on May 1st 1969 and in Northwest Ontario on September 15th 1969. The corporation now freezes and stores practically 100% of all freshwater fish products in this area. It has therefore become necessary, in order to conform with the provisions of the Statistics Act, to suppress the data for freshwater species.

#### AVANT-PROPOS

Statistique Canada fait une enquête mensuelle sur le poisson congelé en collaboration avec Environnement Canada, Services des pêches et, pour ce qui est des entreprises du Québec, avec le Bureau de la statistique du Québec. Ces deux organismes ont accès aux déclarations.

On fait l'impossible pour faire entrer dans le champ de l'enquête toutes les entreprises produisant du poisson congelé. Sont également pris en compte les entrepôts frigorifiques privés et publics, qui détiennent d'importantes quantités de poisson congelé (c.-à.-d. 30,000 livres ou plus à un moment quelconque de l'année).

On a établi une liste de répondants dont les déclarations sont indispensables, parce qu'elles ont un effet appréciable sur la statistique; cela a été fait par province, par région ou au niveau des produits. Des estimations remplacent les chiffres des autres entreprises qui ne répondent pas à temps. Les chiffres réels de la production et des stocks sont substitués à ces estimations sur réception du questionnaire et inclus avec les données rectifiées.

La loi sur la commercialisation du poisson d'eau douce (chapitre 21 des Statuts du Canada, 1968-1969) crée un Office de commercialisation du poisson d'eau douce. Cet office est en activité au Manitoba, en Saskatchewan, en Alberta et dans les Territoires du Nord-Ouest depuis le 1er mai 1969, et dans le nord-ouest de l'Ontario, depuis le 15 septembre 1969. L'Office congèle et entrepose maintenant presque la totalité des produits de poisson d'eau douce de cette région. Il a donc fallu supprimer les données sur les espèces d'eau douce pour en garantir le caractère confidentiel, conformément aux dispositions de la loi sur la statistique.
