SYMBOLS

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... Figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- P preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- P nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

| 4. Stocks de poisson salé et saumuré, côte de<br>l'Atlantique .....   | 15 |

BASIS FOR SEA FISH CATCH STATISTICS

NOTA SUR LA STATISTIQUE DE LA PÊCHE MARITIME

Landings of sea species are given as: (1) dressed head on for Atlantic cod, gray cod, haddock, pollock, hake, cusk, catfish, and skate; (2) dressed head off for halibut, swordfish, tuna, lingcod and black cod; (3) partly in the round form and partly as dressed head on for B.C. salmon, except for Sockeye, Chums and Pinks given only in the round form; (4) shucked for scallops; (5) in the round form or in shell for other species.

Les débarquements d'espèces maritimes sont donnés comme suit: (1) habillé et non étêté, pour ce qui est de la morue de l'Atlantique, la morue grise, l'églefin, la goberge, la merlu, le brosmé, le poisson-chat et la raie; (2) habillé et étêté, pour le flétan, l'espadon, le thon, la morue-lingue et le cabillaud; (3) partiellement entier et partiellement habillé, et non étêté, pour le saumon de la C.-B., sauf le saumon rouge, le saumon keta et le saumon rose dont la statistique couvre le poisson entier; (4) décoquillé, pour le pétoncle; (5) entier ou dans l'échelle ou la carapace, pour les autres espèces.

Note: Atlantic Coast includes Newfoundland, Nova Scotia, New Brunswick, Prince Edward Island and Quebec. Newfoundland includes Labrador.

Nota: La côte de l'Atlantique comprend Terre-Neuve, la Nouvelle-Écosse, le Nouveau-Brunswick, l'Île-du-Prince-Édouard et le Québec. Terre-Neuve comprend le Labrador.

In tables where commodity breakdowns do not add to totals, differences are due to rounding.

Dans certains tableaux sur la préparation des marchandises, les totaux peuvent ne pas correspondre, à la somme des éléments, à cause de l'arrondissement des chiffres.

Conversion Factors by Species - Atlantic and Pacific Coast  
Coefficients utilisés par espèces - Côte de l'Atlantique et du Pacifique

Note: All quantities are reported in round weight equivalents. To convert to common landed form individual conversion factors are necessary. These factors are available on demand from the Foods, Beverages and Textiles Section of Statistics Canada or from the 1976 publications (beginning with March issue in this series). - Nota: Tous les valeurs sont arrondies. Pour en arriver aux présentations habituelles au débarquement, il est nécessaire d'utiliser des coefficients particuliers de conversion. Pour les obtenir, adressez-vous à la Section des aliments, des boissons et des textiles de Statistique Canada ou reportez-vous aux publications de 1976 (à partir du numéro de mars) de cette série.
